FRESH-SOPH FLAG  
RUSH FRIDAY

## The Sun .. Rises ..

## FRESHMEN TO RISE FRIDAY; FLAG RUSH TOPS NEW PROGRAM

**By William Klaber, Jr.**  
**THE** forthcoming Rising Day this Friday will effectually tell the tale of the success or failure of the S.C.D.C. This year, however, as to the success or failure of this organization have been made throughout the year. Many have pointed out that the freshman class this year had had little regard for the customary rules—rules that were actually less strict than those of any previous year. This has been said, and the S.C.D.C. has failed notably in the enforcement of the freshman rules. Others have responded by saying that Phi Chi was also ineffective as a disciplinary body, and that it was conducted without dignity simply for the pleasure of the sophomore class.

Both sides of this argument have their merits. Undoubtedly, the freshmen have been unduly lax in obeying the rules, and equally undoubtedly Phi Chi had been far from perfect. However, there can be learned by the comparison of this year's Rising Day with the fracas that ensued last year. Last year's fight was unnecessarily dangerous. It is needless to remind most of the college of the ammonia gas incident or any of its corollaries. They are just as bad, if not worse. The one important thing was that Phi Chi had bred some bitter grudges. Therefore, Rising Week got out of hand.

If Rising Day can be carried out in a spirit of a hard, clean fight, the S.C.D.C. has accomplished the third part of its Phil and Tom Orient does not favor the cessation of hostilities. We feel that the tradition is loved by all undergraduates and alumni. We hope to see a stiff battle on Friday. The S.C.D.C. can stage one successfully without any actual harm being done. We are all in favor of this organization. It will have fulfilled its duty.

**T**HE establishment of a Student Placement Bureau by the B.C.A. comes as the answer to a crying need which has never before been met. Many Bowdoin undergraduates find each year jobs for which they really need summer work, but they usually need summer work if they are to return in the fall. However, conditions being what they are, many have been unable to obtain employment. They return home at a late date in the spring and find that there are no openings available. The placement work the college has done has been for the graduating class. This service, while it aided somewhat in placing the alumni, left little or nothing for the man who was planning to return to Bowdoin in the fall. This placement service is intended to fill this breach. It does not concern itself primarily with the permanent establishment of a person, but it tries to give men an opportunity to earn during the summer months. If this works out as it is planned, the B.C.A. will have provided a very useful service to the college and congratulations will be in order.

**S**r. K.

Council Committee Orders  
Sophs Not To Break Up  
Freshman Banquet

RISING WILL START  
12 P.M. THURSDAY

All Members Of Two Lower  
Classes To Scrap For  
Flags On Pickard

By Robert S. Mullon  
In its effort to cut down unorganized rising, Bowdoin's Student Council has arranged a flag rush, a part of this year's original rising program, which will last all day Friday starting at midnight tomorrow night.

Sophomores have strict orders not to interfere with the freshman banquet Saturday night in Boston.

Set Up Six Buses

Committee of the Student Council, consisting of Fred '34, Joe Drummond '36, Bob Porter '37, and Bill Owen '37, agreed upon the following rules with freshmen and sophomore class officers at a meeting last week:

1. Rising Day will start at midnight Thursday April 16, and will last until midnight Friday.

2. There is to be no fighting whatever in college buildings or fraternity houses.

3. Any students carrying Rising Day flags or the above dates will be denied entrance to the college.

4. The two classes will be assessed for any damages.

5. The sophomores are not to break up the freshman banquet.

Bust 4 P.M.

6. All members of the freshman and sophomore classes will take part in a flag rush at 4 P.M. Friday on Pickard Field. No flags or shags will be allowed. Each class will give its own flag with marked territory at either end of the field. The rush will end when one class gets both flags.

Dean Nixon also advises care in the field and no roughhousing around the railings and stadium platforms.

Oakley, Melandy, John Cartland and Bert Pauli for the freshmen and Vincent Welsh for the sophomores.

(Continued on page 4)

MUSEUM WILL SHOW  
WORKS OF BRUEGEL

An exhibition of the works of Peter Bruegel the Elder will show the relation of the Bowdoin Bruegel drawing to the Flemish artist's other work will be on view at the Walker Art Building April 17 to April 22.

The Bowdoin Bruegel will be the only original drawing in the exhibition. There will be, however, a group of prints, engravings, and watercolors loaned by the Boston Museum of Fine Arts and the Cambridge Fogg Art Museum.

**Bowdoin** Makes Debut

The Bruegel will be one of the most interesting of the year, according to Mrs. Barbara Sessions, curator. It will be the students' first opportunity to see the Bowdoin drawing since its recent cleaning and reframing. The drawing, a landscape, was part of the original Bowdoin collection for the last 125 years.

The exhibition of photographs of Greek sculpture and architecture will be shown by Prof. Clarence P. Kennedy. Smith College, is being continued through tomorrow.

**Harvard Grid Coach Will Visit  
Next Kent's Island Expedition**

By James A. Bishop

In outlining plans for the 1936 Kent's Island expedition, Field Director William A. O. Gross '37 announced this week that Harvard's head football coach, Dick Harlan, will be the coach. The gridiron, too, will visit the island two weeks during the summer to carry on research.

In addition to Harlow there will be at least four other scientists from the University in residence at time of the expedition. The first will be Ralph Savage and John Cryer, who will be most of the summer studying the Atlantic puffin and the Arctic tern.

The result of interviews by Gross in New York during the vacation, \$850.00 in gifts from friends and relatives will go to financing the summer's expedition. Among the donors were Sumner T. Pike '13, Henry Hill Pierce '36, and Mr. John Sterling Rockefeller. Equipment to the value of several thousand dollars has also been donated by manufacturers and special houses.

The personnel will be limited to 15. It is expected that there will be undergraduates of at least three institutions other than Bowdoin and at least three professionals. The total will be live, including six members of last year's expedition as follows: Gross, Howard B. Miller '38, Latimer H. Hyde '38, Jas. W. Botsford, Devereaux Smith, Thomas C. Harlow, John Crystal '37, all members of the Fred Crary, Woodmere Academy, Newell Gillett '39, Thomas Adams, Bridgton Academy, and Henry Allen Gleason Cornell. Elmer Dunning will be chief mechanic and Ernest Joy as warden.

Present plans are to leave Lubec

for the main base on Kent's Island

1936, by Mr. John S. Rockefeller.

The second and final edition of the Quill will be published just before or immediately after Ivy Day, probably sometime in early May, by Robert E. Hagy. Because of a lack of material and interest, there will be only one more issue instead of two.

Anyone who has any contributions should submit it as soon as possible to either Hagy or Burroughs Mitchell.

## MANIFESTO

As the ORIENT, Volume LXVI, stands with a vista of some twenty-five weekly issues stretching out over the year before it, it desires above all that one thing be made very clear to those who may read its first proclamation and subsequent editorials. That is, its editors will not pretend to be a reflection of student opinion.

That there is student opinion, both good and bad, confused and unconcentrated, cannot be denied. Sporadic and scattered, however, it is even more of an abstract quantity than that deciding factor of elections, entry into war, and similar matters—public opinion. As it is unconcerted, and has no means of expressing itself other than in rare mass meetings or polls, campus opinion has no sounding-board.

In order to seize, analyze, and record campus opinion, an aspiring editor would of necessity have to spend all his waking hours in the Moulton Union Cafeteria, "contacting" his fellows gathered there for food and chat. Furthermore, he would have to eat at all the fraternity houses, the Union, and those restaurants and boarding houses where two or more Bowdoin undergraduates congregate for dining and conversation. He would also have to attend all fruitful bull-sessions held in fraternity houses and dormitories alike, and even sit in on some fraternity meetings.

The editorial board behind the pens guiding Volume LXVI's critical outpourings will endeavor to reflect undergraduate thoughts about major campus issues and college problems. But they make no claims, or promises, and prefer their written offerings to be considered as personal expressions of opinion. Particularly do they point out the Pro and Con column of this paper, always open to undergraduate correspondence and always ready to present to readers any communication that is fit to print, with the proviso that the editors are not responsible for communications printed therein.

Pro and Con has been a more lively unit in the make-up of the Orient than at present or recently. Even a cursory glance at a few other newspapers of colleges of Bowdoin's type and size shows keen student contributions in the open communication columns. Contributions will be encouraged by the ORIENT.

The editorials of the 1936-37 ORIENT will attempt to be, where they can, constructive rather than destructive pieces of criticism, and guiding expressions of belief which might help crystallize student opinion. But it must be borne in mind by readers that they are in essence the work of individual editors composing the board, and as such are not true barometers of nebulous undergraduate feeling.

An aphorism might be described as a platitude which everyone mouths and no one remembers. The ORIENT board now taking over the reins has learned, like its predecessors, that "You can't please everybody." It hopes that it will not soon fall into a rut of conservative writing, calculated to please the majority, and it makes no promises of not treading on toes. Conciliation and compromise are all very fine, but a *via media* is often two-faced. Honest opinions must be backed and fought for, tooth and nail. Even the middle-of-the-road course, designed to offend no one even if it does not please anyone, has criticism levelled at it by those who despise catering to mediocrity and lack of the courage of convictions.

It has been claimed on occasion that the editorial voices of the second page columns and the Sun Risers have differed in key, and that they have even been discordant in tone. The Sun Risers is in a sense a condensed editorial column; most editorials could be reduced to Sun Risers items, and vice versa. Desirable as it may be to have both sides of questions presented, the ORIENT must present a whole front. Unity and accord in its editorial columns will be striven for.

A college newspaper is equally subject to error as any of the more hastily composed university dailies and city papers. Mistakes are more quickly noticed and are more deeply significant in a weekly small college paper. They have been, to say the least, known in the ORIENT, and they will doubtlessly never be eliminated. Far from trying to appear omniscient, and far from holding the opinion that to admit error is fatal, the ORIENT this year will, when necessary, give correction to all serious misrepresentation of fact or error, of name, in an Errata column.

With these statements made, embodying truisms which readers may deprecate as platitudes, but which they often fail to remember, Volume LXVI can commence its season with high hopes. Its audience may be small, but it is appreciative. Only one side of opinion will be at bat, but this does not mean foregone conclusions as to victory. Criticism from the side-lines will be welcome and appreciated; we believe that adverse thought on our efforts will be better than indifference.

Editorials, when unsigned, will be the responsibility and work of the editor-in-chief. When written by the associate and other editors, they will be signed with the initials of the writer.

## THE BOWDOIN ORIENT

## Mustard and Cress

They roused him with Mustard, they roused him with ice,  
They roused him with Mustard and Cress.

They roused him with Jam and Je-  
dicious Advice.

And set him Conundrums to  
guess.

A bit of verse for your education  
and my satisfaction. It simply proves

that the person who wants to look it up

can find it in the Bowdoin

about this M. and C. business than

many of his predecessors. (More

will be forthcoming in later

issues.) The quotation above is from

The Hunting of the Snark, a pretty

little poem by Carroll, not to

be confused with Earl Carroll's

Christmas variety. Its spritiness is im-

mediately apparent to all who appre-

ciate its hidden meaning. The Orient without any great effort on

the part of the reader may be di-

rected into places and dreams according to subject matter under at-

most headings. This column, just to

help you along, is already labeled

Mustard and Cress. As it isn't like

the rest of the paper to do any more

for you than I must, you will have

to make your own judgment on what

surprise you most of all is the great

proportion that falls under Conun-

drums.

m - e

I once knew a little man who

claimed to have mastered the

entire Bowdoin—The Snark,

from beginning to Bowdoin, and

offered to recite it on the least

provocation. I asked him why

once, but he didn't answer me.

"Did I ever tell you," he said in-

terestedly, "about my shaking hands?"

"I know who you are," the Bell-

man is standing here angrily

ringing his bell and curstly sug-

gesting that I skip all that.

m - e

During vacation the New England

Classics were in Brunswick, making

it on Glengary Spring Water and

reveling in the glories of the Moul-

ton Union Cafeteria all for a nominal

sum. The men were quartered in

Hyde Hall and the women were put

up at the three brick fraternities. All

came back with exceedingly glad tid-

ings of comfort and rest, except for

DEBATING TEAM TO  
MEET B.U. THURSDAY

Debating Team to meet Boston University Thursday evening.

The debate will be held at the Bowdoin Auditorium.

The Boston team will consist of

Professor George E. Nichols,

Professor John W. Nichols,

...but the squirrels  
were disgusted

TELEPHONE engineers had to find a way to stop gray squirrels gnawing holes in the lead sheath of telephone cables. Even a tiny hole may let in moisture—short circuit the wires—and put a number of telephones out of service temporarily.

Many ideas were tried, but the squirrels gnawed on. Finally the cables were painted with black asphaltum and sprinkled with sand. The gnawing stopped.

Not a major engineering problem, to be sure. But thousands of strange little problems, too, have been solved to assure you the world's most reliable telephone service.

## RISING DAY WILL BE OBSERVED ON FRIDAY

(Continued from page 6)  
are to arrange poles and flags for the flag rush.

Last year's rising program extended over a week with property damage estimated at \$600. It was a scandal of that year's conflict largely that Phi Chi was replaced this year by the Student Council Disciplinary Committee as the organization enforcing freshman rules.

Flag rush is not new to Bowdoin, having been a tradition up to 1930. It was held on the Saturday in Oct. when usually with the freshman-sophomore football game in the afternoon. So many students took the holiday granted by the college as an opportunity to go home and there were so many other activities taking place in that period that Flag rushing was finally abandoned.

## B.C.A. Selects Seagrave President For 1937-1938

The Bowdoin Christian Association elected Norman Seagrave '37 as its president and Normas E. Duper '38 as chairman of its 1937 religious forum in annual elections Thursday.

Seagrave succeeds Thompson S. Sampson '36 while Duper follows Donald R. Woodward '37. Other officers picked are Robert M. Porter '37, vice-president; Louis J. Craven '38, secretary; and Ralph H. Winn '38, chairman of the deputations committee.

The Rev. A. W. Miller, Mr. and Mrs. Paul E. Jacob, representatives of the Emergency Peace Campaign, to the campus next Monday afternoon and evening and next Tuesday morning. Mrs. Jacob is the former Miss Betty Muther, who was here last year in similar capacity. She will speak at 8 o'clock and interview those interested in the campaign.

## COLLEGE OFFICIALS MAKING LONG TRIPS

Trips are being made this week to various parts of the country by President W. C. H. Wilder, Philip Wilder, alumnae secretary, and Mrs. Clara D. Hayes, secretary of the college.

President Wilder attended the annual meeting of the College Editors' Association this morning and is speaking at the annual dinner of the Alumni Association of Washington, D. C., this evening. He will meet with the Hartford Alumni Association April 18.

Mrs. Hayes is at the convention of the National Association of Collegiate Registrars at Detroit, Michigan. Alumni Secretary Wilder will be at the annual meeting of the American Association of Colleges April 19-22. April 22, he will attend a Bowdoin alumni dinner in Cincinnati, and he will probably meet with alumni of Columbus April 23 and of Pittsburgh April 24.

President Wilder has attended more alumni meetings this year than ever before, including those in Ann Arbor, Boston, Chicago, Cleveland, Detroit, New York, Buffalo, Bangor, Philadelphia, Portland, and Brunswick.

## Fraternity Runners To Meet Tomorrow Night

(Continued from page 1)  
the track squad Thursday.

Qualifiers for given events jump are Bill and Dave Seale and Phil Good, Zeta; Jeff Stanwood, A.D.; Bill Owen, Beta; and Paul Favour, Beta.

In the 440 Braeley Gray is expected to finish ahead of the other qualifiers, Bill Seale, Otto Bond, and Johnny Shute. Bob Hamlin, Zeta, has also scored one point in this race.

Jeff Stanwood, Dave Fitts and Julian Henke, A.D., George Reardon, Chet Pai, Dave Deane, D.U., and Bill Owen, Beta, are the finalists in the high jump.

Bob Porter, T.D., if he is anywhere near pre-vacation form, will probably set a new record in the mile. Charlie Young, Beta, and Johnny Shute, Delta, will fight for second and may introduce some surprises in the two-mile event also.

Marvin in Half-Mile  
The pole-vault finalists are led by the Duke trio of Dave Rideout, Braeley Gray and John Difler, and also include Dan Healey, Zeta, Bill Owen, Beta, and Bert Mitchell, D. U.

Vic Marvin stands a good chance of winning the 880, with John Shute, Otto Bond, Cap Cowan and Howie Southall, Alpha, and Orlon, Zeta; George Reardon, Simon Aronson, Oakley Melody, Bill Toote, Francis Skiffins, and Freeman Clark will be outstanding in the weight events and discus.

Favored to place in the 40-yard dash are Bob Smith, Dave and Bill Seale, Bill Owen, Charlie Gibbons and Bert Mitchell. In the 45-yard high hurdles Phil Good is conceded first place, but Bill Owen, Dave Deane and Jeff Stanwood are expected to finish in close order behind him.

## Twenty-five Candidates Report For Grid Practice

By Reed Ellis, Jr.

Twenty-five aspiring gridiron candidates made their initial spring appearance Monday on Pickard Field when they reported for the first workout of the season in preparation for defense of the newly won State Series title. Since most of the available varsity material for next fall is engaged in football and track, Coach Adam Walsh will only have a squad of about thirty men with which to work for the next few weeks.

At present the chief concern is to develop material to replace seven regulars lost from last fall's victorious team, necessitating several changes in the lineup. One of the first shifts was to move George Griffith from tackle position to guard leaving some doubt about filling his former berth. The team will also lose its valuable center, Bill Drake, who is leaving college for business.

The Lettermen Work Out

From last fall's squads ten varsity lettermen and six freshmen numeral winners reported, Captain "Bucky" Sawyer being on hand among the first. Although the majority of the seniors were away serving with either the varsity or the freshmen, there are a few who have been absent from the squad for one or two years.

Because of the large number occupied in other spring sports, prac-

### Adam Walsh Introduces Coaches Football "Clinic"

Introducing Bowdoin's first football "clinic," Coach Adam Walsh turned the College into a football-lively campus a week ago Monday when 54 Maine prep and high school coaches, in attendance at this novel meeting. The clinic was inaugurated to bring the coaches of the state closer together as well as to provide valuable pointers of the profession.

Stressing the importance of teamwork, Walsh pointed in detail both offensive and defensive play. Responsibility for players was another key-note of his advice, as he pointed out the need for fast thinking and fast moving in the result of the gathering the coaches banded into the Maine Secondary Schools Coaches Association.

Time will be devoted almost entirely to breaking down fundamentals while the new Walsh style of football is introduced to the newcomers. This pre-season training will probably continue as long as possible with possibly two scrimmages a week.

Other lettermen who reported were Bill Burton '37, Freddy Newman '38, Ed Curran '38, "June" Frye '38, Dave Fitts '38, Andy Cox '38, James Hepburn '38, Jack Reed '37, Dick Clapp '37, and George Griffith '37. Freshmen with numerals were: Broe, Whitehill, Walker, Nicholson, Garceon, Dugan and Konecki.

## Strong Golf Unit Starts '36 Season

Although three of the White's best golfers are ineligible because of scholastic difficulty, and Hood and Girard kept out of varsity competition by the new rules, the alignment of the coach and his staff will be seriously handicapped. He will, nevertheless, have five lettermen in Roger Kellogg '37, Sprague Mitchell '37, Charlie Noyes '37, and probably either Joe Sclar '37 or Eddie Owen '38.

For the first time in several years Bowdoin will be unrepresented in the Patriots' Day tournament on the Brunswick course. Instead an aggregation from the Pa U will enter the field making a stronger contender for the Patriots' Day than would be possible from eligible players. Among this group are Roger Kellogg, winner of the 1935 tournament, Buzz Gates, Charlie Noyes, Sprague Mitchell, Will Girard, and Harry Hood. Jr. Hood and Girard have been eligible since the start of the year, while the others were runner-up in the New England schoolboy tournament, and Girard schoolboy champion of Maine.

By this procedure the college team forfeits the chance to win the Patriots' cup which it only needs to win once more to claim permanent possession, having captured it twice. Dick Mullin, in 1921, and Arthur Dillenbeck, in 1929, established the team's claim to the trophy.

## SPORT SIDELIGHTS

By Bill Burton  
Track of all the spring sports was obviously the hardest hit by the extended flood vacation just past. Over two weeks of much needed conditioning were completely lost. It will indeed be interesting to note how speedily Coach Magee has been able to get his men back into the groove again by comparing the times and records in the annual inter-fraternity meet tomorrow night with the marks made after uninterrupted training in previous years.

S — 8

With the coming of spring, Bowdoin is looking forward to another banner year in both tennis and golf. Veterans from last year's invincible court unit abetted by promising material are priming themselves to repeat last year's complete domination of the State Tennis meet.

The golf team looks encouragingly capable with five lettermen returning from last year's State Championship team.

S — 8

Not satisfied with his status as All-Maine center last fall, Bill Drake is now fast rounding into a promising member of the "diamond" the high school team set. Don't be puzzled. It's all very simple. When next fall rolls around Bill will already be a distinguished business man but football is in his blood, it seems, so now he's joined the back field for the spring practice to help balance the current shortage of available backs.

S — 8

Bowdoin may well be proud of her scholars and traditions, but so one can do more for the college in the past year than Adam Walsh. Witness his many fine framed endings of Bowdoin's athletic depression as well as the football clinic recently gratuitously held in the Moulton Union for 54 high school coaches, which are but two of his major accomplishments since arriving, generally unknown, on the campus, just a year ago.

**Twenty-Five Swimmers Receive Annual Awards**

Malcolm E. Morell, director of athletics, recently announced the awarding of 13 varsity swimming letters and 12 junior varsity numerals. Of noteworthy significance is the addition this year of the National Collegiate Test, now the highest Life Saving award. This new test is the result of three years' work by the National Collegiate and Coaches' Association, and is given only in member colleges by coaches who are members of the Association.

The list of lettermen is as follows: Captain Winthrop B. H. Walker '36, Richard T. May '37, William R. Hooke '36, William H. Fish '38, Walter B. Parker, Jr. '38, Robert Parker '38, Ellsworth Gates, Jr. '38, Harold L. Cross, Jr. '38, Thompson S. Sampson, Jr. '38, Norma P. Seagrave '37, Vincent B. Welch '38, David Fitts '38, Richard Powers, Jr. '36, John B. Chandler '37, manager.

### MILLER CONDUCTS LIFE SAVING TESTS

Under the instruction of Coach Bob Miller, the annual course in Red Cross Life Saving was held yesterday. Of noteworthy significance is the addition this year of the National Collegiate Test, now the highest Life Saving award. This new test is the result of three years' work by the National Collegiate and Coaches' Association, and is given only in member colleges by coaches who are members of the Association.

One of the main purposes of the new test is to eliminate weak swimmers, candidates having to swim the breaststroke, quarter-mile, and back stroke in certain time limits. At present there are eleven men working for the Senior Life Saving award.

## Hurlers Will Determine Success Of White Team

By Paul Campbell

"Bowdoin's chances of success in the coming baseball season will be determined largely by the success of its pitching staff," said Coach Jim Wells recently. The approaching season finds this staff badly crippled with but one veteran remaining. Wilbur Mantor, Latish, Ann Kimball, veteran twirler, was shifted behind the plate to make up for the current lack of catching material. Freddie Jealous, a freshman, who has been shaping up well for the receiver's position, has recently declared ineligible, thus further weakening prospects for this batch.

It now seems barely possible that Bud White, a promising freshman pitcher, may be able to fill the gap caused by switching a pitcher of such caliber as Kimball to the plate. Together with Mantor and White, as candidates for the mound position, are Leon Buck, Ann Kimball, Ralph Gould, and Stanley Allen. Unfortunately all of these men lack experience.

**Infeld Improves**

Defensively the infield has great chances of improvement over former years with the veteran and captain, Bill Shaw, as first. Buddy Rutherford, a strong contender for the second base position, Bill Shaw, at short, and a promising freshman, Ken Birkett, at third fill out the infield. Rutherford, however, is hard pressed by George Davidson, a sophomore, as is Birkett by Bob Gentry, who held the third base position during the '35 season. In both of these cases the final decision will depend on the hitting ability of the four aspirants.

In the outfield there is Johnny Frazier, who saw much service as a sophomore, and a strong candidate. Shad Birkett and Rutherford get the call for the infiel'd. Gentry and Davidson will go to the outfield. Bunny Johnson, a veteran outfielder of two years' experience, is finding the going rather difficult because he was unable to report regularly in pre-season practice.

# THE BOWDoin ORIENT

## The Sun .. Rises ..

By William Klarer, Jr.

THE problem of interfraternity cooperation has long been one of considerable importance. From time to time there have been vexing questions which have needed the support of all fraternities before a suitable solution could be found. Many organizations have been requested to cooperate with these problems. One, the interfraternity athletic council, has adequately fulfilled all the requirements in connection with sports. The other, the council of fraternity presidents, has not done much to solve questions of interfraternity policy. However, these two groups have done much necessary work.

During the past few years of the depression, the financial matters of the different fraternities have become more serious and more difficult to solve. Various reforms are needed in this line as well as in others. The Orient, in an editorial printed earlier this year, campaigned for a college ruling which would refuse a diploma to any student who had not paid his fraternity bill in full. There has been much dissension about the visiting athletes, especially for the scholastic track meet. Altogether, there are many problems to solve which could best be done by the stewards and treasurers of the various houses.

A council of fraternity stewards and treasurers would be in a position to make recommendations to the faculty on the financial matters of these groups. Individually, the fraternities show too little power to push through necessary measures. An example of this was the inflex scholastic track meet which was to be held this year. A year before, the stewards had held a protest meeting about this meet, claiming that they could not afford to feed the athletes. The result was that Mal Morrell told them he was helpless, if sympathetic. All that could be done was for these men to send a joint petition to the president in May at the same time that the athletic budget recommendations were made. This might lead to a change in the status of the college.

This was not done. The fact that a fairer system was to have been used this year is due to the activities of Morrell and not the fraternities. Definitely, some sort of a financial committee should be formed. Until some organization of stewards and treasurers is created, such problems as these will be ever-present.

TO THE student must go much credit for the educational activity of the college glee club. The members, some of the most important missionaries in the college, had long been failing into decay. Little or no interest was evidenced in them or their activities. Now, as a rejuvenated organization, they have been exceedingly successful in giving concerts. This club performs a really essential service to the college. Their travels stimulate much interest from outsiders. People who have never thought much about Bowdoin are aware now of the fact that the college exists and is worthy of interest. The thanks of the college should be tendered to Dr. Brinkler for this very important service.

RISING Day has successfully proved that the S.C.D.C. has accomplished much during the past year. When some were disappointed with last Friday's events, claiming that too little occurred and that there was a notable absence of interest, it is certainly true that Rising Day saw much less grudge fighting than has been seen for many a year. The Rising Day activities were, for the most part, clean, hard-fought, and safe.

The S.C.D.C. still has its weaknesses. In the future it is to be hoped that freshmen rules will be enforced more strictly than in the past. It would be foolish to say that the paddle has outlived its usefulness. In comparison with Phi Chi, however, the S.C.D.C. has shown itself to be a more sane group. Hazing has fallen into disrepute during the past year and is now being done in the course. However, some strong arm methods are necessary; and as long as this is the case, the Orient feels that the S.C.D.C. is the best solution.

## HAAS LECTURES IN INDUSTRIAL PHYSICS

Discussing "Theoretical Physics and Industry," Doctor Arthur Haas, Tallman Professor of Physics, gave the fourth in his series of public lectures in the Moulton Union at 8:15 Monday evening, April 13. The lecture, in outline, concerned problems which modern physical theory has already succeeded in mastering and those the solution of which may well be expected in the near future.

Professor Haas recently discussed the problems of production of artificial sources of light, electrical power engineering, synthetic rubber, catalysts, and the investigation of fine structures of matter. He also discussed the problem of the exploitation of atomic energy.

Professor Haas has recently returned from the University of Maine where he gave several lectures. Last week he lectured at Wilson College in Chambersburg, Pa., and Wellesley College in Massachusetts.

The fifth and last lecture in this series will be given towards the end of May.

## KATHERINE GEROULD SPEAKS ON TRENDS IN MODERN FICTION

Famous Essayist Classifies Tendencies In Recent American Novels

HITS PRESENT-DAY COMMUNIST BOOKS  
Attacks Pseudo-Realism But Praised Sinclair Lewis' Novel "Babbitt"

By William Frost  
"The World War and the depression have turned our attention to communism and socialism," said Mrs. Katherine Gerould, novelist and author in Memorial Hall under the auspices of the Annie Talbot Cole lectureship: "first we counted the dead by the million and now we count the unemployed by the million." Mrs. Gerould, whose talk was entitled "A Farewell to Personality," discussed the tendencies in recent American fiction for character delineation to be obscured by sentimentality, "Hardboiled" extremes, and leftist propaganda.

The three main categories of present fiction, according to Mrs. Gerould, are: propaganda, pseudo-realism and pseudo-realism. Into the first class she puts such writers as Sabatini, Tarkington, and Edna Ferber, and such novels as "Java Head," "The Bridge of San Luis Rey," "Death Comes for the Archbishop," and "Seven Gothic Tales." She divided escape literature into two main branches: escape into the distant past or the exotic scene, and escape by means of the sentimental method.

### Attack Propaganda

The second class of modern American fiction, according to Mrs. Gerould, is the propaganda novel, almost everyone in the program, the principal novel, "Indubious Battle" by John Steinbeck, a picture of conditions among the workers in California fruit orchards, was the only proletarian novel that Mrs. Gerould was successful from a literary point of view.

"Genuine" socialism, as defined by Mrs. Gerould, is an honest attempt to hold the mirror up to nature. However, she attacked the "pseudo-realists" advised, which she said, "exploits violence, lust, profanity, and obscenity for its own sake." High in the list of true realists she placed Sinclair Lewis, calling "Babbitt" his best novel.

## TILLOTSON TRIO TO PLAY HERE MONDAY

A trio composed of Frederick Tillotson piano, Alfred Kribs, violin, and Yves Chardon, cello, will give a concert here April 27 at 8:15 p.m. in Moulton Hall. The program will consist of trios by Beethoven and Brahms and a sonata for the 'cello by Bach.

Both Mr. Tillotson and Mr. Chardon have played here before, the last time being in 1935 when they were very well received. Mr. Tillotson has made his residence last year in Boston where he plays in many ensemble concerts. Mr. Chardon, a member of the Boston Symphony Orchestra, has been doing ensemble work with Mr. Tillotson. Mr. Kribs is also a member of the Boston Symphony Orchestra, by which he was immediately engaged as first violinist upon his arrival from Germany last year.

**Flag Rush, Nudism, And Reduced Damages Feature Mild Rising Day**

Moderate hostilities, and damages which were conspicuous by their absence in comparison with the year 1935, characterized the first Rising Day of the new system involving the abolition of Phi Psi, setting up of the S.C.D.C., and the institution of an organized flag-rush to the houses of sporadic fights and grudge kidnappings.

At 5:30 p.m. the Kappa Sigma frosh, after sophomore Brewer for his kidnapping of their members the night before, inflicted the first torsion treatment of the day on said sophomore. The crowd emerging from the dormitory was a three-legged race of frenzied running from Ashleman and Welch whom they at once stripped. Little or no fighting occurred during the rest of the day until just before lunch when a large group of students, with no definite leader, Reditte '38 caught their quarry at the T.D. house. His defense involved a severe struggle of some two score members of the two lower classes, as usual by the encouragements and words of upperclassmen.

The flag rush Friday afternoon, reviving the Bowdoin tradition prior to 1930 was won but hardly by the class of 1939, or at least those members who it was reported in Brunswick, Maine, were kidnapped from the Hubbard trophy, car, and bus to Boston for a jubilant banquet celebrating the final throwing off of freshman rules. The rush concluded Friday Day activities with a flag-rush to the T.D. house. Reditte '38 caught their quarry at the T.D. house. His defense involved a severe struggle of some two score members of the two lower classes, as usual by the encouragements and words of upperclassmen.

The strip-aids began almost at once and soon the T.D. turf was covered with the ripped apparel of the combatants, until each and every lowerclassman in sight had been reduced to a pair of briefs and a white checked shirt of Jack Salter, which was finally torn to shreds. The call of the stomach was soon greater than that of class honor however, and the fighters returned to their houses in various degrees of nudity.

Saturday afternoon found the college rapidly deserted by the greater

### Fraternity Heads Plan Uniform Initiation Date

At a recent meeting of the fraternity presidents with Dean Nixon, each house, with the exception of the Theta Delta Chi house which was prevented by a national fraternity ruling, decided to adopt the plan of initiating their initiates on Alumni week and which comes in the early part of November.

For a number of years the Alumni have been trying to effect such a plan which would thereby re-establish the tradition of initiation in the fall and giving a chance for the various fraternities to compete on campus. It is planned that there will be an open house at all the fraternities and that this will be a permanent Bowdoin affair.

By Bill Soule, Good, Healy Lead Teammates To Victory; D. K. E. In Second

### SOULE RECEIVES CUP AS HIGH-POINT MAN

Porter Wins 2-Mile Easily; Cowan Pulls Surprise By Winning Half Mile

By William S. Hawkins

In a rock-line defense of its 1935 Interfraternity Championship Title, the strong Zeta Psi track aggregation carried off the 18th annual interhouse track meet with a total of 62 points, defeating the forces of Delta Kappa Epsilon, their closest threat, by 17 points last Thursday evening in the Hyde Cage. Originally scheduled for March 26, the meet had to be deferred nearly four weeks because of the flood interruption.

Led by Bill Soule, individual high scorer, Phil Good, double hurdle winner, and Dan Healy, discus winner and weight thrower—trio who captured five of the team's six first places—the Zetas were out in the lead from the start. The Deakes ushered in a sudden burst of strength when Rideout, Gray, and Diller swept the first three places of the 400-yard dash in 22.4, 22.6, and 22.7 seconds respectively. Dillier also won the broad jump with a 22-foot 4-inch leap, while in true form, Phil Good, victory track captain, equalled another in the low hurdles at 54.2 seconds.

It is unfortunate that the week ends at a time when all the major teams are away from college. The track, baseball, and tennis teams will all be playing engagements away at that time. Malcolm E. Morrell, Director of Athletics, and his assistant Professor Philip Wilder formerly supervised.

The week end is conducted in co-operation with the various fraternities and is designed to better acquaint prospective freshmen with the college.

**COMING WEEK OVER  
WITHOUT GREAT  
MISSAP'**

By Alfred L. Bigelow '38  
Last week rising week came to Bowdoin and was spiced with a certain amount of excitement. There had been some fear that the leniency of the S.C.D.C. would result in a rising week that smacked more of a tea-party than the affair we had last year, but all along there was just a suspicion. Friday night after a little excitement in front of the Alpha Delta house the Sophomores went through the ends. The Flag-rush which had been revived from years passed was a great deal of fun for all concerned. No one who has ever experienced a few hours of it can forget it.

After another year this addition to our rising week should become very important. The Dean, who was at the Rush, said, "I am glad to see such a worthy custom revived at Bowdoin College."

No. 3

## THE STATUS QUO

The perpetuity of subjects for ORIENT editorials seems to rival the exploits of the Phoenix. Again and again the same topics are treated, more or less the same comments are made on them, and occasionally a new subject or a new idea comes to light. The same problems exist for each volume; they are a part of the college. Some of them will in time disappear, or be solved, and others will recur, like a professor's good joke.

The opening and closing editorials of Volume LXIV, two years ago, aptly delineated these topics, assigning them four general headings which this writer takes no shame in employing for his own purposes. They are:

**Undergraduate politics and activities.** The new ORIENT finds itself facing no healthy condition of intellectual student extracurricular activities such as prevailed in 1934. Certain Bowdoin clubs which were then in a stage of revival have again entered something alarmingly close to death-throes. A transference of interest and energy in the direction of athletics may be part reason for this—such groups as the Outing and Rifle Clubs have grown while the Quill and Iris have declined. There is room, there are men, and there is sufficient latent interest for both types of organization to flourish, we believe.

The White Key Society was abolished in 1933, but the ORIENT thereafter repeatedly urged the Student Council to reconsider their decision instituting the committee. A two years' absence of this body has shown its lack of value, and it is now in the process of arrangement. The Student Council and the B.C.A. have combined to reconstitute this vital board by selecting for visiting prospective Bowdoin men.

Volume LXVI will discuss as often as necessary the evil effects of fraternity politics in all campus elections of all types. A critical view toward the method of Student Council and class elections by the ORIENT board has in the eyes of many been tinged with an envious attitude implying that leaders of Bowdoin publications should be considered side by side with prominent athletes on the ballot. This engenders a hampering antagonism. A movement toward more diverse representation of campus interests on the council, in line with the ideas of Professor Chase's much discussed chapel talk last fall, is to be desired, but above all, "combines" and inter-house electioneering in the class and council elections should be ruled out.

**Athletics** at Bowdoin are in good shape, following a highly successfully football season which has added and carried on a spark of inspiration to other athletic activities. Track and swimming stars have rendered good account of themselves. Poor weather conditions, the end of the state hockey series for want of numbers, and the unfortunate dearth of eligible talent should not be overlooked as all-important factors in a below-par hockey season, and due appreciation must be given a hard working coach.

The appearance of minor sports, with the prospering of fencing and the rifle team, and the inauguration of boxing, has been encouraging. Basketball has deservedly grown in popularity. Intra-mural sports have in instances suffered from lack of interest and eligible men, but they continue. Good Bowdoin teams and athletics-for-all are policies and achievements which do not conflict, and which are prospering side by side.

In regard to **collegiate-national views** the college has continued to demonstrate that the student mind is awake to current issues of international and national social and political nature. Strong stimuli such as the Political Institute last spring, or the visit of the peace advocate Miss Betty Mather, are necessary to keep interest at white heat, but even the comparative lack of these has not led to complete stagnation in the student mind. Such events have left a residue of curiosity and interest. Forum lectures, chapel talks on the European situation, and debates have aided.

Bowdoin's first participation in the Williams Model League of Nations filled a gap in her intercollegiate personality. It is to be hoped that this means of showing her own interest in current affairs, and incidentally of gaining valuable publicity for the college, can be taken advantage of once more next year. She must not recede from the picture of such activities.

**Curriculum and government of the college.** Discretionary latitude in certain entrance requirements has been announced for next year. The ORIENT supports this, knowing that conservative and reputable standards will not be endangered. The scholastic tradition is one of Bowdoin's great assets.

Publicity for Bowdoin, particularly in its work of attracting a worthy type of man to the college, has increased. A splendid football season was a factor, but debating and allied subjects have also received more attention from the press. The Alumni Office has been as active as ever in its publicity work. There is room for more news distribution regarding Bowdoin's affairs and advancements—Volume LXVI follows its predecessors in urging much attention to publicity.

Myriad are the subjects falling under these four heads, ranging from the excellent work and great opportunities of the new Director of Admissions to even a topic often subject to ridicule in mock-editorials, the state of the campus grass, but these all may be taken up in their turn.

gives more of the meat of the stories than in other.

For several weeks now the Eagle Hotel has had new ballads. It has a pair of two-sided neon lights, one on Maine and the other on Pleasant street. And on all four sections the letter "E" on the word "Eagle" have been raised up until recently. Several times I have set out to go down to the Eagle and rectify this error, but have always been side-tracked in some way or other. It has worried me to think what harm that might do to the trade of the Eagle. I thought that perhaps all they needed was the information I was withholding to do something about it. My conscience pained me but I simply couldn't find time, or if I could that something had always side-tracked me.

Then someone just half as observant as myself came along and told them about the Portland side of the two signs. Immediately they were fixed and they gleamed brilliantly at the world that had never noticed them. The sign on the Rock shore still remained dark and nothing had been said or done. Perhaps sometime if it remains as it is, I shall be able without side-tracking to go down to the Eagle and tell them that their work is only half done. And then I may go and have a cigar.

Mrs. Deane Nixon says she has a lot of nice stories for Mansfield and Post, as she only has, but won't let us print them. That is too bad.

Wooden walks on Bowdoin's paths increased 390 feet this winter to a total of 3,996 feet.

## A Good Formula For Your Printing

A brief interview with us  
Copy set exactly right  
Clean correct proof to you  
Quick work on our presses  
Prompt delivery  
A price that is right

Bowdoin men use this formula for their stationery, postcards, fraternity forms, invitations and other printing. It works splendidly.

## FOR DIGESTION'S SAKE—SMOKE CAMELS

A RARE PLEASURE. Leisurely diners enjoying the continental cuisine at Jacques French Restaurant, nationally famous cafe in Chicago. Here soft lights and impeccable service give the perfect setting for such dishes as Baked

Oysters à la Jacques and other specialties of the house. And Camels add the final touch to dining. "Camels are most popular here," Jacques himself observes. "They are clearly the favorite with those who know fine living."

## COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

ONE-MINUTE "QUIZ"  
FOR PIPE SMOKERS

- Q. What tobacco is "crimp cut" and smokes cooler?  
Q. What is one of the world's largest snuff sellers?  
Q. What tobacco doesn't bite the tongue?  
Q. Name the tobacco protected in.  
Q. How do you get the most pipe joy?

You've guessed it—Prince Albert! There's no other tobacco like P.A., men. Try it—at our risk. Below is our open invitation to all pipe smokers.

## P. A. MUST PLEASE YOU—OR COST YOU NOTHING!

Send us 20 fragment pieces of Prince Albert. If you don't find it the mellowest, tastiest pipe tobacco you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage.

## Smoking Camels a Pleasant Way to Encourage and Aid Digestion

Hurry, worry, and strain tend to interfere with normal processes of digestion—actually slow up the flow of the digestive fluids.

It is a scientific fact that smoking Camels helps to keep digestion on its proper course, through restoring and increasing the flow of the fluids necessary to good digestion. Dine well! Smoke a Camel!

THE WINNER! Kelly Perillo, first in the Indianapolis Classic, says: "Smoking Camels during and after meals goes a long way in helping to keep my digestion in good shape."

THE FLARE of the welding arc climbs to a temperature of 8700°! Dan Rafferty, master welder, says: "Smoking Camels during and after meals helps my digestion."

(A section devoted to correspondence on matters academic and otherwise. The editors are not responsible for opinions expressed in these columns.)

To the Editors of the  
Bowdoin Orient:

The annual "Indoor" Interfraternity Track Meet has for some years now been one of Bowdoin's finest traditions, an event which each year is keenly looked forward to by the great majority of the undergraduates and by many of the faculty, alumni and friends of the College. It represents at its best the friendly rivalry between the fraternities in athletic competition. And not only this, but also demonstrates Bowdoin's lost on the track and field scene. The Interfraternity Track Meet becomes a major event on the athletic program of the College. Deserved recognition should be given to Coach Jack Magee for this fine tradition.

There is, however, one part of this track meet which is not only disappointing and disgusting, but provocative of resentment. I refer to the decision by the officials of the meets over the last two years by the judges at the finish lines. This criticism is leveled not only at the performance during this year's meet but at the prevalence of this practice during every interfraternity track meet for the past four years; I stand witness, having been a competitor for these four years.

Let me make myself clear: I do not charge intoxication on the part of the officials; nor do I charge that all the officials had been drinking. But I do say that not a few had been

partaking of alcoholic liquors as evidenced by the decidedly perceptible odor emerging from the track office during the meeting of the officials just prior to the start of the meet. Further, I am told that more than one judge displayed the effect of drink beyond the salvation of Listerine.

Well, what of it? Plenty of it! In the first place, it is difficult enough to judge accurately the outcome of close finishes, particularly those of the 100 yard dash and both hurdles—when one is perfectly sober, but when one has been "tanking up" it is very easy to have illusions and decide the winner under such circumstances are oft absolutely trustworthy. It is my belief that there were a few "raw" decisions made in the meet just Thursday evening. In the second place, it is necessary that there is a possibility of not being awarded the place you actually gain. And in the third place, think of any other athletic or for that matter educational contest in which the officials and judges are not cold sober and see how well it goes with the competitors and spectators. What a fine impression it makes! What satisfaction for all it gives!

After all, drinking does have its place and sometimes as far as track meets go, I don't give a peacock's little toe if the officials pass out after the meet. I hardly think that during a track meet is the time for a party among that group.

Among our traditions is Bowdoin Sports Day. I am sure that the Best Man Wins. We wish nothing to play fairly, but we wish in return fair play. We certainly have not been getting it during the past interfraternity track meets. The present situation is simply not good.

I do not stand alone in this matter. I have chosen to express my opinion publicly in the sincere hope that the indignation of the undergraduates (and graduates too) will be roared sufficient so as to abolish what seems to be becoming another Bowdoin "Tradition."

Respectfully submitted,

PAUL GORDON FAUVER, JR., '36

Ibua, senior society, heard Professor Hartman give an informal talk on book collecting at its last meeting.

**DEBATORS PLAN FOR COLLEGE FORUM****Quill To Appear At Ivy: Brown Will Contribute**

With the four Maine colleges as participants, it is hoped an Open Forum may be held about the last of May at Bowdoin, with Bowdoin's debaters as hosts to delegates from Maine State, and Colby. It was announced that Dr. George W. Stegrave, the subject will be "Neutrality," taken up in its several aspects as a broad topic allowing much scope for discussion.

The forum will be a repetition of a similar affair held last year. Last year it was known as the Four Colby-Maine Forum, and its subject was "An Evaluation of the New Deal." Norman P. Seagrave '37 was Bowdoin's forensic representative.

**Lafayette Debate Cancelled**

The White Debating team received a great compliment recently when it was learned that the Lafayette Debate would be held at all this year. The visiting team was unable to come to Brunswick on account of flood conditions, and there are no open dates on which to arrange a meeting.

At that time, it was thought the second place would be held at the University Debaters' Annual.

Andrew H. Cox '38 and Norman P. Seagrave '36 were to represent Bow-

doin, debate between the freshmen and Biddeford High school is tentatively scheduled for May 15, the subject to be the Townsend Plan. The choice of side has been left to Bowdoin. The freshman team is composed of William C. Hart, Milton Goldberg, and Paul Wheeler.

**POLAR BEARS HOLD FINAL UNION DANCE**

Completing their current series of Saturday evening dances, the Bowdoin Polar Bears held their final year on campus Saturday evening in the lounge of the Moulton Union. The dance was well attended by fifty or fifty-five couples, which in view of the departure of the two lower classes may well be considered a success, although the attendance was not as good as last year.

The Polar Bear's program for the next few weeks includes an engage-

ment April 24 in the Eastland Hotel, Portland, following a jazz concert by the Northwest Band. On Friday, May 1, the Polar Bears will appear on the Dartmouth campus at the house dance of the Sigma Chi fraternity. A tentative engagement for Friday, May 8, at the B.U. house at Colby is also under consideration.

The class of '38 held their annual

**Flag Rush, Nudism, and Reduced Damage Feature Mild Rising Day**

(Continued from page 11)  
part of the freshman class, one after another pulling out with cheering and shouting groups of girls. Harry and a general lack of enthusiasm made the successful carrying out of the flag rush seem doubtful.

Feature articles are "On Wallace Stevens," by Robert E. Hagy '38, "Intuition and Modern Poetry," by Jameson Mitchell '38, and "Burgess," by Raymond West '31.

Harold Stoen '36, who is writing a volume of poetry to be published this year, and Frederick L. Gwynne '37 will contribute the poetic side of the issue.

Stories are by Edwin G. Walker, and Alice L. Johnson, who writes for "Little" magazine who has a new novel coming out.

Possibly there will also be a

story by Guyan.

**Westbrook, Bowdoin To Hold Glee Club Concert**

On Friday evening, April 24, the Bowdoin Glee Club, in conjunction with the glee club of Westbrook Junior College, Portland, will present a concert at the ballroom of the Hotel Elmwood in which about thirty-five men will sing. The Polar Bears will furnish music for a dance following the concert.

During the past week, the Glee Club gave two concerts the first of which was given on Wednesday in the Sun Street Church of Portland. Following the concert the Polar Bears played for a dance held in the parish house.

Friday the club participated in a concert at Thayer Academy in South Brattleboro. Also featured on the program were Walter Smith, well known trumpet soloist, and Walter Kidder, harpist.

The Glee Club, directed by Mr. Alfred Brinkler, with William P. Drake '37 as conductor, Harold B. Lang '36 is manager. All concerts in which the club appears are formal.

The class of '38 held their annual

graduation exercises Saturday evening, following the last course three musicians were introduced from nowhere to break the dreary strains of "Phi Chi" and the banquet was brought to a close with the rendering of the time-honored martial song by the joyous first-year men.

The finish was inevitable, but it was not until after some 15 minutes of hard pushing over the pole and in individual attempts to seize it, finally saw one of them, Bob Hamkin, shiny up the pole and snatch the 1320 flag from its position.

He followed immediately to a struggle with the other end of the field which ended in the 1320 victory as soon as the flag was within freshman territory, and a week attempt by the 1320s to retake it.

The freshman flag was finally snatched away by rule, but was soon recovered by the frosh.

The remaining few moments were devoted to wholesale stripping of all belligerents, while the cheer bell tolled the results of the engagement.

The band will increase its quota of saxophones to four for the Maine engagement. It has recently added an electric amplifier to its equipment.

The class of '38 held their annual

graduation exercises Saturday evening, following the last course three musicians were introduced from nowhere to break the dreary strains of "Phi Chi" and the banquet was brought to a close with the rendering of the time-honored martial song by the joyous first-year men.

The finish was inevitable, but it was not until after some 15 minutes of hard pushing over the pole and in individual attempts to seize it, finally saw one of them, Bob Hamkin, shiny up the pole and snatch the 1320 flag from its position.

He followed immediately to a struggle with the other end of the field which ended in the 1320 victory as soon as the flag was within freshman territory, and a week attempt by the 1320s to retake it.

The freshman flag was finally snatched away by rule, but was soon recovered by the frosh.

The remaining few moments were devoted to wholesale stripping of all belligerents, while the cheer bell tolled the results of the engagement.

The band will increase its quota of saxophones to four for the Maine engagement. It has recently added an electric amplifier to its equipment.

## Manter Hurls Polar Bears To 12-8 Win Over Bobcats

By Bob Laffin  
Displaying new power and met both field and at bat, Bowdoin's rejuvenated Polar Bears bounded two Bates pitchers for a total of 14 hits and emerged on the long end of a 12-8 score at Pickard Field Monday.

Wilbur Manter went the route on the mound for the Polar Bears and, with the exception of two bad innings, hurled very effectively.

The Big White got off to a poor start by handing the Bobcats 3 unearned runs in the very first frame. Manter issued free bases on two strikes to Johnson, and Manter balked when a double steal was in process; the total result of which was no hits, 3 runs. In fact Pignone, who popped to the box for the final out, was the only visitor to connect with the ball in that inning.

The Polar Bears really got under way in the fourth and tied the count at four all. Darling walked two men, and this, plus three well-directed hits, accounted for the tying tallies.

Bowdoin's big inning of 8-4 because of erratic fielding and free hitting in the first half of the frame, the Wellsmen took out their war clubs and

batted completely around for a total of five singles, including a triple by pitcher Manter. With Bates mishandling the Big White cause, the home half of the fifth yielded six runs.

**Manter Fans 18**

Malone, a freshman, replaced Darling on the hill for the Bobcats for the remainder of the game and pitched well until the eighth, when the last two markers were scored.

On the whole "Wilb" Manter worked in a good performance in the box. He fanned 13 and walked seven, while being nicked for 10 hits in the passed ball and dropped a hit after a walk to Johnson, and Manter balked when a double steal was in process; the total result of which was no hits, 3 runs. In fact Pignone, who popped to the box for the final out, was the only visitor to connect with the ball in that inning.

## SPORT SIDELIGHTS

By Bill Burton

One redeeming feature in last Thursday's comparatively quiet interfraternity track meet was the arrival of Charlie Young, Bates' Young in the mile. After about five laps Charlie lost one of his shoes when he was able to enter the race again the field was almost a full lap ahead of him. However, Charlie not only stayed in the race, but with a sustained final sprint eventually managed to carry off fourth place honors for the Betas.

8-8

Among those making marked improvement on the much discussed Bowdoin pitching staff are Stan Allen and Ralph Gould, whose work on the mound shows great strides over their performances in spring. As yet neither one has had the call to pitch in the exhibition games, but big things are expected of them on the five-day Massachusetts trip.

8-8

Working under a distinct handicap, Ara Karakashian, Bowdoin's newly converted catcher, deserves no end of commendation for his fine work in the game with Bates last Monday. From pitcher to catcher is admittedly one of the hardest position changes in baseball, but "Kara" is speedily rounding out into a capable, if inexperienced, backstop. Any pitcher who will deliberately forego his natural preference in the interests of the team is an invaluable asset to any athletic squad.

8-8

Notable among the newcomers to the Polar Bear nine this season are George Davidson and Kenny Birckett, whose combined fielding and batting prowess has indeed been a noticeable asset to the team in the two recent games. Birckett's fine work at third is made doubly encouraging by the fact that he is a freshman, while Davidson, a sophomore, will also be available for two more seasons.

8-8

**JAYVEES OVERCOME BRUNSWICK HIGH 3-1**

## TENNIS TEAM WILL TOUR NEW ENGLAND

Starting the season with a win, the Bowdoin Jayvee nine defeated the Brunswick High School baseball team Friday afternoon in a six-inning pre-season game, 3-1. Behind the pitching of Art King and Bud White, fresh from the prospect, Bowdoin's offense scored five hits, collecting three in the fourth when two of the three runs were scored. Erratic pitching by Estes and St. Pierre for Brunswick, together with other miscues, aided the Polar Bears materially in their win.

The first tally was accounted for when Davidson, singles advanced to second on a passed ball, went to third on a balk, and scored on a wild pitch. In the fourth Churchill reached on an error by Wilson, the schoolboy's shortstop, took second on a wild pitch, and scored on an error by Estes. Both Wilson and Churchill reached on a wild pitch, and tallied on Cartland's double.

After the Middlebury matches, the team journeys to Williams, where a probable loss is predicted. On Wednesday, the Worcester Tech encounter is expected to yield an easy victory for Bowdoin. Following this Bowdoin meets a strong Wesleyan

team at Middletown on Thursday, and what Captain Ashley predicts will be the closest meet of the week, that with Trinity, will take place on Friday. The trip will be concluded with the annual Tufts match on Saturday.

Beginning a whirlwind trip through New England with a match against Middlebury there next Monday, the Bowdoin tennis team will next week inaugurate its 1936 schedule, which from the signs should prove more successful than last year's, which was one of the best in the history of the college.

The members of the squad making the trip will be chosen by the elimination tournament taking place throughout this week, although the team will probably be composed of the seven lettermen from last year.

In addition to these Cartwright and Sollner, who have been outstanding in practice, may be included, according to Captain Bob Ashley.

The members of the squad making the trip will be chosen by the elimination tournament taking place throughout this week, although the team will probably be composed of the seven lettermen from last year.

## A TRIBUTE

Harking back to the day in the spring of 1934 when it was able to announce that Professor Robert P. T. Coffin was to return to his Alma Mater as Pierce Professor in the department of English, the ORIENT feels privileged to be able to join the whole college in congratulating Professor Coffin on receiving the most recent and greatest honor bestowed upon him — the Pulitzer Poetry Prize, given to him for his work "Strange Holiness".

Professor Coffin has been an important figure on the Bowdoin faculty since his arrival here a year ago last fall. The literary fame which he brought with him, and the honors given him for his eminence, in American letters, have reflected credit on the college which graduated him. His courses have been found highly interesting by undergraduates, and his participation in various college events, including an excellent football rally talk, have demonstrated his recognition here as a "good fellow" as well as a national figure.

President Sills in his talk before the alumni of the college has commended the creative work being done by various members of the faculty, along with their regular duties or during sabbaticals. Professor Coffin has been outstanding in this regard, and has now justly been rewarded by national approbation of his effort.

## AN ATROCIOUS INCIDENT

Possibly no war in history has received the intensity of publicity as the Indo-Ethiopian imbroglio, which has been reported to an eager world by every modern means of communication. For special daily columns by foreign correspondents suffering from iniquities in Addis Ababa, than of actual battle, with sound effects added in New York, and wealth photographic section pictures, the "African adventure" of Mussolini has seemed equal. Reports have been frequently quite opposed, Italians and Ethiopians claiming equal losses inflicted on one another in the same skirmish, but on the whole both sides have received a "fair share" of news space, brought to the public by up-to-the-minute methods.

This very week have come the latest perpetrations of the fourth estate in regard to this war. "Ethiopians Kill U.S. Woman" show the headlines in the Boston Herald for Monday, May 4, and other papers play up the incident. The reliable New York Times considers it worth the center bar of a three-line headline, a little more conservative in its action.

However, a careful study of the Associated Press report containing the news shows the truth of the matter. The news value of the incident is indeed great, relating as it does to a national spirit, and it is only natural that it is thus emphasized. The extreme emphasis given the accidental death of an American missionary doctor's wife, killed by a stray bullet in a mission which she had presumably been warned to leave for safety in the legislation, is unnecessary. But it is in the manner in which the news will be received that the most unfortunate aspect of the affair lies.

Fortunately not all people will exaggerate in their own minds the phrase "numbering an American woman among their victims". The instance is not grave enough to stir up much public opinion, despite the way in which it has obviously been played up to appeal to American nationalism and patriotism. Nevertheless it well shows the methods used by a press which can and will stress such things, for their news value or possibly to form public sentiment.

The death of an American "victim" in Ethiopia is a tiny replica of the death of many on the "Lusitania". The same psychology is present, if only in germination. Ultra-patriotic hearts are ready to be inflamed. "They can't get away with that!" is the instant reaction of "people who think," as Hearst readers are designated by his papers.

A close examination of the facts shows that this death might not have occurred. American residents had been warned to seek safety. The fact that it was a stray bullet shows that the death was not the result of a deliberate attack on the mission.

Readers of a newspaper, however, will in most cases not investigate the implications of the incident. They will judge it at its face value, exactly as the newspaper editor who wrote the headlines, exercising his privilege of playing up any part of the story as the most important news item in it, planned they would. Their attitude illustrates the effect of clever use of emotional propaganda, intentional or otherwise.

In exactly this manner, but in greater magnitude, of course, will be spread propaganda to draw the United States into any future war not of its own direct concern. "Incidents" and "atrocities" common and avoidable will be played up, and the hearts rather than the heads of the people will be worked upon to the nth degree. This will happen, and it will take the combined efforts of sane, educated people to counteract the influence of such methods. College men will be among that group, and it is they, pouring out of educational institutions, 400,000 strong yearly, who will be able to exert a tremendous influence for proper and conservative interpretation of foreign war news of this sort.

I'll well reward the one who kills  
The bird that sits the liver pills.  
The guy that spoils my radio,  
To tell the world it won't be long  
Until we all will think he's a long  
And take some Ex-lax every night

I'll kill the one that chases the dub  
That hasn't sold us Mistral Rum  
And spoils my radio  
Why must he tell us shopping news  
In silly small town ballyhoo,  
While I am angry as can be  
Am waiting here for N.E.C.

m - c

Two weeks ago, in order to celebrate Shakespeare's birthday in the proper spirit, F.P.'s Chase brought W. W. Lawrence, an eminent Shakespearean scholar, up to Brunswick to speak to the Bowdoin Shakespeareans on Shakespear's play within a play.

Bob Magy has been worrying over for over a year now about a gashawm in "Measure for Measure" and the audience believed it was a dog in the wool crook. After reading Lawrence's book on the subject, Bob felt that that authority was wrong and was prima facie was wrong and was prima facie pronounced as such. But his prey removed easily to a safe distance. He was very sorry but he had not read his book for some time and did not feel qualified to discuss it. Perhaps that is the way real great authorities work.

m - c

One of his students dropped into his office the other day to question Phil Wilder on some more or less pertinent matter. Phil was out but had rather carelessly left behind on his desk his copy of the Student Outline Series "History of Modern Art." Not until asked about the date of the original conference the student looked up the answer to his question and departed merrily on his way. S. O. S! Professor in distress!

m - c

Two Sundays ago after the chamber music concert given in Memorial Hall by the Tilton Trio, composed of Frederick Tilton, pianist, Alfred Krupp, violinist, and Yves Chardon, cellist, last evening opened up to the discussion the student looked up the answer to his question and departed merrily on his way. S. O. S! Professor in distress!

m - c

Mrs. Sessions has a cat. Not a very unusual cat, however, in regard to its manners. It eats and sleeps and purrs and scratches and, horrors to behold, it uses the collection of Mr. Wilder at whose house Mrs. Sessions lives, was sick the other day, and in no mood to command this propensity in the puss. But puss had other ideas! After she had caught and partly eaten a pretty little sparrow, she decided to board. Climbing cautiously onto the table beside the bed, she deposited the remaining quarter within plain sight of the invalid and then smiling nonchalantly she left the room.

## Maine Women's Club

## To Hold Art Day Here

About 200 members of the Maine Federation of Women's Clubs will be on campus Friday to attend the Federation's Art Day, conducted here annually.

The program will center about an exhibition illustrating the process of making lithographs, including a group of lithographs by Steve Wenner, many of which depict scenes around Eastport, Maine.

Art Day is one of a series of four meetings held, each year, by the Federation. The meeting at Bates on Literature, that at Colby on Education, and that at the University of Maine on Home Economics.

**Specialties Good.** Richard W. Baker '38, chairman of the committee, pointed out that Art Day will make only the appearance in New England this year, and that Bowdoin is very fortunate in engaging him for the first college job he has accepted for several years.

Besides Louis himself, the band has three other featured entertainers. Sonny Woods, whose distinctive style of singing has established him as one of the most popular colored vocalists, is also well-known as a master of ceremonies. Lewis Russell is rated as one of the leading jazz pianists in the country, while the addition of Bobby Carlton, girl blues singer, provides a well-balanced program of entertainment.

**Wenell Also Coming.** From all indications, the appearance of Louis Armstrong in the Gym Friday night will top the most impressive list of fraternity house bands the college has seen in years. The signing of Joe Venuti by the Zornes and Wingy Manone by Psi Upsilon has added another top-rank name to the already brilliant collection.

The committee, consisting of Chairman Richard W. Baker, Virgil G. Bond, Mahlon H. Dane, Ledgall M. Hall, Richard T. May, and David McLean, is making plans to receive the largest crowd since the dance has drawn for some time and predict the most successful party staged in recent years.

The list of patronesses will consist of the following: Mrs. K. C. M. Sills, Mrs. Paul Nixon, Mrs. Wilmet E. Nichols, Mrs. Arthur Haas, Mrs. Nathaniel C. Kendrick, Mrs. Rosemary H. Ham, Mrs. Daniel C. Stanwood, Mrs. Henry Johnson and Mrs. William C. Root.

## -for Digestions' sake...smoke Camels

Digestion proceeds more smoothly...alkalinity is increased...when you make Camels a pleasant interlude in dining.

There is a delightful sense of comfort and good feeling that comes after a good meal—and Camels.

Modern hammers at your nerves and digestion. Gently, naturally, Camels restore and increase the flow of digestive fluids...alkaline digestive fluids...so vital to the enjoyment of food...so necessary for good digestion. And Camels never jangle the nerves!

Smoking Camels is one of life's unfailing pleasures. So enjoy Camels at will—with meals—between meals—for a refreshing "lift"—for pure contentment. Camels set you right!

**BOGGED DOWN** with studies? There's refreshment in Camels' cooler tobacco. Enjoy Camels—for a welcome "lift" in energy—for stimulation of the digestive fluids—for a sense of well-being.

## PRO and CON

(A section devoted to correspondence on matters academic and otherwise. The editors are not responsible for opinions expressed in these columns.)

To the Editor of the

Bowdoin Orient:

I am entirely in sympathy with the ideas expressed in Paul Favour's article in the last issue of the Orient. We do not want drinking at any of our athletic contests, either track or football. Unfortunately, it is the officials who have been drinking. In football we have four paid officials who are not Bowdoin men, and if we know that any of them drink prior to a game they never officiate for Bowdoin again.

In track we have two paid officials, the referee and the starter; and the many other official positions necessary in a track meet are filled by first year students, alumni and friends of the College. These men serve without pay, so that it is a little more difficult to control their habits. The attempt has been made, however, to clear up this situation, and in so far as the judges are concerned it has

been successful.

Paul was exactly 100 per cent wrong in his statements in regard to these six officials. In the meet this year the judges were as follows:

George Shay—New assistant foot- ball coach.

Dorval Enoch—Newton High track coach.

Mal Morell—Bowdoin '24.

Walter Whittier—Bowdoin '27.

Herbert Hartman—Faculty.

And I like to add,

And as I remember it, they picked the place winners in that order.

I was in close contact with these men throughout the evening and it is my belief that not one of them had any beer.

Picking five places in short races when the competition is close is very difficult at all times. During this meet, however, there were only two races in which there was any difference of opinion. In the pair of judges and both of them were trials in the forty yard dash, and in neither case was a man eliminated from the final. In the semi-finals and finals we had six men picking the contestants whom they finished. Each judge was given the number of the man he had picked on paper and passed it to the referee. All six officials agreed exactly, and the selections must have been fairly accurate. None of the other events were close enough to cause mistakes.

I heartily agree with Paul Favour's apparent intent, but I could not allow his obvious misstatements to go unchallenged. In justice to the man who acted as judge, I believe that he was told that more than one judge displayed the effect of drink, and in his opinion there were several "raw" decisions made. He has a right to his opinion and no one can have any complaint but that he has but has absolutely no right in the public to pass on hearsay information, which in this instance was entirely wrong. It seems to me that

## Eleven Houses Select Eight Bands for Ivy

Eleven bands for the first night of homecoming have now been chosen by all eleven houses. Six houses selected their houses Wednesday night and the others five on Thursday.

Those Wednesday with their bands, are Delta Upsilon, Phi Gamma Delta, Chi Psi, Huskies, Alpha Phi, Upsilon Sigma Phi, Sigma Chi, Sigma Kappa, Alpha Gamma Delta, Phi Beta Kappa Murphy; and Beta Theta Phi, Jerry Johnson.

The five Thursday night are Zeta Psi, Joe Venuti; Delta Kappa Epsilon, Kenyon; Theta Delta Chi, Hudson-Delange; Alpha Tau Omega, Danny Murphy; and Kappa Sigma, Jan Campbell.

Hudson-Delange, which was so successful at Christmas, are the only bands of the group that have been here previously.

## COLLEGE WELCOMES SUB-FROSH VISITORS

(Continued from page 1)

viting the sub-froshes to look about them on their visit and form their own impressions of the college.

At 11:00 Saturday morning a swimming meet took place. Some short dashes, novice diving and light swimming exercises were included. The relay team broke the pool record in the 400 yards free-style by a second.

After the exhibition several guests arrived to take advantage of the opportunity.

At 2:30 Saturday afternoon the second J. V. baseball game of the week and took place with Edward Little High School. The Polar Bears took this contest 9 to 8. Ned Cary scored the day by hitting .500 after the Edward Little sluggers had piled up six consecutive hits and six runs in the ninth.

Next Class Smaller

Some of the week-end guests attended classes Friday afternoon and Saturday morning. Unchecked activities also included trips to Popem Beach and to Portland.

Because the college wishes to limit the total enrollment to 1,500, the freshman class next year will be smaller than the one which entered this year, according to Professor Edward S. Hammond, director of admissions.

The size of the entering class is governed by that of the three upper classes, and since these all promise to be unusually large, the new class will be restricted.

Mr. Paul Favour owes the Orient another statement.

Respectfully submitted.

MAL MORELL

## A Good Formula for Your Printing

A brief interview with us Copy set exactly right Clean correct proof to you Quick work on our presses Prompt delivery of your job A price that is right

Bowdoin men use this formula for their stationery, postcards, fraternity forms, invitations and other printing. It works splendidly.

About 30 members of the Bowdoin Glee Club went by bus to Portland Friday afternoon April 26, for a concert at the Auditorium of the Western Maine College girls' glee club. Dinner was served at 6:30 in the college dining room, and at 8:15 the program was presented in the ballroom of the Eastland Hotel.

Following the concert the Polar Bears provided music for dancing until 1 a.m.

## Plan For Living, Not Livelihood, Chase Advises Undergraduates

By Rock Ellis

"Prepare for a living and not merely for a livelihood," was Professor Stanley P. Chase's advice to freshmen and sophomores in a recent Saturday chapel address. His topic was "Choosing a Major." And he stressed the counsel that anyone who is headed for a field which requires a definite major he should choose one according to his intellectual interests, and that choosing one's major is by no means so important as the quality of work done in that major.

If you know what your occupation is to be, your problem may be much simplified—and again it may not. The man preparing for medical school, of course, will major in one of the "natural sciences," said Professor Chase. He went on to classify such vocations as teaching, in industrial chemistry as requiring their followers to choose a more or less definite major. "But for many other careers the choice is much less circumscribed," he said.

Speaking of such practical courses as accounting, statistics, and constitutional law, Professor Chase said that was a deplorable point of view that pictures the student as being uninterested more and more in considering a man's employability.

"I believe," he said, "that it is certainly not the conception of those departments that their instruction is merely to chiefly recruit students for their own special points of view, that they contribute to an understanding of social forces in this confused contemporary world which it is essential for a citizen to have."

He urged that the sophomore follow a major that appeals to them rather than to the practical application throughout these years of depression is that men of real capacity who have done their job well in college have been able to obtain and hold jobs in the business world.

He closed with the words, "And I think that if we still hold in the conception of the liberal college as one that fits for living and not merely for a livelihood, these are better off who have chosen studies in line with their most vital interests. Their temporary occupations will be less serious than they would have been to have made a perfunctory choice for reasons of expediency."

Adviser Seeing Dean

Freshmen would be well advised before choosing their electives for next year, to consult not only the faculty members of the department in which they think they will major," he went on. "He also advised the Class of '39 to remember that their sophomore year was the time to experiment with subjects they have not as yet encountered.

To the sophomores he stressed that they should consult the faculty members in the department they intend to designate as their major. He

## BOWDON GLEE CLUB PLANS IVY PROGRAM

Under the direction of William Drake '37, the Bowdoin Glee Club will combine with the college choir to make a choice of about 60 voices for the annual lost chapel service at noon of Ivy Day.

Special music including "Now Let Every Tongue Adore Thee," a Bach Chorale, and an old German melody, "Ye Watchers and Ye Holy Ones," is being prepared for the service. An informal concert is also planned for the same afternoon on the Art Building steps.

The Glee Club will give a concert Friday in Memorial Hall for the Maine Federation of Women's Clubs and on May 17, also in Memorial Hall for Maine Rotary Clubs. On May 27, making its last appearance of the year, the Glee Club will give a concert at the Bath Opera House.

About 30 members of the Bowdoin Glee Club went by bus to Portland Friday afternoon April 26, for a concert at the Auditorium of the Western Maine College girls' glee club. Dinner was served at 6:30 in the college dining room, and at 8:15 the program was presented in the ballroom of the Eastland Hotel.

## POLAR BEARS TO END HOME SEASON FRIDAY

Making what probably will be their last appearance in Brunswick this year, the Bowdoin Polar Bears will play in the Town Hall Friday for the high school junior prom.

Last Friday the band played for the house party dance of the Sigma Chi fraternal organization at the Penobscot County Club in Pattenburg. On June 11, the Polar Bears will appear at the Bath High school junior prom in Bath.

Meanwhile, the rival band, the Bowdoin Collegians, played last Saturday evening at the dance of the Chi Omega sorority at the Penobscot County Club in Pattenburg. On June 11, the Polar Bears will appear at the Bath High school junior prom in Bath.

The awards were received for the college party dance of the Sigma Chi fraternal organization at the Penobscot County Club in Pattenburg.

On his trip to the convention Mr. Wilder met with newly-organized Bowdoin alumni clubs at Cincinnati and Columbus, Ohio, and with the Bowdoin Club at Pittsburgh.

On June 11, the Polar Bears will appear at the Bath High school junior prom in Bath.

The awards were received for the college party dance of the Sigma Chi fraternal organization at the Penobscot County Club in Pattenburg.

Items which will probably be discussed at the conference include next year's schedule, possible subjects for next year, and the possibility of continuing non-decision debates.

Mr. Chapman also won.

John F. Chapman '36, competing

not with other undergraduates but with alumni or professional writers, won first honorable mention in the editorial competition for his editorial, "Bowdoin and Liberalism," in the "Alumnus" of June, 1933.

The awards were received for the college party dance of the Sigma Chi fraternal organization at the Penobscot County Club in Pattenburg.

## White Nine Beats Clark; Drops Close Tufts Game

By John H. Rich, Jr.

Losing a hard fought battle 4-3 to Tufts on the Medford Oval last Saturday, Linus Wells' variety baseball nine came up with a series of four games in its recent annual tour during which the White won one and lost three encounters. In outlasting Clark, 15-8, on Friday the White marked up its only victory, having dropped its first two games to Amherst and Wesleyan.

This year's showing however somewhat bettered that of the spring trip last year and the year previous when the Bowdoin nine failed to garner a single victory. Clark, on this spring's schedule, replaced Trinity whom the White met last year and thus helped to relieve the stiff opposition of the two teams previously contested. The victory at Worcester was an easy one although, as indicated by the score, the game turned into a free hitting, loosely played performance in which Bowdoin raked out 15 hits from the Clark batter. Gould and Buck, Jay Vee hurlers, both saw service.

Loss to Amherst

For the first six innings at Amherst Wednesday, the first game of the trip, the White held the lead. Jeffe, driver runs and the seventh, came back to bring two of its own across the plate which was its closest bid to tie the score. However the Amherst team sewed up the game in the last of the seventh frame and totaled a count of 8-3.

An excellent win, Amherst greatly weakened the Polar Bear front although Bill Shaw performed in outstanding fashion lining out two singles in four trips to the bat and scoring one run. Ara Karakashian further strengthened the hitting department when he cracked out two singles in his first two trips.

## JAYVEE NINE WINS TWO HOME GAMES

Breaking a ninth inning shimp, to withhold the margin of victory, a fighting Polar Bear Jayvée nine set back Edward Little High School last Saturday 10-9 to hang up its second victory in last week's four game series on Pickard Field. In their contest on Friday, the Jayvée Variety downed South Portland 8-4, but dropped their next two encounters with Bridgton Wednesday and Fryeburg Academy, Friday.

During the absence of Coach Wells, who was away with the varsity, on Saturday, the Jayvée nine, with Leon Buck, Ralph Gould, Will Manter, and Bud White all away with the varsity, Stan Allen and Ass Kimball shared the pitching assignments.

### Carey Steps Barrage

Saturday's game which resulted in a close win for the White over Edward Little of Auburn, was barely pulled from the fire in the last inning. Bowdoin's 10-4 lead suddenly dissolved under a barrage of hits by Nels Corey, regular first baseman, took the pitcher's box and after a strike out forced number three man to fly out thus saving the game.

Heavy hitting by the visitors in the first inning of Monday's game with South Portland almost proved disastrous to Bowdoin. But Gould tightened up immediately, allowing only one more run in the eighth and the Jayvées won a hard-earned 8-4 triumph. Bunny Johnson scored twice in the comeback, while Rowson and Corey were the outstanding hitters.

## TENNISMEN SWAMP MAINE VARSITY 11-1

Just back from its week's tennis tour, the Bowdoin varsity tennis team, after a day's rest, completely overwhelmed the University of Maine 11-1, Monday on the Pickard Field courts. The only match that was yielded to the Orangemen came as a complete surprise, in that Captain Bob Ashley was defeated by Brooks of Maine after winning the first set 1-6, but was then overcome 6-4, 6-2.

## MELENDY WINS POOL, BILLIARDS

Winning both the pool and billiards championships, Carl Melendy, Polar Union, took the lion's share of the honors Monday evening in the finals of the annual tournaments at the Moulton Union. Dick Foster, freshman ace of Theta Delta Chi, won the ping-pong title, after defeating both last year's champion and runner-up.

Dick Bechtel and Bill Fredericks, playing for the Sigma Nu in the interfraternity bridge tournament, edged out the D.U. team, Bob Harris and Denholm Smith, by one point, 70-1-4 to 69-2. The 1935 champions, Harry and Francis Benjamin from the A.D. house, were third with a score of 66.

Melendy furnished the most spectacular playing of the evening. Coming from behind in his two events, he never let the critics get away with a flash of brilliant playing to conquer his opponents. In the pool final, he overcame a 25-point lead to defeat Bob Falconer, 150 to 120. Trailing Stanton Belknap by one point in the billiards final, Melendy made a bold move, which paid off, defeating Belknap 16 to 14. Audley Dickson and Russ Austin, the two other contestants, had scores of 11 and 7, respectively.

## OUTING CLUB PLANS MANY SPRING TRIPS

Included in the projected spring schedule of the Bowdoin Outing Club are several mountain climbing trips, week ends of skiing in the White mountains, and possible all-day cruises in Caco Bay according to President Richard T. May in an announcement made to the club at its meeting held last Thursday evening.

Spring activities began last Sunday when a group of Outing Club members climbed Mount Katahdin, the week before the start of the annual tour. This Sunday a trip to be made to Mount Chocorua, and the following two week ends will be occupied with ski-parties to Tuckerman Ravine, in the White mountains. On May 30-31 the club will go to Evans Notch, and June 14 to 16 will be spent in a joint trip with the outing clubs of Bates, Colby, and Maine to Mount Katahdin.

## Friday Brings Close To Spring Football Season

Spring football practice, begun over a month ago, will probably be wound up Friday afternoon of this week. Coach Adam Walsh told his twenty-five man squad Monday.

As usual, early practice sessions will start next September about three and a half weeks before the opening game with Mass. State. From the looks of things this spring in the few scrimmages held to date, the eight returning lettermen are looking to find solid competition for every position from the members of last year's strong freshman contingent.

The team this spring, because of the lack of backfield men has been confined mainly to fundamentals, line, blocking and running, and, as usually, Coach Walsh is well satisfied with the results of the work this spring and looks forward to a more successful season next year when the coaching staff situation promises to be definitely settled at last.

## Golf Team Wins One Of Five Southern Matches

In a 4-2 victory over Trinity at Hartford last Friday, Bowdoin's varsity golf quartet composed of Roger Kellogg '37, Sprague Mitchell '37, Eddie Benjamin '37, and Eddie Owen '38, closed up a week of rather disappointing losses in the southern tour. Previously it lost its first four matches of the week to Middlebury, Williams, Amherst, and Wesleyan.

Kellogg, with three victories and a halved match out of four meets in which he participated, had the most impressive individual record during the trip. His inability to compete in the Williams tourney was a considerable handicap to the team, which there suffered its second defeat.

In the Trinity encounter, the one redeeming meet of the tour, Kellogg and Sprague each won one and two men respectively, while Owen and Mitchell played three and four. Both pairs had the best ball in their foursome, and Kellogg and Mitchell won their individual matches for the other two points.

The golfers opened the week at Middlebury April 27, where the Vermonters triumphed 5-1; the next day at Williams, Benjamin took low count in his match for Bowdoin's point in a 3-5 tally. Playing at Amherst Wednesday, Kellogg had a match to gain Bowdoin's only place, 5½-1½. Thursday's game at Wesleyan was dropped to the opponents 4-2.

## NETMEN TAKE FOUR VICTORIES

"The recent tennis trip was the most successful and probably the best one in Bowdoin's tennis history," said Bob Ashley, captain of the Polar Bear team. "No team in fact I know has returned with four victories in six matches since the schedule has been made as difficult as it is now." Amherst, one of the strongest small college teams in the East, was replaced by Worcester Tech this year, however, which somewhat lightened last year's strong freshman contingent.

Led by Captain Ashley, state singles champion, Win Thomas, number two man, and Howie Dana, number three man, the team of seven played six consecutive matches in as many days only losing to Wesleyan and Williams. Only one match was dropped in one of the three victories over Middlebury, Worcester and Tufts while there was a five match margin over Trinity.

### Punting Outstanding

Frank Purington '38, was one of the outstanding singles players of the tourney, and a consistent winner. His closest match was with Koir of Middlebury, over whom he triumphed 8-6, 7-5. At Wesleyan, which beat Bowdoin 7-2, Purington won the only singles match for the Bowdoin team.

Very encouraging result of the trip was the success of the doubles combination of Eddie Kellogg and Eddie Benjamin '37, and Eddie Owen '38. The strength of this combination added much to the showing of the team and at Wesleyan, these two played the only victorious doubles match.

The results of the trip were as follows:

Bowdoin 8; Middlebury 1.
Williams 9; Bowdoin 6.
Bowdoin 8; W.P.I. 1.
Wesleyan 7; Bowdoin 2.
Bowdoin 8; Tufts 1.
Bowdoin 8; Tufts 1.

for the other two points.

The golfers opened the week at Middlebury April 27, where the Vermonters triumphed 5-1; the next day at Williams, Benjamin took low count in his match for Bowdoin's point in a 3-5 tally. Playing at Amherst Wednesday, Kellogg had a match to gain Bowdoin's only place, 5½-1½. Thursday's game at Wesleyan was dropped to the opponents 4-2.

## White Trackmen Prepare For State Meet At Orono

(Continued from page 2)  
of whom have done the distance under 52 seconds and therefore will be potential point scorers.

Johnny Shute and Carl Cowan are the Polar Bear's chief hopes in the 880 yard run. Both are strong smart runners, and Shute has covered the mile mark in a fraction over two minutes. Other hopefuls in this event are Mat Lord, who was in the Interfraternity Tech this year, however, which somewhat lightened last year's strong freshman contingent.

Porter Threlkeld Vevey In the long distance events, Bob Porter, who holds the college record of 4:27 3-5 for the mile and 9:55 2-5 for the two mile, is being groomed especially for the two mile run. Regardless of what event he appears in, Bob will have to do some fine running to beat Cliff Veysey of Colby, who has consistently bettered Porter's marks this winter by a few seconds.

For his other entries in the longer runs, Coach Magee can choose from Charlie Young, two mile winner at Springfield, Ditto Bond, Kirby High, and Carl Cowan.

### Weak in Field Events

Excluding this group of running events, Bowdoin's potentialities in the other events are few and far between. In the pole vault Dave Rideout has cleared 12 feet but neither Duer, Grey, or Owen have come near this year. In the broad jump Bill Soule has cleared 22 feet and should place Saturday. Jeff Stanwood, Bill Owen, and Dave Soule are also entered in this event.

Jeff Stanwood has never cleared six feet in the high jump, but is considered Bowdoin's best shot-putter. He has been unable to heave the ball beyond the 42 foot mark.

It is improbable that Bowdoin's strength in the running events will offset her weakness in field events but Magee's men are going to Orono to fight and to fight hard. It may be sufficient to bring back to Brunswick the coveted title which was lost at Lewiston last year.

## J. V.'s Defeat Thornton In Close Battle Monday

Playing behind the tight pitching of Ralph Gould, who had just returned from the annual Polar Bear baseball trip, Bowdoin's junior varsity nine won over Thornton Monday afternoon 2-0. Monday afternoon on Pickard Field, Ed Vergason, Jayvée second baseman, made a spectacular catch in the first of the seventh to put the game on ice for the White. With two men on base, a fly was hit over Vergason's head but he made a quick jump and hauled the ball out of the air and made the putout, thereby preventing a tie in the last frame.

In the second and third innings, there were four double plays in quick succession. Bowdoin's first one came in the second being from Frazier to Vergason. Gould's second one came when Frazier to Haire to Haire to Corey. Gould's pitching gave only three hits and eight strikeouts. Haire was the outstanding hitter of the afternoon with a triple and a single.

VOL. LXVI

(66th Year)

BRUNSWICK, ME., WEDNESDAY, MAY 13, 1936

NO. 5

## The Sun . . . Rises . . .

**By William Kibler, Jr.**  
**THE** lack of interest evinced by Bowdoin undergraduates for the Veterans of Future Wars was exceedingly disconcerting. While most observed a concession to the movement which would soon go on the wane, once the publicity subsided, many felt that Bowdoin definitely failed to do its duty when they failed to participate in the organizations. They felt that an organization of such obvious worth should not be ignored.

In case the floods continue the lack of interest. The time when most chapters of such an organization are formed is within the first few weeks of its existence. The publicity is at its highest then, and the novelty attracts many. Unfortunately, Bowdoin was not in session during the prime spawning period. Just at the right psychological moment, the Androscoggin rose and forced the cessation of studies.

HOWEVER, it is decidedly unfair to place all the blame on the river. Certainly, were the Bowdoin student body as liberal and as far-seeing as they seem to think, some action would have been taken. However, the significant fact remains that the organization did not act. The so-called liberal elements either bungled or ignored the opportunity to render the country a great service.

Some argue that the organization was not rendering any service other than to make itself a nuisance on a large scale, and that Bowdoin was to be excused for not entering. These people have failed to get the significance behind the organization. The Princeton men who started the Veterans were serious about the whole affair. This does not mean that they expected or wanted to get the bonus for future military service to the country. They merely wanted to show the country how foolish the whole bonus business was. No method is better suited for this purpose than satire. Therefore, through satire that they decided to work. Herein lies the value to the nation. The Veterans may pass, but they have done their bit. Bowdoin has definitely slipped in failing to aid in the movement.

**T**HIS college is to be congratulated again for the fine support given to high school dramatics by the annual one-act play contest. For the past several years Bowdoin has sponsored this activity among the high schools until it became one of the most popular interests all over the state. When the tournament was first started, in 1932, only three districts were enrolled. The recent contest saw the winners of nine different districts representing over fifty high schools. The enthusiasm and interest in the drama among the high school students cannot fail to have results. It was noticeable in the recent contest that the acting was far superior on the whole to the work shown a year ago. The drama is an important attribute to the culture of any people. For fostering this culture, the college is to be commended.

**T**HE action of the college to cut down the size of the freshman class to enter next fall is very likely to be followed by Bowdoin. But for many years maintained a high standard of scholarship. To keep this up, it has been necessary to make the entrance requirement much higher than is normal. This year has shown, however, that strict, inflexible requirements may not be necessary.

The admissions last fall of men who would ordinarily not have passed the requirements was a most happy experiment. The record of most of these men who entered by special dispensation, have been very good. The number our ranking men of the class believe in this group. The use of a flexible entrance system, within reason, has been successful. Whatever the size of future incoming classes, it is to be hoped that the system used so effectively this past year, will be maintained.

**P**ORTLAND ALUMNI CONVENTION IN UNION

About 55 sub-freshmen from the Portland district and as many alumnae attended the spring meeting of the Class of Portland last Wednesday at the Moulton Union, President Sills being the principal of the Arts Division, read a paper on the

## FOUR NAMED AS SPEAKERS FOR GRADUATION DAY

**Committee Selects Mitchell, Freedman, Hall, Swift, From Seniors**

## ALL PROMINENT IN CAMPUS ACTIVITIES

**Howard H. Vogel Alternate; Orators Will Present Varied Subjects**

**By Robert S. Mallon**

In chapel service Friday morning President Sills announced that the committee on Commencement Speakers, Wilmot B. Mitchell, chairman, had selected the following members of the senior class to speak at the Commencement exercises on June 10:

Jeanne B. Bourne, Nathan Freedman of Haverhill, Mass.; Lawrence Sargent Hall of Haverhill, Mass., Burroughs Mitchell of New York City and Everett Lewis Swift of Exeter.

The alternate speaker will be Howard H. Vogel, who is a member of the Woodmen of the World.

Bernard Freedman, non-fraternity, is a history major. He received his Phi Beta Kappa key last year, and besides being a member of the Classical Club, was a member of the Class of Romance this year. The title of his speech is "Certainty in Uncertainty".

Lawrence Hall, Chi Psi, is a major in English and a member of the Plumer Prize Speaking and this year winner of the Class of '36 Prize Speaking. He is on the editorial board of the Quill to which he also contributes and is a member of the Masque and Gown and the Glee Club.

"Romance" is the title of his speech.

**Mitchell Will Speak**

Burroughs Mitchell, Psi U, also an English major, will speak on "Culture and Democracy". He is editor-in-chief of the Beloitian and member of the Beloit Drama Club.

"Search for Security" is the Commencement speech of Everett Swift, non-fraternity, who is an English History major and who received his Phi Beta Kappa key last year. A member of the Debating Council, he was also in the Plumer and Class of Romance.

The alternate speaker, Howard Vogel, non-fraternity, is a Biology major and a Phi Beta Kappa. He has been active in the Masque and Gown and the Glee Club.

His speech is "Critic's Tour on the Cook-Perry Controversy."

**ART-DAY ATTRACTS MANY MAINE WOMEN**

About 150 delegates from various chapters of the Maine Federation of Women's Clubs were guests of Bowdoin College last Friday at the biennial Art Day Convention. The program provided an opportunity for members to examine many works of art which they have studied during the past year.

President Kenneth C. M. Sills delivered a welcome from the college and the response was made by Mrs. Maybelle H. Brown, president of the Maine Federation of Women's Clubs. Mrs. A. M. Turner, chairman of the Arts Division, read a paper on the

## SEAGRAVE MADE VICE-PRESIDENT

**Convention Of Debaters Holds Elections, Endorses New Oxford System**

**By John H. Rich, Jr.**

At the annual convention of the Eastern Intercollegiate Debating League held Saturday afternoon and Saturday evening, Norman P. Seagrave '37, speaking on "Faith of Our Fathers", won first place and Donald R. Bryant '37 won second in the annual Stanley Plummer Prize Speaking for juniors held Saturday afternoon at the Hubbard Hall last Friday. Bryant's subject was "The Future of the Supreme Court." Other competitors were Charles F. Brewster '37, William S. Burton '37, and Paul Welsh '37.

Seagrave's speech was an appeal to patriotism and a call to retain the faith in God that inspired the early pioneers to make our country what it is today. He spoke of the rise of our sense of appreciation of our ancestors that is brought about by Patriotic Day orators and speakers such as himself.

"Our country is great," he said, "but do we stop to wonder just why our forefathers would leave the security of civilization for a howling wilderness?"

He went on to query, "What was this dynamic 'Faith of Our Fathers'?" Was it fanaticism?" His answer was that whatever we may call it we cannot neglect the fact that it was a fundamental part of their beings and that they lived faithfully according to it.

"On the other hand," he said, "we the more stable and solid people, are proud that we are able to maintain our peace. We don't get too excited about anything." Continuing he condemned our indifference to the social injustices and economic inequalities that are apparent in our present world. "We are become a nation of hypocrites," he said. "We prize our reverence for the individual and for the dignity of man, and we force millions of people to live on what

**HOUSES DRAFT 200 PLANS FOR IVY**

**Picnic Outings And Boat Trips Feature House Party Programs**

**By Richard C. Fernald**

Before the house dances and boat trips eight houses on the lake will open their doors and two will take boat trips during this year's four-day Ivy house parties.

The convention also decided to inaugurate a new system of debating called the "New System" which had only recently been introduced to this country. Under this plan the audience will be divided into

(Continued on page 2)

**BARTLETT SAYS RANK HELPS GETTING JOBS**

"In the last analysis it is not what you learned here that is important but what you handled in the rest of your life," emphasized Professor Boyd W. Bartlett, in his chapel address last Saturday. Professor Bartlett told his audience that they were making a grave error if they thought that with the acquisition of a great number of successes were as great as graduation.

To bring out his point, he told of a West Point man who graduated from his class who was applying for a position in a large firm. Even though he was ignorant of some of the fundamentals of the business he received the position because of his high standing in the class.

After the speaker informed the undergraduates that employers look for two things in the character of the applicant: intelligence and dependability—dependability to include both honesty and industry.

The list of bands at the house dances follows:

Wednesday evening—Delta Upsilon, Jan. Campbell; Chi Psi, Pal Upton, Joe Venuti; Sigma Nu, Baron Lee; Alpha Phi, Danny Murphy; and Beta Theta Pi.

The lecture will be open to members, all undergraduates, and friends of the college.

**Biological Post Gets Valuable Instruments For New Station**

**By William Frost**

Complete with anemograph, wind-direction recorder, hydrograph and other valuable scientific apparatus, a new meteorological station is to be installed at Kent's Island, Maine.

The station, which was installed in 1895, recently became the property of the Blue Hill Meteorological Observatory, which has been located there since 1912. A leading institution in the study of the upper air, it maintains three balloons with automatic radio equipment for communicating instrument recordings to the scientists on the earth west of the Boston State House.

"It is hoped," stated Gross, "that sometime in the future (though not next summer) one of these balloons will be launched from Kent's Island."

The station will be operated by Wilmot Ernest Joy, who will be given training in handling the instruments. Joy remains on the island all year round, so that complete meteorological data may be gathered.

Sundays will be conducted with Harvard will probably be conducted over 80 meter short waves.

Another valuable instrument recently presented to the Bowdoin Biological Station is a tide-reading gauge, given by Mr. Horace S. Shaw, a director of the Mount Washington Observatory, which does experimental tidal work over 5 meters with the Blue Hill Observatory. The Blue Hill Station is situated a mile south-

of the town of Brunswick.

Doctor Charles F. Brooks is director of the Blue Hill Observatory,

which was founded in 1885.

He is a director of the Mount Washington Observatory.

He has written a book on "The Country Church," "The Book of Saint Francis," "The Secret Guests," "The Secret Heart," and "Woodland Orchard." Besides these he read "Lantern in the Snow," "The Secret," "The Fog," and "This Is My Country."

## White Places Second In State Meet; Good Equals Old Record

**Nine Points For The Polar Bear**

Courtesy Bangor Daily News

Bowdoin's star distance trio sweeping the mile run at Maine Saturday

Distance Stars Take All Places In Mile And 880; Good, Porter Win Two

**BOWDOIN COLLECTS FIVE FIRST PLACES**

**Rideout, Soule Both Win; Lack Of Strength Seen In Weights, Dash**

Bowdoin's track and field stars collected five first places, including clean sweeps in the mile and half-mile to upset pre-meet forecasts and place second to a better-balanced Maine aggregation on rain-soaked Alumni Field at Orono Saturday afternoon.

Although the Pale Blue tracksters retained their state crown of a year ago, the outcome was in doubt until the running of the final in the 220-yard dash. A tie was theoretically possible, for had Grey taken a first, and both Murray and Huff failed to place, the tie would have stood. This hope was soon dashed however, as the Maine specialists easily took the first two places, while Gray missed a third by inches.

The sweeping of the mile and 880 by Bowdoin's distance stars, Porter and Soule, together with Bond in the first event and Cowan in the second, showed the results of Coach Magee's strategy in placing his men where they were most effective. Because of the slippiness of the track, no one who approached the starting line was able to get a good start except the one which Phil Cowan equalized his specialty, the high hurdles. It was apparent, however, that several low marks would have been established had the weather been more favorable.

**Four Hurdlers Quality**

Despite the fact that Bowdoin qualified four men in each hurdle event, Good was the only one who was able to place. Owen lost third place to Fuller of Colby by inches in both of these races, while Good finished yards ahead of his old teammate.

Charley Young uncorked a beautiful sprint in the two-mile to beat DeVeber of Colby, and Tubbs of Bates thus netting Bowdoin a valuable point.

Young won handily in the creditable time of 10 minutes 2 seconds considering the condition of the track.

Two other praiseworthy Bowdoin contenders in the distance events were Jeff Stowman who cleared six feet in the high jump to set a new Maine record, and Fred and Dan Headly who bettered their previous record by eighteen inches to place third in the shot put.

**Miles Takes 440**

The quarter mile was somewhat of a disappointment to Bowdoin followers. Hurdlers of Maine running in the first position always found and kept their lead throughout the entire race. Marvin's gallant effort in the stretch missed the winner by about three feet. Gray, the other White entry, finished with a strong sprint but was beaten out of third place by Howard of Bowdoin.

The pole vault resulted in a major upset when Meagher of Bates went out at eleven feet eight inches. Neither Rideout nor Hardison of

(Continued on page 4)

**Greeley Points Out Demand For Loyalty**

Loyalty was the subject of the address given in chapel last Sunday by the Reverend Diana M. Greeley, of the Arlington Street Unitarian Church, Boston. Taking for his text the seventh chapter of Matthew, the reverend said: "And Jesus said unto them, 'If ye love me, keep my commandments.'"

Meanwhile the Polar Bears have two engagements in the near future. On May 16 they will play at the Standard Athletic Club in the St. Cloud section of Paris are tentative. The homeward voyage will be made on the Laconia, leaving Liverpool on July 18.

The men who will make the trip are: George H. Hinman '36, saxophone; Robert W. Baker '37, saxophone; Frederick L. Gwynn '37, piano; Robert W. Laffin '38, trumpet; Mark E. Kelley '39, guitar; and Thurston S. Summer '34, who made the arrangements for the American-Anglo trip in 1934.

Arrangements in London and in Paris are tentative. The homeward voyage will be made on the Laconia, leaving Liverpool on July 18.

The men who will make the trip are: George H. Hinman '36, saxophone; Robert W. Baker '37, saxophone; Frederick L. Gwynn '37, piano; Robert W. Laffin '38, trumpet; Mark E. Kelley '39, guitar; and Thurston S. Summer '34, who made the arrangements for the American-Anglo trip in 1934.

The lecture will be open to members, all undergraduates, and friends of the college.

## Bones And Skeletons Decorate Chamber Of Horrors In Adams

**By Leonard J. Coles**

After long years of existing for the gratification of adventurous exploratory souls, and of service as a happy hunting ground for Saturday night visitors, the "Chamber of Horrors" in the top of Adams Hall is being dismantled. A group of students working under the direction of Professor Alfred O. Gross is engaged in removing from their old home the last remnants of a macabre collection and in a few days the ghastly souvenirs of Bowdoin's old Medical School, closed in 1922, will have vanished from the college halls.

Adams 401 has long been an attraction for Orient reporters as well as for students and visitors of all kinds. Only two years ago together reporter John Chapman '36 investigated the debris in a literary way, and posed the question, "If Adams Hall should come to a timely end, what would become of the tenants?"

Today the tables are turned, and the question is, "What will become of Adams 401 now that its tenants have come to a timely end?"

For years the college has been attempting to give the medical school's

collection, including everything from skeletons to microscopes, slides, to various schools (medical, dental, and veterinary). But no institution wanted to take the exhibit, and thus it remained, in utter confusion, to the attic rooms of Adams. Known to only a few students the ghastly denizens of Adams' hall were a cat-o'-nine-tails, distorted ends of sticks, grotesque sights.

As one enters now, he is impressed by a scene of utter desolation and destruction. A shriveled skinless human body, both standing aimlessly in the middle of the room, confront him. Scattered about on the floor is the debris of the moving, consisting largely of odd bits of human anatomy, skin, bones, and others made to look like they put a value into it."

Five types of loyalty are mentioned by Mr. Greeley: the loyalty of love; the loyalty to ideals; the loyalty of patriotism; loyalty to people and the social group; loyalty to truth; and finally, loyalty to self. In this case, Mr. Greeley admitted that loyalty is not popular.

"But," he said, "it is not enough to prophecy in His name; we must live as He lived."

"It is unselfish loyalty that makes our lives worth while to ourselves and to others," he declared, giving the devotion of the mother to her child as an example. "It is easy enough to subscribe to high ideals, but it takes loyalty to live up to them."

Mr. Greeley went on to say that if one knows a man's loyalties one can tell his actions, and that great lives have been built upon great loyalties.

He gave illustrations of this kind of loyalty, such as the story of Edith Cavell and Louis Pasteur.

Pasteur, he said, "was the loyalty behind his life that gave it strength and beauty." Of all these figures he said, "They got a value out of life because they put a value into it."

Five types of loyalty are mentioned by Mr. Greeley: the loyalty of love;

the loyalty of patriotism; loyalty to people and the social group; loyalty to truth; and finally, loyalty to self.

Mr. Greeley admitted that loyalty is not popular.

"But," he said, "it is not enough to prophecy in His name; we must live as He lived."

## Mustard and Cress

This "column" can do no better than open this week with a transcription from our cousin column "Gimblings in the Wake" which appears every Thursday in the Brunswick Record, and is written by John T. Gould '38.

"It is with tremendous satisfaction (triumphant, indeed) that I learn that the Bowdoin Orient has discovered why 'Mustard and Cress' is so named, and has been so named since '90 Davis and I first gave it life in the basement of the Bowdoin Hall back when the Orient was a newspaper, and the editors were always being called up for slander, libel, dirty-work, and Ingenuity ranging from misquotations to organizing hang-pole illustrations. We were a canny bunch, you know."

Mrs. Ralph Childs traced the "Mustard and Cress" business to a Gilbert and Sullivan opera, and we allowed her to do so without raising a finger.

But it was a rare person indeed who quoted "The Snark" and nodded, O so.

m - a

Bob Bates makes the distinction of being the only member of President's cast of bed. Whether or not this assertion is authentic does not matter, nor is it our present intent to investigate. The circumstances are what the circumstances. Last Friday evening Bob had occasion to see Casey about nine-thirty and went over to his home and rang the bell. Casey had retired early after a strenuous day with the Federated Women's Club of North Haven and had to be roused out of a sound sleep. Bob found out what he wanted and then departed leaving in a newly acquired frame.

m - c

The art meeting itself had its definite side. After the much-heralded Union Journal, the ladies proceeded earnestly across the campus to Mrs. Session's little building. Here they vented their artistic fervor on a suit of Chinese armor. Some of the more prominent members spent the afternoon pondering what the little handbags were for that the Assyrians were carrying around on the reliefs down stairs.

m - e

Stan Belkoff (the bottle boy, according to last year's *Lugubris*) is in luck. We met an old friend on campus last week who was looking for a youthful prodigy, who, it seems, had won a prize with a successful design for a sewing machine company. "But what can he use a subscription to a ladies' fashion magazine for?" philosophic-

DEBATING LEAGUE  
HONORS SEGRAVE

(Continued from page 1)  
three sections at the beginning of the debate according to whether they favor, oppose, or are neutral toward the proposed amendment. The first section of the debate is conducted as usual under the rules of the "Oregon System" which provides for lawyer-witness cross-examination. The audience will then be allowed to participate in the debate, after the debaters have summed up the case, the audience will vote again on the merits of the question and the three judges will announce their decision as to the merits of the debaters.

Another innovation comes as a suggestion from Bates, providing for an Eastern League Debating Tournament to be held at Lewiston next spring. The tournament will include nine or ten colleges in a joint debate somewhat similar to the Interscholastic Tournament held here each fall. The Annual League Convention will be held at the same time as the tournament.

The League debating schedule for next year as far as it affects Bowdoin will be as follows: the first triangle—Bowdoin, Colgate at Mount Holyoke at Bowdoin, and Colgate at Mount Holyoke; the second triangle—Bowdoin and Lafayette at Amherst; the third triangle—Bowdoin at Wesleyan, Bowdoin and Wesleyan at Brown. The other colleges in the League besides those mentioned are Bates and M. I. T.

alby asked the visitor. He decided to let the master go, not bothering to give the student his feminine name.

A day or two ago we met the same agent in the same place again looking for Bob Bates. Said he, throwing up his hands: "The Boss wants it."

About three minutes after class had started Copeland found that his watch had stopped. He knew it was somewhere near one-thirty but was not sure how many. So he asked Nate to stop out in the hall. Nate shouted out, "It's two-thirty." Copeland started to set his watch, then stopped and turned red. The class was not dismissed.

Only 50 windows went out by snowballs on the Bowdoin campus this year, compared with 75 last year. This year the \$1000.00 purse for spring's rock fight between North Hyde and South Appleton took out \$8 at that price.

Vacancies in the ends cost Bowdoin a \$900 loss this year.

Seagrave Wins Prize  
In Plummer Contest

(Continued from page 1)  
food and money up in our heaven-  
ence will allow to them. We talk  
of preserving liberty and yet we tol-  
erate an organization which  
makes a mockery of the very word." He closed with a plea for a return  
to the whole-hearted faith that  
should compute favorably with that  
of our fathers in courage, sacrifice,  
and devotion to high ideals."

Condensed Split Decisions

Bryant's speech was a condemnation  
of the split decisions of the Su-  
preme Court in which the liberal  
judges lined up against the conserva-  
tives. "If Justice Roberts and Justice  
Stone, men of the same legal train-  
ing, men of the same ability and integ-  
rity, working on the same case, with  
the same set of facts before  
them can come to exactly opposite  
opinions," he said. "The Court has failed  
on the legislative branch, the one  
department of our government whose  
function it is to determine policy."

He advocated allowing Congress to  
override the Court's split decisions  
by a two-thirds vote. "Every pre-  
sumption," he said, "should be given to  
a law's Constitutionality. But  
the Constitution must stand firmly in  
favor of a law's constitutionality, it  
does not seem that the other six give  
it every presumption."

He spoke of the changing conditions  
to which the Constitution must  
be applied. In closing he said, "It is  
not for five or six men on the Supreme  
Court bench to halt this trend.  
The Constitution has not outlived its  
usefulness. Its function is to keep  
the meaning of our fundamental law  
as far as possible in accord with the  
changing spirit of the times."

Dan Edwin Christie '37 will head  
the Bowdoin Mathematics Club during  
the coming year, with Richard  
Clapp as vice president and John  
Geyer Thorpe as treasurer. Christie is majoring in mathematics  
and won the \$300 Smyth Mathematical  
Prize last year.

## For Digestion's Sake...SMOKE CAMELS

Smoking Camels stimulates the natural flow of digestive

fluids...which increases alkalinity in bowels.

Life sometimes pushes us so hard that we feel too worn-down ready to enjoy eating. Science explains that hurry, mental strain, and constant tension reduce the flow of the digestive fluids.

Scientific studies definitely show that smoking Camels increases the flow of digestive fluids...alkaline digestive fluids...so vital to the enjoyment

of food and to good digestion.

Camel's rich and costly tobacco are mild beyond words. Enjoy Camels as often as you like—with meals—any time—for their cheering "lift"—for their aid to digestion—for the pleasure they bring. Camels set you right! And never jangle your nerves or tire your taste. Make it Camels today.

CROWDED MINUTES as the reporter works to beat the deadline. "It's a life of hurry, hurry, hurry," says Peter Dabies, newspaper man, "and a life of irregular hours and meals. It's swell the way Camels make food taste better and set better."

## Bowdoin Nine Beats Colby In Initial Series Win, 9 to 2

By RODD BOND

Bowdoin defeated Colby 9-2 in a one-sided baseball game here Monday. Bill Manter pitched the entire game for the White, allowing only four hits and striking out four men. A three base hit and a home run by Bill and Buss Shaw respectively, each of which brought in two runs, were among the high lights of the game. Bud Rutherford was Bowdoin's hitting ace with three singles to his credit out of five times at bat.

An over-the-shoulder catch by Gentry in center field brought deserved applause from the crowd in the bleachers in the latter innings. The only double play of the afternoon went to Gentry and Lemieux, Gentry and Shewell fanned it. Colby Pitching Weak

Colby's pitching was weak throughout the game. The combined efforts of Berrie, Cleveland, and Cole allowed Bowdoin 10 hits and three walks. Three Polar Bears made first as the result of being hit by the Colby team, and only one walk was on strike outs. The Mules made five errors against one for the White. Their hitting star was Farnham with two singles while three batters by Berrie and Lemieux brought the Colby team to a standstill.

The visitors made the first score when in the second inning Brown got on base through Bowdoin's error and came home on Berrie's timely three base hit. In the last half of the same inning however the White took the lead when Harry Birkett walked and Bill Shaw brought him in with his triple. Shaw completed the circuit as the result of an error by Lemieux.

## Both Shaws Score in Third

In the third the two Shaws came through again when both of them made first on base and scored on hits by Gentry and Carrigan. Both hits were in the fourth. Manter was hit by Cleveland, Colby pitcher, and scored on a single by Rutherford. Bill Shaw then hit his homer to score the other two tallies.

Cole got two bases on balls in the fifth inning. Lemieux hit a three base hit and scored on a fielder's choice. The sixth inning saw another score for the White. Bobby Gentry was hit by Cleveland, advanced to second when Davidson grounded out, and scored on Rutherford's second hit.

### GOLF TEAM ANNEXES STATE CHAMPIONSHIP

Defeating Maine 6-3 and Colby 5-4, Bowdoin's golfers won the Doctor Avery Trophy for the State Inter-Collegiate title Saturday for the second consecutive year.

Sprague Mitchell, playing number one man in the match with Maine, finished one down to his opponent, while Roger Kellogg in number two position emerged through the victory, winning with Mitchell the hole and two points in his foursome.

On the second team Wilfrid Girard won his match and Ed Benjamin went down to his opponent, losing the best of two holes. The total of one point Joe Sclar and Ed Owen had team number three won both their matches and beat ball, making the final score 6-3.

Team Enters New England's In the Colby match Kellogg and Benjamin, playing number one and two points, each won one and Sclar two points for a 5-4 victory.

On Thursday of this week the team goes to the New England's held at the Oakley Golf Club in Massachusetts. The men making this trip are Mitchell, Kellogg, Sclar, Owen, and Benjamin.

The team will go to the University of Maine next Monday and Tuesday for the Inter-Collegiate individual championship, won last year by Johnny Boyd '30. It is undecided as to who will be the individual champion.

Don Watt, who usually paces the mile, finished with a terrific sprint, passing Allen and Berry in the last hundred yards to break the tape. He placed second in the 200 dash to take third place in the 880 run.

Hank Dolan, Al Gregory, and George Reardon tied for first in the high jump with a height of 5 feet 4 inches. Charlie Gibble won the broad jump, placing second in the 100 yard dash and was third in the 200 yard dash.

Harry Hood, captain of the freshman track team, won a second place in both the 120 yard low hurdles and the 220 yard dash.

Stiles, Hayes, Davidson, Rutherford, and Shawhan all had two hits apiece.

Three more Polar Bear runs were scored in the fourth. Manter was hit by Cleveland, Colby pitcher, and scored on a single by Rutherford. Bill Shaw then hit his homer to score the other two tallies.

Cole got two bases on balls in the fifth inning. Lemieux hit a three base hit and scored on a fielder's choice.

The sixth inning saw another score for the White. Bobby Gentry was hit by Cleveland, advanced to second when Davidson grounded out, and scored on Rutherford's second hit.

### FRESHMEN CONQUER RUMFORD TRACKMEN

By Porter Jepcott

Bowdoin's powerful, well-balanced freshman track team, in an 84½-41½ victory over Rumford, the 1935 Interscholastic Champions, Monday at Whittier Field.

Bob Hamblen, repeating his of last Wednesday's Boston Frost vs. Winslow High, vs. Cony High meet, was the high scorer of the afternoon. He tallied 15 points with a first in the 120 yard high hurdles, and the 880 yard run.

Hachey ace sprinter of Stephen, and Bulger, versatile field event winner, for the Rumford army, were outstanding competitors with 13 and 14 points respectively. Hachey went to the second team Wilfrid Girard won his match and Ed Benjamin went down to his opponent, losing the best of two holes. The total of one point Joe Sclar and Ed Owen had team number three won both their matches and beat ball, making the final score 6-3.

Team Enters New England's In the Colby match Kellogg and Benjamin, playing number one and two points, each won one and Sclar two points for a 5-4 victory.

On Thursday of this week the team goes to the New England's held at the Oakley Golf Club in Massachusetts. The men making this trip are Mitchell, Kellogg, Sclar, Owen, and Benjamin.

The team will go to the University of Maine next Monday and Tuesday for the Inter-Collegiate individual championship, won last year by Johnny Boyd '30. It is undecided as to who will be the individual champion.

Don Watt, who usually paces the mile, finished with a terrific sprint, passing Allen and Berry in the last hundred yards to break the tape. He placed second in the 200 dash to take third place in the 880 run.

Hank Dolan, Al Gregory, and George Reardon tied for first in the high jump with a height of 5 feet 4 inches. Charlie Gibble won the broad jump, placing second in the 100 yard dash and was third in the 200 yard dash.

Harry Hood, captain of the freshman track team, won a second place in both the 120 yard low hurdles and the 220 yard dash.

Stiles, Hayes, Davidson, Rutherford, and Shawhan all had two hits apiece.

Three more Polar Bear runs were scored in the fourth. Manter was hit by Cleveland, Colby pitcher, and scored on a single by Rutherford. Bill Shaw then hit his homer to score the other two tallies.

Cole got two bases on balls in the fifth inning. Lemieux hit a three base hit and scored on a fielder's choice.

The sixth inning saw another score for the White. Bobby Gentry was hit by Cleveland, advanced to second when Davidson grounded out, and scored on Rutherford's second hit.

### SPORT SIDELIGHTS

By Leighton Nash and Bob Laflin  
Bowdoin's track team and its coach deserve commendation for their performance in last Saturday's State Meet. The Polar Bears, generally picked for third place, pressed the victorious Maine aggregation up to the very end. The outcome, however, proves the advantage held by a well-balanced team. Although Bowdoin won as many firsts as the Black Bears, Maine scored in 13 of the 15 events, emerging at the finish with a comfortable lead of 13 points.

8 — 8

That the White team was primed for the meet is clearly shown by the results of several of the events. Bill and Dave Soule made exceptionally long jumps, tail and all, and this result in the broad jump. Jeff Stowman cleared the high jump bar at six feet, and, although he was beaten by Webb and Ireland of Maine, that is two inches better than his best previous effort; Dan Healy put the shot 1 1/2 feet further than he has ever heaved it before; and Phil Good equaled his own record in the 120 yard highs in spite of a wet, slow track.

The remarkable clean sweeps scored by Porter, Shute, and Bond in the mile and by Porter, Cowan, and Shute in the 880 should raise Bowdoin's hopes for the New England Inter-collegiate to be held at Providence May 22 and 23. Weakness in the weight events will be felt, of course, but this meet is usually very close and the Polar Bears have won before. After looking over the results of the State Meet, Bowdoin's followers should see the team well up in the running next week.

8 — 8

It looks as though Linn Wells has found his long-looking catcher. In Monday's Colby game Dick Griffin played errorless ball behind the plate and hit for .500. If this was any sample of his ability and with Karakashian returned to the mound, Bowdoin's chances are materially increased. The team's timely hitting pins Manter's four-hit pitching also point to better days for Polar Bear baseball.

### BOWDOIN NET MEN CONQUER BOBCATS

The Bowdoin varsity tennis team continued its winning streak by sending the Bates varsity team down to a 7-2 defeat Saturday at Picture Field Courts.

The match was featured by the excellent play of the Salter-Kibbe doubles combination in defeating Bud White, Will Manter, and Leon Buck. Shaw was outstanding for the Polar Bears, making two singles and a doubles win. Rutherford collected two hits and made four assists for Bowdoin at second.

A match with Colby is scheduled here on Thursday, May 14, and, according to manager Thurman E. Price '36, the Polar Bears should repeat their team victory of last year in the annual state tournament to be held at Orono May 25-27. Following are the results of the Bates match:

Ashley beat Reed 6-2, 2-6, 6-2.  
Salter lost to Nixon 6-4, 6-4.  
Bates beat Colby 6-3, 6-4.  
Purinton beat Casterline 6-4, 6-3.  
Shaw beat Manter 6, 0, Berrie 2, of course, and Rutherford beat Lemieux by Cleveland, Manter, Hartman, Gentry. Wild pitch, Cole.

Kibbe and Salter won from Reed and Nixon 6-4, 6-2.

Bowdoin collected two wins in the second and third sets. In the fifth inning, Buss Shaw hit a homer with one man on to score two runs. The Polar Bears scored two more in the seventh and two in the eighth. Bowdoin missed a fine chance in the eighth

### White Team Suffers 19-8 Defeat At Orono

A fighting Polar Bear nine went down to defeat the Bates 19-8 at Orono Wednesday with Maine 18-8 at the Polar Bears.

The match was featured by the excellent play of the Salter-Kibbe doubles combination in defeating Bud White, Will Manter, and Leon Buck. Shaw was outstanding for the Polar Bears, making two singles and a doubles win. Rutherford collected two hits and made four assists for Bowdoin at second.

Bud White, freshman pitcher, started on the mound for Bowdoin, but was pulled out in the last half of the fifth after he had succeeded in retiring two Maine men. He was followed by Will Manter, who, after two innings, gave way to Leo Buck.

Buss Shaw Homers

Bowdoin collected two wins in the second and third sets. In the fifth inning, Buss Shaw hit a homer with one man on to score two runs. The Polar Bears scored two more in the seventh and two in the eighth. Bowdoin missed a fine chance in the eighth

## Bowdoin Outclasses Colby And Bates In State Meet

(Continued from page 1)  
Maine cleared the next height, twelve feet, resulting in a tie between these two for first place. Two more Bowdoin men broke into the scoring in the broad jump. Bill Soule got off a leap of twenty-two feet seven and one-eighth inches for first place, and Dan Healy followed with a sixteen and one-six for third. Both these jumps were made in the morning before the strong adverse wind came up.

An error occurred in the finals of the low hurdles when officials placed the first set of barriers on the line marked for the high jump event. At first it was decided to run the heat over, but after a consultation, the first decisions were allowed to stand because of the improbability of a second race making any change in the results.

The summary:  
120-Yard High Hurdles  
First semi-final—Won by Good (Bo); second, Owen (Bo); third, Fuller (C). Time—15.2s.

Second semi-final—Won by Gowell (M); third, Denane (Bo); fourth, Estabrook (Bo).

Final—Won by Good (Bo); second, Gowell (M); third, Fuller (C). Time—15.1s. flat (equals meet record).

100-Yard Dash  
Final—First heat won by Keller (Bo); second, Higgins (Bo). Time—10.2s.

Second heat won by Murray (M); second, Soule (Bo). Time—10.2s.

Third heat won by Huff (M); second, Kock (Bo). Time—10.2s.

220-Yard Dash  
Final—First heat won by Murphy (M); second, Kock (Bo); third, Deane (Bo). Time—24.4s.

Second semi-final—Won by Gowell (M); second, Owen (Bo); third, Estabrook (Bo). Time—24.4s.

Third semi-final—Won by Huff (M); second, Turbina (C); third, Gray (Bo). Time—24.4s.

Final—Won by Murphy (M); second, Kock (Bo); third, Turbina (C). Time—24.4s.

220-Yard Low Hurdles  
Final—First heat won by Murphy (M); second, Fuller (C); third, Deane (Bo). Time—15.2s.

Second heat won by Murphy (M); second, Huff (Bo); third, Howard (Bo). Time—15.2s.

Third heat won by Gowell (Bo); second, Covran (Bo); third, Shuler (Bo). Time—15.2s.

One among Shuler, Gowell and Porter (Bo). Time—15.2s.

Two-mile Run  
Won by Veysey (C); second, Hunswell (M); third, Young (Bo). Distance—10 miles.

Pole Vault—Won by Keller (Bo); second, Frame (M); third, Estabrook (Bo). Distance—14 ft.

Javelin—Won by Bell (M); second, Kibbe (Bo); third, o'Farrell (Bo). Distance—180 ft. in.

Pole vault—The between Rutherford (Bo), and Kibbe (Bo); third, Meagher (Bo). Height—11 ft. 8 in.

Hurdle jump—The between Ireland and Webb (Bo); third, Stanwood (Bo). Height—11 ft. 4 in.

Broad jump—Won by W. Soule (Bo); second, Gowell (M); third, Hartman (Bo). Distance—22 ft. 17 1/2 in.

Hammer throw—Won by Kibbe (Bo); second, Frame (M); third, Estabrook (Bo). Distance—17 ft. 10 in.

Javelin—Won by Bell (M); second, Kibbe (Bo); third, o'Farrell (Bo). Distance—180 ft. in.

Pole vault—The between Rutherford (Bo), and Kibbe (Bo); third, Meagher (Bo). Height—11 ft. 8 in.

Hurdle jump—The between Ireland and Webb (Bo); third, Stanwood (Bo). Height—11 ft. 4 in.

Broad jump—Won by W. Soule (Bo); second, Gowell (M); third, Hartman (Bo). Distance—22 ft. 17 1/2 in.

Hammer throw—Won by Kibbe (Bo); second, Frame (M); third, Estabrook (Bo). Distance—17 ft. 10 in.

Javelin—Won by Bell (M); second, Kibbe (Bo); third, o'Farrell (Bo). Distance—180 ft. in.

Pole vault—The between Rutherford (Bo), and Kibbe (Bo); third, Meagher (Bo). Height—11 ft. 8 in.

Hurdle jump—The between Ireland and Webb (Bo); third, Stanwood (Bo). Height—11 ft. 4 in.

Broad jump—Won by W. Soule (Bo); second, Gowell (M); third, Hartman (Bo). Distance—22 ft. 17 1/2 in.

Hammer throw—Won by Kibbe (Bo); second, Frame (M); third, Estabrook (Bo). Distance—17 ft. 10 in.

Javelin—Won by Bell (M); second, Kibbe (Bo); third, o'Farrell (Bo). Distance—180 ft. in.

Pole vault—The between Rutherford (Bo), and Kibbe (Bo); third, Meagher (Bo). Height—11 ft. 8 in.

Hurdle jump—The between Ireland and Webb (Bo); third, Stanwood (Bo). Height—11 ft. 4 in.

Broad jump—Won by W. Soule (Bo); second, Gowell (M); third, Hartman (Bo). Distance—22 ft. 17 1/2 in.

Hammer throw—Won by Kibbe (Bo); second, Frame (M); third, Estabrook (Bo). Distance—17 ft. 10 in.

Javelin—Won by Bell (M); second, Kibbe (Bo); third, o'Farrell (Bo). Distance—180 ft. in.

Pole vault—The between Rutherford (Bo), and Kibbe (Bo); third, Meagher (Bo). Height—11 ft. 8 in.

Hurdle jump—The between Ireland and Webb (Bo); third, Stanwood (Bo). Height—11 ft. 4 in.

Broad jump—Won by W. Soule (Bo); second, Gowell (M); third, Hartman (Bo). Distance—22 ft. 17 1/2 in.

Hammer throw—Won by Kibbe (Bo); second, Frame (M); third, Estabrook (Bo). Distance—17 ft. 10 in.

Javelin—Won by Bell (M); second, Kibbe (Bo); third, o'Farrell (Bo). Distance—180 ft. in.

Pole vault—The between Rutherford (Bo), and Kibbe (Bo); third, Meagher (Bo). Height—11 ft. 8 in.

Hurdle jump—The between Ireland and Webb (Bo); third, Stanwood (Bo). Height—11 ft. 4 in.

Broad jump—Won by W. Soule (Bo); second, Gowell (M); third, Hartman (Bo). Distance—22 ft. 17 1/2 in.

Hammer throw—Won by Kibbe (Bo); second, Frame (M); third, Estabrook (Bo). Distance—17 ft. 10 in.

# THE BOWDOIN ORIENT

VOL. LXVI

(66th Year)

BRUNSWICK, ME., WEDNESDAY, MAY 20, 1936

NO. 6

## The Sun Rises

By William Klauber, Jr.  
The Orient wishes to congratulate the Ivy Dance Committee for the preparations made for this year's party. It may be recalled that this column urged immediate action by the students when the date was first formed several months ago. Past experience had proven that the earlier the committee went to work, the better were the results. Fortunately for the college, this group has been actively attacking the various problems concerned. It is right from the start. The selection of Louis Armstrong as the gym dance band has met with wide approval. All indications are for one of the most successful parties in many years. To Dick Baker and his committee go the thanks of all the college for a job done well and efficiently.

THROUGH the agency of the Associated Collegiate Press a survey of student opinion on football teams was taken. Since the Southern Conference boldly admitted that they were buying players, there has been much controversy on the subject. The Carnegie Foundation made a survey in an effort to determine the extent to which men were being bought. This was helpful in determining how widespread this activity was. It did not give any indication of the opinion of the students on the subject.

As far as can be determined, the main defense for the system of playing buy is that "we can't do what we do in so why shouldn't we?" This philosophy is certainly not constructive. It leads to commercialized games where good clean sport is sacrificed to the great god Victory. While it is not true that Bowdoin is to feel that the problem is of such intercollegiate importance that it is well worth considering at Brunswick. Are players to be bought, or is the sport to remain amateur?

THE ACP says in its article, "The main question is this: What does the Southern Conference start on December 13, 1935? Will other conferences and other schools follow suit? Will college football become a rival of the pro game, in which case it might logically be expected, to the Cook-Pettrey controversy?"

The first of the questions is hard to answer. Too little time has passed since this occurred to determine whether they started anything new. The second for the same reason, no one has yet been able to answer it. However, the 4th question can, and certainly must, be answered. It seems a shame that a game, established to provide outlets for collegiate athletic ability, should become commercialized to such an extent. If the college sport becomes such a business organization that men are hired to play, the teams are not representing the college. Certainly, such a condition must be avoided if possible.

THE activities occurring during the past year have given a definite program to the duties it now has to fulfill. The seating capacity is smaller than is now necessary to accommodate the college, but when outside groups such as the Rotary Club attempt to use it, the hall seems doubly cramped. We realize that Bowdoin has been suffering from the depression as well as every other institution, and therefore, we are not advocating the immediate construction of a new hall. However, we do want to continue to be the committee in charge that there is a pressing need of the college. Among the first things to be built, as soon as it is feasible, should be a new assembly hall.

## COLLEGE PLANS NEW SATURDAY COMMENCEMENT

131st Graduation Exercises Set At End Of Week For First Time

## MARLOWE DRAMA TO BE PRESENTED

Four Seniors: Mitchell, Hall Freedman, Swift Will Deliver Orations

By Leonard J. Oakes  
Beginning with Providence, the Accademy will be followed in the First Parish Church on Wednesday, June 17, and proceeding through a four-day program to the Commencement Exercises on Saturday, June 20. Bowdoin's 131st Commencement will conclude the end-of-the-week schedule, except upon the arrival of the Mortar Board. Alfred C. White '38 was elected to the business board.

Features of the program are the Class Day Exercises under the Thorndike Oak, the Commencement Ball, a game of "Commerce" for the class of 1931, and the outdoor presentation of Christopher Marlowe's "The Jew of Malta" by the Masque and Gown on the steps of the Walker Art Center.

New Plan Experimental  
Differing radically from last year's program, the 1936 Commencement is an experiment. The new plan came as the culmination of a great deal of agitation on the part of recent graduates who felt that the former system of mid-week exercises was inconvenient. In this year, Bowdoin is probably the only college in the country to hold the actual graduation ceremonies on Saturday.

The Commencement Exercises will include four speakers recently chosen by the class standing class. Edward N. Freedman will speak on "Romance"; Lawrence S. Hall on "Romance"; and Burroughs Mitchell on "Culture and Happiness"; while "Search for Security" is the title of Everett L. Swift's address. Howard H. Vogel is the alternate speaker.

At the Class Day Exercises, June 17, the class of 1931 will be presided over by Richard O. Jordan; John V. Shute will give the history of the class; and Mr. and Mrs. H. C. Foss will be honored as guests.

However, the 4th question can, and certainly must, be answered. It seems a shame that a game, established to provide outlets for collegiate athletic ability, should become commercialized to such an extent. If the college sport becomes such a business organization that men are hired to play, the teams are not representing the college. Certainly, such a condition must be avoided if possible.

FOLLOWING the Class Day ceremonies, Mrs. Sills will be at home at the Bowdoin House to receive the likes of the members of the graduating class and to alumni and friends. Tea will be served in the Moulton Union from 4.30 to 6.00 p.m. On Friday, June 19, a reception will be held by the President and Mrs. Sills, in the Moulton Union, from 4.00 to 5.30 p.m.

During the week-end, meetings will be held in Hubbard Hall by the Trustees, the Overseers, and the Phi Beta Kappa Society, Alpha of Maine. On June 19, the annual meeting of the Alumni Association will take place in the Moulton Union, and the meeting of the Directors of the Alumni Fund will be held in Massachusetts Hall.

## Savage, Atlantic Puffin Expert To Be "Man Without A Country"

The unique experience of being a "man without a country" for a summer will be accorded this July and August to Ralph B. Savage, Jr., '38, the Puffin Islander, member of the Kent's Island's expedition. According to extensive research recently made by one of the directors of the expedition and communicated to William A. O. Gross '37, in charge of the field party, Machias Seal Island, the Atlantic Puffin pursued his theological studies, is at present without any definite political status in the year other than the fall.

A matter concerning the now reported to be Xmas vacation should be brought to the attention of the undergraduates and the Student Council so that if they wish to take action they may do so before the governing boards confirm it. June the fact that the first day of Xmas vacation is a Wednesday. This would put the vacation on Monday and Tuesday nights, which are debatable dates for them. The preceding Friday and Saturday might be preferable.

## HAAS LECTURES TO MATHEMATICS CLUB

At a meeting of the Mathematics Club held Friday evening in the Union, Professor Arthur Haas of the physics department lectured on "Cosmological Problems." The talk was composed of highlights from another lecture that Dr. Haas gave in Lewiston on Saturday.

Using Eddington's equations as a basis he showed that certain theoretical results coincide with experimental findings in regard to light spectra from distant spheres in such a way that our universe is expanding

## Latest Growler Issue Will Appear Tomorrow

The Ivy Growler issue of the Growler will appear tomorrow, containing a number of features and several new writers. The cover, designed by Duncan K. Whitehill '38 represents a Party, male and female, dancing. The record column by James O. Dennis '38 reports on several of the newer disks. The book column by Frederick L. Gwynn '37, several cartoons by Edward E. Newhall '38 are features of the new issues.

The feature article is called "Casual Maleable Sandpaper," being more or less in rebuttal of an article in *Vogue* entitled "Rough and Smooth" in which the results were of college women on what their man should be recorded.

In recent elections James R. West '38 was chosen editor of the Growler, and Frederick L. Gwynn '37, James O. Dennis '38, and Donald C. Stevens '38 were elected to the editorial board. Alfred C. White '38 was elected to the business board.

Features of the program are the Class Day Exercises under the Thorndike Oak, the Commencement Ball, a game of "Commerce" between the class of 1931 and the out-door presentation of Christopher Marlowe's "The Jew of Malta" by the Masque and Gown on the steps of the Walker Art Center.

New Plan Experimental

Differing radically from last year's program, the 1936 Commencement is an experiment. The new plan came as the culmination of a great deal of agitation on the part of recent graduates who felt that the former system of mid-week exercises was inconvenient. In this year, Bowdoin is probably the only college in the country to hold the actual graduation ceremonies on Saturday.

The Commencement Exercises will include four speakers recently chosen by the class standing class. Edward N. Freedman will speak on "Romance"; Lawrence S. Hall on "Romance"; and Burroughs Mitchell on "Culture and Happiness"; while "Search for Security" is the title of Everett L. Swift's address. Howard H. Vogel is the alternate speaker.

At the Class Day Exercises, June

17, the class of 1931 will be presided over by Richard O. Jordan; John V. Shute will give the history of the class; and Mr. and Mrs. H. C. Foss will be honored as guests.

However, the 4th question can, and certainly must, be answered. It seems a shame that a game, established to provide outlets for collegiate athletic ability, should become commercialized to such an extent. If the college sport becomes such a business organization that men are hired to play, the teams are not representing the college. Certainly, such a condition must be avoided if possible.

Mrs. Sills To Entertain

FOLLOWING the Class Day ceremonies, Mrs. Sills will be at home at the Bowdoin House to receive the likes of the members of the graduating class and to alumni and friends. Tea will be served in the Moulton Union from 4.30 to 6.00 p.m. On Friday, June 19, a reception will be held by the President and Mrs. Sills, in the Moulton Union, from 4.00 to 5.30 p.m.

During the week-end, meetings will be held in Hubbard Hall by the Trustees, the Overseers, and the Phi Beta Kappa Society, Alpha of Maine. On June 19, the annual meeting of the Alumni Association will take place in the Moulton Union, and the meeting of the Directors of the Alumni Fund will be held in Massachusetts Hall.

**Savage, Atlantic Puffin Expert To Be "Man Without A Country"**

The head selectman of Cutler, Maine says that there was once an American who had difficulty in keeping afloat in the Atlantic Ocean. Machias Seal in the township of Cutler. Although Canada has a light-house there, no Canadian laws seem to be obeyed on Machias Seal Island: the lobstersmen of the region set their traps there, the Canadian government on location, and the light-house keeper brings supplies to the island duty-free from the United States.

"Like Bermuda, Machias Seal is on the high seas. During this summer the U.S. Island Service will publish an aerial map of the island for the U.S. State Department, will have the island surveyed by James Levington of Harvard University, and will try to discover evidence of former light-houses on the island.

According to Professor T. C. Van Cleve, an uninhabited island without settled political status would be unique in the world at present. Several small, rocky, uninhabited islands in the Pacific Ocean have until recently been uninhabited and completely bare, but now they are being used by the U.S. in connection with the trans-Pacific air route. There were at one time many inhabited islands in the Pacific which remained unoccupied by anything but primitive tribal tribes—but an uninhabited island with no legitimate or political government would probably be an unparalleled phenomenon in modern geography.

A crime committed on such an island, stated Professor Van Cleve, might bring about a legal wrangle on which he would care to venture no opinion.

A new sub-station of the Bowdoin Biological Station will be assigned this summer to Savage on Machias Seal Island, where is one of the best

Mentor Considers Bowdoin's Chances Weaker Since Porter's Injury

## GOOD AND RIDOUT SHOULD WIN POINTS

Soule, Who Placed In 1935, Will Compete Against Johnson Of M.I.T.

By Reed H. Ellis, Jr.

Bowdoin's chances for winning the New England Intercollegiate Track and Field Meet, to be held at Bowdoin University next Friday and Saturday, are rather poor, according to Coach Jack Magee, because of an ankle injury sustained recently by Bob Porter. Bowdoin's hope in the meet last year was based upon the fact that Soule, who placed in the high jump, long jump, and Kilcham of Boston College, who took third in the high jump, was

## MARLOWE PLAY CAST SELECTED

### Masques Start Rehearsals Of Famous Drama For Commencement

With Miss Florence Walker replacing Miss Margaret Hines of Lewiston as the Queen of Bellaria, for the Commencement play, "The Jew of Malta," is now complete, and the Masque and Gown is hard at work in rehearsals for the presentation of Christopher Marlowe's play.

The roles as assigned are: Edwin G. Walker '38 as the Jew; Barbara Howard H. Vogel '38 as Isanmore; Miss Florence Walker as Bellamira the courtesan; Mrs. Elizabeth Sibley as Abigail, the daughter of the Jew; J. Raymond West '38 as the doctor; Bill Soule, both of whom placed in the broad jump in the state meet are considered good prospects in that event. They will compete against Johnson of M.I.T. who beat out Bill Ridout as conceded an even chance in the pole vault although two of the three men who tied for first in 1935 are returning as well. Two of the three men who tied with Bill Ridout for fourth, David C. Hill, Bill Soule, both of whom placed in the broad jump in the state meet are considered good prospects in that event. They will compete against Johnson of M.I.T. who beat out Bill Ridout as conceded an even chance in the pole vault although two of the three men who tied for first in 1935 are returning as well. Two of the three men who tied with Bill Ridout for fourth, David C. Hill, Bill Soule, both of whom placed in the broad jump in the state meet are considered good prospects in that event. They will compete against Johnson of M.I.T. who beat out Bill Ridout as conceded an even chance in the pole vault although two of the three men who tied for first in 1935 are returning as well. Two of the three men who tied with Bill Ridout for fourth, David C. Hill, Bill Soule, both of whom placed in the broad jump in the state meet are considered good prospects in that event. They will compete against Johnson of M.I.T. who beat out Bill Ridout as conceded an even chance in the pole vault although two of the three men who tied for first in 1935 are returning as well. # Wellsmen Down Bates Nine To Gain Top Berth In Series

**By Dick Fornald**  
Coming into the seventh inning trailing by four runs, they filling the bases, only to be stopped by a wild thunderstorm, and polishing off the inning after the storm by smashing in seven runs, the Polar Bear nine gave Bates a 10-8 drubbing last Monday afternoon at Pickard Field.

By virtue of this win over Bates the Wellsmen automatically pass into first place in their drive for the state series title.

Bowdoin's remarkable showing in the seventh inning began with Kenny Birkett drawing a base on balls with both runners on, and sending a ball down to the pitcher who made a wild toss to second; thus Birkett was safe. With the storm about to break over the field, Dick Griffin drove to second and safely reached first filling the bases. At this point in the game, one that was relieved by a heavy downpour sent the spectators scampering, and the game was stopped.

## Karakashian Starts Scoring

When play was resumed, Ara Karakashian stepped up to the plate and started the scoring by making a clean single to left field, bringing in Birkett and Frazier, who was running for Harkins. Bob Gentry then took a pass and again Bates were filled. Davidson went out when he tried to, but Bud Rutherford knocked one to the pitchers who then wild to first, leaving Rutherford safe and allowing Griffin to score. Buss Shaw then hit a fast ball down the third base line and beat the throw to first, bringing in Karakashian to tie the score.

Bates then proceeded to dominate another run by letting Bill Shaw walk thus forcing in Bob Gentry. Rutherford took too long a lead off third, was caught between the bases, and had a hard time getting out. He arrived safely at third by virtue of a faulty throw from the catcher to the Bates third sacker, Birkett; then drove another hit down the third

## Freshmen Netmen Lose

Winning only one match, the Bowdoin Freshman tennis team lost to Duxbury High School last Saturday afternoon. Most of the matches were one-sided affairs except for the first doubles. Rich and Cohen, dropping the first set 6-4, came back to win the second 6-3, only to lose out to Palme and Anthoine in a long third set, in which each team had match-point several times.

BUD RUTHERFORD

BILL SHAW  
Captain and shortstop of the Polar Bear baseball nine.

## Kellogg Only Qualifier At N. E. Golf Tourney

Roger Kellogg, 37, captain of the Polar Bear baseball nine and Polar Bear left fielder whose hitting and fielding have been a feature of the Wellsmen's '36 season.

base line bringing both Rutherford and Buss Shaw home. This ended the scoring for the Polar Bears, and although Bates brought in one more point on a double, the Polar could not overcome the lead Bowdoin had accumulated in the stormy seventh.

Bates had started off well in the first inning by knocking Leon Buck out of the box with two runs included in a home run over the right field fence.

Bob Gentry then got out by Bud White. White too, was replaced by Karakashian in the fifth after Bates had rolled up one more run in the second and three more in the fourth.

The game with Colby originally scheduled for yesterday afternoon was postponed of account of rain and is being played this afternoon. According to Coach Wells this game may be a crucial one in the series in spite of the fact that there are three series games yet to be played.

Series standings following Monday's game found Bowdoin with four wins to one loss while Colby in second place had three wins and one loss.

## Mageemen Will Vie In ICAA, Princeton Meets

Bowdoin will be represented by three athletes in this year's ICAA Games at Pennsylvania May 29th and 30th. Coach Magee will take Bill Soto to compete in the sprints and broad jump, Johnny Shute to run the 100 and 200 yards, and cover the 800 meter events. All three have been doing well in competition this spring. Bob Parter, fourth Bowdoin entry, will be unable to make the trip because of an injury to his ankle.

Phil Gentry, Polar Bear hurler, will be ineligible to compete in the ICAA's this year but has been invited to compete June 20th in the Princeton Invitation Meet at Palmer Stadium, Princeton, N. J., with three other of the country's foremost hurlers. Running agent, Phil will be Sam Allen of Oklahoma Baptist, the Intercollegiate and National A. A. U. champ; Charles Moreau of New Orleans, the southern champ; and Forrest Towns of Georgia, indoor champion.

## Frosh Trackmen Outclass Capers

Sweeping all the points in three events, Bowdoin's well balanced freshman track team completed its undefeated season by downing South Portland, 94 to 32, at Whittier.

Outstanding competitor for the day was Bob Hamblen with four first places. He won the 120 yard high hurdles, the 220 yard low hurdles, the 880, and the 220 yard dash. His time of 23.1 seconds in the 220 was the best performance of the afternoon.

Hank Dolan scored 12 points with a second in both of the hurdle events, a first in the high jump, and a third in the broad jump. Both Gibbs and Melendy rolled up eleven points, Dolan winning the 100 yard dash and the broad jump and placing third in the 220, while Melendy won the javelin with a throw of 154 feet and 8 inches and placed second in both shot put and discus throw.

Burt Mitchell tied for first with Baile of South Portland in the pole vault with second in the high jump, and was third in the 100 yard dash. Kamalevitz and Sass, both of South Portland, were the outstanding hammer throw men, winning the 16-pound hammer throw and the discus throw respectively.

The summary: 100 yard dash—Won by Gibbs, Bowdoin; second, Kline, South Portland; third, Mitchell, Bowdoin. Time 12.5 sec. Pole vault—Tied by Mitchell, Bowdoin, and Baile, South Portland. Time 10 feet 6 inches. Distance 15 feet 6 inches. Discus, Distance 15 feet 6 inches.

Pole vault—Tied by Mitchell, Bowdoin, and Baile, South Portland. Time 10 feet 6 inches.

12 pound shot—Won by Sass, Bowdoin; second, Baile, South Portland; third, Taylor, Bowdoin. Distance 47 feet.

Javelin—Won by Melendy, Bowdoin; second, Baile, South Portland; third, Kamalevitz, South Portland. Distance 154 feet.

16 pound hammer—Won by Kamalevitz, South Portland; second, Allen, Bowdoin; third, Taylor, Bowdoin. Distance 123 feet.

Discus—Won by Sass, South Portland; second, Melendy, Bowdoin; third, Reardon, Bowdoin. Distance 165 feet, 8 1/2 inches.

## NETMEN BEAT COLBY; AIM AT CHAMPIONSHIP

Bringing to a climax a successful season, the Bowdoin tennis team defeated Colby 7-2 Monday, to retain the state series title. As Bowdoin had previously scored wins of 11-1 and 7-2 over Maine and Bates respectively, the Colby match gives the Polar Bears a clean sweep of the series.

Winning easily in all the doubles matches, the team dropped only two of the singles events, Bob Ashley losing a hard-fought match to Rothblatt, while Eddie O'Neill of Seltzer, Ashley to Deford Title.

Attention is now being centered on the State Intercollegiate Tournament, to be held at the University of Maine May 25-27. Headed by Captain Ashley, who is defending champion, and co-holder, with Will Thomas, of the doubles title, the Bowdoin team is favored to repeat last year's triumph.

Since only four singles and two doubles entries are allowed from each college, the Bowdoin line-up includes a return to Ashley, Tom Bechtel, and Purlynn in the singles; with Ashley and Thomas, Selter and Kirby in the doubles. The strongest competition will be furnished by Bates, Nixon of that college looming as a big threat in the singles. Sader and Kirby should be the most formidable contenders in the doubles event.

Four hits in the eighth inning

## Bowdoin Nine Conquers Maine 5 to 3; Downs Bates 10 to 3

**By Dick Fornald**

Three hits in the eighth inning brought the Polar Bear varsity nine from behind to subdue Maine 5-3 last Saturday afternoon at Pickard field. Until the eighth, the Polar Bear hits had been made by the White, both by Captain Bill Shaw, but in the seventh Ara Karakashian doubled, went to third on an infield out, and then scored the first tally when Will Manter flied out. In the eighth, Rutherford flied out. In the eighth, Rutherford and Purlynn scored, and Purlynn was Shaw who later scored on hits by Bill Shaw and Kenny Burkett. Rutherford was replaced by Green, but Karakashian started right in on the new pitcher by smashing out a single. Birkett came in for the final Polar Bear and Carlie Harkins pulled a squeeze play by bunting the second base line.

In his old position in the pitcher's box for the first time this season, Ara Karakashian led the Polar Bear bats to an error on a 3-1 win over the Bobcats at Lewiston last Thursday.

The White scored nine runs in the last three innings to overcome a 3-1 lead held by Bates until the seventh.

For the first six innings Bob Maier, Bates freshman hurler held the Wellsmen completely at bay.

The Bobcats scored once mainly through the efforts of Bill Johnson, Garnet right fielder, whose well timed single brought two runs across the plate in the first and later scored after his triple in the sixth.

In the seventh Malone weakened and allowed three successive singles.

Bob Darling then relieved Malone in an effort to stem the Bowdoin hitting streak. However, Ken Birkett came through with a clean hit to center field to tie the score. Darling took the three-in and with two men trapped on second threw it high over the head of the second baseman into center field allowing Buss Shaw to score.

Bowdoin scored three more tallies on errors by Gillis and Marcus followed by singles by Bill and Buss Shaw in the eighth and in the last period the Polar Bears garnered three runs from four hits and another error by Marcus.

One Maine score by his peg to home in the eighth. Bob Gentry turned in the feature performance of the game in the ninth when he made all three of the Maine putouts by catching three flies in center field.

Vol. LXVI Saturday, June 26, 1936 No. 7

## UNDERGRADUATE OF 1936

The returning Bowdoin alumnus comes back to the college when it is physically at its best. Buildings and grounds have been spruced up for the occasion, and late spring has provided the campus with luxuriant grass and greenery. It presents its most pleasant aspect of the entire year. Similarly, in finding the college inhabited during Commencement Week largely by the members of the senior class, the visiting graduate is also finding the Bowdoin undergraduate at his best. The seniors generally do, and certainly should, represent the cream of the student crop. They have had four years in which to formulate attitudes and mannerisms which are typical of the student body as a whole, and it is to them that the inquiring alumnus will turn for contact with present-day college youth.

Generally the alumnus, after he has had his fill of discussion of the "good old days", is intensely interested in the men now going through college. He wishes to know their ideas, compare them with his own of yesterday, and he wants to know the how and why of things at college today. As a member of the older generation he takes a now prideful, now pessimistic view of the younger generation, but he is almost always extremely curious about them.

In an article entitled "Youth in College" in its June, 1936, issue, *Fortune Magazine* gives the results of a survey which covered twenty-five American colleges and universities, men's, women's, and co-educational, "ranging from heavily-attended eastern liberal arts colleges to small campuses in the corn belt." The alumnus curious about present day trends in undergraduate life and thought would do well to turn to this admirable article, parts of which apply very well to Bowdoin men now in, and leaving, college. The college question mentioned in the survey, however,

According to the *Fortune* report, the average student of today is fatalistic, and regards security in all things as the summum bonum. He is apprehensive that is guaranteed to be safe and permanent. He is intellectually curious about the world, no longer deprecates those serious inquisitive students formerly, and still, known as "grinds", and he is turning to culture and the Good Life. Religion is in the background for him; he is "vaguely deistic". Liquor and sex have received as bull-session topics, to be replaced by economics and politics.

The Bowdoin undergraduate of 1936 is more serious and sincere than his predecessors of the last decade is obvious. The rise in scholastic interest and achievement shows that he has also had in mind the primary purpose of the college: training of the intellect. The Class of 1936, the only one with which the alumnus now here can become acquainted at this time, has set honors and Dean's List records, as an example, and its successors are following the same path.

The point of view of the college man is perhaps more down-to-earth as a result of the depression and in keeping with a materialistic age in a country accused of worshipping the dollar. "Things" are important and desired at a time when they are and have been comparatively scarce. Cynicism and "debunking" tendencies have vied with determination and common-sense; more emphasis, for instance, may be placed on fraternity finances than external bonds of brotherhood.

This attitude may be traced through the spare-time activities of the student, which generally involve tangible things rather than the mind and imagination. Cars, week-ends, movies, cards, radios, etc. — all these have taken the place of the reading matter with which the undergraduate of the last century entertained himself. Most undergraduates now confine their reading quite closely to course work, and all too rare is the student known as a worth-while leisure time reader.

"Spectatoritis" has taken hold of some sports, and yet never has the undergraduate been so anxious to try competition for himself, especially in intramural athletics. A plan of keeping fit rather than a do-or-die spirit has grown. The physical development side of the modern undergraduate's life has been broadened as has his knowledge and appreciation of athletic contests.

Contrary to the tendencies expressed above, the student is by no means devoid of altruistic qualities. Charity, loyalty, and integrity are still found; human nature does not change so very much. The taste of the average undergraduate is better. The "rah-rah" stage is definitely over, although Bowdoin lags in the clutching for collegiate banner room decoration metamorphosis.

This turning away from the more colorful aspects of college life has been reflected at Bowdoin, however, by the gradual obsolescence of Hell Week, Phi Chi, and similar declining collegiate customs. There are some who deplore this, but there is little danger that the college student will become too serious and too unemotional. He merely directs his enthusiasm and energy toward more constructive ends; football rallies, for instance, center his loyalty on the college and its team and at them he can expend the surplus energy which might otherwise vent itself in paddling, breaking of windows, and various pranks.

The undergraduate of 1936, at Bowdoin as well as elsewhere, will be found to be much like the men who have graduated in past years. A product of depression and slow recovery, and of an era of rapid tempo, his attitudes are sounder, more sincere, and more realistic than those of the past.

## Mustard and Cress

By E. F. Gould, Jr.

Arthur Chew Gilligan was sitting placidly in a down town restaurant contemplating his ice cream, when a man in a suit and tie, whom he attempted to engage in conversation. But for some time his attempts failed. Gilligan had something tremendous on his mind, and nothing would seem to interest him. Finally, as though returning from another world, he turned back toward the man, waited until he had inquired, "Could you give me a definition for 'swing rhythm'? I've heard it on the radio, and like it a lot."

The student explained as completely as possible and Gilligan returned to his old conversational again.

m.

Last Ivy, Bucky Sawyer placed beside his chair a large wrapped parcel, apparently fresh from the greenhouse. Everyone nodded their heads and concluded that it was the spirit of doomed joy to be overcome by the male malady known as the "Mistletoe Disease".

Except a small group of doofers off to the right.

They looked at each other knowingly and began to conjecture what was to be found inside. One guessed that it was a Mistletoe. Another general guess was that it was a rose bush. Before long, however, had done up just that. Another thought it might be some tomato seedlings; while still another was willing to wager that the package contained the remains of a dead bird.

As it happened, the package contained a pretty little twig with some tiny leaves appended and everyone was happy. But how much happier every one would have been if it had revealed a garter.

m. o

Commencement comes but once a year;

They have it there; they have it here.

Congratulations.

Not a good poem. But adequate for the occasion.

For Adequate

Mustard and Cress stands forth as one

of the best little bidder advisers in

the business. And on this example is

willing to meet anyone's challenge.

Class of 1936 Holds  
Class Day Exercises

(Continued from page 11)

by being made aware of the machinery of our lives and it is that machinery which the trained man is capable of operating; but there is something more than mere training in the world; there is such a thing as beauty in art, in literature, and in philosophy; there is also a thing as interest in the world and whereabouts that are most deeply imbedded under the surface of our everyday lives; and it is in these things that the truly educated man is interested.

"The education of living?"

"No many of us are not acquainted with how the 'other half live'. It is always difficult to say what a 'sufficient' family income is. The research staff of a reputable institute of economics has estimated that for the price level of 1929 a family income of \$1,200 is sufficient to support a middle-class necessities. And an interesting item in hearing how many American families fall below this subsistence level! Sixteen million or sixty percent of all families fall below this level that year of sublime prosperity, 1929. Today the total number is still larger, for prices are recovering more than the slum more rapidly than wages."

Government must Protect

"To guarantee their security against adverse conditions it is believed that the chief duty of the Federal and State governments, certainly the general welfare is at stake. If provision for their security is made through social insurance, it has the advantage of becoming a right, not a charitable obligation. It is my personal opinion that the government, in return for the wealth and power that it derives from his position, should give partial bond for his workers' security by sharing the expense."

"From the beginning of history our own security has been man's prime concern. The so-called law of self-preservation has had a tremendous influence on the actions of mankind throughout the centuries everywhere."

"Look at history. The need for security has made and overthrown regimes. We must use the historical approach in our recognition of the problem, and likewise in its solution."

Classical Club Picks  
Dane '37 As President

The June 1936 issue of the Bowdoin Alumnus, the fourth of this year's volume X, was recently published by the Alumni Office, and is available both by purchase and subscription at the office.

Article in the latest Alumnus, which bears the title "A Picture of Hubbard Hall", include a discussion of the new Saturday Commencement plan, the week's program, and a page detailing the headquarters of the various four-year classes. Other items cover the various annual events of recent weeks at Bowdoin and one details the coming changes in Massachusetts Hall, to be re-modelled this summer.

An excellent article of Charles Taylor Hopper, President of the Board of Overseers, by John F. Dane '28 is one of the chief contributions to the issue. "The Student Looks at Government" is the editorial of the Undergraduate Editor, William Klauber, Jr., and deals with the rôle of the Oxford and Exeter clubs in the life of the student and the rôle of the various societies in the field among Bowdoin undergraduates in both course and extra-curricular activities.

The reproduction of a little known Longfellow portrait, painted by Rembrandt Peale, is the basis of an

article describing the picture, and telling of the life of the artist, who painted Longfellow at the age of twenty-seven. The usual book review and alumni news departments, edited by Professor Stanley P. Tracy '05 and Dr. Chase F. Lincoln '91, respectively, conclude the issue.

Tune: Abide With Me  
When, in my youth, to these fair halls we came,  
Ambition eager, was in us afame  
Then thou, O Bowdoin, with thy fostering aid,  
For us a purpose and a future made.  
Now, in our manhood, we again must stray,  
Far from thy guidance, on a perilous way.  
Yet, in our striving, may we ever be,  
Mindful of thought and friend enjoyed with thee.  
When, sick with earthly strife, with burdens worn,  
Back to the chapters, where our minds were born,  
Shall we, O Bowdoin, then our faith renew,  
And with refreshed step, begin anew.

## Polar Bear Nine Takes Baseball Championship

Led throughout the season by the stellar pitching of Wilbur Mante, ace southpaw hurler, Bowdoin's great improved variety of games through this spring to win the first state title in twelve years. Although the showing of the team on their annual Massachusetts trip was not particularly impressive, by mid-season it was quite evident that Bowdoin was no longer to be reckoned with in the cellar position in the state series.

In the series opener Bowdoin dropped a game under protest to Bates 5-3. However, it was later declared non official and postponed, because Umpire John McDonough allowed a Bates runner to steal home when two men were out and the batter was being called out on a third strike.

### Bowdoin Wins Five

The second encounter was with Maine at Orono at which time the Polar Bears received their worst setback of the season, 18-8. Bowdoin came back strong, however, after this decisive defeat to take the five series games over Bates.

After a few position changes Davidson into second base from left field and calling Dick Griffin into service behind the plate, Bowdoin functioned like a new team against Colby. Mante was in top form, allowing but four scattered hits while every well bunched hitting streak by the Polar Bears brought them a 9-2 decision over the Mules.

### Mante Wins Four

Bates and Maine then followed in order for Bowdoin's second and third series victories to the tune of 10-3 and 5-3. In the Bates game Bowdoin was trailing 3-1 till the seventh when the star pitcher, Mante, went into gear, hitting three consecutive singles and helped along by a few Garnet errors, they soon put the game on ice.

In the next encounter Bates was humiliated 10-8 after having led the White Knights 6-2 in a terrible seventh inning. The Polar Bear canibalized on three hits, three errors, and two passes to push in seven much needed runs. The last of Bowdoin's string of five victories came when Colby went down for the count 12-8 after Mante chalked up his fourth series victory in the season.

### White Wins Title

Mante's last series victory was hung up in the postponed game with Bates in which he allowed the Garnet but three hits. By virtue of this 8-2 triumph the Polar Bears were assured of nothing less than a tie for the state title. Finally hitting by Gentry and Birkett in the pinches

WILBUR MANTE  
Leading White Pitcher for 1936

## SPRAGUE MITCHELL WINS GOLF TOURNAMENT

Sprague Mitchell '37, playing against his own teammate, Wilfrid Girard, won the Maine Intercollegiate golf title at Waterville last Saturday in 19 holes. This is the second year in succession that Bowdoin has not only captured the individual championship, but also the mythical team title.

This spring three of the four men who qualified for the semi-finals of the golf tournament were Bowdoinians: Wilfrid Girard '39, Rodney Kellogg '37, and Sprague Mitchell '37. Only Girard qualified the fourth man, J. F. Reynolds.

In the semi-final round, Mitchell eliminated Reynolds of Colby three up and two to get. At the same time Girard, his favorite, defeated Kellogg, his teammate, five and four.

### Mitchell Wins Title

Mitchell appeared to have the championship sewed up at the 18th hole when he sank a birdie three, but Girard came back to sink a 15 foot putt and win the hole. Mitchell's brilliant chip shot however, settled the issue on the 19th.

Other Bowdoin golfers who participated in the state tourney were Joseph G. Sclar '37, Leonardo Buck '38, and Ed Benjamin '37.

## Athletic Captains Chosen For Coming Season

For the third year in a row the Bowdoin team annexed the state singles crown. In the state matches at Orono, Jack Salter '38, unexpectedly captured the state intercollegiate singles championship by eliminating last year's champion, Ed. F. Reynolds '36, and then going ahead to down Mill Neck of Exeter 16-6, 6-2, 6-2 in the final match.

In the state match doubles, Kibbee and Salter eliminated Ashley and Bates, the third pair. Bates due were put out by Reed and Nixon, who finally eked out a close match over Kibbee and Salter, the Bowdoin finalists, in the last competition to annex the state doubles title for Bates.

piled up an early lead which the Bobcats never threatened.

However, in the final encounter vs. Colby, the Mules sniped the Polar Bear winning streak with a 11-2 victory over Bowdoin's Ivewary nine. Due to unfavorable weather conditions the last scheduled game with Maine was not played.

However, Bowdoin rightfully claims the championship by virtue of six victories and only two defeats.

The baseball team has chosen as their captain, Ara Karakashian, whose versatility in both pitching and catching was a major factor in the recently closed state series. Of the

## TRACKMEN FETE GOOD AT DINNER

Phil Good, graduating captain of the track team, and internationally known hurdler, was recently afforded the signal honor of receiving an award from the athletic department as "the outstanding member of the senior class in scholarship, athletics and character" at a dinner held especially in his honor by the entire track squad.

The award of a gold watch marked the first recognition of the kind in Bowdoin's history. Speakers at the dinner dined of some two hundred J. F. Reynolds.

In the semi-final round, Mitchell eliminated Reynolds of Colby three up and two to get. At the same time Girard came back to sink a 15 foot putt and win the hole. Mitchell's brilliant chip shot however, settled the issue on the 19th.

### Mitchell Wins Title

Mitchell appeared to have the championship sewed up at the 18th hole when he sank a birdie three, but Girard came back to sink a 15 foot putt and win the hole. Mitchell's brilliant chip shot however, settled the issue on the 19th.

Other Bowdoin golfers who participated in the state tourney were Joseph G. Sclar '37, Leonardo Buck '38, and Ed Benjamin '37.

## Athletic Captains Chosen For Coming Season

For the third year in a row the Bowdoin team annexed the state singles crown. In the state matches at Orono, Jack Salter '38, unexpectedly captured the state intercollegiate singles championship by eliminating last year's champion, Ed. F. Reynolds '36, and then going ahead to down Mill Neck of Exeter 16-6, 6-2, 6-2 in the final match.

In the state match doubles, Kibbee and Salter eliminated Ashley and Bates, the third pair. Bates due were put out by Reed and Nixon, who finally eked out a close match over Kibbee and Salter, the Bowdoin finalists, in the last competition to annex the state doubles title for Bates.

piled up an early lead which the Bobcats never threatened.

However, in the final encounter vs. Colby, the Mules sniped the Polar Bear winning streak with a 11-2 victory over Bowdoin's Ivewary nine. Due to unfavorable weather conditions the last scheduled game with Maine was not played.

However, Bowdoin rightfully claims the championship by virtue of six victories and only two defeats.

The baseball team has chosen as their captain, Ara Karakashian, whose versatility in both pitching and catching was a major factor in the recently closed state series. Of the

## BOWDOIN CAPTURES FIVE STATE TITLES

When the Orient predicted an athletic revival at Bowdoin last fall not even the most optimistic were hoping or even dreaming of five state championship teams. However, that is the situation at Bowdoin now, and the record in Maine as far as football, baseball, tennis, golf and rifle competition go.

In addition to these laurels the Polar Bears also took second in the state track meet and ranked second in the state in football, baseball, tennis and golf.

The first and perhaps most publicized championship came as the culmination of Bowdoin's most successful football season in over a decade, with six victories and one defeat. In respect of football the school is somewhat coupled by the fact that the Maine Intercollegiate Athletic Association has recently ruled that there would be no official championship awarded because the last scheduled game between Maine and Bowdoin was not played.

However, Bowdoin recognizes the fact that even though Maine had won the unplayed game the worst the Polar Bears could do would be to tie with the Pale Blue for the title.

Tennis, golf, baseball, rifle championships, tennis and golf, were won for the second straight year by the White while rifle competition was inaugurated between Bowdoin and Maine for the first time in history.

### White Tracksters Take Fourth At Providence

Bowdoin wound up active participation on the cinders this spring by placing fourth in the annual New England track meet this year held in Providence, R. I., with Brown University as host.

As usual Phil Good led the Polar Bears, starting with impressive victories in both the high and the low hurdles. By winning these two events Good kept intact his remarkable record of never having been beaten in the last three New England meets; in fact, he never even lost a trial heat in the last three years.

Other Polar Bear tracksters who broke into the scoring column were Johnny Sibley, stellar half miler and captain of last fall's record setting team was toastmaster. At this time the track squad also showed their appreciation of Good's spirited leadership by presenting him with a fine pen and pencil set.

Other Polar Bear tracksters who broke into the scoring column were Johnny Sibley, Cap Cowan, Bill Stanwood, Bill Soule, and Dave Rideout. Shute showed up well in the mile by carrying off third in the mile race and fourth in the 800m. Stanwood tied for third in the high jump and Bill Soule came through with a third in the broad jump. To complete Bowdoin's scoring Dave Rideout tied for second in the pole vault at 12 feet 6 inches.

Box score:

1931 .....	1	0	2	3	0	0	0	0	0	3	6
1928 .....	2	0	2	6	3	0	3	4	x-20

Bishop '38, Quincy, Mass.; John F. Reed '37, Rockport, Mass.; John H. Frye Jr., '38, Westfield, N. J.; Assistant Manager Henry L. Nash '38, Worcester, Neb.; and John M. Thurlow, Freshmen, P. Harry Hood, Jr., Beach Bluff, Mass.; Robert T. Hyde, Lexington, Mass.; Robert J. Hyde, Methuen, Mass.; Robert H. Hamblen, Middlewood, N. J.; John E. Hooker '38, Belvidere, Ill.; Edward T. Lovre '38, Bucksport, Eton W. Taylor '37, Bangor; William E. Toolt, '38, Methuen, Mass.; John W. Diller '38, Waban, Mass.; David W. Pitts '38, Worcester, Mass.; Francis H. Skillings '38, Flysburg; Walter D.											

Six loyal members of the class of 1926 abeted by three "ringers" from the opposing class, 1931, came through to annex a 20-6 decision over the first year class in softball.

Among the outstanding players for the victors were John Tarbell, Harold Littlefield and Owen Gilman, the latter however, was one of those drafted from '31 to play for '28. Harry Stinson.

By virtue of his excellent showing of Good in the international hurdle races at Princeton last week, the Polar Bear ace timber topper is conceded a fine chance to win the title at Cambridge. If Good is successful at the Harvard trials he will be eligible to compete in the final Americans track trials which are to be held at Princeton on June 26 in New York, at which time the selections for the complete American team will be made.

1931 Baileys in Sixth

Blanchard Bates, the '31 first sacker, and Don Prince performed well for the first year class but faulty fielding at several critical points gave the '28 aggregation the lead which was not threatened.

In the sixth inning for a while it looked as though '31 was coming back strong when they held the fifteen year men scoreless but Tarbell, Clark, and Littlefield came back strong in the seventh with the home run spike to put '28 back in the score.

In the first of the ninth, 1931 made another determined bid for recognition and managed to push across three runs but the Tarbell, Littlefield, Clark combination soon tightened up and played errorless ball to put down the next three batters in order.

The line-up:

1931—Don Prince, p; Elias Thomas, c; Blanchard Bates, 1b; John Gould, 2b; Parker Lorring, 3b; Lendall Smith, lf; Bill Perry, rf; Franklin Neal, cf; Robert Cockcroft, if; Harold Littlefield, ss; Owen Gilman, 2d; Fer Clegg, 3d; Alfred Spear, 2b; John Tarbell, 1b; Alfred Strout, lf; Earl Cook, rf; Warren Winslow, cf.

## It's as much a part of aroma . . . it's as much a part of Chesterfield as the taste

Did you ever  
notice the difference  
in the aroma of  
Chesterfield tobacco?

Every person who knows about tobacco will understand this... for to get a pleasing aroma is just like getting a pleasing taste from fruit.

Mild ripe tobaccos, home-grown, and welded with the right kind of tobacco from far-off Greece and Turkey (Samsoun, Smyrna, Xanthi and Cavalla)...

...that's why Chesterfield  
has a more pleasing aroma.

...with that pleasing aroma

REMEMBER THE RALLY  
TOMORROW NIGHT

## The Sun • Rises "

By William Klaber, Jr.  
THIS column does not claim or wish to be an "advice to freshmen" division. The less moralizing that is done in the paper, the better. However, as we start the new college year, I feel that there is one message that we can give to the students which may be of value. The Open Letter printed in last Saturday's Growler has covered a good deal of the subject and what we say may merely be an anti-climax but we feel definitely that it should be stressed.

College was not necessarily an institution of education. However, a great deal of this education is not to be found in books. The majority of the freshmen class have never lived in a society as large as this before. The Class of 1940 is just entering this society. One of the greatest lessons that must be learned is how to get along with one's fellow men. Every new man will have to make his own place in the college sphere. It is up to him to pick his associates and make himself known on campus.

MAKING oneself known on campus is probably one of the most important thing to be mentioned. Much of the social education previously cited depends upon it. Not only does it afford good contacts with the other men in the class but also means that each man has his own niche with which he is identified. A football player, actor in Masque and Gown, debater, or singer becomes known on campus through these outside activities. Such accomplishments make him more valuable to the college. He has made his place on campus. Therefore, probably the wise course for a freshman to take is to identify himself with some college activity.

THE production of "Bury the Dead" is scheduled for Saturday, Oct. 11. It promises to be one of the most interesting and informative programs yet produced by the Masque and Gown. At the suggestion of the Bowdoin Christian Association, the dramatic club has decided to undertake this play. Those who have seen it on Broadway will undoubtedly compare in the opinion that it is one of the most striking plays to be produced in recent years. It is planned to produce the play alone simple lines in the cage of the athletic building. No scenes will be employed, all effects to be worked out by light and sound. It is hoped that this will help to bring out the stark simplicity of the drama. The past success of the club under the direction of Mr. Quinby indicates that November 11 will be a date to which the college can look forward with anticipation.

## DRAMATIC CLUB PLANS TO STAGE 'BURY THE DEAD'

Cage of Athletic Building  
Will Be Scene of Recent  
Broadway Hit

ANTI-WAR DRAMA  
TO APPEAR NOV. 11

Smoker To Be Held in Union  
Lounge for Freshman  
Candidates Oct. 13

By Marshall Bridge  
"Bury the Dead," Irwin Shaw's anti-war drama, will be presented at the Cage of the Athletic Building during the evening of the November 11th holiday, and is being presented in conjunction with the Bowdoin Christian Association.

Not since "Sparta" has been presented during Xmas House-party in 1934 has the Masque and Gown staged such an up-to-the-minute and seemingly difficult production. The Cage of the Athletic Building during the evening of the November 11th holiday, and is being presented in conjunction with the Bowdoin Christian Association.

Appointments of Mr. Frederick Tillotson as Professor of Music and Mr. Philip C. Beam as Assistant Director and Curator of the Walker Art Building were announced by President E. C. M. Sills in his first annual address of the year. The president also announced his resignation from the faculty and gave a report on recent bequests and the state of the college in general.

*Refuse to Be Buried*

The refusal of six dead private Edward H. Wass. Mr. Beam will fill the vacancy occasioned by the resignation last June of Mrs. Barbara Seaman, who was now assistant curator of a private art collection in Washington, D. C.

Mr. George H. Quinby '23 has been appointed to an assistant professorship in English and has been made head of the Department of Dramatics. Dr. Herbert W. Hartman and Dr. Newton P. Stalkechuk have been promoted to associate professorships.

Albert Abrahamson '28, who has been granted an additional year of absence to continue as Works Progress Administrator for Maine, will be welcomed back to Bowdoin next fall.

A smoker to which all freshmen interested in any phase of dramatic work—acting, publicity, business, and staging—are invited, will be held in the Cage of the Athletic Building.

GLEE CLUB TRY-OUTS  
DRAW 82 CANDIDATES

FROM first appearance it looks as if the musical activities of the college are to reach new high levels under the leadership of Mr. Tillotson. Taking over where Mr. Brinkler left off last year in the rejuvenation program, Mr. Tillotson has the secret of the fact that he intends to put Bowdoin on the musical map of the country. Mr. Tillotson has had wide experience both in vocal and instrumental music. For many years he conducts at Bowdoin with his tributes among the musical highlights of the season. Great credit must also be given to Mr. Brinkler for the work that he did during the past year. All indications are that the college will go forward under the new administration of the department of music.

**FROSH ENROLLMENT  
IS HELD TO 155 MEN**

With the new ruling of the governing boards limiting future entering classes to 150 men, Bowdoin again holds its 155 mark. Its class of 1940 last week. The freshman class is the smallest since '37 entered. The new ruling permits the regular admittance of 150 men with a provision by which Professors can admit an additional 15 men at their discretion. Although it is to apply indefinitely, the whole question of the size of entering classes is now being studied by a committee appointed by the board.

This year, for the fourth consecutive year, Massachusetts sends more men to Bowdoin than any other state, with 61 of her sons enrolled. Eighty-seven were from the Bay State. Maine is second, with 38 fewer men than any other in recent years.

New York with 22 men took over third position from Connecticut, whose delegation fell from 11 men last year to three this year. New Hampshire and Vermont are tied in fourth place with four men apiece. Connecticut sends three, Pennsylvania and Rhode Island two each, and Michigan, Vermont, and Washington, D. C., one apiece.

Forty-three members of the class of 1940 are relatives of former Bowdoin men.

**N O T I C E**

The second call for candidates for the Orient comes this year with attention focused at the seven o'clock meeting tomorrow night (Thursday) in the Orient office, second floor of the Moulton Union. Any man who has not yet reported is requested to do so at once. Experiments while desirable, is by no means necessary.

All candidates who have already reported must get attendance at the meeting to remain in the competition, and to receive their reportorial assignments for the week-end. First come, first served.

## Battle Royal Rages On Pickard As '39 Plasters '40 With Procs

Fighting beneath the brilliant flood lights of the Pickard football practice field, the classes of 1939 and 1940 battled for supremacy amidst mud, molasses and a matoe of cheering upperclassmen late Thursday evening in a Proclamation Night ceremony which the spectators, at least, enjoyed more than any other in recent years.

The flood-lights were turned on by unknown persons shortly before the freshmen got under way with the straggling arrival of sophomore forces. The freshmen had already been waiting for an hour or two at the Coffin Street entrance to the field when the lights were turned on and after a little coaxing they moved over en masse to the made-to-order arena.

**Sophomore Straggle On**

A few sophomores led by Pres. Hank Dolan sacrificed themselves to quick demud by rushing the frost in advance of the molasses-and-proclamations crews, plowing to the front to be the first to the Coffin Street rush. They made practically no impression, however, and the fight didn't really look like a fight until the main force of '39 came charging onto the field, strewing molasses at random and picking exhausted their supply of yellow powder.

The struggle was a long one and few indeed were the men of either

## Wesleyan Football Rally To Be Held Tomorrow

The second football rally of the season will take place tomorrow evening at 7:00 at the Art Building, with Coach Adam Walsh and Professor Thomas Means as speakers and with another feature of like "F. D." as last week's rally on the program. Master of Ceremonies "Ditto" Read says that freshmen learn "Phi Chi," "Bowdoin Boats," and "Bisc. Sons of Bowdoin" before the rally.

The first rally was held last Friday night, with Captain Bucky Sawyer and Assistant Professor Daggett as speakers. Max Eaton '37 was presented as President Roosevelt and drew a humorous parallel between the Democratic Party and the Bowdoin football situation.

## SILLS REVIEWS STAFF CHANGES

Tillotson Is Music Professor,  
Beam Becomes Curator  
Of Art Museum

By Leonard J. Cohen  
Appointments of Mr. Frederick Tillotson as Professor of Music and Mr. Philip C. Beam as Assistant Director and Curator of the Walker Art Building were announced by President E. C. M. Sills in his first annual address of the year. The president also announced his resignation from the faculty and gave a report on recent bequests and the state of the college in general.

**FROSH FATHERS WILL  
MEET HERE OCT. 20**

Invitations are going out this week to fathers of members of the class of 1940 to be present at an open house and program to be held Oct. 20 the weekend of the Bowdoin-Williams game.

Besides having an opportunity to see what all Bowdoin men hope will be the greatest small-college football team in the nation, the fathers will meet Pres. K. C. M. Sills, Dean Paul Nixon, and the members of the faculty at an informal reception and will be guests of the college at noon luncheon.

Opportunity to visit classes will be provided Saturday morning, and Freshmen are urged to give their fathers a personal invitation to be present.

**Spring Tour Planned**

The group will give at least two performances at the College, one before Christmas and another before New Year. The fathers will be entertained at a dinner party to be held Saturday evening at the Cage of the Athletic Building.

With the aid of Professor Tillotson and Neal E. Howard '37, president of the club, a program has been planned for the Glee Club by Robert W. Laffin '38, manager.

**Practically every other building**

is being used to accommodate the students and faculty.

## WHITE DEFEATS MASS. STATE IN OPENING GRID BATTLE 14-12

### ANKLE EXCURSION BY BENNIE

Photo shows Bennie Karoska cutting in behind the interference of Chapp, Fitts and Frye for a sizable gain in the first period of the Bowdoin-Mass. State game Saturday. Playing in his first varsity game, Bennie was Bowdoin's most consistent ground-gainer.

Courtesy of Portland Sunday Telegram.

Bowdoin Scores Seven Plays  
After Visitors Push Over  
First Touchdown

### PASSES THREATEN IN LAST MINUTES

Newman Recovers After  
Corey Blocks State Kick;  
Runs For Second Tally

By James A. Bishop

In a game that kept Bowdoin rooters on the edges of their seats all afternoon, the Polar Bears, with the aid of Capt. "Bucky" Sawyer, managed to stave off Mass. State's last-quarter aerial attack and win their opening game by a score of 14-12 at Whittier Field Saturday.

Although the White flashed some of its 1935 power at times, with Karoska reeling off long gains and Ashkenazy, Fitts, and Griffith smothering State plays behind the line, yet the effectiveness of sweeps around the ends by the Bay State boys at crucial moments and the helplessness of the Bowdoin secondary against passes bode ill for hopes of another state championship for the Polar Bear.

Karoska Shines

Bowdoin stands gained some consolation from the impressive debut of Karoska, who had a durability half-back and from the work of Days, Fitts and Fred Newman's end.

Karoska, who played every minute of the Fresh schedule last year, proved to be the most consistent ground-gainer of the day, while the two endmen, Fitts and Days, added a satisfactory answer to the question raised by the loss of Drummond and Manning from last year's line.

Early Minutes Even

After battling on nearly even terms for most of the first quarter, the States finally gained in an exchange of fumbles and punts and then forced a turnover.

Play was down by Stevens and Stevens were Portland and a side has been chosen at the entrance to Pickard Field immediately opposite the approach through the extension of Coffin Street.

The new building will include showers and locker rooms to accommodate intramural athletics, it is planned. Visiting teams at Pickard Field will also use the new building.

This will be the first considerable addition to the college's equipment to the football field on Pickard Field since 1927, said from reconstruction. The freshman football field on Pickard Field was leveled and resurfaced last summer, and Whitier Field is now being surrounded by new wire fencing.

**NOTICE**

There will be a meeting in the Orient room of the Moulton Union this evening at 7:00 for all freshmen interested in trying out for a position on the 1938 Bugle in editorial, business, or photographic capacity. The Bugle, Bowdoin's year book, appears in May when the competition is ended by elections.

**NOTICE**

A straw vote presidential poll will be conducted in the Orient this evening at 7:00 for all freshmen interested in trying out for a position on the 1938 Bugle in editorial, business, or photographic capacity. The Bugle, Bowdoin's year book, appears in May when the competition is ended by elections.

The poll results will be quite confidential, only several recorders being allowed to see the signed ballots. The names of these recorders will be published in the issue containing the names of candidates, Roosevelt, Landon, Thomas, Lemke, and Browder.

The straw poll will be tabulated and to prevent stuffing of the ballot or voter, must be signed by the voter.

## IN PROSPECT

Upperclassmen returning for their last year or years, freshmen stepping out for the first time into college life, and faculty members resuming their professorial duties, are this year — the one hundred and thirty-fifth that Bowdoin has known — entering what well promises to be one of the best the college has ever witnessed. Great things are in store, unless appearances and tendencies belie.

There is no need of a list of the various signs of growth and improvement in the college. Everything from the rejuvenation and enthusiasm of the department of music to the fact that more work was done on the college's physical plant last summer than ever before, and from the unquestionably high quality of a select group of freshmen to the breaking of the ground today for the new Pickard Field house loyally and generously presented to his Alma Mater by Frederick W. Pickard, '94, points the way.

Bowdoin has athletic laurels to recapture and to hold, and at the same time the intellectual life of the college has flourished as never before and should continue so to do. In every phase of the college and its daily existence, a new spirit is to be seen. It might well be said that not a bigger, but definitely a better, Bowdoin is at hand.

## VEL VUM SAPIENTIBUS SATIS EST

Informally we of the Orient would like to say that we like and admire you men of the Class of 1940. We are glad to admit that you seem to be one of the best entering groups in years, with all due loyalty to our own. You foreshadow a new type of class that will add to a large list of applicants, emphasizing quality and not quantity.

You have had advice showered upon you from various sources past few weeks. Friends, parents, high school class members, new college friends, the Dean, alumni, professors, delegation mates, the Freshman "Bible," fraternity faculty and undergraduate advisors, and even the Growler, have had their word. We rather think you are less in need of advice than any class before you. But lest your freshman cap be lost out of sight on your swelling head, for with intelligence often goes cockiness, note the following:

Two years ago the ancient sophomore organization of Phi Chi was abolished. It is now rapidly becoming a legend. The Student Council Disciplinary Committee passed through its first year experimentally and with much criticism levelled at it — it is conceded that the new plan was a little taken advantage of by 1939 on the whole. That will not happen again this year. Reaction has set in, and there will be severe corporal rather than moral suasion during the weekly disciplinary meetings.

You are college men now — not high school "rah-rah's", nor prep school "smoothies". Last June you were on the pinnacle — this October you are at the bottom. Precisely the same thing will affect the graduating class this year. It must always be realized by the man starting out, in college and in life, that he is not quite on a par with those ahead of him. You can save the S.C.D.C. much trouble and pleasure, and yourselves much discomfort and dislike, if individually and collectively you demonstrate that you have the gray matter to accept freshmen regulations obediently and that it does not take physical persuasion (as with some animal) to convince you that you must obey.

P.S. Where is that Bowdoin "Hi!" so neglected of late? Upperclassmen will greet you, if you hail them.

## BOWDOIN ON GUARD

Having closed a banner athletic year last June as State Champions in five sports, Bowdoin teams of 1936-37 will be well aware of the old adage concerning the unseasiness of any head which wears a crown — let alone five of them at once. Last year in both football and baseball Bowdoin, starting in the cellar position, had everything to gain and nothing to lose in the all-important State Series. The result was the first gridiron championship since 1921, and the baseball pennant after some of the best playing from a White diamond team in years. The worm turned, with a vengeance. Other state champions in golf, tennis and rifle competition are not to be overlooked, although minor sport titles are not quite the novelty Bowdoin football and baseball championships have traditionally been.

Now that we have finally pushed up into the athletic limelight, once more, through sheer grit and hard work, there devolves an even greater task on the teams of this school year — that of staying on top. The crowned head may be uneasy, but it must not be unwary. Which fact was all too graphically shown in last Saturday's football game with Massachusetts State.

It is well known that unqualified student and faculty co-operation last year was no minor factor in the ultimate success of the various teams. The same atmosphere of confidence and hope does not seem to be quite as prevalent this fall as last, but there is equal reason for it and it can be cultivated. Therefore, with all Polar Bear opponents admittedly out to upset Bowdoin's athletic supremacy, student support, vital factor that it is, will be doubly necessary this year in the coming athletic campaigns.

## PLAGIARISM PLUS

This may be an old, old yarn to some of our readers, especially those in the faculty. I did we hear someone say, "It's an oldie?" but we have it on the authority of the Devil that it is a very good hand with a story, and thought it must be repeated, if only for our newly recruited freshman public as a verb, app.

It appears that Christie Moustakis, a recent graduate who also wrote in literary magazine and once even wrote this column, wrote during his freshman year a particularly good theme for English 1, which Prof. Brown promptly awarded an A.

The following year Mountakis took the advanced English composition course under Prof. Brown and, finding either lazy or ingenious one evening, decided to copy in his A-theme of the year before. He again received a top grade.

The next year and theme muddled in the dustbin of Prof. Brown's desk drawer the following year, but during his senior year when he was taking a course in creative writing under Prof. Mitchell (Bonnot himself), the canny mountakis again turned in the same paper. As might be expected, it temporarily disappeared.

m - o

## PIGS IS PIGS

Those buoyant biologists, the Betas, have gone prolific in a big way. The barnstormers go in for variety and a thumbtack nose at Mr. Wallace, we would see, with the following: "Meat-eater Social" — your edification:

Practitioner  
1934 1 crow, 1 lamb  
1935 7 thoroughbred rabbits  
1936 2 Great Danes  
(P.S. White mice next year!)

m - o

ERRATA  
This class of 1939 don't know from nothin'. While watching them inadvertently stripping members of their own forces during the informal reception on Proclamation night, probably on the basis of a four letter-beverage beginning with B, we were moved to reminisce and recall last spring's flag rush. It happened

RAY WEST IS EDITOR  
OF 1936-37 GROWLER

The first of seven issues of The Growler, Bowdoin comic magazine, appeared in connection with the Mass. State game Saturday. Successive issues will be out for each home football game. For Christmas house party next spring vacation and at ivy house party time.

Ray West '37 is editor of the magazine this year. Frederick L. Mayhew '37 and Donald C. Clegg '38 are also on the editorial board. Charles White '39 and Richard H. Foster '39 are on the business staff, while Mark E. Kelley Jr. '39 and Edward B. Newhall '38 are in charge of carmen and comedy. Sprague Moulton is handling the circulation.

The next issue, Oct. 17, the date of the Williams game will be a burlesque of politics, with "exclusive" interviews with various politicians included. Candid camera shots are planned.

After 1939 had triumphantly borne off the tattered banner of the sophos, and a small icon of HERCULANES were given around the pole, and used to protect it in the moment of victory. Up came a young gentleman in a blue sweater and the remnants of a pair of pants, and announced that he would like a bust on the pole. He got one, and then ran off with the pennant. The gentleman was Don the pennant.

The historical attitude  
We heard this from a member of a high-numbered government course, in conference with a group and Dr. Helmreich, staunch vertebral in the department of the Department of History, including Brown and Hartman. "It is my custom," he intoned, "to have each man in the course read the best paper he has handled in me during the school year. We shall begin with an excellent theme by Mr. Moustakis."

m - o

## WOOF-WOOF OUT!

There certainly are some mugs in '40. We passed one wearing a black mask and freshman blouse about a week before freshman rules began.

"Hi, there," said we (with Bowdoin friendliness, of course) "You don't have to wear that, headgear yet."

"I know," he answered.

# For Digestion's Sake . . . Smoke Camels

More Camelism means more pleasant digestion  
more stimulated alkalinity increases

**IN** our busy lives, meals is apt to catch us at a disadvantage. We're often under nervous tension and physical strain. As a result, the free flow of digestive fluids is slowed down. How quickly Camels change this. For when you enjoy Camels the digestive fluids are gently and naturally restored to fuller flow. Alkalinity is increased. Time and again, physiological laboratories have checked this welcome effect of smoking Camels.

Camels are mild—you can enjoy them any time. They never jangle your nerves or tire your taste. Camels set you right!

Copyright, 1936, R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

**PLUCKY DARE-DEVIL** Miss Uva Kimmy (left), America's outstanding girl parachute jumper with 14 jumps to her credit, says: "I smoke Camels for digestion's sake. They encourage digestion in a pleasant way."

"**THERE'S NOTHING** like a Camel to set you right," says Bill Ferguson (below), crack salesman. "Camels give me an extra sense of well-being and contentment. I always smoke them as an aid to digestion."

**CULINARY MASTER-PIECES** by the chef of Washington's famous Hotel Shoreham. Here the joy of living is the keynote of the cosmopolitan patronage. Rare dishes gathered from world markets delight the taste. And Camels do the tables of the diners. Robert — *chef d'hotel* — observes: "People demand the finest in foods and they also demand the finest in cigarettes. Camels are the outstanding favorite."

**COSTLIER TOBACCOS!**

Camels are made from finer, MORE EXPENSIVE TOBACCOS — Turkish and Domestic — than any other popular brand.

the Lounge of the Moulton Union on Tuesday, October 22, at 7:30 P.M. This time Director of Drama, George H. Watson, Jr., John E. Wickes, Jr., Wellington Taylor, Roy Stewart, Harold S. White, Jr., and

Philip B. Gates, Jr., will be present.

Assistant Professor in English and the college Director of Drama, will announce the club's program of plays for the rest of the year, and names of those desirous of joining the Masque and Gown will be listed.

### Executive Group Meets

Two meetings of the Executive Committee of the Masque and Gown have already been held, to select the plays for the year. Four or possibly five productions will be presented including the Chamber Music Program. Members of the Committee are as follows: Legard, M. Hall, '37; President: Stanley Williams, Jr., '37; Secretary: Edward J. Brown, '38; Business Manager: Denhard Smith, '38; Publicity Manager: Robert D. Morris, '38; Production Manager: William Klaiber, Jr., '37; Production Advisor: Richard V. McCann, '37; and Willard Streeter Bass, Jr., '38; Member-at-Large.

Director Quinby announced in behalf of the organization that "It will be impossible to say whether we will have funds for students' travel by Blanket Tax this year until an appropriation is announced by the Blanket Tax Committee." If last year's procedure must be discontinued, the organization will endeavor to do its best to serve and 35¢ rush seat prices.

Let that dependable college pal, Railway Express, pick up and ship your laundry home and back for you every week. You will find it glossy going—easy, fast, inexpensive.

Merely notify the folks you will send the package by Railway Express, and ask them to return it the same way. You can send it collect too, you know, and while on that subject, we can add, only by Railway Express. The folks will understand. It saves keeping accounts, paying bills, to say nothing of spare change.

You'll find the idea economical all round. The minimum rate is low—only 38 cents—sometimes less. Pick-up and delivery by motor vehicle and insurance included in the shipping charge. It's the same with shipping baggage or anything else by Railway Express. So arrange your shipping dates by phone call to the Railway Express agent, and start now.

SENIORS TO COMPETE  
FOR SPEAKING PRIZE

(Continued from page 1)

More of this work was done than in

New sight-saving table lights were pre-

pared in the reading and printing rooms of the library.

Arrangements were made for in-

stalling new recessed lights in the

ceiling of Memorial Hall, a job which

is now being started.

The dormitory road and the road

between the Moulton Union and the Col-

lege Hill Street were resurfaced. About 5,

000 trees were planted in the college

woods and most of the adult trees

were sprayed.

Heating mains were strengthened

and the heating station boilers were

put in top condition.

The provisional list of seniors eligible for the Class of 1938 Prize Speaker competition has been put out by Professor William B. Mitchell. The prize is awarded annually to the senior who delivers the best original oration.

Last year the prize was won by Lawrence S. Hall.

The present oratory contest will take

place some time around Thanksgiving.

Six men will then be chosen for the

finals to be held about January 1.

The preliminary list follows:

Richard K. Barksdale, Edwin E.

Brinkley, Charles F. Brewster, Donald

E. Burdick, William S. Bush,

Malcolm W. Clegg, Dan E. Christy,

Richard C. Clapp, Franklin F. Gould,

Jr., William A. Gross, Frederick L.

Gwynn, Richard V. McCann, Ber-

njamin W. Norton, Faunce Pendexter,

Daniel W. Pettengill, Norman P.

Seagrave, Paul Welsh, Stanley W.

## Harriers To Run Between Halves At Williams Game

By Leighton Nash

As a special feature between the halves of the annual Bowdoin-Williams football game on October 17, the 1936 edition of Jack Magee's Bowdoin harriers will run against the Springfield College team in a dual meet over the Brunswick course. Led by Captain "Ditto" Bond, the harriers open a difficult season next week when they meet the gymnasts whom they easily outscored last year 100-39.

On October 20th the team will defend its title in the ninth annual Harvard Open Intercollegiate Run at Cambridge. Last year Bowdoin runners set an all-time low score of 24 points to win the meet when Porter, Cowan, and Shute finished in 1-2-3 order. Bond and Shute also finished eighth and tenth respectively.

The only other varsity meet scheduled so far is the 24th annual New England IC3A meet to be held November ninth. Last year the White team placed fourth in this meet, trailing the leaders, the University of Maine by 12 points for a total of 97 points.

This year's squad will be built around the three returning last year's

point winners, Bond, Porter, and Young and shows much promise of strength in spite of the loss of Johnnie Shute and Carl Bond. For filling the remaining berths on the squad Coach Magee will have Hight, Lord, and Hawkins, all seasoned runners, and six promising sophomores, Allen, Hambleton, Hyatt, Gregory, and Watt. Bunny Johnson, last year's regular half-mile runner, is helping coach the backfield. Two tentative line-ups have been formed although as yet it has been difficult to select the outstanding men this early in the season. Denham and Howard have shown much promise at end positions while Webber is showing up well in center and middle distances. Of the two following line-ups which have been working together thus far the line weight averages are 171 and 172 while in the backfield the averages respectively are 157 and 151.

The lineups:

L.-r. Distance Gates: L.L. Loeman, Pratt, L.G., Twins, Oshry; c. Webster, Doyle; r.g., Sesser, Master; r.l. Griffith, Bam; r.e., Howland, D., Clegg, Hill; r.m., Tamm, Tamm; r.s., Tucker; r.b., Legate, Section; f.b., Towle, Tooley.

### Bowdoin Rifle Team Holds First Meeting

Sixty-five candidates, comprising thirty-four upperclassmen and thirty-one freshmen, attended the first meeting of the Bowdoin Rifle Club Monday evening at Adams Hall. Ralph Wagg, coach of the Bowdoin Team and President of the Maine Pistol

## THE BOWDOIN ORIENT

### SPORT SIDELIGHTS

By Bill Burton

The "Big White" team is no more. Obviously enough Bowdoin grid teams of the last few years have not actually been big, but if nothing else, they have been "white". Not that the natty new black and grey uniforms are inappropriate, indeed not. The only thing is that the team ought to be rechristened the "Black Buffaloes" or "Bombers" instead of the Polar Bears or the now inaccurate "Big White". Strangely enough the new uniforms give the impression of a much bigger team than did the white teams of the previous campaigns.

Speaking of the "Big White", Bowdoin's whole squad this year has an average of 150 pounds. The starting team against Mass. State however, boasted an average of 172 in the backfield and 179 for the line. Last year's starting end positions were 170 and 172, so the new team is somewhat lighter with the forward wall averaging 175 while the backs tipped the beam at 166. In spite of the slight increase, the Polar Bears will still be outweighed by almost every opponent.

In the ten years of football relations with Mass. State just completed, Bowdoin has maintained a definite edge over the Statesmen having won six, tied two and lost two. However, in the last four years of competition the Red team has lost out only by the narrowest of margins. Four years ago they downed the Polar Bears and then fought them to a scoreless tie in 1934. Last year's 7-6 victory for the White was the closest victory of the season while the 14-12 close shave of last Saturday was far from a decisive win.

and Rifle Club gave a talk to the assembled riflemen.

Prospects for the coming season are excellent according to Captain Frank D. Miller. Only three of last year's varsity men were lost through graduation, past President Hartley Lord, "Major" Seagrave and Paul Favor. Although no definite schedule has been completed as yet, the University of New Hampshire has invited the club to do a three competition match. However, there will be scheduled for Varsity, Junior Varsity and Freshman teams this year.

All students interested in fencing are invited to attend a meeting this evening at 7:30 in the B.C.A. room of the Moulton Union,

**MILLER FORECASTS STRONG TANK TEAM**

### MILLER FORECASTS STRONG TANK TEAM

Headed by Captain Dick May, Bowdoin's ace breast and backstroke, a large number of last year's swimmers including an ample supply of freshers are back again. According to Coach Bob Miller confidently states he will be the best swimming team ever turned out at Bowdoin. Included in the 1937 schedule are meets with the Olneyville Boys' Club, Boston University, Wesleyan, Williams, Springfield and Cal Hill.

But what Mel Hutchinson, Seth Larabee, and Joe Pierce, last year's crack freshman freestyle relay team which took first place at the New England Intercollegiate Swimming Meet in March, will be an important quartet in building up a well balanced team. Freshies back again from last year's team are: John Hooke, Dave Fitts, John Frye, George Ware, Vin Welch, and Dave Arnold. Norm Seagrave, who has shown much improvement, and Basil Nickolson, a transfer who became eligible, will also be back. Dick May will head the breaststroke division and Len Pierce the diving.

The season's schedule will probably start immediately after Mid-Years with a possible trip to New York to compete in the 1937 New England Intercollegiates to be held at Curtis Pool if the construction on the new Amherst pool is not completed by March twentieth, the appointed date.

## Sawyer Converts Twice To Overcome Mass. State, 14-12

### Polar Bears Enter 22nd Grid Tilt With Cardinals

(Continued from page 1)

recovered to sprint 40 yards for another tally.

Sawyer again kicked the point and it looked as though the Walsh-coached crew had put another game on the board. Twice Sawyer punted over the goal line from his own 30, and the quartet ended with Mass. State in possession of the ball on their 20-yard line.

Visitors Threaten Again

The Bay Staters began to function again after Towle kicked offside on Bowdoin's 22-yard line. Karoska made 13 yards, but held for two downs. On the third play, Towle swept around left end to score standing up. Fisher again failed to kick the extra point.

Karakashian fumbled the kick-off on his own 30 and a pass, Towle to Brown carried the Staters to Bowdoin's 14. After Towle kicked a 5 yard penalty on Mass. State, Karoska recovered an attempted lateral, but after two downs Frye was forced to kick. Czelusniak ran the punt back to the 39-yard line as half a dozen Bowdoin tacklers missed shots at him.

**Bowdoin Attacks Falls**

Karoska's interception pass on the 50-yard line, again Frye was forced to kick. After Griffith tackled Czelusniak for a 10-yard loss Niden ripped off 31 yards which placed the ball on Bowdoin's 45-yard line. Brown made 9 more and then passed to Czelusniak who dodged his way to the 22.

Niden lost a couple but another pass, Brown to Southwick, was good for seven and one from Czelusniak to Hauck brought Mass. State to the Polar Bear's 15-yard stripe as the game ended.

Mass. State had the edge in first downs, collecting 10 to Bowdoin's eight. Seven of these were accounted for by passes. In all, State attempted 18 passes of which eight were completed while Bowdoin completed a single throw in three tries.

## The Sun "Rises"

By Harry Foote

**EDUCATION** has been defined in another new way every little while for so long that nobody pays much attention to another definition any more. Pres. Silla quoted a stimulate new one in the first chapel service, however, calling education "activity in the presence of knowledge."

This is a definition that really emphasizes the primary importance of the student's own work in the process of education. The most that any boy can do for his teacher is to expose him to learning. Few men, if no others, are too apt to forget this as they advance from high schools and prep schools where teachers impose actual penalties for not studying, to college class rooms where nobody cares what the student does.

IT IS practically true, anyway, that many college courses are little more than directed reading courses. Natural sciences are far more, of course. So are beginning languages. But the literature courses, history, philosophy, social sciences, and even advanced language courses are reading courses in substance, as proved by the fact that the more extensively and the more efficiently a student reads in them the better his mark will probably be.

That being true, it immediately becomes the responsibility of the college to see to it that its undergraduates have the best possible opportunity to read, whether the reading be in required textbooks or in books at the college library.

BOWDOIN'S library has done very well in keeping ahead of student reading needs. It has about 180,000 volumes and adds about 3,000 a year. It subscribes to nearly 300 periodicals and files them carefully. Its rules are generous. Its reading room is now, at last, well lighted, although there is still room for improvement.

But Bowdoin hasn't done so well with textbooks, on the whole; they cost far too much if general student opinion may be believed.

THIS is no indictment of using high-quality texts in Bowdoin courses, but rather of continually paying top prices for them. Fortunately, some publishers have taken up the idea of reworking old texts, selling them to schools at a price throughout the middleman, but by far the greater part of Bowdoin books are, not, thus sold.

**BOWDOIN** aims every easily set up bookshop. Doing a room in the Moulton Union, perhaps such a shop could purchase directly from publishers and sell directly to students with a minimum of overhead cost and probably with a worthwhile reduction in prices of texts. Moreover, it could provide a more effective system of re-selling used books than the present haphazard one.

The college estimates the average student's expenditure for books and stationery in a year at \$40. For 550 students, that is \$22,000 a year. If a college-controlled book store got only \$10,000 of that money, it would easily be self-supporting. And if it saved even a few pennies per purchase, its value would be large.

A was announced in last week's paper, that the Orient is holding a straw vote for the presidency of the United States. The ballots are to be found on the bulletin board in the Orient. It is to be hoped that every man in college will place his ballot in the box near the bulletin board in the Moulton Union. This vote has been sponsored by the Orient in all seriousness. We are trying to get a real view of the candidates for the office. The names of the lesser candidates have been placed upon the ballot in all fairness. However, a preponderance of communists in the college will make it plain that we have failed. The Orient asks the student body to co-operate and make this a true reflection of the campus sentiment.

**Golf Team Prospects**  
Boosted By Veterans

With two Maine State champions in the lineup, prospects for Bowdoin's golf team point toward a repetition of last year's State series championship. The champs are Captain Sprague Mitchell, who won the inter-collegiate title last spring, and Wilfrid Gifford, who made the front page last summer by becoming State amateur champion.

Roger Kellogg and Eddie Benjamin are two more veterans from last spring's outfit, who are getting in trim for future conquests. Another newcomer to the varsity is Girard Wilson. His Hood team was runner-up of the Pal Division team that won the award for best team showing in the state-wide Patriot's Day tournament held last year on the Brunswick course. Hood was among the low scorers in his district in the elimination tournaments for the National Amateur Championship last summer.

**NOTICE**

An exhibition of modern American paintings, including several realistic and witty studies, will be on display at the Walker Art Gallery for two weeks, beginning October 15.

## MASQUERS OPEN ANNUAL ONE-ACT DRAMA CONTEST

First and Second Prizes Will Be Awarded for Best Student Play

### PAUL WELSH LAST CONTEST WINNER

Judges Will Decide Upon Two Best Actors in Presentations

By Wellington Yapple

Continuing its successful policy of the last three years, the Bowdoin Men's and Women's Club will again this year sponsor a one-act play contest for students. Prizes of twenty-five dollars for the winning play, and fifteen dollars for the runner-up will again be offered by the organization.

The contest will take place

on November 14, 1936, at 8 p.m.

After the Tufts game on No-

vember 14, Alpha Delta Phi,

Theta Delta Chi, Delta Upsilon,

Zeta Psi, and Kappa Sigma will all entertain, closing the season.

## Fraternity Tea Dances To Start On Saturday

The fraternity tea dance season will open this Saturday with six of the eleven houses entertaining after the Williams game. Each house will hold at least one dance during the three remaining home football games.

This Saturday the following houses will entertain: Alpha Delta Phi, with one of the local orchestras playing; Zeta Psi, with Cal Codine's music; Psi Upsilon, with Don Warner and his band. Zeta Psi will probably have the largest turnout. Theta Delta Phi and Delta Epsilon will have local bands.

On Alumni Day, November 7, after the Maine game, Alpha Delta Phi, Delta Kappa Epsilon, Beta Theta Pi, Sigma Nu, and Alpha Tau Omega will all hold dances with their own bands. Theta Delta Chi, Delta Upsilon, Zeta Psi, and Kappa Sigma will all entertain, closing the season.

## DEBATORS SOON TO OPEN SEASON

### Seagrave Leader of Squad; First Opponents Mount Holyoke, Colgate

By Arthur W. Wang

Opening its Eastern Intercollegiate debating competition simultaneously at home against Mt. Holyoke and with Colgate in New York, Bowdoin's Debating Committee will soon swing into action on its 1936-37 season. Besides these two colleges, Amherst, Lafayette, and Brown are also included in the circuit.

The big encounter of the year, against Bates, will be held in the spring. Two years ago Bowdoin administered a startling defeat to the Bates men before a large audience in Memorial Hall. Last year, Bates won at Lewiston, and this year's meeting will be held at Bates' home ground promises to be a thrilling climax to the series.

Another important debate will be that with Union College. Bowdoin defeated Union two years ago in Brunswick. Last year at Schenectady, Bowdoin's men were beaten by Union, which was a surprise to many.

WOB. This year an attempt will be made to hold the Union debate over at Colgate, Portland, Asa, Union, Bowdoin will meet Tufts, Boston University, and New Haven.

### FATHERS' DAY TO BE HELD NEXT SATURDAY

Saturday, October 13, will mark the seventh annual greeting extended the fathers of all Bowdoin freshmen. Dean Nixon hopes that, although this year's freshman enrollment is much smaller than that of previous years, the number of fathers present will be larger.

The purpose of Bowdoin Father's Day is twofold. Not only is it a formal welcome from the college to the fathers, but it is planned in such a way as to acquaint the parents with the classroom and outside activities of the school.

Freshmen are urged to accompany their fathers to all the functions of the day. They will receive excused cuts from their eleven-thirty classes.

The following schedule has been arranged:

8:00-11:00 Registration at the office in the Moulton Union. Receive guest tickets for luncheon.

8:20-8:30 College Chapel exercises.

8:30-11:00 Opportunity to visit freshman classes and tour campus with sons and other guides.

11:00-12:00 Informal reception by President, Deane and members of the faculty in the main lounge of the Moulton Union.

12:00 Football at Whittier Field, Williams vs. Bowdoin.

2:00 Have You Voted?

Just how Bowdoin feels about the candidates in the coming Presidential election will be announced in next week's issue of the Orient. This week's Orient's straw poll on the ballot to be cast out is the same one cast on the top. Folded ballots may be deposited only in the box marked for them near the bulletin board at the entrance to the Moulton Union. Letters must be signed by the student's own family member's name. The poll will not comprise alumini or townspersons buying the paper.

(Continued on page 3)

### POLAR BEARS TO PLAY FOR ZETA TEA DANCE

The Bowdoin Polar Bears will again this year provide the student with plenty of fun. Their first performance being at the Zeta Psi tea dance after the Williams football game. This season the Polar Bears will be last year's Collegians under the new title. Leader Mahlon A. Dane announces that besides the regular outfit he had with him last year, he has selected a new one, plus a versatile guitar player. Last year's Polar Bears, Mark Kelly, completed a pass which was run for a touchdown, but referee Coogan had to rule it out as a "scramble pass."

Maine tramped over the University of New Hampshire eleven, which defeated Bates 9-6 last week, with a score of 27-6. Gordon Elliott, versatile Maine halfback, crossed the goal line three times. Spectacular in

(Continued on page 3)

### Coming Events

Tomorrow—Freshman and J. V. cross-country meet against Farmington Normal, here, 3:30 p.m.

Wednesday Rally on Art Building steps at 7:00 p.m.

Thursday—"Father's" Day program for freshmen. Dean Nixon will speak in chapel.

Friday football game at Whitier Field, 2:00 p.m.

Cross-country meet against Springfield.

Saturday—Football at Whitier Field between halves of football game.

Ten dances at A.D., Chi Psi, and Delta Upsilon.

Sunday—The president will speak in chapel.

(Continued on page 3)

the afternoon's game was the accurate passing of Quarterback Smith who threw the long passes which made the tallies possible.

At Williamstown an even greater lightning bolt came to the Haverford eleven which was swamped 60-0 by the Williams array. The game was featured by Bradbury's 63-yard run.

### Art Building Workers Lost Amidst Statuary

This year's annual locking-in at the Art Museum was run off last Thursday with success rattling the locks. Those taking building rights on this year's "comedy of errors" were Professor Henry Andrews, Alumnus Secretary Philip S. Wilder, the new curator Mr. Philip Beam, George Haleckas '30 and Neal Howard '37.

Chokey was a less dramatic but more efficient way to keep the students than the employment of the last locking-in Haleckas and Howard telephoned the shamus office a little after four p.m. explaining their disastrous plight. Working in the basement at the time the students were chosen, they were overruled by Mr. Beam and emerged from their subterranean vault shortly after to find themselves alone in the building.

A posse headed by Professor Andrews was soon scurrying the floors of the building in time to release the victims. The posse discovered on entering the building that keys to the doors were lying on the desk from which Howard and Haleckas telephoned. Perhaps it was for the sake of the students that they were overlooked. It has been announced that the two captives will be awarded a bonus for their "over-time."

for a touchdown on the first play following the opening kickoff. Haverford put up a scrappy defense and held the Purple to a single tally in the first half. The second half was featured by long runs by Simmons, Sanderland, and Stanton. Stanley, Williams' ace, was kept out of the line-up.

Cotty turned in one of its best ex-

hibitions they have given in several years, defeating the University of Vermont 13-0 in a set of mud. The Mutes completely out-played their opponents in every department.

Bates did not see action.

### Freshman Rides Prove Eventful

Bowdoin's Ku Klux clowning has reached a new height, said D. U.'s, A. D. A. Psi U. T. D.'s Better Sigma Nu, and Zetas whistling hooded freshman figures to all parts of the Maine coast from Popham Beach to Monhegan Point. Assignments from upperclassmen resulted in the acquisition by the wanderers of articles ranging from a typewriter to a typewriter.

One ambitious man of '40 not content with one spittoon because it was stained, brought two back to alma mater. An unfortunate group of Betas were ordered back into the cold night when their pet crab took a liking to the leg of a driver who had given it a ride. Jimmie and the Zetas were pushing a large hay rack toward Brunswick at two a.m. puzzled an officer to the extent of in-

solve alone in the building.

A posse headed by Professor Andrews was soon scurrying the floors of the building in time to release the victims. The posse discovered on entering the building that keys to the doors were lying on the desk from which Howard and Haleckas telephoned. Perhaps it was for the sake of the students that they were overlooked. It has been announced that the two captives will be awarded a bonus for their "over-time."

One of the various Psi U. quartets lost liberty and their souvenirs when they were brought to the Brunswick jail on a charge of profaning state records.

An answer-to-a-maiden's-prayer story was the lot of a dozen or so men who were greeted at one house by a nearly hysterical woman. She told them she had recently been jilted and advised by her husband to go find a man, but the appearance of twelve at such an hour she felt was more than the bargain called for.

Bob Connor of the football team was the victim of a pig. The pig he was kept sent for. Dick Sullivan struggled in wondering how oxen could carry the yoke he had and still have strength to work. Other D. U.'s added horseshoes and scythes to the collection.

Psi Upsilon found itself proud possessor of several barrels and a "one horse shay." This year's barrel was never used and several delegations of forty men have yet to spend their sleepless night exploring Maine roads.

Bates did not see action.

### Have You Voted?

On the opposite page you will find the official ballot for the Orient's presidential election. It will only take a minute to express your preference, whether you are of voting age or not, cut out the ballot, and deposit it in the marked box the next time you are downtown.

Only faculty and students can vote. Just how you voted with a signed ballot, will be known to no-one but Orient readers, and they are pledged to silence.

Ballot recorders will include the editorial staff of the newspaper, including the sophomore sub-editors, and all information will be held in strictest confidence. Signatures on the vote are required only to prevent stuffing of the ballot.

### HUTCH SKIRTS MAINE COAST IN OPEN BOAT

(Continued from page 1)  
part of the crew ate there and set out again at 7:30 p.m. in spite of the adverse winds of local fishermen that they would not risk it in their larger boats.

Three miles further along the coast the weather got the best of the struggle, and Hutch was blown into a nearby fisherman's cottage proved a welcome source of refuge for that night.

Next day they reached Bar Harbor, where they stopped to call on Admiral Byrd but did not find him at home. They were permitted to inspect his summer home.

Interviewed for *Newspapers*

During the next two days Bill Hutch and the two others were interviewed and photographed for local and metropolitan newspapers. The northward trip which they had planned to complete in two days was successfully accomplished in four.

The final day of the round trip was an easy one according to Hutchison, although they were again soaked. They put in at an island that night and slept on the rocks along the shore. The next day was extremely favorable until six p.m. From then until 10:30 p.m., when they put in at Tenants Harbor it

was calm.

Concluding Dr. Bradley took up the question of peace in relation to this country:

"If the United States wants to stay out of war," he said, "it must consider its policy in respect to the Pacific Ocean, and the Far East. The critical danger is not in the West as much as it is in the East."

Dr. Bradley concluded that the last court jester stopped one hour cooking up a song called "Ah-Woo! Ah-Woo! To You" and some-  
times he was a successor to "Knock-Knock". "Music Goes Round and Round", et al. . . . A. E. Horniman published "A Shropshire Lad" and John Newlands' "John Schaffner, Bowdoin '33, has a poem in the latest Saturday Review".

Billie Holiday's recent vocals show her to be even better than Helen Ward, if such a thing is possible . . . The new radio star is the radio tops for the coming summer.

## A.D.'s Capture Early Lead In Interfraternity Track

Runners from the brotherhood of Alpha Delta Phi held a slight one-point lead over those from Psi Upsilon and Chi Psi at the conclusion of the first day's competition in Bowdoin's new inter-fraternity outdoor track meet.

Mondays' uneventful opening of the 1936-1937 season gave the A.D.'s six points, Psi U.P.'s and Chi Psi four each, and the Dekes, D.U.'s, and non-

fraternity group three and one point respectively.

The idea of a fall interfraternity meet with handicaps, and including all men out for fall track, is a new one to Bowdoin, and the system of dealing out advantages according to ability makes it impossible to foresee the outcome of the weeks' events.

Finals in the 40 yard dash and the broad jump and the heats of the 150 yard dash will all come off Monday. The short race had a close—almost a blanket—finish, but, as no records were equalled or broken, the opening day afforded no remarkable results.

Summary of Mondays' events:

40 yard dash: Hill, Chi Psi; Rowe, Psi, U.; Deane, D.U.; Stanwood, A.D.; Broad jump: Allen, A.D.; Rideout, D.K.E.; Psi U.P.; Wilson, non-fraternity. Distance—18 feet, 4 inches.

150 yard dash: heat winners—Wilson, non-fraternity; Hermann, T.D.; Rowe, Psi U.P.; Dolan, D.K.E.

## YEARLING HARRIERS INAUGURATE SEASON

With excellent material, the freshman cross country team ran its first meet this afternoon on the home course against Lincoln Academy. Prospects for the season appear to be extremely favorable.

The frosh will combine forces with the J.V. men Friday in a meet against Farmington Normal School. This will also be run at Brunswick.

The present list of freshmen candidates is as follows: Bliss, Mitchell, Alekey, MacKenzie, Hoyt, Braden, Sanborn, Harwood, and Lineham.

## Have You Voted?

Even if you are one of those undergraduates who reads only the sports page, why not turn to the second page and vote in the student's voice with your name on the ballot? Ballots must be signed and deposited in the box marked for them in the entrance to the Moulton Union.

Is Bowdoin solid Republican?

Is it Democratic? Is it Socialists? None in the college?

How many true communists are there in the student body? Answers to all these questions will be divulged after the ballots, secret to all but the official recorder, have been checked.

## FRESHMEN PRACTICE NOTRE DAME SHIFT

For two weeks Coach Linn Wells and Assistant Bunny Johnson have been imparting the Notre Dame system to the 66 members of the freshman football squad, the majority of whom are graduates. "Wanted," says the high school team. Most of the time has been spent in perfecting the Notre Dame shift, and in practicing the man-to-man type of blocking.

With a team B game on Oct. 19 against a team A contest slated for the 22nd, fresh well-trained and hard enough to classify his men according to ability and position. Certain fundamentals have been stressed, although the kicking and passing game has scarcely been touched.

## TENNIS TOURNAMENT NEARS THIRD ROUND

Few matches have featured the second week of the Fall Tennis Tournament, but of those played to date three definite upsets have occurred, of the seeded players only five are left in the third round. Seeded player No. 1, Jack Salter, has still to play for three matches to be played for him to play for the quarter finals.

Cal Hill, the freshman who won from Eddie O'Neill, is playing Bill Hyde for the right to enter the quarter-finals. Ken Kirkpatrick, who conquered last year's champion in his class by winning from Vin Hull, 6-3, 6-3. Bill will be the winner of the Hyde-Hill match in the quarter-finals. Kibbe had some difficulty in overcoming Shattuck 6-3, 9-7 in the third round. Seeded players Buttington, John Rich, and Don Bradford have still to play their third-round matches.

Of the scant dozen from the freshman class who entered the tournament no one had definitely survived to the quarter finals Tuesday, although with the players who reached this stage they may be better represented. Competition in the tournament has been lively in a few cases. There may be more interesting games when some of the entrants play off in the lower rounds. Only two thirds of the matches necessary for the third and but two players had been broken and but three players had broken through to the quarter finals.

Those leading the battle for backfield positions include Charley Felt, Lloyd Legge, Jack Parker, Talcott, Gene Sexton, halfbacks; Walt Hussey and Herb Tonry, fullbacks; Hank Dale and Cal Hill, quarterbacks.

In the line are Max Denham, Ralph Howard, Bob Caulfield, Phil Gates, Johnny Marlow and Red Scott, end; Vic Leeman, Horace Griffith, Bruce Rundlett, veteran end; Len Pierce, diver; and Bud White, George Ware, Mel Hutchinson, freestylers, were among the outstanding members of last year's teams reporting.

## THE BOWDOIN ORIENT

## SPORT SIDELIGHTS

By Bill Hawkins and Bob Laffin  
Although many of the Polar Bear's supporters may see only a slim chance for their team in the approaching State Series, the Cardinals' showings in much more recent contests place the White's showing in a much more favorable light than does the score. While the Cardinals, in spite of their three touchdowns, made only one first down, Bowdoin totaled eight. And after the fray Daddario, Wesleyan's sophomore sensation and her most consistent ground-gainer, paid tribute to the strength of the Polar Bear's forward wall by declaring it almost perfect on the defense.

Novel in the Bowdoin line-up at Middletown as recorded by the Boston Herald is the inclusion of left tackle Bearden and left guard Hepburn, both of whom happened to be in Brunswick during the muddy fray. Gibbs, who wasn't in uniform because of a knee injury, is credited as a substitute fullback. That Bowdoin's coach will be unable to show no surprise when a brand new halfback—Jillson by name—takes the field. However the Herald is hardly at fault because the team donned last year's jerseys with the old numbers before the game on account of the muddy field.

Remarkable in the last five years of Bowdoin-Wesleyan grid competition is the fact that neither team has been able to score for two successive years. Furthermore, the home team seems to have had a distinct advantage, for each year it has inflicted decisive defeats over the visiting eleven. The cellar position has seen-sawed back and forth until now the Polar Bears have shared it three times as against two for the Cardinals. Anyway it's Wesleyan's turn to take a ride in 1937.

Since Bowdoin's pre-season scrimmage with New Hampshire furnished Adam Walsh with no particularly satisfying results, Maline's recent 27-6 drubbing of those same Wildcats is already arousing high hopes at Orono. Our own Assistant Freshman Coach, Bunny Johnson, however, is of the opinion that this year's Series will be decided on Whittier Field in a close battle between the Polar Bears and the White. Should the White reach that game with a clean Series slate, anything may happen; for experience has taught that there is never an actual underdog in the Bowdoin-Maine classic.

## White Impresses In Tank Practice

A host of veterans from last year's swimming squads answered Coach Bob Miller's call for varsity material last Monday. Dick May outstanding swimmer, and the others, including Bruce Rundlett, veteran distance man; Len Pierce, diver; and Bud White, George Ware, Mel Hutchinson, freestylers, were among the outstanding members of last year's teams reporting.

May is captain of this year's varsity and is looked upon as one of the outstanding collegiate backstrokers. New Englander he was one of the place winners in his events.

In the first afternoon's practice Bud White and Mel Hutchinson turned in times of 24.2 seconds and 24.9 seconds respectively in the 50 yard backstroke. The latter, however, was unable to score. A beautiful heave from Meloney to Flits was good for a 20-yard gain, but of two other attempts only one hit the end.

On the second afternoon, after a slight rain, White won the 50 yard backstroke.

## White Loses To Wesleyan By Topheavy Score, 20-0

(Continued from page 1)  
through the whole Bowdoin team for a touchdown. The Cardinals made good the try for point after each touchdown except the first.

The Bowdoin kickoff was received by Ketcham, who ran it back to his own 20-yard line. Following a double exchange of punts, Wesleyan punted again, and Karakashian, safety man for the White, fumbled and allowed the Cardinals to gain possession of the ball on Bowdoin's 40-yard line. A play which afforded no gain, was then followed by the forward pass from Ketcham to Gillespie. The latter caught it on the 20-yard line and dashed for the first down. Daddario failed to make the placement. The kickoff by Bottjer and another exchange of punts preceded Reed's flashy run to Wesleyan's 20-yard line. The quarter ended with Wesleyan leading 10-0.

The second period had seen only three plays when Daddario, skillfully evading Bowdoin tacklers, scored on a reverse from the white's 18-yard line. This time the placement was successful. From the 10-yard line until the half Wesleyan managed to keep the ball in Bowdoin territory, although neither team advanced very far. One rather spectacular play occurred when Daddario, fading back as he passed, heeled it slightly and kicked it to the 10-yard line. He could get rid of the ball. Bobby Gentry was outstanding in this period for his consistent gains.

**Rams 60 Yards for Score**

The Walsh team came back stronger in the second half in an attempt to make up for their slow beginning. But although they made eight first downs to Wesleyan's one, they were unable to score. A beautiful heave from Meloney to Flits was good for a 20-yard gain, but of two other attempts only one hit the end.

On the third quarter Matt Lord, an experienced runner, suffered a foot injury, which will keep him on the sidelines indefinitely.

**Bowdoin Threat Cut Short**

At the beginning of the last quarter the Cardinals forced their way down to Bowdoin's one-line. It was here that the Polar Bears put up the solid defense that prevented another score. Gentry had the ball on down, the Bowdoin team mounted its full offensive, both running and passing, and advanced down to the Wesleyan 30-yard line, where Fillback intercepted Frye's pass. Bowdoin did not score again during the remainder of the game.

Daddario was undoubtedly the most outstanding player on the field, although his teammates Ketcham and Klingens were consistent ground-gainers for the Wesleyan team. No individual of the white team's delegation was outstanding. All the backs were active in carrying the ball, but the line, outweighed on the average by about fifteen pounds, failed to click. The Polar Bears' White noticed the weak line, but, lacking coordination, while the ineffective pass defense shown last week was very little improved.

Substitutions were very numerous. Alan Walmsley nearly always squaded during the course of the game. The white passing attack, shouldered mainly by Frye, was considerably hampered by the wet, slippery ball. Of 12 passes attempted, Bowdoin completed 3 out of 4, while Wesleyan completed 3 out of 3.

## Mustard and Cress

YES, JACK

The sway the great Magee has upon his protégés was no better shown than in his reveal of the secret which transpired (to hell with Percy Marks) at the T.D. Chi house the other night. The pint-size mentor certainly does invest his tracksters with his personality—they must eat, sleep, and dream Mahogany Magee.

It was no less a person than Porter, track captain and distance dash, who was concerned. The T.D.'s, under inspection by a national traveling secretary, were undergoing a little quiz on fraternity lore. The visitor, named Norman Hackett, made some interesting statement about the local charge of Theta Delta Chi being the first to use pledge pins. Said Porter, quick as a flash: "What's that, Jack?"

## HOME BREWER STEWS IN HIS OWN JUICE

So hollered was Stewart D. Brewster '39 during last year's rising week that his enmity against the class (?) of 1939 several days ago led him to ascertain the Kappa Sigma frosh that he would clandestinely give them a ride home from their freshman walk, which was to be held Saturday evening. The Sig students were told to be quiet, but the brewster was so intent on getting them home personally.

At midnight the sophomores took the freshmen out to a deserted spot off of Main Street, holding them not to accept rides, and searching them for money. About 12:30 Brewster left Bowdoin in the direction of Bath. As 1 the sophs returned. At 1:30, summing a ride from regional buses with the bus he called the

rustics, the freshmen got home. But no Brewster. He straggled in at 5 a.m., having failed to find the fresh and having bogged down in the mud on the way to town.

We nominate Brewster as successor to Philton's title as "The Freshman's Friend!"

## STUFFED DUCKLING

Curiously enough, the only person to attempt stuffing the Orient's presidential poll was a member of the incoming class.

SAVE YOUR LOOSE CHANGE  
  
IRON OUT  
your laundry  
worries  
SWIFTLY — SAFELY — ECONOMICALLY

## By the Railway Express Route...

Let that dependable college pal, Railway Express, pick up and ship your laundry home and back for you every week. You will find it glossy going—easy, fast, inexpensive.

Mere notify the folks you will send the package by Railway Express, and ask them to return it the same way. You can send it collect too, you know, and while on that subject, we can add, only by Railway Express. The folks will understand. It saves keeping accounts, paying bills, to say nothing of space.

You know the idea economical all round. The minimum rate is low—only 38 cents—sometimes less. Pick-up and delivery by motor vehicle and insurance included in the shipping charge. It's the same with shipping baggage or anything else by Railway Express. So arrange your shipping dates by phone call to the Railway Express agent, and start now.

**O' JUDGE ROBBINS**  
FROM ASIATIC RUSSIA, YOU SAY JUDGE? BUT WHY THREE BOWLS?  
IT'S A CLEVER WAY OF BLENDING TOBACCO TO GET A MILD, BETTER-TASTING SMOKE—  
HIS RUSSIAN PIPE

WELL, IF I WANTED THE BEST SMOKE POSSIBLE, I'D JUST LOAD ALL THREE BOWLS WITH PRINCE ALBERT!  
RIGHT! BECAUSE IN EVERY ONE YOU'D GET MILDNESS, FULL FLAVOR, AND NO HARSHNESS OR BITE!  
I BROKE THIS PIPE IN ON PRINCE ALBERT THAT CRIMP CUT' PA. GAVE IT A SWELL CAKE AND MAKES IT SMOKE COOL AND SWEET  
MANY A MAN'S HAPPIER TODAY BECAUSE HE STARTED SMOKING PRINCE ALBERT—THERE'S NO OTHER TOBACCO LIKE IT!

HERE'S WHY THERE'S NO OTHER TOBACCO LIKE PRINCE ALBERT: P.A. IS CHOICE MELLOW TOBACCO—"CRIMP CUT" FOR COOLNESS—with THE "BITE" REMOVED BY SPECIAL PROCESS. IT'S THE LARGEST-SELLING TOBACCO IN THE WORLD, AND SWELL FOR "MAKIN'S" CIGARETTES.

**PRINCE ALBERT** THE NATIONAL JOY SMOKE

**FOOTBALL'S BIGGEST THRILL**  
BY Ted Husing  
FAMOUS SPORTS ANNOUNCER

THE GREATEST THRILL IN FOOTBALL IS A PERFECT SCORING PLAY. MINNESOTA PULLED A BEAUT LAST WAR IN THE MINNESOTA-NEBRASKA GAME.

MINNESOTA HAD ADVANCED DOWN THE FIELD, BUT WAS DOWN ON THE 5-YARD LINE, NOW HERE WHERE FOOTBALL BRAINS COME IN. HERES WHAT TO WATCH FOR AT THE NEXT GAME—

NEBRASKA STIFFENS!  
DOWNS 2 YDS TO GO 5 BALL MINNESOTA

TWICE AGAIN MINNESOTA THRUSTS AT THE LINE. NEBRASKA STOPS THEM DEAD. THEY'RE FIGHTING WITH EVERY OUNCE OF VIGOR TO PREVENT MINNESOTA FROM SCORING.

DOWNS 3 YDS TO GO 3 BALL MINNESOTA

THE BIG MOMENT—WILL THEY SCORE?  
9 TEAMS OUT OF 10 WOULD UNCORK THEIR SCORING PLAYS NOW, BUT NEBRASKA EXPECTS THIS. MINNESOTA HAS TO USE DECEPTION, FOR THE THIRD TIME THEY CRASH THE LINE. THE BALL IS ON THE 1/2 YARD LINE. MINNESOTA GOES INTO A HUDDLE—

GIVE 'EM PLAY  
DOWNS 1 YDS TO GO 9 BALL MINNESOTA

A LINE PLUNGE OFF CENTER IS STOPPED BY NEBRASKA. THIS PLAY IS NOT INTENDED TO SCORE. MINNESOTA IS DOING WHAT EVER CLEVER TENNIS STAR, FENCER, OR BASEBALL PITCHER DOES—RUNNING PLAYS TO GET THEIR OPPONENTS OUT OF POSITION & OFF TIMING

AND COMES OUT WITH THE SWEETEST SCORING PLAY I'VE EVER SEEN. LET ME DRAW YOU A COUCH'S DIAGRAM OF IT ON THE TABLECLOTH...

...MINNESOTA IS IN SINGLE WING-BACK FORMATION WITH AN UNBALANCED LINE. THE QUARTER-BACK #2 BACK, TAKES THE PASS FROM #1, DOES A HALF SPINNER & TOSSES AN UNDERRAL LATERAL TO #3 TO THE RIGHT HALF-BACK. #2 BACK #3 WHO POINTS AT THE LINE, THEN THROWS A SECOND LATERAL TO THE LEFT HALF-BACK, THE TAIL-BACK #4 WHO HAS BEEN COMING OVER. THE TAIL-BACK PIVOTS ENDCAST AND CUTS OFF TACKLE...FOR A TOUCHDOWN!

MEANTIME EVERY MAN ON THE NEBRASKA TEAM WHO CAN STOP THE PLAY IS TAKEN OUT, THANKS TO THE THREE PLAYS JUST PRECEDING. THEY ARE OFF-BALANCE AND OUT OF POSITION. THIS MAKES IT EASIER TO STRETCH THEM DOWN FLAT AND OUT OF THE RUNNING. THE ACTION PICTURE SHOWS THE PERFECT MINNESOTA BLOCKING.

CAMELS SET YOU RIGHT!  
SMOOTH AWAY THE DAY'S UPS AND DOWNS, LET DIGESTION GET OFF TO A GOOD START. JUST ENJOY CAMELS AT MEALTIMES AND AFTER. SMOOTH CAMELS SPEED UP THE FLOW OF DIGESTIVE FLUIDS—INCREASES ALIMENTARY—BRINGS A SENSE OF WELL-BEING—SO FOR DIGESTION'S SAKE SMOKE CAMELS. CAMELS ARE MADE FROM FINER, MORE EXPENSIVE TOBACCOES—TURKISH AND DOMESTIC—THAN ANY OTHER POPULAR BRAND.

## Ibis Will Meet Tomorrow Night, Pick New Members

The first meeting of Ibis will be held at 17 McKeen Street tomorrow night at 9 p.m. At this time the present members - Edwina P. Benjamin '37, Nathan Dana '37, Frederick L. Gwynne '37, Frank W. Kibbe '37, Richard V. McClellan '37 and Stanley Williams '37 - will select enough seniors to complete the group.

Quoting from the Constitution, Bay West announced: "The objects of Ibis shall be to stimulate the intellectual interest of the undergraduates of Bowdoin College by honoring suitable men with election to membership, by holding meetings at which topics of interest and profit shall be discussed, and by arousing the desire for culture in the broadest sense in its members and their associates."

## PERTINAX AND BONN WILL LECTURE HERE

Two distinguished European lecturers, Pertinax and Moritz J. Bonn, will speak at Bowdoin early in November, announced President Sills recently.

On the evening of Thursday, November 12, the prominent French journalist, Andre Geraud, known throughout Europe as Pertinax will lecture on "The International Economy - How to Operate Survive?" M. Pertinax is well known in France through his work on the staff of the Echo de Paris. He is one of the most distinguished journalists in Europe and is spending about a month in the United States on a lecture tour. On the subject he has chosen he is an authority.

On November 19, Professor Moritz J. Bonn, director of the London School of Economics, will visit the college and speak on some phase of International economics. After his speech, Professor Bonn will remain for two or three days and will meet informally with the economics class.

## Prize Speaking Trials To Be Held Thursday

The trials for the Alexander Prize Speaking competition will be held on Friday, October 27, in the Debating Room of Hubbard Hall where nine men will be selected to compete in the final to be held on November 23. An especially good opportunity is offered this year, said Professor Daggett, to members of the class lower classes in the competition because there is no one eligible who has won either of the two prizes before.

Since the entries do not close until the actual time of the trials, there is still opportunity to enter, and anyone desiring to do so should see Professor Daggett as soon as possible. New talent including that of freshmen, is cordially invited to take part.

The fund for this prize was established in 1905 by Hon. DeAlva S. Adams, of Boston, "the Class of 1870," and furnishes "prizes of forty-five dollars and thirty dollars for excellence in select declamation." Competition is open to freshmen, sophomores, and juniors.

Dr. Professor Bonn has been in America before as Visiting Professor of Economics at Berkley, Madison, Wisconsin, Cornell, and Ithaca universities, and on his present tour has spoken at the Williamstown Institute of Politics.

moment production manager assigned for the season. Any men interested in production who were unable to attend the meeting should see Robert M. Moore, Jr., 38, at their earliest convenience. There will be opportunity, according to Professor Quincy, for more men as scene designers, painters, carpenters, electricians, costumers, men, costume men, of stage managers.

## DEAN NIXON SPEAKS ON TAKING LICKINGS

With the remark that the Headmaster of one of New England's most successful schools always insists on an interview with at least one parent of a boy who applies for admission, but who "wants to know what each of his boys has been up against all his life," Dean Nixon opened his address in chapel last Saturday morning before a large group of visiting fathers and freshmen. The Headmaster said, seriously, "Fathers of Bowdoin students are originate in the desire of the college to inspect Bowdoin fathers, but 'in our desire to let them inspect us'."

The subject of the chapel address was "On Taking Lickings." Explaining that he had nothing to do with football games, the Dean based his talk on words from the Bible. "And we know that all things work together for good to them that love God." Dean Nixon contrasted the miseries of the apostle who spoke of his afflictions with those young Bowdoin alums who had succeeded in business after having taken "bad licking for three years"; and he emphasized the fact that all of us take our lickings—or will, "a truth which we can't control"; but that we can control what those defeats do to us inside.

Said Dean Nixon in conclusion: "Every year at this college I see many men who fall short of the success of various sorts they had hoped to attain. Some of them grow discouraged and give up, and give up trying. Some take it with a foolish grin, and go their casual way. Some—and I like to think this is the usual Bowdoin method—take their defeats with a resolution eventually to turn them into victories."

## Variety

By Frederick L. Gwynne  
Anyone who knows the classics of jazz and who has ever had a dollar or two left in his pocket should not fail to procure "The Big Album," consisting of the cream hat trumpet records made by the traditional master, Bix Beiderbecke . . . The latest in detective lay-outs is the "File on Espionage," which is made up of actual police records, bloodstains, clues, etc. etc. . . . On October 27, fully 27 simultaneous productions of Sinclair Lewis' "It Can't Happen Here" will be under way via radio in the U.S. The big brass band chesta leaders in America, Leopold Stokowski and Benny Goodman, are the only bright spots of "The Big Broadcast of 1937" . . . And if any of us have time to see it, the temporary pleasure will be well worth the price.

The President likened a man who has forsaken his ideals to a man who has abandoned water, and who, when thirsting, begs to be allowed to drink, but is refused.

## PRESIDENT SPEAKS ON YOUTH'S IDEALS

An exhortation to youth to hold fast to his ideals, and not to be led astray by the temptations of "false gods" was delivered in Sunday chapel by Pres. K. C. M. Sills.

He said that as long as one is faithful to his ideals, they will furnish him with strength. If he lets go of his ideals, he may abandon them and, for a time, enjoy being free of their curbing influence; but when hard times beset him, he will feel their need, and strive to regain them.

The President likened a man who has forsaken his ideals to a man who has abandoned water, and who, when thirsting, begs to be allowed to drink, but is refused.

## LAUDS SPIRITUAL GAINS

Saying that spiritual needs are apparently not met very closely, President Sills gave the example of the Bowdoin freshman who sticks severely to his standards of work for the first month, only to neglect his work for pleasure during the second month. Sometimes, when he is hungry for instant pleasure, he will dash hand-knotted bowlers off and give himself a foundation for learning.

The temporary pleasure in abandoning his ideals, he will find does not approach the permanent pleasure derived from the intellect, said the President.

So, in life, the President said, if we keep our ideals as to duty, morals and religion, not being deceived by that which is false, we shall arrive at permanent, rather than temporary happiness.

Rose is trucking out the dust of the Hippodrome again. It is rumored that he is bringing two prima ballerinas from Egypt just for Helen Morgan to sit in. Penny Goodman is still at the Hotel Pennsylvania.

Just try to keep up with seeing Julie Haydon in "The Longest Night". Or even Margaret Sullivan in "Stage Door". You never get vehicle

To see quantum in "Gentlemen's Sleepy-Time Gal" is worth of being pressed on eternal steel . . . "Red Hot and Blue" isn't too hot, or too blue either. Ethel Merman sings and the Hartman burlesque some dances in "Swing Out, Sailor". One of the Vassar student body participated in a recent presidential poll. Are Bowdoin students men or are they Vassars? . . . If "The Show Is On" isn't one of the best musicals of the year we should have a new president. Sophie Tucker, Bert Lahr, and Mitzi Mayfield only begin the list of featured stars. Ella Fitzgerald, who does the Chick Webb female vocals now, is a pretty fine sepia Hele Ward. Catch on?

Bennie Goodman is on the boards.

Bernington College in six years of its career, has paid back its building investments already. Pres. Leigh

who's your broker? . . . Peter Breughel, the Flemish artist of the sixteenth century whose works are becoming so loudly named, is featured in the French movie "Kermesse Heroique" ("Carnival in Flanders") as quite a romantic figure . . . The cleverest title for a chune this fall is "Mendel's Son's Swing Song", but Bob Howard's jock just doesn't click.

Are you still on the board? One of the Vassar student body participated in a recent presidential poll.

## Mageemen Top Springfield Harriers In Easy Victory

By Art Wang

Over a course more fit for swimming than for racing Captain Ditto Bond, Bob Porter and Charlie Young finished in a triple tie for first place last Saturday, as the Polar Bear harriers swamped the Springfield College team 17-46. The winning time was 25:20, remarkable time in view of the conditions that prevailed over the 4 1/4-mile course. The race started at Whittier Field and ended there between the halves of the Williams' grounds.

Hodder, a Springfield man, finished fourth, 35 seconds behind the leaders, followed by Wilm Allen of Bowdoin, Bill Hawkins and R. T. Hyde of Bowdoin tied for sixth place, and Watt of Bowdoin followed closely in eighth position. Gillis, Snow, Menge, Hamer and Bond's "M" of Springfield crossed the finish line in ninth, eleventh, twelfth and thirteenth positions, respectively. Eight of Bowdoin finished in fourteenth place, and La Fortune of Springfield waded thus far.

### Victory Impresses

Bowdoin's surprising 60-victory was marked Saturday and the increasing smoothness of the squad showed in practice and practically the only grounds for ruling the Polar Bear team is a big one and the fact of beating Williams is important.

Against Williams, Bowdoin had an overall vastly improved over the previous year, and a defense as aggressive as last year's, plus spirit that couldn't lose.

### Walsh Praises Team

"The boys all played a fine game," Coach Walsh said after the game, "and they showed a mental attitude that will carry a team through to victory. Even when things went against them they wouldn't be denied and fought on to win the game. Playing as they did, the victory was deserved in every sense of the word." Bowdoin probably would be without the help of its star quarterback and captain, Buck Sawyer, again this Saturday. Sawyer is indefinitely out of the game with injuries received at Wesleyan. Otherwise, however, the squad appears to be in good condition.

### Colby Wins

An inexperienced freshman cross country team showed remarkably well against the veterans Lincoln Academy harriers in a dual meet last Wednesday over the three and one-half mile freshman course, when the yearlings were defeated by a slim one-point margin 29-28.

Against the predators, who ran against Bob Pease in a similar meet three years ago, finished first with a time of 20 minutes, four-fifths of a second, a few yards ahead of MacKenzie, captain of the freshman squad.

### Strong J. V. Eleven Wins

### From Fort Williams 13-0

Bowdoin's Junior Varsity grid squad took the field for the first time this season to defeat the Fort Williams C.C.C. team 13-0 Friday afternoon. Tallying twice in the second period, the heavier Jay-vees were in command during most of the game.

The fourth quarter saw the only sustained advance of the visitors, when the C.C.C. passed its way inside the Bowdoin 20.

Besides the two legitimate touchdowns, the Polar Bears had a first period score nullified by a clipping penalty. Rowson, Barksdale, and Paull gained most of the ground for Bowdoin.

## SPORT SIDELIGHTS

By Bill Hawkins and Leighton Nash

It's always interesting to hear various critics' views of the game. Here's what a few well-known local critics remarked after the game: Doc Johnson—"I'm pleased that the boys won that hard-fought game without any major injuries.—A real Walsh-coached team." Jack Magee—"One of the greatest comebacks I ever saw. The team has struck their stride from where they left off last year." Harry Stearns—"With the way the world would have helped the heavy team, a group of light Bowdoin sophomores outlasted the 190 pound Williams line. Williams lost the ball game in the first period. When the second period ended I knew that Bowdoin would win. But even when the game started I knew Whittier Field needed a new press box. I'll telegraph AP that Bowdoin won 6-0, but I know they won't believe it." Well we had some difficulty believing it ourselves."

—s

Jack Reed again proved his ability to elude the heavy and hard hitting Williams team, repeating in almost the same fashion. Saturday, his performance was as good as when he scored Bowdoin's only touchdown in a 27-6 defeat. His is the distinction of being the only Bowdoin player to score against Williams since 1933. Quoting from the Orient of Oct. 23, 1933, "Driven back behind their own goal line Williams forced to punt. Jack Reed took the ball on the Purple 40-yard mark, evaded the opposing ends, and sped down the side. He is score almost untouched."

—s

However, in both occasions perfect blocking afforded the set-up for Bowdoin's score! All due credit to "Brick's" flashy run, Dave Soule's excellent block of a racing tackler at the right moment as Jack raced for the goal line was an equally beautiful bit of performance.

—s

Considering the circumstances, Bobby Smith did a remarkable piece of work at quarter-back for the Polar Bears. The fact that he had never before started in a varsity game nor had ever played in the backfield until this year certainly reflects creditably on Adam Walsh's ability to convert linemen into backs. Shifted from guard, Smithy was in the field almost the entire game calling the plays and doing plenty of excellent blocking.

—s

Eddie Dooley, former All-American quarterback pays a great tribute to Adam Walsh in this week's Liberty. He writes: "Just ten years ago, Notre Dame was slashing into Army's ranks at Ebbets Field. The Cadets were held in check again by the other thrusts of the South Bend ball carriers, and it began to look through the wire screen of green towards the immortal Rockne ever had was in for a trimming."

Adam Walsh, the great South Bend center, had been putting up a bang-up game at the pivot position, despite the handicap of two broken hands. Unconsciously he raised his bandage-swathed hands and said pleadingly, "C'mon, fellows, we've gotta go! We're gonna go!" The sight of his battered hands reminded the players of Adam's plight and recalled the kind of game he was playing on the line despite his handicap. They snapped out of the huddle with increased zest, and went through Army's ranks with "lift" that nothing could stop."

**Adam Walsh Praises Team**

"The boys all played a fine game," Coach Walsh said after the game, "and they showed a mental attitude that will carry a team through to victory. Even when things went against them they wouldn't be denied and fought on to win the game. Playing as they did, the victory was deserved in every sense of the word."

Bowdoin's Junior Varsity grid squad composed principally of freshmen when three of the teachers finished abreast in first place far ahead of the others. Eddie Dooley, Eddie O'Neill, seeded fifth, were put out last week; thus only four seed players remain in the running.

Jack Salter, seeded first, and state intercollegiate champion, has reached the third round by overcoming his opponent Goodwin in a close fought match. Buss Purinton, seeded number two, and last year's runner-up, continued his bid for honors by overcoming Bill Hall 6-1, 7-5 in the second round. Frank Klibbe, seeded number three, advanced to the fourth round by defeating Johnny Rich.

Bill Hyde, by his conquest of Ken Birckett, who for a time threatened to be a dark horse, has attained the fourth round, where he will probably meet Stanier, having already beaten Don Bradford 6-2, 6-4, is now out to the third round. Fred Lewis, seeded number seven, and Don Bryant remain as yet undefeated.

The Annual Fall Tennis Tournament, entering the fourth round at the end of the third week of play, has seen the elimination of two more seeded players—Johnny Rich, number six, and Don Bradford, number nine. Both of these, along with Eddie O'Neill, seeded fifth, were put out last week; thus only four seed players remain in the running.

Both of these, along with Eddie O'Neill, seeded fifth, were put out last week; thus only four seed players remain in the running.

Jack Salter, seeded first, and state intercollegiate champion, has reached the third round by overcoming his opponent Goodwin in a close fought match. Buss Purinton, seeded number two, and last year's runner-up, continued his bid for honors by overcoming Bill Hall 6-1, 7-5 in the second round. Frank Klibbe, seeded number three, advanced to the fourth round by defeating Johnny Rich.

Bill Hyde, by his conquest of Ken Birckett, who for a time threatened to be a dark horse, has attained the fourth round, where he will probably meet Stanier, having already beaten

Don Bradford 6-2, 6-4, is now out to the third round. Fred Lewis, seeded number seven, and Don Bryant remain as yet undefeated.

The Annual Fall Tennis Tournament, entering the fourth round at the end of the third week of play, has seen the elimination of two more seeded players—Johnny Rich, number six, and Don Bradford, number nine. Both of these, along with Eddie O'Neill, seeded fifth, were put out last week; thus only four seed players remain in the running.

# THE BOWDOIN ORIENT

VOL. LXVI

(66th Year)

BRUNSWICK, MAINE, WEDNESDAY OCTOBER 28, 1936

## The Sun "Rises"

By William Frost

"WAS college worth while?" asks John R. Tunis in a short, meaty volume that ought to be in the hands of every undergraduate who has ever asked himself what he is really "getting out" of college. "Was it worth it?" Tunis asks his own Harvard class of '11; and from the account of his classroom-and-graduation lives he draws his challenging questioning conclusions about the after-value of liberal education.

His much-quoted last paragraph is worth quoting again:

"That lamp of learning, tended by the fires of Greece, has shone white and high in the medieval universities and handed down to us in a direct line through Paris, Oxford, and Cambridge, has at last produced a group of men whose chief ambitions . . . are to get rich quick, to keep up with the broad life, and to break 100 at golf. Enviable ambitions? Yes, but does one need to go to college to have such aspirations?"

It can be argued that Mr. Tunis's point of view towards American education is not slightly cynical. His recent series of sketches of college types in Hauser's magazine—one of them entitled "Eddie Stands for Good Clean Sport"—frequently strike an iconoclastic note. Nevertheless, the point he raises ought to provide material for some serious discussions.

America has invested a great deal of money—both for plant and personnel—in colleges and universities. Its investment is growing larger every year. Higher learning has become a great institution, a permanent factor in the collective life of this country. What kind of dividends is America getting?

The trend of the times seems to show that, in the long run, institutions are going to have to prove their worth to society as a whole. There is no apparent limit to the amount of endowments that colleges may acquire to build up. But that means that a greater portion of the national income will go to support whatever institution is endowed.

That is why it seems to the Orient that Mr. Tunis's challenge is not to be passed over. It is interesting to note that in his book review of "The New York Times" book review, he is raising the issue when he says in reply:

"At least most of them had four happy years there, were as well off at Harvard as they would have been anywhere else, have a few more interesting experiences, and have a slightly better chance at happiness because of those four years."

UNDERRADUATES who imagine that their opportunities at Bowdoin for literary expression are limited to the Orient and the Quill are overlooking two excellent openings for anyone who wants to express himself and win a little money at the same time. The first of these—open only to juniors and seniors—is the 1875 history prize.

About \$150 is the prize for a paper on the election of 1896—or any other good subject connected with American history that the student may choose. Papers must be ready by about the middle of May, but since a rather thorough piece of work is expected, and since interest has already been shown in the contest, now is not too early for any aspirants to this large award to start work.

THE second opportunity for aspiring writers is open to all four classes—the Masque and Gown's annual one-act play contest. It is well to begin thinking about this contest now, even though it will not take place until March, because all plays must be submitted to the Masque and Gown before the end of this semester; and it takes longer to write a one-act play running between 15 and 45 minutes in length than one might suppose.

This contest gives undergraduate dramatists the greatest advantage of being able to produce the stage what they have written themselves. It is a great deal of fun as well as valuable experience to be able to arrange one's own stage properties and direct the cast so as bring out one's own. The author usually acts in his play, and for the last two years the prize for acting has been awarded to dramatists. First prize for the best play produced is \$25; second prize, \$15.

**Table Service To Start  
At Union Monday Night**

Invitations are now being sent by the college to a number of undergraduates to be present at the opening of a new dining service in the Moulton Union Monday evening. Pres. and Mrs. Sill and members of the Union Committee are invited.

The new dining service will serve men who prefer hotel table service to the cafeteria plan for dinner each evening, matching at that meal the service now offered in the so-called small private dining room at the Union.

The innovation will fill a long-felt need for a general home-like dining room for undergraduates and their guests. The room will be so arranged that those who wish to use the cafeteria or canteen may do so without interfering in any way with those in the dining room.

## RUSSIAN CHORAL SOCIETY TO GIVE CONCERT FRIDAY

Symphonic Choir Will Present Rich Selection Of Old Russian Music

BASILE KIBALCHICH IS NOTED LEADER

Twenty Singers Are All Soloists, Earning Title, "Human Orchestra"

By Leonard J. Cohen

Inaugurating a series of monthly concerts arranged by Professor Frederick T. Tillotson, the Bowdoin Symphonic Choir, directed by Basile Kibalchich, will appear Friday evening at 8:30 in the Brunswick Town Hall.

Admission to the concert for Bowdoin students will be free, while all others may obtain seats for 75 and 50 cents.

Outstanding among Russian choral societies in the world, the choir, which is mixed, is much more classic than the all-male Don Cossacks, according to Professor Tillotson, whose wife, who sings in the choir, is bringing to Bowdoin the name of Basile Kibalchich. It will also include several indigenous Russian folk songs.

At Harvard Tercentenary

The Symphonic Choir was the only musical society besides the Boston Symphony Orchestra to appear at the recent Harvard Tercentenary. It was first offered to an American audience 18 seasons ago.

Mr. Kibalchich had previously

gained a distinguished reputation in Europe, as leader of the Archangelic

Choir of Petrograd, choir conductor at the Russian Cathedral in Geneva, and later at the Russian Cathedral in Paris. At one time he was conductor of the Bowdoin Russian Chorus.

He is a graduate of the Petrograd Conservatory of Music, during which he was highly praised for his original ideas in scoring his music.

*A Human Orchestra*

Limited to a membership of 20, the choir itself is made up of the ten most accomplished of singers, each having an important part to play in the interpretation of each number. As a result, the choir has been compared to a string orchestra, and critics have emphasized the orchestral effects achieved.

The Providence Journal called a concert by the Symphonic Choir a revelation of the possibilities of artistic expression in choral music, saying:

"The richness of texture, the multifaceted varieties of musical expression, the variations in the blendings of tone qualities and the unusual distributions of vocal power combine to produce effects rarely heard."

(Continued on page 31)

## Driving Rain Fails To Halt Rally Before Colby Game

Despite drenching rain, Bowdoin rosters turned out in a considerable group to hold a midnight parade and rally Friday night before the "White Bear" game against Colby.

After a swing around fraternity row and the dorms, the parading students, with part of the band, marched down Maine Street to the intersection of Maine Street, where Coop's Seagrove and John Hancock spoke from the blinker in the street.

Maxie Eaton then climbed the "stand" to bring the group the second appearance locally of "F. D." He assured his hearers that Bowdoin was his choice over Colby.

Rain got the better of enthusiasm shortly after.

## FOUR WILL SEEK RHODES AWARDS

Burton, Christie, Gwynn, Shute Will Appear In State Trials

Three present Bowdoin seniors and one of last year's seniors were announced as Bowdoin's candidates for 1937 Rhodes scholarships from New England. They are Burton, Christie, Gwynn, and Shute.

The program, consisting mainly of works of Russian composers, will include a transcription of Chopin's C Minor Nocturne, especially arranged for Mr. Kibalchich. It will also include several indigenous Russian folk songs.

## Mustard and Cress

The Orient certainly does strange things to a man's brain. The strain of late nights, the horrors of proof reading, and the unending rigors of the "make-up," must warp a man's brain, when prowling through drawing shop, where the Orient made up, we ran across damning evidence of this tendency the other day. There, on a dusty bluebook, scrawled across the front page in Maxie Eaton's drawing hand, were the words: Fear of Becoming Insane.

## BOWDOIN GONE CO-ED?

Speaking of the Orient (? we can't help snickering over some of the stuff the editors of the rag sometimes write). For instance, there was this item: "For instance, there was the time sleepy Brunswick's most popular man came tearing up to the Moulton Union, wherein the Orient's offices are located, with a Special Delivery marked "CITY DESK". Monday night a letter arrived for "The Society Editor." And the letter, there came the tattle-tale which reads: Dear Home Economics Editor: Dear Mem-

Prof. Means seems to be one of the most erratic of our rosters at rallies and football games. He sits watching the game with the same fierce gleam which must accompany his launching forth into the Xenophont or whatever it is. One of the undergraduates runs into him striding away with true Democratic forwardness from Whittier Field after the Williams game.

"Pretty good game, wasn't it, sir?" said out this lad.

"Well, it seems to have turned out quite correctly," came the answer.

## CARDS TO CARD

There no doubt about it—the Theta Deltas are a bunch of cards! And their negotiations show usual proof of that usual frosh foolish-dumbness. The T.D.'s sent out reply postals cards to all their alumni inviting them up to various functions this fall. There were things like this: I shall (probably shall not) visit for the benefit of the world shall be a bet (high or nights) (insert day of week). The pledges who do the dirty work of addressing, were expressly told to send the postals only to alumni in New England. Aside from the fact that one frosh sent two with the gents having a head start.

## THE BOWDOIN ORIENT

to Florida, two to California, and one to Switzerland, the greatest surprise came when the house received the following reply card: I shall want a bed every night. Name: James Hinkley Card, Class '38.

**ADD COLBY GAME**

We couldn't quite figure out just why the Colby co-eds stood up in a group when their band played the "Boat" in front of the Bowdoin stands—was it "Shout Down" or why Bowdoin's athletic department was run over bailed for one set of goal-posts and some miscellaneous side-line markers.

m - e

## ASSEVERATION

To add to the fun, Mr. President of Union later remarked that all the brains were in one car and all the money in the other. Now, Mr. President of Union, is that nice?

## For Digestion's Sake . . . Smoke Camels

Smoking Camels with meals and after meals bring a delightful sense of well-being

**MENTAL EFFORT TOO** — especially long hours of study—builds up tension and puts an extra strain on digestion. When you're tired, get an invigorating "lift" with a Camel. And at mealtimes and after, "for digestion's sake... smoke Camels." Camels

**LESSTER STOENEN**, tennis champion whose smashing service goes at the amazing speed of 131 miles an hour. He prefers Camels. "An athlete has to have good digestion," says Lester. "I smoke a lot during meals and after. Camels make food taste better and digest easier."

**HOLLYWOOD RADIO TREAT!**

"TALK ABOUT A GRAND FEELING," reports Sydney Jones, expert electrician. "The best part of my meals is when I fall back and have another Camel. Camels always set me right... calm me down... make my food taste better and help my digestion. Camels never jangle my nerves."

**COSTLIER TOBACCOS!**

Camels are made from finer, more expensive tobaccos—Turkish and Domestic—than any other popular brand.

The Bowdoin Club of Boston will meet Thursday, November 5, at six p.m. in the University Club of Boston. Professor Herbert R. Brown will speak representing the college.

SAVE YOUR LOOSE CHANGE

**Iron out  
your laundry  
worries**

SWIFTLY - SAFELY - ECONOMICALLY

By the Railway Express Route...

Let that dependable college pal, Railway Express, pick up and ship your laundry home and back for you every week. You will find it glossy going - easy, fast, inexpensive.

Merely notify the folks you will send the package by Railway Express, and ask them to return it the same way. You can send it collect too, you know. And if you like to do it yourself, we can add, only by Railway Express. The folks will understand. It saves keeping accounts, paying bills, to say nothing of spare change.

You'll find the idea economical all round. The minimum rate is low — only 38 cents — sometimes less. Pick-up and delivery by motor vehicle and insurance included in the shipping charge. It's the same with shipping baggage or anything else by Railway Express. So arrange your shipping dates by phone call to the Railway Express agent, and start now.

## Rhodes Candidates

Dan E. Christie '37, left, and Frederick L. Grayson '37, who are among four Bowdoin men who will represent the college in this year's competition for Rhodes Scholarships.

## FOUR MEN TO SEEK RHODES SCHOLARSHIP

(Continued from page 1)  
Lean Club and is one of the associate editors of the Orient. Burton is a Deke.

Christie came to Bowdoin as a Senior of Maine scholar, and has been awarded the Almon Goodwin Phi Beta Kappa prize, the Smythe mathematical prize, and the Edward Acorn horn prize. He has served as departmental assistant in physics and astronomy in the Observatory, is president of the mathematics club, and was elected to Phi Beta Kappa last year. He is a member of Chi Psi.

Gwynn has won the Bertram Louis Smith prize for English scholarship and the Forbes Rickard poetry prize. He has been in the glee club, the Glee Club of Olin, and is editor of the Masque and Gown. He is editor-in-chief of the Quill and associate editor of the Growler. He is a Beta.

Shute, who reached the finale of the New England competition last year, is doing graduate work at Columbia. He was graduated summa cum laude, with high honors in his work, having been elected to Phi Beta Kappa in his junior year. He was active in student government, music and track, and was cross-country captain. He is a Deke.

Colleges Took Turns

Originally he pointed out, Maine colleges took turns in sending Rhodes scholars to Bowdoin. When the program was made state-wide, and in 1930 it was extended to include all New England. Under the present system, each New England state sends two men for the district finals, in which four Rhodes scholars are picked.

Yale, Harvard, Dartmouth, and Brown — to mention only four of the larger schools — are now included in the same district with Bowdoin, the president showed. Since the system went into effect, Bowdoin has had only one Rhodes scholar, James P. Petergrove, now teaching fellow in German.

MISS EVELYN DYER  
Offers Instruction in  
TAP DANCING  
EVERY FRIDAY EVENING  
IN THE GYMNASIUM  
AT 8 P.M.

Miss Dyer has studied and appeared in stage productions with the leading dancing masters of the country.

Business staff: J. A. Hales, Norman E. Hayes, G. Horton Hunt, Jr., Arthur H. Looms, John C. Nettleton, Arthur W. Wang, and Kenneth J. Welch.

Photographic staff: Morris E. Davis; Harry W. Huntington, Jr., Charles H. Mason, and Greyson B. Tewksbury.

Editorial work: Jeffrey C. Carr, Ethel D. Doyle, Richard A. Foster, Paul H. Hermann, Edward A. Risley, Richard B. Sanborn, and Philip C. Young.

Other officers chosen are W. Stetson Barron '38, vice-president; Robert A. Gove '38, secretary; and E. Porter Jewett '39, treasurer. A committee appointed to draw up rules includes Barron and George M. Wigington '37, John H. Halford '38, Arthur Chapman '39, and John B. Chandler '37.

To Build Dark Room

Raoul Derby, college machinist and experienced photographer, will have charge of building a club dark room in Stetson Science Building.

Speakers, technique, and photographic artists will be engaged for the meetings and exhibits may be arranged to fit individual interests.

The club will meet again this evening at the B.C.A. room in the Union.

SYMPHONIC CHORUS TO APPEAR FRIDAY

(Continued from page 1)

The New York Sun calls the reporter "a veritable collection of Russian music from ecclesiastical and secular sources," while the New York Evening Post, noting the mood and atmosphere created by the choir, said, "Their programs always carry a sense of religious adoration, Slavic resignation, Cossack humor, and peasant joys."

## DOUGLASS CALLS FOR PEACE AT ANY PRICE

"If you asked me if I want peace at any price I would tell you that peace at any price would be infinitely more costly than war." So declared Gaynor Douglass, associate director of the National Council for the Prevention of War, in chapel service Sunday.

"Peace has its price, but war has its cost," Douglass emphasized. "The price to pay for peace, he pointed out, is to 'learn to think internationally.' Nations must realize that what is best for all is best for each, he said.

"Modern communications have changed things," Douglass said. "We live in an independent world and must realize it. One nation indivisible is now one world indivisible."

Five-Six Program

Douglas described the "Five-Six" program being pushed by the Council in its fight against war. Five factors are being enlisted in the fight, he said — statesmen, farmers, laborers, women, and the church.

All five groups are working together on a six-point program: National defense based on defense of one's own country only; absolute neutrality; cooperation with neutrals specifically: nationalization of munitions; easing of economic strangulation; freedom of press and speech.

Douglas also called on his hearers for active, whole-hearted support of the peace movement.

Held "Open House"

Saturday morning the administration held an open house in the newly finished greenhouse. Hon. A. Warren, mayor of Brunswick, was probably dedicated at that time.

Just before the alumni luncheon, which is scheduled for noon, undergraduate sons of alumni and their fathers will be gathered all over in the Sweeny gym.

Speakers at the luncheon will include Pres. Kenneth C. Mills and Frank A. Farrington '27. Farrington, captain of the football team 10 years ago, will speak for the group of former players.

The Society of Bowdoin Women will hold a luncheon for ladies at noon in the Moulton Union.

BARRON HEADS NEW PHOTOGRAPHIC CLUB

Thirty students gathered in the Moulton Union Wednesday evening to organize a Bowdoin camera club. Capt. F. Barron '38 was elected president.

Other officers chosen are W. Stetson Barron '38, vice-president; Robert A. Gove '38, secretary; and E. Porter Jewett '39, treasurer. A committee appointed to draw up rules includes Barron and George M. Wigington '37, John H. Halford '38, Arthur Chapman '39, and John B. Chandler '37.

## SOULE'S 93-YARD KICKOFF RETURN STARTS POLAR BEAR ON SECOND-HALF SCORING SPREE TO CONQUER BOBCATS

### The Sun "Rises"

**By William Frost**  
THE large number of students who turned out for the Russian singers last Friday night shows a genuine and encouraging undergraduate interest in music. The college owes a large debt of gratitude to Professor Tillotson, who was instrumental in bringing these singers to Brunswick.

This interest in a high type of music ought to be fostered as much as possible. Not every one, it goes without saying, has enough time to sing or play an instrument well, but a taste for listening to music can be acquired without any staggering difficulty even by a person who has no ear and is unable to "carry a tune in a bucket." The enjoyment of excellent music brings a satisfaction and relaxation somewhat greater than that afforded by the best of the current swing bands.

It would naturally be impossible to bring such a band to Brunswick unless there were Friday night every Friday night or every month. But there are some things that might be found feasible by the college and would help to cultivate greater and more widespread enjoyment of music at Bowdoin.

In the first place, the occasional musical chapel services that have been held in the past should be kept up and presented as frequently as possible. They are doubly beneficial in that they provide an opportunity to hear good organ music, singing for a few moments in the singing and they also make the chapels more varied from day to day. However, it can be argued that to come to chapel and listen to a period of uninterrupted music is often as tiresome as much of an emotional experience as is the regular religious service.

Another idea that might be tried out, if the technical difficulties are not too great, is having a vivalta concert of some sort. The college owns a very fine library of music which any number of concerts could easily be planned, covering the works of the great composers and arrangements of them that might be published. It would be better if the concerts of this sort were publicized and arranged so as to be not too long and to end with a short intermission so that they run off smoothly; they might prove very successful.

This year the college is planning to bring several prominent professors and writers here for its Institute of Fine Arts. The college's re-ligious forum is holding a number of outside ministers will visit the campus. Why would not a musical institute or forum be a successful enterprise at Bowdoin?

S - R

**THOSE** who are recognizing commercialized football as a dangerous disease, cancer in American college sport, will find confirmation of their fears in an article in the latest American Mercury which advocates higher salaries for college athletes. At one point the author, a number of colleges and universities are listed according to the author's opinion about the standing of their football teams) as amateur, semi-professional, and professional. Bowdoin, Tufts, Amherst, Williams, and several other fine small colleges rank an amateur standing; but all the great names Harvard and Yale appear on the semi-pro list, and Princeton is put down as professional.

The eventual solution of the problem lies in the large number of great schools of America—wherever the problem exists and continues to grow—is probably the abolition of inter-collegiate football. As long as the poor colleges remain amateur, though there will always be on the part and desire of institutions to play the game for its own sake, honorably and uncommercially, and on the other hand, the incessant pressure from alumni, the press, and numbers of people who have no real interest in the schools to turn out winning teams at all costs.

S - R

HERE at Bowdoin we should rejoice that this sport continues to be popular, not only among our students. We should avoid disproportionately large investments in permanent plant for inter-collegiate athletics (for in some colleges such investments have even led to a sort of financial pressure on the student body to generate receipts in themselves). And even in the heyday of gridiron glories, we should never lose the sense of proportion which makes intra-collegiate sport a noble ideal, too.

### REPUBLICANS DEBATE DEMOCRATS IN UNION

In a fiery debate climaxing the pre-November 3rd season of campus political activity the Roosevelt Club of Bowdoin's representatives met the Bowdoin Young Republican Club in the Bowdoin Union Lounge last Thursday evening in what was technically a non-decision debate. In a vote taken after the debate however, the audience indicated their preference for the work of the affirmative by a vote of 69-27.

The affirmative was upheld by Harold D. Ashkenazy '38 and Norman P. Seagrave '37, both members

### GRADUATES ARE TO RETURN FOR U. OF M. GAME

**Sills Portrait Expected For

**LUNCHEON PLANNED  
ON SATURDAY NOON**

**Houses To Have Initiations,  
Hold Banquets During  
Next Week End**

**By E. Hobart Ellis, Jr.**  
Featuring fraternity initiations and banquets, tea dances, an alumni luncheon, and the Men's football team, Bowdoin's annual alumnae day which will be held Saturday is expected to bring to the campus a greater number of alumni than have any of its predecessors in many years. All but one of the fraternities are holding their traditional initiation ceremonies Friday night, and these are to be followed in each house either the same night or Saturday, by a banquet in honor of alumni and their initiates.

The only house that will not hold its initiation Friday is Theta Delta Chi, which is prevented from doing so by a national ruling. They will entertain their alumni informally on Saturday.

Many other events have been planned by the college for the entertainment of returning alumni. Arrangements for these have been in charge of a committee of the alumni council consisting of Thomas C. White '08, Lewiston; Donald S. Higginbotham '29, Bangor; and Virgil C. McTigue '22, Portland.

Friday night returning alumni will enjoy banquets at A.D. Ch. Pal, U. Delta Kappa Sig, Beta Sigma Phi, and Gamma Phi, while Alpha Upsilon and Zeta Psi hold theirs Saturday.

A bon-fire rally held on the Delta under the sponsorship of the Student Council will end the proceedings of the evening. Virgil Bond '37, as head of the rally committee, has promised

### MASQUERS BUSY PREPARING PLAY

**The Beaux' Stratagem" To  
Be Presented At Xmas  
House Parties**

**By Richard W. Sullivan, Jr.**

Readings for "The Beaux' Stratagem" which is to be presented by the Masonic and Glee societies on December 14, in the A.D. Ch. Pal, are now going on and the cast will be announced soon. The first rehearsal will be held on November 13.

"The Beaux' Stratagem" has been one of the most popular plays of the Restoration period since it was first produced in 1707. It is a rollicking farce comedy by George Farquhar the first of that group of French plays which include "The School for Scandal," "The Constant Wife," "The Recruiting Officer," "The Beaux' Stratagem," etc.

The section devoted to peasant songs and airs proved most popular.

The members of the choir apparently enjoyed singing this section very much.

Mr. Kibichich has led the Archangel Choir on Petrograd (1909-1912) and the choir at the Russian Cathedral in Geneva. There he organized the first symphonic choir.

Only one section was entirely devoted to the orchestral parts for which he chose this prelude.

## OVERCONFIDENCE

One of the gravest tendencies to be faced by a successful football team and coach is that of taking individual and team prowess for granted. Overconfidence and even cockiness have been the downfall of many a championship eleven. This undermining and false sense of power not only may apply to the attitude with which a single game is approached, but also to a whole season's spirit, and equally well to the actual duration of a game itself. It may not only develop over a period of several seasons, but it also may grow within the fifteen minutes of a quarter, or perhaps even in a series of a few plays.

If any one fact has been demonstrated to the Bowdoin football public this fall, it is that no matter what the paper standing of two teams may be before the actual encounter the play of the particular afternoon is what counts and no results can be accurately forecast. The Williams game upset, the threatening second half Colby rally, and the startling last half (and particularly the last quarter) of the Bates game are concrete examples of such sudden developments.

Adam Walsh's "Big White" team appears to have its head firmly attached to its shoulders. It deserves the praise of the college for its State Series record thus far. A bitter battle is ahead, however, to decide the Series. Last year's Maine game should serve as a warning and prevent even the inception of an attitude of overconfidence, particularly since the two teams are more equal on paper this year. The student body should display equal caution, both before and during the game. This spirit of confidence mingled with wariness and determination, should lead to the first victory of the White over the Black Bear since 1930.

## CAMPAIGN REPERCUSSIONS

The election is over—we now know who is to be our president for the next four years. The ORIENT during the period of violent campaigning this fall has maintained a strictly neutral attitude. We do not intend to break this policy now. However, there are a few things applicable to all parties which we feel should be mentioned.

If there is one moral that can be drawn from this last election, it is that politics as it is run today, is not gentleman's game. The various charges made by each party about the opponents were of such a nature that the intelligent voters were forced either to boil with rage or laugh. We do not refer to any one party or to any specific accusation. They were all alike. Most were absurd, and many were deliberate attempts to change the facts so that the most beneficial things were made to look like symbols of oppression.

Small incidents were magnified. Wholly unfounded accusations were made. People's reputations were held to be useful for one purpose only—slander. The unfortunate thing is that this is not only true for this campaign. It has been true for every campaign for many years—possibly since Washington's second administration.

It appears to be a definite rebuke to the United States that politics must be carried on in this manner. It must be considered as a terrible weakness that underhanded methods are employed when the country selects its leader. Well, what can be done about it? The normal answer is, "Nothing." Possibly it is correct. However, we feel that it must become the duty of every educated man to try to bring this country out of the election rut. This college is designed to develop such educated men. If this college and other colleges can succeed in turning out men who are pledged to clean up campaign methods, a great good will have been accomplished. There are merits to each side of a question. If the parties will fight along the lines of their merits rather than through the agency of innuendos and false statements, we may succeed in getting a government that is worth while. It is an ideal well worth working for.

W. K., Jr.

## CAMPUS NEATNESS

Leaving aside for the moment all the ostentatious patriotism usually demanded of a college paper's editorial columns, it is about time that the student body realized that if Bowdoin is to have a campus worthy of comparison with its state rivals, its undergraduates should develop a little more realistic pride in, and care of, their scenic environment for four years.

The University of Maine is considered by many to have the prettiest campus in the state, and while Bowdoin may be the chief contender for the palm, Bates is not without its good features and in one respect far outscored Bowdoin. This is the remarkable order with which the campus and its sloping lawns are kept, even in mid-autumn.

Maine has the advantage of open spaces and a rolling terrain along the river. Bates has a consistency of architecture and a sloping hill with beautiful grass to add to its pleasant, compact impression. Bowdoin, architecturally more incongruous and yet simple in its severe New England way, has more trees and pleasant municipal surroundings than the other two. And it stands alone with its stately grove of pines.

However, Bowdoin would be a stronger claimant for the mythical scenic laurels were its campus kept a little neater. Comments on such things as campus cleanliness may seem trivial subject matter for an ORIENT, editorial but they are necessary with the

## POLITICAL CHAMPAGNE

It's all over now, denks Gott!

m - c

**DITTO**  
Looking backwards over the political furors of the Bowdoin campus campaigns this fall, as the Young Republican and Democratic Clubs vied for honors, a number of tasty flatsom and jetsom. For instance, it was noted that the whereabouts of the first Republican Club meeting back in early October was "Landon Bridges falling down"?

We recall with glee the tremendous chicanery the young Republicans had holding up the banner of youthful innocence until after the coverup by the halves of the Williams game. As pure iconoclasts we reveled in their struggle with the 30-mile-an-hour gale. To jibe, no doubt, with the "overcautious race for the land," it is reported that some Democrats sitting in the front row or the bleachers threw mud at the banner. According to C. F. Brewster this was to be expected as the Democrats were always throwing mud anyway!

**DITTO**  
Came the week-end of the Colby fracas, and a small group of hilarious Dekes, returning to their mansion in Brunswick, discovered some messages addressed to Brewster containing torches for the Republican pep-raw on Election Night, fireworks, etc. They held a little victory celebration of their own, using up some twelve torches and a goodly amount of firecrackers. It was rumored that they were Democrats. m - c

**DITTO**  
We just can't stop this repercu-  
sion of the whitewashing campaign. All these tales are on the Republicans it appears. It seems that a small number of dyed-in-the-wools bore a 12-foot Bowdoin banner bearing the words "We came 125 miles to join you" to the Boston procession last Saturday night, lugger the three four miles from Marlborough Street to the Boston Garden. There the staunch group could not gain entrance. A crowd of 2,000 was gathered outside the Garden clamoring to get in, and Leader (Der Führer)

was a "some character in the funny-pants."

present state of affairs. The campus remains strewn, particularly in sections, with tin foil and paper. The grass in the region of Massachusetts Hall has never had a chance to grow. Each spring it is rope off and each fall the young growth is trampled into mud by students too lazy to stay on the walks.

The Grounds Committee does the best it can; the students should co-operate by depositing waste paper in the proper places and refraining from walking on all but the heavily grassed areas. Then Bowdoin could take pride in a beautiful campus the impression of which would be unspoiled by disorder and raggedness.

## Brewster worked his way through the corridor to the closed door, and rapped on it loudly for some minutes. He was joined by his half dozen helpers and the mobbing band decided the only way to get in was to take off the hinge-gum. As they commenced this maneuver, the doors opened and fifty flatfoots made an entrance, one of them swinging his broadsword over the cranium of said Brewster. He was then kicked, and two women fainted on either side. Rushed out by the seat of their pants, the Sunflowerites swore they'd vote Democrat and took themselves off to drown their sorrows shouting "We'll vote Roosevelt!" m - c

**DITTO**  
The headlines in the following morning's Bowdoin Herald, however, ran something to the effect that a riot had taken place in the Garden, with a score of people injured, and the police to gain entrance to the Garden, crashing in three doors.

**DITTO**  
At the torch light pep-rade swing off toward the town, Democratic Club Secy. Maxwell A. Eaton '37, sidled up to the calliope-car, or whatever it was whence issued those radio voices, and said he was scheduled to speak through the mike. He was the only one of his kind, his friends' speeches in the heart of a Republican procession, when Bill Burton came up and nipped the plot in the bud. m - c

**DITTO**  
The town hall meeting was, in the vernacular, a "honey." A group of Democrats unceremoniously boozing attracted the attention of the aforementioned Brewster. He went up to them and requested friends and associates stand behind them when the speaker mentioned Jim Farley. Brewster promptly boozed himself. He then had a very hard time persuading the local cop that he should not be thrown out. m - c

**DITTO**  
In regard to the Republican leader we understand that in an informal quite recently given some frosh, in which they were to identify various newsmen as "Y. Hopkins, Hale Balbo, etc., the name "Soapbox Grave" was included on the list. Three neophytes asserted he was a "some character in the funny-pants."

People in every walk of life...men and women...agree that Camel ease strain and encourage digestive well-being. Millions of smokers find that "Camels set you right!"

Make Camels a part of dining. Camels increase the flow of digestive fluids...alkaline digestive fluids...so necessary to good nutrition. And Camels never tire your taste or get on your nerves.

## m - c

**DITTO**  
Jack Magee, that maker of men, was a political force without parallel in the recent campaign, as proved by a story out of Bowstow. Seems that Jack collared a man wearing a Roosevelt button down in the Hotel Lemox last week end. After a half hour's serious chat, aided by newspaper clippings displayed by Magee, the other gent got up and threw his button on the floor, saying, "If he's that kind of a guy I'll be damned if I'll vote for him!"

**"I'LL TELL YOU WHAT I DO," says Miss Claire Huntington, expert stenographer, "to aid my digestion. I smoke Camels at mealtimes and after. My food tastes ever so much better and digests easier."**

## OWEN, WIGGIN, COHEN ON UNION COMMITTEE

William E. Owen '37, May E. Wiggin '38, and Leonard J. Cohen '39 will be student members of the Moulton Union committee this year. Faculty members are Professor Arthur C. Gilligan and Instructor Reinhard L. Korgen. The manager of the Union is Donovan L. O'Neil, former permanent chairman of the committee.

The purpose of the joint faculty-student committee is to help the manager of the Union in determining the policies governing the place and use of the Union in the general college life.

Owen comes to the committee via the Student Council. At the suggestion of the faculty members, the student receiving the third largest vote for the Student Council becomes a member of the Union committee. The other two members are elected by the Student Council from a list of six submitted by the faculty members of the committee.

## MANY ALUMNI TO BE HERE FOR WEEKEND

(Continued from page 1)

"men" was posted on the bulletin board, and that noon a message from the Deans to all students informed them to strain relations between two neighboring institutions and prohibiting a post-game goal-post battle was read at all fraternity houses.

In special meeting early that afternoon, Bowdoin students decided to send three delegations to deliver a letter of regret for the red lettering believed in Brunswick to have been the handwork of the Bowdoin expedition of the night before. The delegates had been sent with the intent of being received at a designated meeting-place in the town, having previously told some of their members through fraternity houses and ends to stir up interest.

### Five Cars Lead Way

Five cars transported twenty-five hardy undergraduates to Lewiston. They eventually met with disappointment, finding the campus well guarded by the Lewiston police, students, and 5,000 visiting school teachers convened in the city for a M.T.A. gathering.

### Order Is Orderly

No disturbance occurred at the game, student bodies of both colleges abiding by the decisions of their leaders and the college authorities. Small boys parading "Beat Bowdoin" signs in front of the visitors' stands met with ripostes on their second trips, while the Bobcats were carried off during the closing minutes.

The steel Bobcat uprights, firmly embedded in concrete, still stand on Carroll Field, while the Bowdoin ones are now back in place, the cause of a sudden flaring-up of other campus signs that week.

A letter from the Bates Student Council offering regrets for the untoward action of "some underclass-

## Harriers Lose Harvard Title To Dartmouth

Badly handicapped by the ineligibility of Bob Porter, the Polar Bear harriers were pushed into fourth place in the Harvard Intercollegiate Cross Country race last Friday, and a powerfully built team from Dartmouth took four individual places for an easy victory with a total of 22 points, two better than the record set by Bowdoin last year when White runners cupped the first three places and the team fifth.

Ditto Bond, captain of the squad, turned in the best performance for the Polar Bears, narrowly beating out the fifth Dartmouth runner for tenth place. Eddie Soule was fourth in fifth place, while Mackenzie, captain of the freshman squad was 23rd, Bob Hyde placed 25th and Erni Bratt finished thirtieth to complete the scoring for Bowdoin with a total of 103 points.

The runner, William of Dartmouth completed the 4½ mile Charles River course in 22:57.2 closely followed by his teammate, Hawks, and

## J. V. RUNNERS DOWN ANDOVER

Eight Jayvee harriers led by "Squash" Mackenzie and Bob Hyde were among the first ten to cross the finish line to defeat the Andover Academy squad easily at Andover last Saturday with a score of 45-45. Mackenzie and Hyde broke the tie together to tie for first place in 18.46 and Harwood followed close behind them in third place.

Only two of the pretenders, Dick and Farnier, who finished in fourth and fifth places respectively, managed to finish before the last Polar Bear harrier had crossed the line. They were closely followed by Ackley of the Jayvees in sixth place, and the remainder of the Bowdoin squad finished abreast in seventh nosing out Tom Lena, Andover captain, and giving every member of the team a part in the scoring.

Mackenzie, Hyde and Bratt were apparently little off form for having run 4½ miles the day before in the Harvard Intercollegiates. The race was run over the 3.1 miles Academic course, finishing at the field between the halves of the Andover-Bowdoin freshman football game.

### Brunswick Tops Freshmen B 6-0

Although it showed improvement over its former games, the Frosh "B" squad suffered its third defeat of the season in its last game Monday at the hands of Brunswick High by a score of 6-0. In the opening minutes of the game Brunswick made large gains through a well developed passing attack to score. The Frosh then held them and the two teams saw-sawed up and down the field neither being close to a score until the last period. Approaching the end of the fourth period, however, the yearlings put on a drive which carried them to Brunswick's eight yard line. Here the town boys held for downs and carried the ball out of danger.

While none of the Frosh backs could gain much ground, Jack Tucker did pull off a few good running gains. Both lines showed strength, most of the gains for both teams being made by end sweeps and passes.

two other members of the Indian squad. Strong teams from New Hampshire and Vermont took second and third places respectively, the team honors, while Boston College and Springfield trailed Bowdoin to finish in fifth and sixth places.

Porter who might have materially improved the Polar Bear showing, pulled his team down to the fact that he had placed ninth in last year's New England meet. No man placing better than tenth in the New Englands are eligible to compete in the Harvard meet.

In spite of the loss of the first place which they were defending, the Mepane were awarded a plaque for having the largest number of men competing in the race. A total of 19 men represented the White while New Hampshire with the largest squad numbered only 16. The teams included both freshmen and varsity runners.

#### Final scores:

Dartmouth	22
New Hampshire	49
Vermont	57
Bowdoin	103
Boston College	117
Springfield	138

Although it showed improvement over its former games, the Frosh "B" squad suffered its third defeat of the season in its last game Monday at the hands of Brunswick High by a score of 6-0. While none of the Frosh backs could gain much ground, Jack Tucker did pull off a few good running gains. Both lines showed strength, most of the gains for both teams being made by end sweeps and passes.

## SPORT SIDELIGHTS

By Bill Hawkins

By the time Bowdoin registered its third touchdown Saturday, it indeed became very apparent that that last day of October had quite certainly turned into All Soul's Day as far as the Polar Bear grid was concerned. Those sensational runs of Dave Soule's which netted 178 yards accounted for more yards than the net total gained by the White team in both its passing and rushing attack. It was not however without the excellent blocking of the Polar Bear line and especially of Junie Frye and Bobby Smith that the charge through the midst of the entire Bates squad was successful.

Whilst the statistics show Bowdoin somewhat outpaced and outmanned the visitors, the total yards gained figure would look quite different if the gains from intercepted passes were to be included. Soule and Frye contributed 85 and 47 yards respectively which would swell the Polar Bear's total to 296 as against Bates' unchanged 202 yards net from passing and rushing.

The fact that Bowdoin gained a total of four yards from scrimmage in the entire first quarter bodes well for Bates' powerful line. While the Bates team averages a full ten pounds more per player than the Polar Bears, their line curiously enough was only slightly heavier. The Garnet weight, however, extended also into the backfield which had more than a fifteen pound advantage per man over the White backs. And Barney Marcus led that backfield gaining 107 yards of the 155 that Bates took from scrimmage.

"Art" Andrews' brothers, Buck and Bucky Sawyer have much in common. Back in 1889 when Bowdoin-Bates grid rivalry was just beginning the Polar Bear trounced the Bobcats 62-0 on the "Bowdoin Delta". Of the eleven touchdowns made, the point after seven of them was made by fullback Andrews and incidentally the extra kick in those days was worth two points. An enviable record likewise, is that of Captain Buck Sawyer who has raised himself try for try to a point in his three years of varsity football. Of the thirty White attempts in the last three years Buck has tried 16 placements and missed only four. Only three of the tried remaining fourteen tries have been successful—two being in the latest Colby and Bates games.

### POLAR BEARS ENTER NEW ENGLAND RACE

Led by Bob Porter and Captain Ditto Bond the Polar Bear crew contrasted with competing against other New England colleges in the 24th annual New England Intercollegiate race run over the Franklin Park course in Boston Monday afternoon. For the first time in several years a Polar Bear running squad will be entered in the freshman race as well.

Besides Porter and Bond, Charlie Young, Bob Hyde, Bill Hawkins, and Win Allen will probably be running in the varsity competition. Last year Porter copped ninth position and Young finished fourteenth as Bowdoin placed fourth for team honors in

spite of the fact that the White runners were but 12 points behind the winners, the University of Maine.

Although the loss of men like Shute and Cowan will be sorely felt, this year's team so far has shown ability to stick together and may be more successful in the team scoring. Last year the fact that Fred Mann, the man on the team finished far behind the other four was all that kept the Polar Bears out of the win column when they had appeared to be on the way to victory.

In the freshman race Coach Magee is entering one of the strongest yearling squads he has ever in recent memory. Kenyon, captain of the team, was third Bowdoin man in the Harvard meet last week and Harwood, Ackley, Mitchell, and Braudeen all showed plenty of strength in the Andover-Jayvee race last Saturday.

## Walshmen Down Bobcats In Second-Half Scoring Spree

(Continued from page 1)  
teammates cleaned out would-be tacklers.

His attempted place-kick was blocked.

Bates' first three plays after the kick-off were passes. Johnny Frye intercepted the third and carried it into the 50 for the Bobcats. Bill Hutchison, the passer, finally brought him down after some clever eluding of would-be Bowdoin blockers.

Bates held for downs but Reed returned Hutchinson's punt to the 20, carried the 13, and again to the three which enabled Melendy to score off right tackle.

Bob Smith's kick was blocked, leaving the score at 25-6.

### BATES TRIES PASSES

Once more Bates resorted to desperate final period passes. Gentry intercepted the third one. Bowdoin substitutes streamed onto the field, but the team continued to gain ground, and Gentry made first down on the 13 as the game ended.

Captain Buck Sawyer had to be helped from the field early in the first quarter, but Bob Smith took his place and proved a most efficient understudy. His blocking and tackling were outstanding all afternoon and he proved to be a tower of strength against Bates passes.

Bates' stout line, the most brilliant individual back, but had able support from Frye, Reed and Karashian. Frye got away consistently good punts all afternoon and was nearly as effective with his passes. Gentry had to bear the burden of the Bates attack.

In the line, Fitts, Nicholson, Griffin and Ashkenazy were best for Bowdoin, while Cooke, Kishon and Reed turned in good work for the Gators.

### The lineup:

Bates	Fitts, le	re, Reed
	Griffith, lt	It, McCluskey
	Clapp, rg	ig, Robinson
	Nicholson, c	c, Preston
	Ashkenazy, rr	rr, Hill
	Hutchinson, re	re, Kishon
	Cooke, q	q, Hutchinson
	Frye, lh	lh, Marcus
	Gentry, rh	rh, Frost
	Karashian, fb	fb, Reed
	Bowdoin	0 0 13 24-25
		6 0 0 0-6

Bowdoin substitutions: Hanley Curran, Cox, Corey, Broe, Tootell, Davis, Walden, Burton, Creiger, Bob Smith, McDaniel, Reed, Frazier, Sonie, McEndoo, Touchdowns, Soule 2, Reed, Me, Jendy, Marcus.

### ANDOVER SMOTHERS FRESH GRIDMEN 26-0

Completely outplaying the visiting Bowdoin Freshmen team, Andover's army of forty eleven smothered every close ball game into a second half runaway. Saturday by 26-0, and remained undefeated until Sunday upon. Held to a lone touchdown in the first half the yearlings broke loose to the 30 minute mark and forth chapter, and at the same time managed to keep the White yearlings well bottled up in their own sector of the field.

Andover's first trip into White territory was the 8-yard line early in the first quarter. Here the Cubs held and successfully kicked out of danger after a third down punt had been blocked but recovered.

Midway through the second quarter Fitts drove the Freshman 10 where they were checked momentarily, only to pass for an easy score on a delayed "shift right". Lawton, the receiver, was shaken loose in the opposite direction, with not a defensive-man within hailing distance.

Boulder blocked the extra point try.

The Andover squad went to work with a dash in the third, and canoed by Murphy, and then Donahue. An apparent 50-yard breakaway, just by Captain Murphy, was ruled out of bounds on the White 31, and alert Mac Denham recovered a fumble shortly afterward. The yearling offensive gesture, a 10 yard gain on a pass, Mac Denham, was nullified by an off-side.

The fourth period saw the Blue push over two touchdowns against an injury-ridled frosh eleven. As in the first half, the yearlings gained little ground, but the final march down was the result of a penalty.

Denham, Loeman, Webster and Boulder played bruising football for the Frosh, while Murphy, Donahue, Dempsey, and Herring stood out for the home forces.

### The line-ups:

ANDOVER	... FROSH
Huffman (Johnson), le	re, Griffith (Marble)
Healy, Fitts, Clapp, q	It, McCluskey (Hill)
Kiphuth (Foster, Selberg, S. Murphy), rg	ig, Robinson (Kishon)

## BONNIE BONNIES

We happened to mention in last week's column a general knowledge quiz recently given a group of freshmen here. Some interesting answers were forthcoming in the biographical section of the test, while much of the similar section of the "Freshman's Friend," II. We quote:

Dear Stu,

Congratulations on acquiring my title. May our great names never be used in vain! You are aware of the great responsibility incumbent upon you as the proud possessor of a distinction such as does not come to many. "Many are called, but few are chosen." I am happy and pleased to welcome you to this august fraternity of Freshman's Friends, and hereby inform you of your elevation to the office of vice-president in charge of road repair.

## EDITHIANA

A lady walked across campus from the Moulton Union the other day, crossed the Delta to Federal Street, and made a social call upon Mrs. Sils at the "Sils'".

"I just came from the Union," said the visitor upon entering, and by way of opening conversation,

"Oh, my isn't that too bad?" murmured her hostess sympathetically.

m - e

Which subtlety is explained by the fact that Edith thought the lady had said: "Funeral!"

m - e

## ENTICEMENT

The Bowdoin Christian Association, with its little cards of certification of membership, employs a typical bit of advertising on the said cards, we dis-

alternating each year in the location of the dance, a saving could be effected without lessening the brilliance of the affair. Instead of having from \$100 to \$125 to spend, the chairman of the two houses working together could have up to \$250 at their joint command. Quality rather than quantity in regard to both orchestras and dances could be sought.

Steps in this direction have thus far met with little success. The plan is at least worth trying one year, and the experiment must be initiated by the houses themselves. Neither the college nor the student council have ever interfered with house dances other than to limit the amount to be spent by one house for an orchestra. The ORIENT hopes that the dance chairman of each house will sound out his brethren on this matter, and see if, cutting out pride and useless extravagance, a less costly and wasteful, but more sensible and enjoyable first night of house-parties can be ar-

ranged.

CREDIT DUE

"Hats off!" is again the watchword of the college toward the Bowdoin football team, or rather squad, and its capable mentors, Adam Walsh and "Dinny" Shea. The already successful 1936 season, and the steady and successful defense of Bowdoin's state title, have come as a result of complete co-operation in the team, the athletic department, and with the college, coupled with spirit and courage.

The student support which the ORIENT urged in its first editorial column for the year was forthcoming. Once it even disturbed the slumbers of the team; at any rate the Bowdoin players always knew there was a large group of their fellows supporting them in enemy visitors' stands.

"Prepared to give and take in the stiff battles ahead, the 'Big White' will be fighting hardest when the going is toughest"—thus did the ORIENT, sensing the team's spirit through Associate Editor Burton, forecast the series games ahead of time. Nothing need be said further than that this has indeed been true in the stirring second half rallies and dogged goal-line stands of each series game, and that the college is justly proud of a champion ship team.

## PEACE PROPAGANDA

Articles on the horrors of war, relative to the armed conflicts of the world as "And Sudden Death" was to the yearly automobile death toll, are frequent at this time of year. "Propaganda!", the person who considers himself intelligent will say, precisely as he would condemn Communistic pamphlets or W.C.T.U. leaflets. He is right, but he should not employ the term in its more derogatory sense, for this type of writing strikes home more often than intellectual pleas.

An interesting feature of the work of the Emergency Peace Campaign, a movement organized this spring to carry out a two year program of spreading anti-war opinion, is that its leaders openly acknowledge that they will make use of propaganda. War sights with jingoism and propaganda and it is through these means that it is often fostered upon an unwilling public. Why should not peace employ the same methods, and appeal with emotionalism where that kind of appeal is necessary to reach its audience?

To those who like to think that undergraduates are too intelligent to pay attention to propaganda of often a sentimental type, such blunt speeches as featured the mass peace rally last fall are unwelcome. But this is granting too much student intellectualism. What reader has not been more impressed, for instance, by the full page colored magazine advertisements of the World Peace organization, than by dull paragraph after paragraph of precise type in a pacifistic article in some periodical?

The value of a college education has been summed up as "the ability to put one's self in the place of another." If this be true, the student who is able to use his imagination in regard to possible war will be the citizen most apt to work actively for peace, and to resist war propaganda should it become prevalent. He will see war as an abstraction; the events of the last few months in Europe have shown how quickly international tensions can fester into very sore spots—spots which are still extremely "touchy".

This type of undergraduate, whether his imagination is appealed to by sentimentalism or reason, will not sit passively by while the shadow of the next war grows darker. The "war will never be stopped—it's human nature" attitude is not helpful, hopeful, or tolerant. Many students concede that there will be a European war within five or ten years, but they are fooling themselves if they do not realize that this country may very well be drawn into the struggle, no matter what idealistic ideas they may entertain about neutrality, economic self-sufficiency and political isolation. This will mean the end of careers just begun for some, the abandonment of a young wife and family for others, parting with parents, wounds, injuries like blindness which may result in but a living death—all of the terrible things resulting from war mention of which is ordinarily kept from a public too liable to be influenced by them.

## ECONOMICAL DANCING

Approximately a year ago at this time the Sun Rises editorial column of this paper discussed the houseparty dances situation and urged interfraternity cooperation with resulting economy and better dances. Xmas houseparty is now only six weeks ahead, and the various houses dance-committees are already attempting to secure bands and plan dances.

The ORIENT goes strongly on record in favor of cutting down by concerted and co-operative fraternity action the number of fraternity house dances taking place Monday night, the first day of house-parties. Year after year eleven houses have "kept up with the Jones'" with eleven separate and expensive dances at Xmas, when even four dances could have taken care of the crowd. The competition of all fraternities is unnecessary and excessive at that time. Ivy is a different matter.

If the houses were to pair off by agreement among themselves and devote their funds to a joint effort to secure a band probably

## FOR DIGESTION'S SAKE... SMOKE CAMELS

Camels increase digestive activity — encourage a sense of well-being!

WITH healthy nerves and good digestion, you feel on top of the world. When you smoke Camels with your meals and after, Camels help in two special ways: Tension is lessened and Camels promote digestive well-being.

So enjoy your Camels between courses and after eating. Strain eases.

The flow of digestive fluids, so vital to proper nutrition, is speeded up. Alkalinity is increased. You get more good from what you eat.

For an invigorating "lift"—for matchless taste—and for digestion's sake—the answer is the same: Camels. Camels set you right! And they don't get on your nerves.

# THE BOWDOIN ORIENT

VOL. LXVI

(66th Year)

BRUNSWICK, MAINE, WEDNESDAY NOVEMBER 18, 1936

## The Sun "Rises"

By William Frost  
Comments on the Masque and Gown's Armistice Day presentation of "Bury the Dead" have been varied but nearly universally favorable. Some amateur critics praised Shaws play, some thought it too farfetched and emotional, some felt that its point might have been more emphatic, but all agreed in their enthusiasm for the originality of the staging and for the excellent production work in general. The way of producing a masquerade in the winter quarters of the Maglemen, without stage, without proscenium, without backdrops, without curtains, without any formal auditorium for the audience, was indeed a technical triumph of job of it—it is one to stagger the imagination of any dramatic coach.

Professor George H. Quinby, who has the lion's share of the credit for the success of the masquerade, could easily point out that so far as lighting arrangements and stage facilities go, the cage of the Hyde Athletic Building is just about as convenient a place to produce plays as the Art Building itself or the auditorium in Memorial Hall itself, but for sheer originality he could hardly have chosen a better spot. Ever since he has come to Bowdoin, new ideas in dramatics have been the order of the day, and their effect on enrollment in the Masque and Gown is nothing less than phenomenal.

SELECTIONS of plays to be staged have been anything but conventional. Witness Christopher Marlowe's "Tamburlaine," the Armistice commemoration last year; "The Beau's Strategem"; and "The Emperor and Jones," scheduled for this season. And even when the play was what might have been expected, the production was novel and skillful—Plautus' "Mostellaria" last spring was a good example.

In that ancient farce the lines were modernized to the highest degree, and the music and movement were reproduced with care and accuracy. As a result, Bowdoin could boast an intelligent experiment in classical drama.

In this mechanical world, the technique of staging plays is yearly a student concern. Moreover, the student playwrights, actors and production workers at Bowdoin are fortunate in the experience they can gain under a dramatic coach who is alive to new trends.

IT IS now just about a year since in the "Sun Rises".

"Viewed at first with varying degrees of skepticism, The Student Council Drama Committee now appears to be eminently successful. Organized in acute recognition of the fact that something of the sort really was needed, it has had the watchful support of the faculty as well as the student council, and can, it seems, command prestige sufficient for the occasion."

"The occasion," of course was the abolition of Phi Chi.

Phi Chi has not been revived this year, and, as usual, a certain amount of talk has found its way into upper-classman bulletins about how effective discipline is or is not among the latest freshmen. A fairly widespread attitude this year is that seeing as the S.C.D.C. ought to guard carefully against the error of being too gentle with offenders among the yearlings. If the institution of freshman rules is to be kept up at Bowdoin—and most students seem to feel that it ought to be—a thoroughly sound point of view toward it ought to be taken.

No one can have any serious opposition to the freshman rules in general (except in so far as some of them may perhaps be thought rather trivial), and the general idea of having an institutional committee to set the too precocious frosh on the right path is undoubtedly a good one. However, one of the surest ways for such a committee not to succeed in being a benefit to the incoming class and to the college is to fit it to arouse a spirit of ill-will and antagonism in the freshmen. In so far as the S.C.D.C. acts judiciously and consistently toward the offending freshman, it will and must win out of the best undergraduate institutions, but if it should merely provide public fun at the freshman's expense and discomfort, it would be nothing more than the old Phi Chi under a new name—an ancient, outmoded, immaturity, potentially harmful tradition.

AFTER all, the freshman is not so different a person, fundamentally, from the upperclassman as is sometimes thought. It seems only logical to suppose that if the S.C.D.C. which represents his respect and ideals has consideration would create enough public opinion among the freshmen to make a pretty general observance of the freshman rules. Level-headedness, no marked ability as a "paddle-wielder," might be the first qualification for any member of the S.C.D.C.

### NOTICE

The Classical Club will hold a meeting tomorrow night at the Chi Psi House. Professor Stanley E. Smith of the faculty will speak informally on his recent trip to Greece. A business meeting will be held at the close of the lecture.

### NOTICE

Due to Thanksgiving vacation, no issue of the Orient will be published next week.

## Tufts Takes Final Game From Bowdoin As Keith Stars In 13-0 Conquest

Jumbo Capt.'s Runs, Punts, Acerra's Work in Line Aid in Victory

WHITE AIR ATTACK IS STOPPED DEAD

Defeat is Polar Bear's First On Whittier Field Under Coach Walsh

Far below their state series form, the Jumbos, once considered invincible, bogged down and lost to a fighting Tufts eleven, 13-0, in the final game of the season at Whittier Field Saturday afternoon. Tufts' alert defense, Acerra's brilliant work at center, and Captain Robert Keith's tenacious punting combined to stop every Bowdoin threat, while the Jumbos were uncovering a pass offensive of their own that the White could not stop.

It was the first defeat Bowdoin has received on Whittier Field since Coach Adam Walsh came to Bowdoin.

Neither Tufts nor Bowdoin could gain consistently on the ground and Bowdoin got past the Tufts 40-yard line only once and then by the help

### TUFTS

First down	9	T
Yards gained rushing	171	172
Yards lost rushing	25	17
Net gain rushing	146	100
Passes tried	16	10
Passes completed	1	5
Yards gained passing	55	55
Number of punts	9	12
Average of punts	32	47
Puntalies	5	10

of a lateral pass. The only Polar Bear line play which gained consistently was an end-around by which Pitts and Newman ripped off several sizable gains.

Neither team could make any impressive gains in the first quarter, but the Jumbos did. Keith's 100-yard boot was considerably better than Buck Sawyer's to keep Bowdoin in its own territory.

Keith carried to a first down on the Bowdoin 42 as the first quarter ended and with the beginning of the second quarter Tufts began the drive which brought the first score.

### For Touchdowns

Philipps' 30-yard run to Spoth was good for 33 yards. Reed stopped the play on the nine-yard line. Keith crashed the line to add three yards more, and then Spoth started an end run which drew in the Bowdoin line and passed to Baker for a short gain, clear deep in the end zone, for the score. Keith's place-kick with the dead men, but fruitlessly.

### "It Didn't Work"

Finally the generals sent out a call for the women of the dead soldiers' wives, mothers, sweethearts, or sisters.

These parts were played by Mrs. M. Thalheimer, Miss Margaret Minor, Mrs. Herbert W. Hartman, Miss Florence Wallen, Miss C. C. Young, and Mrs. Athene P. Duggett. Even their pleases have no effect.

As a last resort the generals turned out a machine gun on the stubborn six. But the lead which had once failed did not longer do so, and Baker, the dead man's walk off the stage, leaving the generals slumped over the gun, and the audience with the impression that the only way to make the six lie down and be buried is to stop the war.

Keith made 14 yards around end, and after two plays had netted no gain, Spoth heaved a pass to Phillipot who grabbed it just as Reed and

Beam, New Curator, Lectures

On Life And Times Of Hogarth

### By Richard E. Tukey

The life and times of William Hogarth, 18th century painter and engraver, were discussed last night by Captain C. Beam, assistant director and curator of the Walker Art Building, before English and history students in the lecture room of the Art Building.

"Art in Hogarth's day," Beam said, "was the art of avaricious and aristocratic. But in this rough world were caterers of intelligent men just as appreciative of one another's talents and with a large sense of conviviality. Most of them were writers of classic fable; some, poor sport, stocky, hairy man with the keen wit and the tenderest heart of the entire company, was Hogarth."

### Was Born in London

William Hogarth was born in London in 1697, the son of a poor schoolmaster who came up from the country to try and earn a living, but failed to find it. The boy's education was scant and irregular, but he persevered in his intention to educate himself. "Genius," said Hogarth, "is only labor and diligence."

In his 20th year, after having been apprenticed as a silver-plate engraver, he struck out on his own as a commercial artist, designing arms, shopkeepers' signs, tradesmen's cards, and formal invitations to spares and funerals.

"From his 20th to his 30th year," Mr. Beam stated, "Hogarth diligently pursued his trade, training himself for the great work that was soon to astonish his friends and expose his enemies. He knew London; he loved

### Tie Press Box In Place For Game With Tufts

They had to tie the press box down to keep it in place for the Bowdoin-Tufts game Saturday, college officials revealed after the game.

Poter said that when the box was tied down it was held in place by a chain across the grandstand. He had to lash it down to prevent it from going down again.

Poter said that when the box was tied down it was held in place by a chain across the grandstand. He had to lash it down to prevent it from going down again.

## THE AMERICAN RED CROSS

When a college undergraduate stops to consider the percentage of the money he receives per year, whether through his own or another's efforts, which he gives back to society in the form of charity, the sum is no doubt frequently shamefully small. This does not necessarily imply selfishness, or heedlessness to the sorrows and need of others; it may reflect neglect and thoughtlessness in the face of good intentions.

While a person may be wary in giving alms to a beggar, who, for all the donor may know of it, dashes off to spend it on liquor or drugs, who, he is contributing to a national or local charitable organization he may be reasonably sure that his money is being wisely and honestly spent to alleviate human suffering. The American Red Cross combines both national and local work in this manner, all American Mercury articles to the contrary.

Bowdoin has always had a very high percentage of its enrolled students enlisted each fall in the ranks of the Red Cross. There is only a short while left for the less enthusiastic students, who may be oblivious to what the college owes to the community in which it is centered, to follow the many who have already joined the roll call. This enrollment includes several fraternities which have pledged 100%—and there is no reason the non-fraternity group should not feel a justifiable pride in emulating them. Bowdoin students may be sure that they can contribute to no better cause.

## CORRECTION and ADDENDA

It has been justly pointed out that in an editorial in last week's issue which urged "economical" dancing for the coming Xmas house-parties, a false impression of possible economy was given when it was said that a saving would be effected should the houses decide to sponsor the affairs in pairs. It is true that as far as the money question goes there would be no resultant economy in the fact that the combined houses might spend perhaps \$250 in securing an orchestra between them, instead of \$125 each. The advantage would come in the use of but one house in each case for the dance, and the possibility of having the dances located close together during a houseparty which might, as in 1933, be attended by a blizzard.

There are two possible solutions to the situation, if fraternity cooperation is used to cope with it. The plan mentioned last week could be employed, or the houses could not only combine their funds, but also whittle them down, spending half their usual appropriations for an orchestra.

The chief hindrance to the plan will undoubtedly come in the matter of fraternity pride and prestige. No fraternity man seems to want to notify his guest that his group has organized with another one, and that the dance is being given at their house. Presumably the houses would alternate in providing the locale for the dances each year. It is deplorable that the idea of such co-operation, making for a more sensible and inexpensive first night of houseparties with no loss of informality and congeniality, is utopian in a fraternity group of eleven houses trying more or less not only to keep up with the Jones', but even to outdo them.

## Communication

To the Editor of the Orient:  
The position of France in the coming war...at least we have been told in a lecture which we heard Thursday evening last—rather than "Can Democracy Survive". We were informed of the alarming facts which have led to the present situation in Europe, and we waited with some concern that there is still some hope since it is possible that the English may fight side by side with France. To me, however, the most alarming fact of all was the attitude of one man is my contention. Even abroad, indeed, Mr. Gerard remains very much the man of his party, if not in fact, at least in spirit. His fatalistic attitude has n. ever been that of French public opinion in general. In France there are still people who refuse to admit that France is rearmed, she wants war because, in spite of a certain Maginot line of fortifications, they were never conscious of such a desire in themselves. There is still a majority of people... But is it not evident that we think more of how to avoid war than how to make it. And I believe that those are the realists who do not by their "assemblage preventif" choose to discard possible understandings. I am sure that this danger is clear when he said last month: "I refuse to consider war possible today, because it would make it necessary tomorrow".

If I do not quite approve of the spirit of this attitude because it was misleading, I also disagree with what Mr. Gerard chose not to say. By considering public opinion, two facts might have been observed which prove very clearly that Mr. Gerard's pessimistic attitude is not prevalent in France. According to what we heard, France missed an opportunity when she did not send troops to wage a so-called "preventive war" in a

foreign land. But was there indeed any opportunity? Why not rather say that in spite of solemn speeches over the radio and in the press, the public was not stirred, and simply refused to believe that war was imminent? Why did our Premier and the French General Staff, for fear of war, together with serious internal troubles, were purely and simply forced by public opinion later to abandon their original policy?

As regards the Ethiopian situation, our Nationalists who were then in power chose to ruin the League of Nations by discarding a real opportunity to assure World Peace. But, here again, Mr. Gerard might have pointed out that it was the silent majority of French opinion against a policy which was not primarily one of peace. This reaction was amply demonstrated by the overthrow of the Nationalist government and the election of the Free French, which group together under the banner of "Peace at all costs" such diverse elements as the Communist, Socialist, and Radical-Socialist parties. (It may be pointed out here that the Radical-Socialists, a state of their very name, represent a majority of the center.)

Of course all that I have said leaves Mr. Gerard's picture unchanged, but it brings out two facts which for some reason have not been sufficiently emphasized in the controversy. These facts are that public opinion in France refuses to consider war as unavoidable, and that there are a sufficient number of "men of good will" for the maintenance of peace.

Maurice A. TILLIER,  
Follow in French.

Bowdoin undergraduates are invited by the New Republican to compete for a prize of \$25 offered for the best 300-word letter concerning the Republican Presidential nomination in 1940. The contest ends December 6.

Pertinax Says France  
Fears German Power

(Continued from page 1)  
the German, and there would have been no difficulty in mobilization. If an advance had been made then the present situation would not exist, he stated. At that time France and Great Britain would have to get Germany to join a conference of nations but met with a flat refusal of the current GROWLER.

"Militaire par" was the journalist's word for the keynote of Germany's present policy. It is the German idea to have neighboring countries keep a watch over the two nations so that they would be engaged in a war and leave anyone else from interfering. "It is the permanent thread of German policy. There is nothing new in it," he said.

**France Has Alternative**  
In opposition to the German plan to organize Central and Eastern Europe as a unit, Pertinax pointed out France's alternative of allowing Germany a free hand or forming a league of allied states to enforce international law and the edicts of Geneva. The basis for the former would be the possibility that the German army would lose interest in half a century in a campaign in the wastes of Russia.

"But," questioned the speaker, "is it so sure Hitler would repeat the folly of Napoleon?" He had no doubt it. The organization of a league, according to M. Gerard, will "six months ago a very possible move." Now it does not appear possible. France is afraid she may be "left in the lurch" if she tries to defend herself from an air raid.

**Russia Bound by Treaties**  
Russia and Pertinax disagreed in the lack of energetic action by France on the occupation of the Rhineland, is regretting binding political and military agreements with France. His word for the present relationship between the two countries was "cold". Russia, he said, wishes to separate her fate as much as possible from that of western powers.

**Immediate Action on the Part of France**  
Immediate action on the part of France was said by the speaker to be necessary for the reason that further delay will probably bring about the dispersion of the French forces. He felt that France's Blum would adhere to the policy of "militaire pax."

William J. Brown '39 sang "Hear My Prayer," by Hamblen, in the Friday morning chapel service.

## Mustard and Cress

## GO JUMP IN A LAKE DEPARTMENT

Mustard and Cress is, of course, a head-ache to any Orient editor, and the less said, the better; in fact, the less printed of M & C, the better.

—from the current GROWLER.

m - c

## OFFICIAL SILENCE

The rally was called back at the beginning of the State Series, all called one afternoon on President and Mrs. Sills to see if they could coax Edith to speak at a football rally. But she put her foot down, firmly. She was still determined.

Cases then pointed out that she might at least promise to speak at the Thanksgiving rally if the team won the state series, as this would no doubt encourage the team to roll up touchdowns in the fond hope of hearing Edith talk to the football rally crowd. In the end, however, Edith still demurred.

"Wouldn't it be inspiring for the team," said Casey to the assemblage, "if she were to break her official silence—you notice I say official?"

m - c

## MIRABILE DICTU

It is an arrant shame that Life magazine is the person who will take the "Faculty Mind" department. Mustard and Cress would have suggested the following two quotations from eminent Bowdoin faculty members, but submits them for your approval instead of the Faculty Mind with the first brain-stormer.

"There has been no country," he declared, "in which all foods are ta-

deez!" students in French 3-4, a pearl or two of wisdom, from the lips of M. Thiller who is in order "French."

quoth he, "is a beautiful language, because it has no rules."

m - c

## POETIC JUSTICE

Just as Bowdoin Democrats stole a bit of the Republican thunder during the torchlight parade and Town Hall rally on Election Eve, it was only fitting that G. F. Brewster (who got the lead role in the last football rally) should be the most prominent figure in the Democratic Victory Parade last Saturday.

m - c

## W.C.T.U.

The best note on the evils of that old demon rum we run across in some times was the one of the member of the W.C.T.U. who said a considerable number of miles to Bowdoin the day of the Maine game only to subside into a prolonged doze (we've got to be euphemistic to avoid the censors!) which lasted from noon until 6 p.m. that afternoon, while a perfectly good three dollar ticket to the game languished in his pocket.

m - c

## WINCHESTER

Why did a certain trio of Beta seniors suddenly take it into their heads that they wanted a fried chicken dinner at Slade's in Boston Sunday night, leaving campus at 10:15 and getting back just in time for their 8:30 P.M. m - c

## CAN'T GIVE THEM AWAY!

It may have been a Maine man we saw handing out Growlers to passers-by after the Maine game in the Whittemore enclosure, but we understand that several students were seen to turn them down.

PRINCE ALBERT

THE NATIONAL JOY SMOKE

Lee Gehlbach says: "Smoking Camels keeps my digestion tuned up and running smooth"

"CAMELS set me right!" Gehlbach says. "You know, chance is only 10% of my business. Keeping alert and in fine condition is the other 90%. I smoke Camels with my meals, and afterward, for digestion's sake. And when I say Camels don't get on my nerves, it means a lot."

Good digestion and healthy nerves are important for everyone in this wide-awake era. Camels at mealtime and after speed up the flow of digestive fluids—increase alkalinity—help bring a sense of well-being. So make Camel your cigarette—for digestion's sake—for their refreshing "lift." Camels set you right! And they do not get on your nerves.

Copyright, 1934, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

## THE TEST DIVE!

Straight down from 4 miles up—motor roaring—struts screaming—Gehlbach tears earthward like a bullet flashing from a revolver. At the bottom of the 2-mile dive—a sharp pull-out wrenches plane and pilot to the limit. Such tests make planes safer. Anything can happen. A bump in the air—a tiny flaw, and the plane can fly to pieces as though dynamited while the pilot takes to his parachute. But, as you can see at the right, Lee Gehlbach eats heartily and enjoys his food. Note the Camel cigarette in his hand—one of many Camels that Lee enjoys during and after meals. In his own words (*above*), he gives you the reason why Camels are his cigarette.

COSTLIER  
TOBACCOS!

Camels are made from finer MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

## TUFTS PASS ATTACK BRINGS 13-0 VICTORY

(Continued from page 1)  
Karsikas closed in on him on the goal line. Keith's try for point failed.

Bowdoin made its first real threat of the game in the last quarter. Taking the ball on its 32, the Bowdoin team went in. Brink Rees through tackle for 12 yards and then Frye tossed a lateral to Bennie Karsikas which was good for 34 yards. But they were unable to get through the Jumbo line further, and Frye tried

to pass but was tackled by the Jumbos.

The Bowdoin club was to hold a parade down Main Street. Two bands were scheduled. Official band of the club would conduct the noisy overnight victory parade held by the Young Republicans club of Bowdoin and Brunswick the night before the election.

On Saturday the Bowdoin band was held, except for Pierce who had been hospitalized.

**HIGH SCHOOLS WILL DEBATE HERE DEC. 5**

Nine Maine high schools have entered the annual Bowdoin League Interscholastic Debates which will be held Saturday, December 5, in the debating room of the library. Two sessions will be held, the first in the morning at 10:00, the afternoon session at 2:00. The question of debate this year concerns Social Security. The high schools entered are Bangor, Lewiston, Edward Little, Deering, Portland, South Portland, Biddeford, Falmouth, and Leavitt Institute of Turner Centre, winners last year.

Phillips T. Head '38, manager, has received word from Colgate University to which he will go to study law. He will keep up debating while at Bowdoin on November 20, in Hubbard Hall. This debate was to form one side of a triangle of debates among Bowdoin, Amherst, and Colgate.

In the final minutes, Bowdoin forward which was intercepted by Phillips T. Head and forced him to punt. Forcibly to a hurried kick, Keith got off his only bad punt and Bowdoin started on the Tufts 22 again. Fitts made six yards around left end, but here again Bowdoin's passing attack failed and Tufts took possession of the ball.

## MASQUERS SCORE HIT IN "BURY THE DEAD"

(Continued from page 1)  
played by Randolph E. Waterhouse '38; Richard B. Carlisle '38; Paul Webb '37; Frederick C. Lewis '38; William J. Brown '39, and Everett F. Jewett Jr. '39. The exceptionally large cast included, besides these six and the six faculty and townswomen, twenty-four other student actors.

"The play opens with the beginning of an ambitious season for the Masque and Gown, which, under the direction of Professor Quinby, plans four more major productions, as well as the one-act play contest. The four full-length plays are: 'The Beau

Strategem', by George Farquhar;

"The Emperor Jones," by Eugene O'Neill; "Yellow Jack," by Sidney Howard and Paul de Kruif; and

"Shakespeare's Hamlet".

The current production of the Masque and Gown is dedicated to Nicholas Udall, onetime headmaster of Eton and author of "Ralph Roister Dois-ter", which is generally considered as the first English comedy.

## HIGH SCHOOLS WILL DEBATE HERE DEC. 5

Eight men will compete in the annual Alexander Prize Speaking Contest next Monday evening in Memorial Hall. First place winner will receive \$40, second place winner \$30. President Kenneth C. M. Sills will act as chairman. Tickets will be furnished between every three speakers.

The speakers and their subjects are as follows: Ernest F. Andrews Jr. '40, "First Inaugural Address" of Franklin D. Roosevelt; Harold D. Ashkenazy '39, "Markheim" by Robert Louis Stevenson; Jeffrey J. Brink '39, "Patriotism in Literature" by Patrick Henry; Carlyle N. de Suze '38, "Steel" by Joseph Auslander.

William C. Hart '38, "The Prisoner of Shalem" by Lord Byron; Paul H. Hermann '40, "Dauber" by John Masefield; Donald Sammis '40, "Rancho" by O. Henry; Arthur W. Wang '39, "On the Resolution Declaring War" of Senator Norris. The alternates will be Milton M. Goldberg '39, and Porter Jewett '39.

Established in 1870

The Alexander Prize Speaking Contest was established by the Hon. George A. Stanwood, Alexander L.L.D., of the class of 1870. Competition is open to freshmen, sophomores and juniors. Richard V. McCann '37 ineligible to compete this year, has won this contest for the past three years.

Second place last year was awarded to Nelson P. Seagrave '37, and for the two years before that to Edwin G. Walker '36.

Of the men taking part this year only de Suze competed in the last contest.

The first issue is planned for mid-December.

## HELL WEEK I

Many issues have rolled off the presses since the day two years ago that an ORIENT editor started the campaign against Hell Week with a critical attack on it in his Sun Rises column. What editorial comment may have gone before, in past years, may have had some small effect in subtly influencing student opinion on the ancient institution connected with pre-initiation activities, but the fall of 1934 found the Bowdoin fraternities still eleven strong in upholding Hell Week.

Volume II of the ORIENT, appearing from March, 1933, to March, 1934, was not opposed to Hell Week. It made no mention of the matter. It was with the succeeding volume, under the leadership of Donald F. Barnes, '35, that the first and only editorial in the last four years directed against fraternity hazing made its appearance, backed up by several items in successive Sun Rises columns. The writer of the latter column, John P. Chapman, '36, had pointed out that the sanctity of Hell Week was never questioned, that riding often did more harm than good, and that table hazing was an insult to both the intelligence and digestion of undergraduates. He further demonstrated the bad effects of Hell Week and its razors and errands on freshman marks, many professors giving the traditional week up as lost, scholastically speaking.

Early in December the ORIENT in the Sun Rises commented favorably on the abolition of Hell Week by Theta Delta Chi, the first Bowdoin fraternity to take this step. It was pointed out that this did not mean that there should be no pre-initiation activity whatsoever—the traditional "horse-play" had been rendered obsolete. It was urged that fraternities adopt a single policy one way or the other, if necessary through discussion by the interfraternity council.

In quotation of the Sun Rises of December 19, 1934: "Since its abolition last week by the Theta Delta Chi fraternity, there has been considerable comment by members of the undergraduate body, the faculty and alumni. Almost unanimously these opinions have reflected a desire for its (Hell Week's) complete discontinuance at Bowdoin."

With an editorial in the following week's issue, the ORIENT took even more official notice of the matter under the heading "The Beginning of the End for Hell Week." It noted "the uselessness and utter ridiculousness of putting the freshmen through a severe test of mental and physical torture before their initiation into a fraternity. . . . Hell Week has no lure for anyone except the sadists who conduct it. That it exists at all is an insult to the intelligence of the student."

Volume LXV, appearing last year, had nothing to say on the question.

The current ORIENT, trusting that the few who read its editorial columns will bear with it, plans to present during the next few weeks a series of editorials concerned with the question of the final abolishment of Hell Week. This editorial has reviewed the paper's policy in the past. Other articles will discuss the current situation in regard to Hell Week, national fraternity rulings on Hell Week from data presented at the 1936 National Interfraternity Conference, and the situation and policy of colleges of Bowdoin's size and type.

There follows an presentation of the constructive view of a Hell Week shown ten years ago by the undergraduates of the University of Michigan, an institution strong in national fraternities and one of the leaders in showing an intelligent handling of the matter. The first item, issued by Michigan's Senate Committee on Student Affairs, appeared in 1929. The second had been presented in 1927 by a sub-committee on Fraternity Initiations.

In view of the unfortunate incidents that have often resulted from too drastic Hell Week programs in the past, and in view of the strong condemnation of rough house initiations adopted by the National Interfraternity Conference in 1920 and unanimously reaffirmed in 1928, the Senate Committee on Student Affairs urges the cooperation of all fraternities in keeping their probation week activities free from any practices which involve

- (a) The physical mistreatment of initiates.
- (b) The destruction of property and public disturbances.
- (c) The interruption of class attendance.

Fraternities violating the spirit of these suggestions will be liable to disciplinary action.

April nineteenth,  
1927

To the President and Chapter  
Gentlemen:

A persistent problem invites your cooperation. It is a problem of student democracy. Altering one word of a recent epigram, it may be said that democracy is the attempt to let as many men as possible work off their own steam without scalding the man next door.

The question here to be faced has to do with the hazing that accompanies some fraternity initiations. While a certain amount of discipline may be wholesome for the initiate, and while a reasonable degree of spontaneous fun may add an element of bright-

ness amidst the sober pursuits of academic life, hazing, in its cruder and crueler forms, leads to resentment and, on occasion, to serious suffering on the part of the victim; moreover, the effect is detrimental to the finer instincts of those who presume to inflict it. While the majority of individual are kindly, chivalrous and fairminded, there are always a few primitive spirits who get out of hand and demoralize their fellows—the mob spirit in larger or smaller groups is apt to degenerate into something that is unsportsmanlike and Ruthless. Hence, in the more settled communities where men have higher standards of breeding and more rational forms of recreation, general class hazing, although it breaks out now and again, does so with decreasing frequency.

So, with rare exceptions in the fraternities with longer and higher social traditions, the more Gothic methods of dealing with prospective new members are looked on with increasing disfavor by the mature and better bred type of students.

Nevertheless, at least four evils persist, one or another—possibly all together—in some fraternities. To consider these serially:

(1) Personal abuse or humiliation. Little need be said on this score; for most folk, upon reflection, would admit that it is absolutely unreasonable and indefensible to maul and insult a man with whom you expect to live as a brother. Nor does it make for the best type of character building to have the initiate console himself with the hope of getting back at some other unfortunate youth in a subsequent year.

(2) Probation Week: A reasonable amount of chores imposed upon initiates are fair enough, but they should not be so long, continuous and exacting as to interfere with a student's university work.

(3) Publicity: There have been at least a few cases very recently when householders have been disturbed by yelling, firing of guns and revolvers for half the night; one lady was subject to the inexcusable fright of a fictitious burglar. And forms of publicity, though the peace and offend the sense of delicacy of the community at large have no place in an initiation.

(4) Ordering initiates to take or destroy property: This injunction has only to be stated to contain its own condemnation.

Surely ingenuity and wholesome fun should exist to a sufficient degree among educated men, men in pursuit of an education, to substitute sander and more amusing forms of initiation for certain types that unfortunately still exist.

Local officers of a fraternity are usually willing to suspend or annul any chapter that is an obstinate offender, some offenders, however, for the university authorities or for the police if persistent in too far; but, after all, the happiest solution of this problem would be one arrived at by the sensible cooperation of the men who have at heart the developing of sound and wholesome university traditions.

**PRINCE ALBERT**  
THE NATIONAL JOY SMOKE

**Sir Hubert Wilkins, Famous Polar Explorer, After Rugged Arctic Fare—Gets Comfort and Cheer with Camels!**  
He knows the Arctic and the Antarctic. He has known abysmal cold; fought his way step by step through howling blizzards; lived on pemmican and biscuit. "Where I've gone, Camels have gone," says Sir Hubert. "An explorer needs good digestion," he continues. "In the Arctic, I take what I can get to eat and like it. Food is monotonous—concentrated—hastily prepared. Smoking Camels adds gusto to my meals and brings me a great feeling of well-being afterward. Camels set me right! A Camel has often given me the lift I needed to carry on."

ENJOY CAMELS OFTEN...FOR A CHEERY "LIFT"...

FOR A SENSE OF WELL-BEING...AND

*"For Digestion's Sake  
...Smoke Camels!"*

CRAMMING takes mental punch;  
strains digestion too. Smoke Camels  
for a welcome "lift" for digestion's  
sake. Camels set you right!

IT'S NOT alone what you eat that's important. How you digest it counts for a lot too. Camel at mealtime help in two special ways. They ease tension and stimulate the flow of digestive fluids—alkaline digestive fluids—are necessary to normal, healthy digestion.

Join the Camel smokers! Camel's mildness and finer flavor—Camel's energizing "lift" and aid to digestion—add pleasure the whole day through. Camels set you right!

**NEW HOLLYWOOD RADIO ATTRACTION!** Camel Cigarettes bring you a FULL HOUR'S ENTERTAINMENT! Benny Goodman's "Swingin' Seven," Artie Shaw's "Orchestra," Hollywood Guest Stars—and Kapernick Hopkins presides! Tuesday—9:30 pm E.S.T., 8:30pm C.E.T., 7:30 pm M.S.T., 6:30pm P.S.T., WABC-Columbia Network.

## COSTLIER TOBACCO

Camels are made from  
few, more expensive  
varieties—Turkish and  
Domestic—that pay  
other popular brands.

HE POURS WHITE-HOT MOLTEN STEEL. C. V. Davis' job is tough on digestion. He says: "Smoking Camels makes food taste better and set better with me."

**MOST GIRLS HERE** at college smoke Camels, "says Miss J. O'Neill. "So I smoke them too. Smoking Camels helps digestion; food tastes better! Camels always taste mild."

## GOODRICH SPEAKS ON NEED OF MEDITATION

Citing incidents from the lives of many great men, Rev. Chauncey W. Goodrich, D.D., of Brunswick emphasized the great need of us for silent prayer and meditation as a respite from our "hurly-burly" life. "One of the deepest needs of life," which enables a man to realize why he is here and sets before him ideals which he can forever follow with the consent of all his powers, is worth more than fifty hours of scrambling and carefree activity. For the fact," he stated, "is that real deal may be happening to a man when nothing seems to be happening."

He referred to an incident in the life of Jesus as told in Luke 5:15-16 when Jesus forsakes an excellent opportunity to "do the very thing He was sent to do." Instead, He withdraws into the desert to pray because it was more important to Him than the service itself that the service be of worth. What was important for Jesus, he continued, is important for all of us. "It is not generally a fact that a man's life which makes adequate place for silence and insight gains in inward power and moral weight?" He illustrated this fact with examples from the lives of many great men, including, according to Woodworth, Southby, Bishop Westcott, Foch, Haig, and, to come "nearer to our modes of life," an anonymous American financier, all of whom have expressed their need for hours of solitude in the strenuous soul and mind. "For," he said, "it was not in a strong wind, nor in an earthquake, nor in the fire that the Lord spoke; but in a still small voice."

Because life is so gregarious that one is seldom alone, so crowded that collected thinking is hard, he stated, a college is far from "a place of cloistered meditation." Nevertheless, he concluded, "the young men are finding time for this meditation because they crave for their lives more of depth and poise and power."

In conclusion the choir sang "Give Ear Unto Our Prayer," a motet by Arcadelt, sixteenth century Italian composer.

## Dupee Hears Mrs. Hepburn's Talk At Wesleyan Parley On Marriage

By Norman E. Dupee, Jr.

Last Thursday and Friday at Wesleyan University a committee conducted what they called a "Parley on Marriage." Scores of renown in the field of literature and thought in the search were invited to speak on their special interests. Highlights of the conference were the speeches of Mrs. Katharine H. Hepburn, mother of the movie actress, on "The Case for Birth Control"; Ralph E. Goldstein on "State Responsibility in the Matter of Marriage and Maternity".

All the speakers whether intentionally or not emphasized the "changing attitude toward marriage" stressed by the opening speaker, Carl C. Alvar, who was born in 1909 at 29 of the wives were in infidelity relations while 75 of the men were remaining true monogamists. From this and other studies the speaker based much of the limonial of his speech on the women. It was shown in connection with the importance of the first ten years of married life, that 36 per cent of the divorces granted over a certain period were given during the first four years. The speaker also reported that those interested in marriage had left "Old Love and New" by Wallace Walzer, and "The Family and Married Life," published by the Church Council.

Mrs. Hepburn told of the work being done by birth-control clinics for people who couldn't afford the advice of a doctor. Aid is given only to patients who are poor and who have had three children. She pointed out that knowledge of birth-control enables a woman to have a number of children than want when they want them. Fear of pregnancy on the part of the mother means an uneasiness that permeates the whole household. Mrs. Hepburn expressed faith in the application of divorce courts, and the assignment of a physical examination by a competent physician of both persons.

### War Against "Quacks"

Speakers who concerned themselves with the mating problem advised that a couple should get married on the basis of forming a partnership rather than on sexual attraction.

## ENGLISH SCHOOL TO GRANT FELLOWSHIPS

The Imperial College of Science and Technology in London, England, is announcing its 24th election of fellows to hold the Bell Fellowships for all students in the College near the 9th July, 1936. These fellowships of 240 pounds are tenable by only three persons each year who are descended from European parents and who have been educated in England. The award was founded and endowed by Otto Bell, Esq., of London in September, 1913. The provisions state that the money is to be given to students "to promote the advancement of science by means of research." This is different from the Bell Medical Fellowships and run for two years at the College at London.

Those interested in applying should do so before April 8, 1937. Information may be obtained by writing the Rector, Imperial College, South Kensington, London, SW.

## Welch To Teach At Northeastern

Dr. George B. Welch of Brunswick, who served last year as teaching fellow in Math, has been appointed Assistant Professor of Physics at Northeastern University. It was announced yesterday by Carl S. Els, dean of the Day Division. Dr. Welch will devote the rest of this year to research in the field of physics and will start his teaching assignments at the opening of the next academic year.

Dr. Welch came to Bowdoin in 1929 and was elected to membership in the Phi Beta Kappa society. He was a Robinson Fellow at Yale University in the Department of Physics and received the Doctor of Science degree in Physics at Cornell University.

Besides his service at Bowdoin during the last three years Dr. Welch has been a member of the faculty at Marshall College and Wells College, and is now a professor of Physics at Northeastern.

Mrs. Hepburn told of the work being done by birth-control clinics for people who couldn't afford the advice of a doctor. Aid is given only to patients who are poor and who have had three children. She pointed out that knowledge of birth-control enables a woman to have a number of children than want when they want them. Fear of pregnancy on the part of the mother means an uneasiness that permeates the whole household.

Mrs. Hepburn expressed faith in the application of divorce courts, and the assignment of a physical examination by a competent physician of both persons.

## Camera Club To View Photos Taken Abroad

At the next meeting of the Camera Club to be held Tuesday December 15 at 8:30 P.M. in the assembly room of the Union, Prof. Stanley Barney Smith will give a lecture illustrated by pictures taken on his recent trip abroad. Prof. Smith spent his vacation leave last term touring Greece and Italy and taking numerous excellent pictures. All undergraduates are invited to attend this lecture. Musical interludes will be furnished by Guyron Tewksbury '40 on the accordion.

A dark room with all new equipment has been built in the physics end of the Science Building for the 40 members of the club. Plans are already being made with Mr. Beam for the installation of a projector. Pictures taken by undergraduates. Anyone interested in the club or desiring any information about it should see Carl F. Barron '38 at 8 Hyde Hall.

(Continued from page 1)  
in advance. While the applause was still ringing at the Haymarket, he died.

## Program Of Week-End Movies

The programs to be offered by the Modern Art Film Library during the winter will be as follows:

A Short Survey of the Film in America 1895-1932  
1893 THE EXECUTION OF MARY QUEEN OF SCOTS (Edison)  
1895 WASH DAY TROUBLES  
1902 A TRIP TO THE MOON (Metres)  
1903 THE GREAT TRAIN ROBBERY by Edwin S. Porter (Edison)  
1910 FAUST, Pathé film  
1911 QUEEN ELIZABETH with Sarah Bernhardt (Paramount)

Jan. 9 THE RISE OF THE AMERICAN FILM:  
1912 THE NEW YORK HAT by D. W. Griffith, with Mary Pickford and Lionel Barrymore

1914 THE FUGITIVE with William S. Hart

1914 A FOOL THERE WAS with Theda Bara (Fox)

1917 THE CLEVER DUMMIE, a Mack Sennett comedy

Jan. 16 D. W. Griffith:  
1918 INTOLERANCE (D. W. Griffith)

March 6 Screen Personalities:  
1895 THE MAY IRWIN-JOHN C. RICE KISS (Edison)

1915 ENOCH ARDEN with Wallace Reid and Lillian Gish (two reels only)

1924 MONSIEUR BEAUCAIRE with Rudolph Valentino (Paramount)

(Continued from page 1)

Initial Quill Will Appear  
Before House Parties

## FILM PROGRAM WILL START FRIDAY NIGHT

(Continued from page 1)

Making its first appearance this year the first issue of the Bowdoin Quill will be ready for distribution near the Christmas vacation probably on December 29th. The selections made for this issue include a play by Pauline Gaskins, a poem by Leonard Hall '36; a new poem by Bowdoin's poet, Robert F. Tristram Coffin; verse by James Ticonic '39 and by Frederic Gwynne '27; a short story by a former member of the liberal college by Professor Frederic Thielman; and a sketch by Samuel Jacob '38.

The Quill will be ready to go to the school's law offices.

The film production of "Faust" is

film number five. Last titanic feature of the show is the film "Queen Elizabeth" starring Sarah Bernhardt, which was produced in 1913 by the predecessor of the present Paramount Company.

**Musie Accompanies Film**

By means of much research the Museum of Modern Art has prepared a musical score to accompany the movies in the Film Library. The music is arranged to give the grain the atmosphere of old-time theatres where the pianist tried to fit his music to the emotions produced by the picture. All the films which will be presented at Bowdoin will be silent, and the music will be played, eliminating waits between reels.

The purpose of the Film Library is to collect significant pictures and by their means make coming generations more successful, but of the three not one of them is jail as yet.

There are only thirteen that I have not seen since Commencement, but most of the thirteen live far west of Bowdoin. Every year about one-third of them return, but not the same third every year. Most of the third seem to be doing a notably good job by their families and communities.

But not one of them has changed the world of education for the better, and a half a dozen colleges and other cultural agencies throughout the country have been able to secure the films but are not available to the public.

No Charge for Students

Undergraduates are to be admitted with no charge. Programs describing the significance of each film will be distributed at the time of production.

The idea of presenting the films at Bowdoin originated with Donovan D. Lancaster, Manager of the Moulton Union. In charge of arrangements is a committee made up of Virgil G. Russell '37, Richard L. Sturz '37, and Robert G. Thompson Jr. '37 of the student council and the undergraduate members of the Union committee, William R. Owen '37, Roy E. Wiggin '38, Leonard G. Cohen '39. The expense is being shared by the college and the student committee.

Subjects of later shows as planned are "The Rise of the American Film," January 9; "D. W. Griffith's," January 16; "Screen Personalities," March 6; and "The End of the Great Era," March 13. Among the noted actors and actresses in the casts are Lionel Barrymore, Mary Pickford, William S. Hart, Theda Bara, Mack Sennett, Lillian Gish, Rudolph Valentino, Douglas Fairbanks, Bebe Love and Colleen Moore.

Faculty members, alumni and townpeople will be able to attend these programs by purchasing Bowdoin College Film Library memberships. Tickets are one dollar to be secured in advance at Mr. Lancaster's office in the Union or purchased the night of the performance at the door. These tickets may be used for family memberships, but under no circumstances will children be admitted unless accompanied by adults.

Faculty members, alumni and townpeople will be able to attend these programs by purchasing Bowdoin College Film Library memberships.

These tickets may be used for family memberships, but under no circumstances will children be admitted unless accompanied by adults.

Deering Takes Annual Bowdoin Prize Debate

Deering, Bangor, and Lewiston took the first three places, respectively, in the annual Inter-collegiate Debating League, held here last Saturday. The question was

"Resolved: That this House approves the bill to extend the coverage of the Social Security Act (Title I)."

Represented by Margaret Stone and Norma Lewis, Deering gained a score of 479 out of a possible 600 points. Grace Stewart and Shirley Foy of Bowdoin and Edmund Wilson, with Lawrie Mascot, were tied with 490 points and Lewiston, with John Cantlin and Lawrence Mascot, was a close third with 442.

**Choose Best Speakers**

The best speakers were Miss Stone of Deering, Miss Carolyn Friend of Millinocket, with 246 and 242 points respectively, out of a perfect score of 300.

South Portland, Leavitt Institute, and Biddeford also took part. Biddeford and Millinocket were both new to the league. Edward Little, Portland and Fryeburg, all of which entered last year, did not send teams.

Assistant Professor Athene P. Daggett acted as chairman of the debate committee. The judges were Associate Professor Horace Ross Brown, Mrs. Catherine Travis Daggett, and Mr. Gerhard Oskar Rehder.

## TARKINGTON'S LOAN TWENTY PICTURES

Twenty pictures from the collection of Mr. and Mrs. Booth Tarkington of Kennebunkport, Maine, and Indianapolis, Indiana will arrive at the Art Building Monday, December 7. These pictures, which are largely eighteenth and early nineteenth century English and American portraits and religious scenes, are the property of the Bowdoin Art Collection.

On Tuesday, December 15, the second set of twelve pictures of the "Living American Art" series will arrive. The Medium price they will be on display for a month.

On Friday, Dec. 4, at 8:15, in the Union lounge or Brunswick, in cooperation with the college, an address by the Rev. Engelbert De Vincenzo of the College of the Assumption in Worcester. He spoke on the Christian literature of France from the Middle Ages through the 18th Century.

## NIXON CRITICIZES TUNIS' LATEST BOOK

Speaking in chapel last Saturday morning, Dean Nixon, in reference to John R. Tunis' "Was College Worth While," said that he had never read it and probably never would. According to the Dean, Mr. Tunis' book can be summed up in few words: "Knock, knock, who's there?"

Mr. Tunis seems to be amazed by the fact that his class of 1911 has done little to justify its education or even to earn it. The Dean went on to say, "That particular class has much magnanimity, public-spiritedness and sacrifice. It apparently knew the literary gifts of its classmates. Presumably they knew that their contemporaries were not as good as themselves, but that they would serve as useful examples for the benefit of society and Harvard and Mr. Tunis' bank account. It was very noble for those 541 to reveal the immost privacies of their lives in the hope of winning scholarships. Winning scholarships honours at Harvard in 1911 does not seem to curse a man any more than wining them at Harvard in 1911."

**Land Class of 1911**

In the class of 1911, the Dean was made an honorary member. He said, "I was an average class like Mr. Tunis' but had only one summa cum Laude, as compared to eight in 1936. That mean is now a partner in one of the largest law offices in the city."

The Paris production of "Faust" is film number five. Last titanic feature of the show is the film "Queen Elizabeth" starring Sarah Bernhardt, which was produced in 1913 by the predecessor of the present Paramount Company.

**1911 Seem Successful**

"Bowdoin 1911 now numbers seven and three more are due to be successful, but of the three not one of them is jail as yet.

There are only thirteen that I have not seen since Commencement, but most of the thirteen live far west of Bowdoin. Every year about one-third of them return, but not the same third every year. Most of the third seem to be doing a notably good job by their families and communities.

But not one of them has changed the world of education for the better, and a half a dozen colleges and other cultural agencies throughout the country have been able to secure the films but are not available to the public.

No Charge for Students

## Six Hockey Lettermen Return For 1937 Season; May Meet Springfield

By J. E. Tracy, Jr.

Six lettermen and eleven JV, number winners reported to Coach Lynn Wells on Thursday afternoon as preparations began for the opening game of the 1937 hockey season when the Polar Bears meet the University of New Hampshire here January 9. Five new draftees have been announced for games with Springfield College which will be added to the list of varsity opponents.

Coch Wells, unwilling to make any predictions regarding the outcome of the team this season, said the ice conditions between now and Christmas would have much to do with the showing that the squad would make in the early games this year.

Pete Mills, star defenceman of two years, all last season will be available for play again this year and his return will greatly strengthen the squad. However, Bob Deering, who won his varsity letter last year, will not play this season because of an old leg injury.

### Veterans Return

Lettermen returning this year are Captain Jack Lawrence, defense; Charlie Harkins, forward; George Bass, defense; Leon Buck, forward; John Coughlin, forward; and Dick Steer, goalie. Men from last year's J.V. team who reported last week are Dane, Upham, Smith, Corey, Currier, Clifford, Girard, Hanley, Jealous, Melindy and Stevens. The total number of men for hockey this year is 49, of which 16 are freshmen, 21 sophomores, seven juniors and five seniors.

Last year the Polar Bears won only one game, defeating Northeastern in Boston, after having previously lost to the same club, 7-4, in Brunswick. This year, according to Coach Wells, there is unusually strong material in most of the opponents of the White. Colby should have her usual fine record, having lost only to Pennsylvania, all-state champion. New Hampshire lost but three men while Northeastern promises to be much stronger, with 24 good men reporting for the first practice.

Following is the Varsity schedule:

January 11	New Hampshire, here
January 12	Colby, here
January 13	Northwestern, here
January 14	Springfield (pending), here
January 15	Yale, here
February 8	Colby, here
February 11	Northwestern, here
February 12	New Hampshire, here
February 13	Springfield (pending), here

## A.D.'s Win Fraternity Football Championship

In overcoming Delta Upsilon's touch football forces by a three touchdown margin, 18-0, on Pickard Field Nov. 22, Alpha Delta Phi won the interfraternity touch football championship after a recent season of no less than one tie. A victory over Psi Upsilon's undefeated squad put the A.D.'s at the top of league in the A.D.'s.

The final championship was featured by outworn tricks plays and lateral passes, which were constant throughout. From a "state of liberty" play the A.D.'s started missed scoring, while the winners scored their second touchdown on a "sleeping" pass. The A.D.'s scored in each quarter but the second in which the losers made their most serious threat.

Final league standings:	
League A	League B
W L T	W L T
D.U. . . . 4 0 A. D. . . . 0 0	W L T
T. D. . . . 4 2 0 Psi U. . . . 2 0	W L T

Zeta . . . . 0 5 0 Non. F. . . . 0 0	W L T

## TRACKSTERS ENTER CHRISTMAS GAMBOLS

The annual track Christmas Gambols start today and are to run until the 19th of the month. All track men must participate and are to draw lots for events. Last year with Portion Young, Hubbard, Allen, Hawkins and MacKenzie now entered in either or both the 880 and mile, these are both expected to be exciting races.

Among those who have drawn their favored events are Hand, Dolan, high jump, 100, 200, 440, 880, broad jump, Rodeout, pole-vault; MacKenzie, Bratt, Braden, and Young, two mile. Judged by their past records and the events they drew, Bob Porter, Bill Owen, and Wm Allen should be among the leaders.

## SPORT SIDELIGHTS

By Bob Laffin

Amherst, Wesleyan and Williams last week announced that competition for the "Little Three" ski championship would open January 18, when the University of Maine announced the sending of invitations to Colby, Bates and Bowdoin to participate in an initial Maine championship meet. Both events bear witness to the rapidly increasing popularity of the sport. The Polar Bears, with better than an even chance to place at least second in the State Meet, still go unrecognized by the athletic department. With an ever growing interest in an activity as strenuous and physically beneficial a sport as there is it seems only fair that skiing should be put on a par with other minor sports at Bowdoin.

The other recurring bone of contention in Bowdoin's athletics is becoming prominent again with the advent of the basketball season. In the days of the "old guard" basketball was in paid attendance, this was the country's favorite sport; last year Bowdoin's expenses exceeded her income in each of the four major sports; and last year the student body voted overwhelmingly in favor of basketball as a recognized sport. If it is not necessary the abolition of basketball? The weighty argument is that the authorities against this suggestion is that it would interfere with minors or athletics in the gymnasium. Night practice is the only practical solution. Dartmouth, with one of the best records in the east, has been practicing evenings for years; and at the present moment the Polar Bear Independents, whose personnel has been indoctrinated to make up the Varsity, are following the Indian's example. These men are demanding their willingness?

Entering their third season, Bowdoin's Independents are facing a hard schedule, including about fifteen encounters with professional, college and other amateur groups throughout the country. Harold Ashkenazy, Captain Johnnie Coughlin, John Frazer, Frank Kibbe, Tucker Halekas are left from last year's stellar group, and Friday evening's initial practice revealed five freshmen with great ability. These men, Huey, Fisher, Dale, Kip, and Doyle should round out a formidable array for any opponent to face. They will have to buy their own equipment and pay their own expenses, but they give promise of putting the name of the college near the top in basketball circles.

An innovation in the rule governing eligibility for interfraternity sports is the recent beneficial reform made by the Athletic Department. Now any man may compete in his fraternity if he is not out for a major sport in the same season. According to the old ruling, no letterman could take part in interfraternity athletics. The move is one in the right direction and should make for much keener competition as well as affording a revival of interest among the undergraduates.

## Independents Prepare For Opening Encounter Friday

### RIFLE TEAM LOSES MEET TO PORTLAND

Led by Harold Ashkenazy, Bowdoin's independent basketball team expects to open its schedule Friday night, although the opponents have not yet been announced. Seven men from last year's outfit will form a strong nucleus to start the Independents' third season.

About fifteen men, including a number of promising freshmen, are working daily in preparation for a long schedule, which will include games with the Bates Frosh, Lewis-Taylor Mavericks and Winslow High.

Opening its current season with the Portland American Legion Rifle Team, the Bowdoin riflers lost their first meet by a small margin of 12 points last Wednesday night at Portland. Of Bowdoin's nine man team, F. Lord, T. Bradford, Wyer, Griffin and Coughlin were the only ones to score. The match was shot in four positions—prone, kneeling, standing and sitting.

A match will be held with the Cumberland Pistol and Rifle Association tomorrow night at Brunswick.

## ALL NEW ENGLAND GUARD

By Bob Laffin

COURTESY OF PORTLAND EVENING EXPRESS

### HAZOLD ASHKENAZY

All Maine guard and co-captain elect, who has been named on two All New England first team line-ups. This is Ashkenazy's second year on All Maine and All New England teams.

## Fitts, Ashkenazy Receive All New England Berths

In last week's All New England football selections, Harold Ashkenazy received a guard position on both the International and New England's, and Eddie Case's first string squads.

Bill Cunningham, well-known sports writer and radio commentator, named Dave Fitts, Bowdoin's other co-captain for left end position on his New England eleven. This is the second year that Ashkenazy has been on the I.N.S. first team. Bowdoin's outstanding contribution is emphasized by the fact that these two steelers, Polar Bear, are the teams consisting almost entirely of players from much larger colleges.

On the I.N.S. and Casey elevens

Harvard, Dartmouth, Holy Cross and Yale each have two men, while Boston College and St. Anselm's placed one each. Of other small New England Colleges, only Williams and Tufts were mentioned on Casey's second team while on the third, Maine, Bates and Wesleyan were added. Fitts was given honorable mention in the I.N.S. line-up.

Cunningham in naming Fitts to his all-star eleven was unswerving in his praise of Bowdoin's outstanding end. However, he gave the edge to Proctor, of Maine, over Ashkenazy for left end position on his New England eleven. Bates and Tufts were two other Maine colleges, Maine and Bates, Cunningham also selected Frye, Ashkenazy and Newman for honorable mention.

Berths on the Portland Telegram's All Maine aggregation were awarded to former members of the 1936 football team: Junie Frye, at fullback; Dave Fitts, end; and George Griffith and Harold Ashkenazy, for the second consecutive year, in tackle and guard positions respectively.

## FOOTBALL TEAM HOLDS BANQUET

Gold footballs were awarded to twenty-seven members of Bowdoin's Maine Championship Polar Bear at a banquet held at Falmouth Hotel on Monday evening. Monday's banquet marked the second time that the team has been thus feted since the early twenties. Director of Athletics, Mal Morrell, revived this means of honoring the squad at a similar occasion last year.

Mal's acting manager introduced as speakers, President Silas Dean Nixon, Assistant Coach George Shay, Don Lancaster, Dr. Johnson, Freshman Coach Lynn Wells, Captain Buckley Sawyer and Captains-elect Ashland and Fitts. President Silas named the team for the two losing winners as winners and cited the Wesleyan game for which the members offered no alibi but credited the winners with being the better team.

Captain Sawyer presented a hood-coat to Adam Walsh as a token of the whole squad's appreciation and suggested that he exchange it for the red and orange one he has been using. In a speech of his own, Walsh made the presentation to both Sophomores and Juniors and then proceeded with an innovation by calling for a speech from each of the Seniors and the two Junior co-captains before naming the team. His speech was well received and the responses reflected credit on the squad as witty speechmakers as well as champion gridironers.

Coach Walsh announced that henceforth the varsity manager would be the postman or postmaster at the hotel. Donald L. Fitts '38 was recently elected to this position for the 1937 season. Coach Shay, Director Morrell and Manager Bud Arnold also received token footballs. Moving pictures of all but the Wesleyan and Tufts games were shown afterwards.

## ZETES TAKE ANNUAL CROSS COUNTRY RUN

Running in close to zero weather, Zeta Psi's strong cross country trio easily won Bowdoin's annual interfraternity road race Nov. 18. MacKenzie, Allen and R. T. Fitts of the Zetes took third, fourth and fifth positions, respectively, totaling 12 points, while Alpha Tau Omega's harriers placed second with 25 points. Alpha Delta Phi was awarded a plaque for having the most runners entered.

Bob Porter, varsity captain from Theta Delta Chi, lead the entire pack, as usual, placing first with the time of 19 minutes, 40.15 seconds, and was closely followed by Charlie Young, Beta Theta Pi, in second place. The first three places for each fraternity comprised its team score.

The teams finished in the following order: Zeta Psi, 12; Alpha Tau Omega, 25; Alpha Delta Phi and Beta Theta Pi, 43; Theta Delta Chi, 47; Delta Upsilon, 52; Psi Upsilon, 58; Chi Psi and Kappa Sigma, 87; Non-Fraternity, 121; Delta Upsilon and Sigma Nu did not enter teams.

(66th Year)

BRUNSWICK, MAINE WEDNESDAY DECEMBER 16, 1936

NO. 16

## The Sun "Rises"

By James A. Bishop  
**L**AST week's first appearance of the Glee Club besides showing what progress the group has made under new leadership and attempting a rather ambitious schedule, also gave many of the undergraduate body their first opportunity to hear Professor Tillotson as an individual artist. The enthusiasm with which his Chopin group was received showed not only the appreciation of the students, but for the best in music, but also the gratitude to the college for adding a man of his talent to the faculty.

An artist who is willing to lend his personal efforts to the entertainment of the college is a valuable asset to any campus and Bowdoin may feel both proud and fortunate that such a wise selection was made.

**T**HIS suggestion of the President, made earlier in the year in regard to an increase in tuition, is now under consideration by committees of the faculty, the alumni, and the student body. Although their final recommendation can only be conjectured at, it seems quite reasonable to assume that the proposed increase will not have to be more than twenty-five dollars per semester, or a total for the year of three hundred dollars.

Under the new policy of limiting the college to an enrollment of no more than five hundred, this would provide additional income of twenty-five thousand dollars a year, with the income from investments, due to improved business conditions, that amount should be sufficient to correct the existing deficit.

**A**T A TOTAL yearly tuition of more than three hundred dollars, however helpful the additional funds might be in augmenting the physical equipment of the college, would destroy to an undesirable degree the democratic nature of the college. While it is, of course, untenable that the college should continue to operate at a loss, it is also worthwhile that every precaution be taken to prevent Bowdoin from becoming known as a "rich man's college."

**R**ecognizing the amount suggested above will have a protective effect both on the character of the undergraduate body and the future policy of the administration, it will obviously eliminate men who fall lower in class standing except in so far as the college makes an effort to keep them in college through larger scholarship grants or employment.

**O**NE possible change in policy which would be necessitated by the new tuition rate is that the college might issue a smaller number of scholarships but of substantially increased amounts. This would eliminate an almost impossible effort to aid all those who seem to be in need of a relatively small amount of assistance, and would enable the administration to retain from those hardest hit by the proposed measure, the men considered most necessary to the well-being of the college.

Another result may be that in order to keep in college a sufficient number of men who are able to pay the increased costs, the academic standards may have to be relaxed considerably. There does not seem to be any positive correlation between the financial status of a student and his class standing and it is possible that the faculty might be forced to give them a lower standing in regard to both admission and expulsion. It is to be hoped that the situation can be met without resort to such a policy.

**R**EGARDLESS of any individual opinion as to the artistic worth of the movies shown at the theater down the street Friday night, it must be admitted that the atmosphere surrounding the presentation and the attitude of the audience all contributed to a very enjoyable entertainment. A show of this type provides an opportunity for the college to indulge collectively in a little humor without offending the peace and quiet of Brunswick theater-goers.

In the long run, however, it is probable that films of the type shown Friday would become rather monotonous and it is to be hoped that they will be a permanent feature of Bowdoin's entertainment program. It is suggested that they be substituted with more modern productions. How about some of the better silent movies? Most of the student body would enjoy them and there is nothing wrong with "The Phantom of the Opera," "The Thief of Bagdad," the old Beery and Hutton comedies and many others that could be secured at a relatively small cost. Many institutions have even installed sound equipment for the reproduction of modern films and such a move would be unthinkable for this college in the future.

## PENOBCOT GRADS TO HEAR COACHES

Director of Athletics Malcolm E. Morell and Coaches Adam Walsh and Jack Magee will speak at the annual dinner of the Bangor-Bowdoin Athletic Association at the Penobscot Country Club this evening. Coach Walsh and Magee have also been invited to attend a meeting of the New England Athletic Association in Boston soon.

## STATE RHODES COMMITTEE TO SIT TOMORROW

Christie, Gwynn, Burton,  
Shute To Go To Augusta  
For Eliminations

MAINE SENDS TWO  
TO BOSTON TRIALS

Four Will Be Chosen From  
New England On Dec.  
21 To Go Abroad

By Richard Moran  
Bowdoin College's four Rhodes Scholarship candidates will go to Augusta tomorrow where they will be interviewed by the State Committee in charge of selecting the two candidates from Maine. The four from Bowdoin are John Shute '33, Dan Christie '32, William S. Burton '37, and Frederick L. Gwynn '37.

These students were chosen recently for their personality, character, intelligence, and accomplishments during the past three years of school days, by a Rhodes Scholarship committee of the faculty. This committee consisted of Professor Thomas Means, chairman; Professor Roscoe E. Chamberlain, Robert P. T. Coffin, Morgan E. Cushing, and Adam Walsh. Its recommendations were approved by the President and faculty.

**M**ay Pick Nine State  
A candidate from Bowdoin may be selected from among the nine State candidates who will have at least two years of his college education, or from the State in which he has his family residence.

The State Committee is headed by President George D. Gray of Bates College. The other members include Professor Ashby of the University of Maine, Professor Weber of Colby College, and Mr. Robert Hale of the Board of Overseers of Bowdoin College. Bates, Colby, and Maine endorsed to this committee but possibly also from other institutions of learning outside the State if the candidate is a resident of the state of Maine.

From the New England  
Nine, the nine candidates are endorsed by this State committee to the New England district committee December 21, to select four Rhodes Scholars out of the twelve candidates who appear before them, two from each state. This final selection is subject only to a "rubber stamp" approval by the agents of the Rhodes Trustees at Oxford and London.

Regarding the selection of Rhodes Scholars, the following statement was issued by the Rhodes Trust in 1928: "Perhaps the key phrase in Mr. Rhodes' will is the statement that he wanted 'for moral force of character, and instincts to lead and to take an interest in his schoolmates' because he believed that these attributes will be likely in after-life to guide him to esteem the performance of public duties as his highest aim."

**F**irst Quill Issue Will  
Be Distributed Monday  
  
The Bowdoin Quill's first issue of the 1936-37 school year will be distributed Monday afternoon. Copies may be obtained at the fraternity houses and the Merton Union office.

Prof. Robert P. T. Coffin and Fredrick L. Gwynn and Lawrence '36, Frederick Gwynn '37, Sammel Jacobs '38, and James Titcomb '38, are all represented by works in the issue.

## College Receives \$5,000 To Set Up Scholarship

Bowdoin College received a gift yesterday of \$5,000. The money, from the estate of the late Mrs. Adella Perry, of Gardiner, Maine, to be used for the establishment of the Arthur Lincoln Perry scholarship fund.

Mr. Perry, for whom the scholarship is named, was a 1907 graduate in the class of 1914, who practiced law in Gardiner from shortly after his graduation until his death in 1930.

## Band Leader

JOHNNY JOHNSON

Leader of the band which will come to the Chi Psi house, Monday evening, after an engagement at the Commodore Hotel, New York City.

## "NEEDS" COMMITTEE ORGANIZES FOR WORK

Early sub-committee organization work is already underway for the Undergraduate Committee on the Needs of the College in the next seven years, and the first meeting of

the "Needs" Committee was held earlier this month, and announced on November 7, the undergraduate committee numbers ten seniors and four juniors.

Fifteen separate sub-committees were appointed, together with a chairman for each of them. The groups will study the following purposes of the college: The Purpose of the College, The Faculty, System of Instruction, The Majors, Physical Training and Athletics, Admissions and Publicity, Buildings and Equipment, Chapel, The Library, Faculty Discipline and Student Government, Students and Their Personalities, Fraternities and Sororities, The Non-Scholastic Program, and Student Activities.

The chairmen were asked to call meetings of their sub-committees in the near future to determine methods of investigation of their subjects.

With Warm Suggestions

The Committee on "Needs" made its first report to the faculty last month, and recommended that the amount of the scholarship be increased to \$1,000. The faculty accepted the recommendation and the amount was increased to \$1,200.

At the present time, the "Needs" Committee is working on the question of the amount of the scholarship to be given to the students.

It is the hope of the "Needs" Committee that the amount will be increased to \$1,500.

Alumni Wanted 'Alumnus,' Union,  
Organ, Exchange Profs In 1926

By William Frost

Exchange professors, an alumnus quarterly, a new church organ, and a new organ were all among the projects recommended for Bowdoin in 1926 by President Sills' alumnae committee on needs of the college during the next ten years. Those objectives having been attained, a new committee, of which the chairman is Prof. William E. Lunt, has already started work this winter on a second report, this time to cover the college's needs during the next eight years.

"No drastic or vital modification of the present educational policy of the college," the report recommended. "Among the changes in the college which have come about that they did not strongly recommend has been the installation of a swimming pool—a building they regarded as "luxury equipment." According to their report, although the sum of such a pool to the college would have been very acceptable, "necessity should not interfere with education."

Watson Larger Faculty

In 1926, with 533 students in Bowdoin, there were 94 faculty members—a ratio of 1 to 16. The alumnae report of that date endorsed the 1926 faculty report's recommendation that the number of the faculty be raised to make the ratio at least 16 to 1. A 10 to 12. A second report, the alumnae believed, had to be put on canvas, number of faculty members younger than most of the professors and thus in closer touch with the student body. (In 1935, with the number of students about 600, Bowdoin had other business.)

## HOUSES FINISH PICKING BANDS FOR CHRISTMAS

11 Fraternities Will Hold  
House Party Dances On  
Monday Evening

PSI UPSILON WILL  
HAVE COUNT BASIE

Jam Band At Kappa Sigma;  
Johnny Johnson, Buddy  
Trask Also Coming

An unusually large and varied group of 11 fraternity house bands will be the supporting cast for the Mills Blue Rhythm band at Bowdoin's Christmas house parties Monday and Tuesday.

The fraternity house dances will all be single elimination. Formal fraternity banquets will be held Tuesday evening and the gym dance, with the Mills band, will begin at 9:30 that evening.

Six Bands To 14

The 14 house bands range in type from a single "jam band" from one of Boston's night clubs to a 14-piece colored band from Grand Terrace.

Psi Upsilon will have the Chicago band, Count Basie's, which preceded

Finis selected for Fraternity dance bands for Monday evening are as follows:

Alpha Delta Phi, Ray Bolger and his Southwicks;  
Chi Psi, Count Basie;  
Chi Psi, Johnny Johnson;  
Delta Kappa Epsilon, Fenton Brothers;

Delta Theta Chi, Jackie Jackson;  
Delta Upsilon, Alan Curtis;  
Zeta Psi, Doc Harmon;  
Kappa Alpha Psi, Bob Mackett;  
Beta Theta Pi, Leo Marie and his NBC orchestra;

Sigma Nu, Buddy Trask;  
Alpha Tau Omega, Larry Lane.

Hector Henderson at the Grand Terrace cafe and has been heard numerous times recently on national air hook-ups.

Hackett At Kappa Sigma  
The band leader at the

Deine in size, will be Kappa Sigma's offering. Bob Hackett leads the group, which plays regularly at the Artistic Club in Boston and is recommended in the Paris book surveying American dance bands, "Le Jazz Hot."

Johnny Johnson's band, which, like Count Basie's, has been playing over radio networks recently, will be at the Chi Psi house. Until recently the band was at the Commodore Hotel in New York City, where Mal Hall left now, is playing it includes 12 pieces.

Beta Theta Pi announced yesterday that its house party band will

(Continued on page 2)

## B.C.A. To Study Chapel Situation

The Bowdoin Christian Association is undertaking a study of Bowdoin's chapel with relation to the order of service, the music of the chapel, and the extent to which it is fulfilling its purpose, it announces. Studies will be made of other college chapel systems.

The committee will report to the Undergraduate Planning Committee appointed by President Sills to investigate the needs of the college. It will appreciate any constructive criticisms offered by students.

Those serving on the B.C.A. investigating committee are Luther D. Abbott '39, Chairman, Edward O'Neill '38, Phillip T. Chapman '38, Donald R. Woodward '36, Thomas Lineham '40, and Robert C. Russell '39.

Each of the classes will hold informal practice sessions on the Art Building steps for several weeks before the contest itself, according to the plan.

As in the interfraternity contest, the four classes would all sing the same two songs plus two of their own choice.

The contest was last held in 1925. A cup awarded at that time will be brought back into use if the contest is received, Prof. Tillotson says.

(Continued on page 2)

## APPENDICITIS HITS ANOTHER STUDENT

Walter C. Loeman '40, was operated on for appendicitis last night at the State Street Hospital, Portland. He is the sixth undergraduate to be so stricken since college opened in September.

The number of cases is already larger than in 1934 and whole year, Dr. Harry L. Johnson became college physician, he says. In 1926 there were nine cases.

Previous victims this year include Prof. Robert Laffin '38, and Jack Golderman '37; Deeks; Edward O'Neill and Vincent Welch '36, T.D.; and Logan Becker '40, Chi Psi. Loeman is a D.U.

## Coming Events

Tonight—Finals of Xmas Gambit, in Cage at 8:45.

Sunday—Dr. Henry Tweedy of Yale will speak in chapel.

Monday—Euphonians begin with fraternity dances in the evening.

Tuesday—Christmas carol service at 12:15 p.m. in chapel.

"The Beaux' Stratagem" at 4:00 p.m. in Memorial Hall. Dean Sills will read the Christmas story and the choir will sing the four-part chorus from Bach's oratorio and Praetorius' "O Ere die Rose in Blüthen."

## Annual Carol Service Will Be Held Tuesday

The annual Christmas carol program will be held in the college chapel Tuesday at 12:15 p.m., with President Remond C. McSill, and the college choir taking part in the service.

Carols to be sung by the audience include "God Rest Ye Merry Gentlemen," "Silent Night," "The First Noel," and "Three Shepherds Are Coming." Mrs. Sills will read the Christmas story and the choir will sing the four-part chorus from Bach's oratorio and Praetorius' "O Ere die Rose in Blüthen."

Peanuts Fly As Crowds Hiss  
Villains, Cheer Heroes,  
Sing Old Songs

By L. D. Scates, Jr.

In an atmosphere much like that of the theater of the nineties the first film of a series of programs entitled "Survey of Modern Film in America" was presented in Memorial Hall, Friday evening, before a packed house of students, faculty, and townsmen.

Men dressed in the height of "Gay Nineties" fashion and wearing wigs moustaches were selling peanuts in the aisles. The bags sold fast and soon shells were flying through the air in all directions, as the students and townspeople joined in the general spirit of fun. Paper airplane planes were flying, paper ships were sailing, and lags began after the evening was over.

Six Old Songs

Soon a singer in one corner began to sing "Let Me Call You Sweetheart" and the audience was not slow to join in "Sweet Adeline" and "By the Light of the Silvery Moon." The audience followed, adding to the gaiety of the crowd.

At this point Ernest "Gandy" Stanwood, a well-known Brunswick pianist, who played in the local theater during the days of the silent pictures, mounted the platform, and dodging the flying paper shells, played for another song by the audience. Mr. Stanwood was the accom-

(Continued on page 2)

## PROF. GEORGE QUINBY

Faculty Advisor of the Masque and Gown society and director of which is "The Beaux' Stratagem," first given Monday evening, and to be repeated next Tuesday afternoon.

Richard E. Cartland '39, and Wellington Yapple '40, carried the male leads in the play with able performances as Archer and Aimwell, respectively, a pair of young-bloods who scheme how to recoup their wasted fortunes by matrimonial ventures.

The two put up at the country inn of Boniface, played by E. C. Palmer '40, and after Archer had had a flirtation with Cherry, the landlord's daughter (Margaret Treganowan), Alister comes to the aid of the fair and rich Dorinda (Betty Winch).

The play is to be given to Christmas house party guests at 4:00 p.m. next Saturday.

Richard E. Cartland '39, and Wellington Yapple '40, carried the male leads in the play with able performances as Archer and Aimwell, respectively, a pair of young-bloods who scheme how to recoup their wasted fortunes by matrimonial ventures.

The two put up at the country inn of Boniface, played by E. C. Palmer '40, and after Archer had had a flirtation with Cherry, the landlord's daughter (Margaret Treganowan), Alister comes to the aid of the fair and rich Dorinda (Betty Winch).

Marital complications are introduced by Mrs. Sullen who is trying to get rid of her drunken husband, Dorinda's brother—a part played by James P. Hepburn '38—and to get Archer. In the happy and humorous

Undergraduates who did not see "The Beaux' Stratagem" are invited to the Tuesday afternoon performance by blanket tax books. Others must pay regular admission prices, 50 cents for unreserved seats and 75 cents for re-

served seats.

Ending Alimwell gets Dorinda and an unexpected inheritance which saves his honor, while Mrs. Sullen, freed from her drunken husband, gets Archer.

Other members of the cast include Mrs. P. S. Wilder, Mrs. Paul Nixon, Mrs. Samuel E. Kammerling, William Norton '38, Louis Creiger '37, Kenneth Sullivan '39, David Walden '39, Kenneth Welch '40, Carlyle N. Odell '39, and H. L. Lee '39.

DeSue, assuming an accent to represent Bellar, was one of the most amusing characters in the play. Carland's work in the important part of Archer was outstanding.

Set for the production have been designed by the production staff, and built by the production staff.

Prof. George H. Quincy directs the play. Roger M. Stover '39, is assistant production manager in charge.

The Masque and Gown's next presentation will be a series of student solo and one-act plays early in March. Other productions planned to include "The Emperor Jones" by Eugene O'Neill, "Yellow Jack," by Howard Da Silva; and "Hamlet" at commencement.

The Sullivans executive pointed out in his talk with T. P. Power, Jr., whose son is the president of the football squad was 1.72% above the general college average. "No coach sees or corresponds with any athlete before he goes here," he declared.

## Fifty-five Have Graduated Summa Cum Laude In Twenty-five Years

By Richard W. Sullivan, Jr.

In the 25 years during which Bowdoin College has required seven-eighths of a year for graduation summa cum laude, 50 men have won the title.

Dean Fredrickson explained in chapter Saturday. The 55 had a fairly large share in undergraduate activities while they were here and had a large degree of success in later life, he said.

"Looking at the situation by and large," Dr. Dow said, "it does not seem fatal to have been a summa cum laude graduate of Bowdoin College in the last quarter of a century. I urge you present undergraduates not to shun this distinction through fear of it making you fail."

The classes of 1917 and 1936 have been far in the lead in the number of summa cum laude graduates, over classes in the 25-year period. The Dean said. Sixty out of 79 members of the class of 1917 graduated summa cum laude, while eight out of 122 graduated summa cum laude last June.

## Masque And Gown Gives "The Beaux' Stratagem"; Will Repeat It Tuesday

Mrs. Graham Stars In First  
Performance Monday  
As "Mrs. Sullen"

CARLAND, DeSUZE  
ALSO OUTSTANDING

Richard Woods '37, Designs  
Sets For 18th Century  
Farquhar Comedy

By A. W. Shepard, Jr.

With Mrs. Eleanor Graham starring in the role of Mrs. Sullen, the Bowdoin Masque and Gown society kept an audience of about 300 in laughter and applause in Memorial Hall, Monday evening, with its second production of the year, the three-act 18th century comedy, "The Beaux' Stratagem," by George Farquhar.

The play is to be given to Christmas house party guests at 4:00 p.m. next Saturday.

Richard E. Cartland '39, and Wellington Yapple '40, carried the male leads in the play with able performances as Archer and Aimwell, respectively, a pair of young-bloods who scheme how to recoup their wasted fortunes by matrimonial ventures.

The two put up at the country inn of Boniface, played by E. C. Palmer '40, and after Archer had had a flirtation with Cherry, the landlord's daughter (Margaret Treganowan), Alister comes to the aid of the fair and rich Dorinda (Betty Winch).

The play is to be given to Christmas house party guests at 4:00 p.m. next Saturday.

Richard E. Cartland '39, and Wellington Yapple '40, carried the male leads in the play with able performances as Archer and Aimwell, respectively, a pair played by James P. Hepburn '38 and to get Archer. In the happy and humorous

Undergraduates who did not see "The Beaux' Stratagem" are invited to the Tuesday afternoon performance by blanket tax books. Others must pay regular admission prices, 50 cents for unreserved seats and 75 cents for re-

served seats.

## A DEMOCRATIC TRADITION

As gay undergraduates and their feminine guests go from dormitory house to dormitory house during the first night or nights of Xmas and Ivy houseparties, they never stop to think of the tradition which they are carrying on — a custom not as venerable as some of the more quaint traditions of Bowdoin, but one which is the outgrowth of houseparties themselves. This is the spirit of friendliness and democracy which has always characterized the annual winter and spring social week ends at the college.

There has been a current of talk running over the campus during the past week in regard to the possibility of so-called "closed" dances at the various fraternities next Monday night. This has been but mere talk, and yet such is the natural human tendency to pass on news of any sort, and to dress it up in passing it on, that rumor has built a false superstructure upon a scheme tentatively proffered by one or two fraternities. These rumors have no basis, even if they are still current on campus. There has been no united or separate fraternity action on the matter. There should be none, for the best interests of Bowdoin house-party.

The informality and congeniality of the nights when the fraternities hold their dances, in contrast to the elegance and dignity of the official prom, has long been one of the most attractive features of Bowdoin houseparties, as has been attested to by many visitors. Non-fraternity men, alumni, and friends of the college may mingle at will with the "brothers" and their guests at any of the chapter houses. This desirable feature is in marked contrast to the policy of the Little Three colleges on the whole. At Williams, for instance, "closed house dances" are the rule, and invitations are a necessity if one is to leave one's own house and group. There is no room for such a custom on the Bowdoin campus.

## HELL WEEK II

Last week the ORIENT presented a view of its policy in the past toward Hell Week — a varying policy of necessity determined by the personal opinions of its successive editors, since the newspaper makes no claim to present the unified, nor even the majority, sentiment of its editorial staff. In this editorial the Hell Week situation, and the stand of the various Bowdoin chapters of national societies upon the ancient tradition, is described, as of last fall. The sources are the statements of house presidents or influential upperclassmen in the groups, and represent, in regard to houses still following the old plan, the minimum standards, since the material was collected before Hell Week. In some cases the action taken may have exceeded the limits declared, in others it may have been more lenient.

While all but a few of the fraternities here have instituted some modification in Hell Week, or claim so to have done, it may be said that seven out of the eleven houses still retain Hell Week. Three have definitely modified their systems of freshman pre-initiation discipline, and have all but eliminated it in one case; while one house, with possible slight retentions, has abolished it. In no case is there an opportunity for air-tight classification of the fraternities into those holding by the old-fashioned Hell Week or those supporting total abolition of the custom.

An interesting note this year was the fact that three houses which had very mild Hell Week proceedings last year found that their freshmen had taken advantage of the leniency, in the opinion of upperclassmen who entered under the old system, and these chapters swung back toward more drastic discipline, although in every case they avoided the extremes of a few years past. A similar effect was noted in regard to methods of enforcing general freshman discipline in the undergraduate body as a whole, implying that last year's entering group did not have the intelligence to govern itself and to behave according to standards of upperclassmen but was fortunate in not being penalized in the manner of its predecessors.

It must also be remembered that, as was pointed out last week, Bowdoin does not represent an extreme or dangerous attitude on Hell Week, in comparison with the institutions retaining the system. Its Hell Weeks are, nationally speaking, mild; the ORIENT feels, however, that even this mildness embodies puerile and potentially dangerous instruments of disciplinary persuasion of freshmen. Certain it is that in the discipline of yearlings both as a college class, and as separate fraternity delegations supposedly undergoing trials before initiation. Bowdoin is out of step and lagging behind the group of colleges with which it generally likes to compare itself — the Little Three, Haverford, Tufts, the Maine colleges, Swarthmore, Hamilton, and similar institutions.

The following are the Bowdoin fraternities and the Hell Week features which they employed this fall:

*Alpha Delta Phi.* "A somewhat modified Hell Week." No paddling. Table hazing and "errands" retained.

*Alpha Tau Omega.* "A Hell Week modified over last year's, which in itself represented less severity than before". There has been no paddling for three years. Table hazing, a clothes rush, and two nights of errands were included.

*Beta Theta Pi.* One razoo was held, and presumably, paddling

but it was claimed that Hell Week was virtually cut out. Table "razzing" and "errands" retained. This group suggested unified fraternity action and attitude at Bowdoin on Hell Week.

*Chi Psi.* Hell Week has been yearly cut down, but there was a swing-back noticeable in the plans divulged. No paddling was allowed. Activities were confined to the house, lasted two days, and the third day was given over to learning of fraternity traditions, material, etc.

*Delta Kappa Epsilon.* "We still have Hell Week, we are proud of it, and the freshmen like it!" was the comment of an upperclassman. Table hazing, horseplay, and "errands" remained but paddling had virtually disappeared, it was reported.

*Delta Upsilon.* A slightly modified Hell Week was held. Padding existed, "errands" hazing at table and the usual pranks went on. It was considered "less severe" than in 1934, however.

*Kappa Sigma.* A Hell Week modified almost to elimination was held, paddling being prohibited and activities confined entirely to the charge house.

*Psi Upsilon.* Hell Week remained as it always has been. Padding, table hazing, and the "chain gang" were reminiscent of former years.

*Sigma Nu.* This house had a revival of Hell Week, which had been omitted entirely last year. Probable paddling. "Duties," table "razzing," and "errands."

*Theta Delta Chi.* Yet to initiate. Abolished Hell Week two years ago but retains vestiges in the form of "valet-duties."

*Zeta Psi.* The old-fashioned Hell Week retained with slight modification. Padding, table hazing, "errands" were included.

*Sigma Nu.* This house had a revival of Hell Week, which had been omitted entirely last year. Probable paddling. "Duties," table "razzing," and "errands."

*Duke University SCHOOL OF MEDICINE DURHAM, N. C.*

(Continued from page 1) be Don Mario and his NBC orchestra, who will come to Bowdoin on Dec. 19, 20, and 21, and the Amazon Indian Band in New York City. The band has played for 66 weeks on the Penthouse Serenade radio program. It has 12 pieces and a glee club, quartet, trio and soloist.

*Sigma Nu* will have Buddy Trask and his 10-piece band, a group which has been playing in Boston and Revere Beach, which includes a female vocalist.

*Alpha Delta Phi* will have Ray Belaire and his Southerners, from Providence, with vocalist Ruth Petrie.

*Theta Delta Chi* will also have a colored band, Jackie Jackson's from Boston; two vocalists are in the group, and will be singing with the band, also from the Hub; will play at Delta Upsilon, while *Delta Kappa Epsilon* will have the Fenton Brothers from the same city.

*Alpha Tau Omega* will have Larry Lane and *Zeta Psi* will have Doc Harmon, both bands hailing from Portland.

## Houses Finish Picking Bands For Christmas

Results of a Bowdoin-Colgate debate at Hamilton, N. Y., Monday evening, were still unobtainable at press time this noon. F. Davis Clark, '38, and Thomas F. Phelps, '38, represented Bowdoin in the debate supporting the negative side of the question. "Resolved, that industrial unions are more effective than craft unions."

## DUKE UNIVERSITY SCHOOL OF MEDICINE DURHAM, N. C.

Four terms of eleven weeks are given each year. These may be taken consecutively (graduation in three and one quarter years) or three terms may be taken each year (graduation in four years). The entrance requirements are intended to characterize the student body of college work, including the subjects specified for Grade A Medical Schools. Catalogues and application forms may be obtained from the Dean.

HERE'S WHY THERE'S NO OTHER TOBACCO LIKE PRINCE ALBERT: P.A. IS CHOICE MELLOW TOBACCO - "CRIMP CUT" FOR COOLNESS - WITH THE "BITE" REMOVED BY SPECIAL PROCESS. IT'S THE LARGEST-SELLING TOBACCO IN THE WORLD, AND SWELL FOR MAKIN' CIGARETTES.

## Prince Albert

It's easy to please all the pipe-smokers on your list. Just give them mellow, fragrant Prince Albert — the National Joy Smoke — the Prince of Pipe Tobaccos. "P. A." is the largest-selling smoking tobacco in the world. It does not "bite" the tongue. Prince Albert will wish your friends and relatives the merriest Christmas ever!

Our full pound of Prince Albert — in an attractive Christmas gift package.

(Above) Full pound of Prince Albert, in a glass humidor that keeps the tobacco in perfect condition.

## SMITH TELLS PHOTO CLUB ABOUT GREECE

Prof. Stanley B. Smith spoke at the meeting of the Bowdoin Camera Club last evening, illustrating his talk with a wide variety of photos taken on his sabbatical trip to Greece last year.

The pictures had to be taken with a yellow filter because the intensity of sunlight in Greece is nearly twice that in Rome and will make images than that in America, Prof. Smith explained. Visibility with the naked eye there is between 85 and 225 miles depending on the place of vantage, he said.

He also produced photos to show that pictures can be taken as late as midnight with success, when the wind does not blow.

Mrs. Stanley B. Chase has presented to the club a camera owned by her father, Prof. Henry Johnson, who was director of the art museum for 30 years before his death. The club will use it as an enlarging camera; it was decided at the meeting. Several other camera accessories were also donated by Mrs. Chase.

### LAMENTATION

## SILLS DESIRES MORE NON-N. E. STUDENTS

"I personally should like to see more non-New England students graduate from districts outside New England increase," Pres. Kenneth C. M. Sills stated in chapel exercises this morning.

"About 80 per cent of the college is now from New England," he said, "and Bowdoin is in danger of becoming entirely a New England college if it does us all good to have boys from other districts come and live with us."

Six factors which are most important in determining a student's choice of his college were quoted by Pres. Sills. Most important, he said, is the influence of the preparatory school principles or fundamentals; second is location and financial requirements. Third is the influence of friends; fourth, the general reputation of the college; fifth, the reputation of its faculty; and sixth, its athletic standing.

The president urged undergraduates to take an active interest in seeing that Bowdoin enrolls consistently high-quality classes.

### SOME FUND, P.M. KEED?

To date the donations to the fund have been as follows:

Friend	\$ .00
An enemy	.05
John	.50
Growler board	\$25.00

m - e

### PETER PETERS OUT

This comes through a friend of a friend and a friend of a friend of ours, but we have it thus reliably that no less a person than Robert Peter Tristram Coffin himself fell asleep during a 1.30 class while giving a lecture recently.

m - e

### WHOSE FUNERAL?

From an equally undeniable source comes the rumor that Professor Chase gave one of his English classes an adjourned last Friday while he went to Boston to attend the funeral of a friend of his. P.P. must be like Will Rogers who the only time what he has to say is the same—because when he got there he found out it was merely a deceased person with a similar name!

m - e

### WASHINGTONIA

Professor Tillotson's little son was a dinner guest at the last Friday evening entertainment given by Dr. Sills. The boy was told to be well in the August presence of Prexy. He did, and upon being complimented after the distinguished guest had gone, upon his model behavior, explained it thus: "It wasn't all hard. After all, he is the father!"

### XYLOPHONOMANIA

Speaking of the Chi Psi, students of contemporary music should shake a point of dropping over at their Boddy Street abode any evening these days. Led by the valiant Dittie Bond the men of Alpha Eta Chi Psi have invested a 20 cent xylophone in each male in town so that at it out everyone someone plays the victrola. There are nine sets there now, and it's a veritable beehive but oh so definitely a part of the current American college scene. Polar Bears and Prof. Tillotson please copy!

## LARRY LANE AND HIS BAND

Larry Lane and his band will hold forth at the Alpha Tau Omega house on Monday evening. Larry is in the white jacket; the girl is Tina Haskell, vocalist. On her right is Ken Wright, second trumpet, who won first prize on a recent Fred Allen program.

## Magee, Miller Approve Records Made By Eleanor Holm Jarrett

## Variety

By Frederick L. Gwynne

If you haven't been to the "Art Building" lately, truck on over and see what's been going on in the way of decoration and remodeling. A lot of junk has gone and the new Tarkington loan is up.

In the case of the Wise Ones, some of the Wise Ones say that Mary Lou Williams, who has played piano for Kirk these last fourteen years, has a better execution than Teddi Wilson. That's a gain of training men.

P. G. Wodehouse's latest, "Laughing Gas," isn't so hot. Old Pelham Grenville is getting a wee sloppy lately in throwing together his jokes and plots.

Duke Ellington's "Trumpet in Spades" (reverse: "Yearnings for Love") wouldn't do bad at any other time, for that matter.

Coates' "The Grover" may be obtained at the Masque and Gurney on Tuesday and at the various houses.

Next year's convention is to be held in Boston, Mass.

Magee and Miller represented the National Amateur Athletic Union at the convention. The N. A. A. met on Tuesday, December 1, and arrived back on campus last Thursday.

The student committee also received a new 100-meter record set by Jesse Owens. The majority of over 200 records advanced were approved by the committee and the conven-

tionalists.

In one of the most heated elections in Houston, Texas, last week, Bowdoin track coach Jack Magee, was chairman and Bowdoin's coach, Coach Bob Miller, was another member of the delegation to the national convention's records committee which approved three American swimming records set by Eleanor Holm Jarrett, the woman who was barreled from the American Olympic team last summer.

Next year's convention is to be held in Boston, Mass.

Magee and Miller represented the National Amateur Athletic Union at the convention. The N. A. A. met on Tuesday, December 1, and arrived back on campus last Thursday.

## New England Swimmers To Compete Here

By Dick Fernald

The New England Intercollegiate Swimming Association will hold its annual meet in the Curtis Pool here on March 12th and 13th; it was announced by Coach Bob Miller yesterday.

This is a special honor for Bowdoin as there are eleven college from New England that will compete for honors. Those represented beside Bowdoin will be, M.I.T., Boston University, Mass. State, Amherst, Springfield, Wesleyan, Williams, Brown, Worcester, Tech, and Connecticut State.

Last year's meet, which was held at Williams, was won by Brown; Wesleyan placed second, and Bowdoin tied for seventh position along with M.I.T.

It is at this meet last spring that the crack Freshmen relay team of Pierce, Larrabee, Hutchinson, and White set a new record of three minutes, 55.3 seconds, in the freshman relay. These men will be available for the varsity this season.

Meet Otherwise Again

Bowdoin has been trying in excellent times in the fifty yard time trials that are run off every afternoon, and last Friday he raced the fifty yard freestyle in 23.5 seconds, over half a second under the standing New England mark. The first meet of the year will be with one of the most powerful outfitts in the east, the Olneyville Boys' Club. Last year Olneyville's Johnny Higgins set a new world's record in the Curtis Pool in the 200 meter breaststroke.

The schedule for the season follows: January 9, Olneyville, here; Portland Boys' Club, January 14; Boston University, away; January 15, Wesleyan, away; January 16, Portland Boys' Club, away; February 13, Williams, here; February 20, Springfield, away; February 27, M.I.T. here; March 12 and 13, N.I.S.A. Meet, here.

## CAGEMEN HOLD FIRST PRACTICE

Bowdoin's unofficial basketball squad, the Polar Bears, will hold its first practice against some of the leading preparatory schools and athletic clubs of the vicinity. Harold Ashkenazy is organizing the team, and expects to have an aggregation of experienced players superior to last year's edition. The squad will be composed of men not out for one of the winter winter sports, track, hockey, or swimming.

One practice session has been held enabling Coach and manager Ashkenazy to get an idea of the new material. Ashkenazy, Johnson, Johnson, Cawley, Johnson, O'Farrell, Frank Kibbe, Al Tucker, and George Haines are the veterans returning. Schedule Well Filled

Although no definite line-up has been selected, the combination of Garland and Frazier, forward; Kunkel, center, and Ashkenazy, and Johnson guards, looks to be the strongest. The Polar Bears plan to be playing regularly after the Christmas vacation, and some strong clubs have been scheduled. These include the Portland Boy's Club, Portland Y.M.C.A., Portland Junior College, Winslow and Madison High, Lewiston and Auburn, and the Canadian Curling Club.

## Bowdoin Fencers Face Unusually Active Season

With its winter season underway the Bowdoin Fencing squad has been making rapid strides toward organization. Already there are more than twenty students active, taking part in the squad's activities. Professor G. H. Quinby is the faculty coach of the team and Ted Stern is assisting him. The squad will be built around some of last year's participants, including Carl Barron, Louis Hudon, Gordon Potter, R.V. Gunter, and Ted Stern.

## SPORT SIDELIGHTS

By Bob Laffin

This year's edition of the Christmas Gambols has become one of the most highly contested of any in recent years. Bill Owen, Dave Rideout, and Lin Rowe, who are in the lead are separated by a mere half point margin and each event to go. Neal qualified for the final yesterday and all events will be on him in the final tomorrow. Although only a freshman he has shown remarkable versatility so far and may get the best of some of the favored varsity runners. No matter who wins the turkey, the 1936 Gambols have served to bring such new talent as Rowe and Allen to the attention of the student body and have demonstrated the versatility of many of Bowdoin's cindermen.

The event of most interest to date is, of course, Hank Dolan's unofficial high jump. If he keeps it up, Hank should also hang up a state record before his senior year is out. There is another record holder in the sophomore class and one of the best all-around athletes in school. "Mel" Melendy set a new mark in the Javelin throw last year. He also excels in football, hockey, and tennis, and is the only champion in billiards. Bill Melendy is the only man who has been members of the Auburn team have been members of the crack State Rifle team at Camp Perry.

A very promising season is in prospect for the 1936 club according to Captain Lord. An increase of interest in the organization has been demonstrated by the fact that more men are coming out for practice every week. The team is showing improvement in practice as well: in a recent match Tom-Brown shot 186 out of 200.

**SCHOOL MEET HARVARD**

Several new matches will be included in this year's schedule. Harvard, who are very popular, requested a match here in February and the club has enrolled in the New England Division of the National Intercollegiate League which includes the leading teams in this section. A freshman team has also been enrolled in the league.

Captain Royce Wagg, President of the Maine State Rifle and Pistol Association, has helped in the arrangements for a number of matches in order to give more practice for individual men, and Professor Boyd Bartlett will be the club's faculty advisor.

The 1936-37 schedule for the team is as follows:

December 16—Portland American Legion

January 9—University of New Hampshire

January 16—St. John's University of New York (postal).

February 13—University of Indiana (postal).

February 20—University of West Virginia (postal).

Matches are still under arrangement.

## Rideout, Owen In Tie For Lead; Gambols Near Close

### DOUBLE WINNER

Hank Dolan, shown above, won both the low hurdles and 440 yard events.

Rideout, second, and Rowe, third, were in the Christmas Gambols scoring.

Owen is the only competitor so far who has succeeded in winning more than one event.

By Paul Wheeler

Sixteen men, had accumulated ten points or more in the Annual Christmas Track and Field meet. Some of these men completed their competition with the 440. Neal Allen who stands fourth with 13½, can still win by finishing second or better in the 880; otherwise, Owen and Rideout will be the winners of the Gambols.

Complete results of the 440 finals are as follows: Won by Owen; second, Rowe; third, MacKenzie; fourth, Rideout; fifth, Deane; sixth, Dolan.

Time: 54 seconds. The high hurdles are scheduled for this afternoon at 4:30 while the 880 is to be run tomorrow afternoon to end the meet.

**BULLETIN**

Yesterday evening with only two events, the 880 and the 45 yard High Hurdles, yet to be run, Bill Owen and Dave Rideout by only one point, were in the lead.

Both men completed their competition with the 440. Neal Allen who stands fourth with 13½, can still win by finishing second or better in the 880; otherwise, Owen and Rideout will be the winners of the Gambols.

Complete results of the 440 finals are as follows: Won by Owen; second, Rowe; third, MacKenzie; fourth, Rideout; fifth, Deane; sixth, Dolan.

Time: 54 seconds. The high hurdles are scheduled for this afternoon at 4:30 while the 880 is to be run tomorrow afternoon to end the meet.

**Rowe Only Freshman Winner**

The 440 yard dash, the 880 yard run, and the 45 yard high hurdles will complete the competition and the six men with the largest number of points will be presented with sizable trophies. The children of Coach Jack Magee. No prizes will be given to men who have not participated in four of the five events drawn at the beginning of competition.

Only one freshman has succeeded in winning an event so far. Lin Rowe, however, across the finish line to take first place by a comparatively safe margin in the forty yard dash after winning both his preliminary heats. Neal Allen was narrowly beaten by Bill Owen in the low hurdles, but was in second place in the 440 dash and discus events respectively, having a total of 15 points. Neal Allen, a freshman, was in second place with 13½ points; Lin Rowe, also a freshman, and Dave Soule were tied with 12½ apiece. Bill Owen was in fifth place in the 880 and George Reidson was sixth with ten.

The first day of the meet saw a new official college record of 6 feet, 2½ inches set by Hank Dolan in the high jump. Dolan bettered the mark set by Johnny Adams in 1935 by ½ inch. He also placed fifth in the broad jump to bring his total to nine points by Monday night.

**Rowe Only Freshman Winner**

The 440 yard dash, the 880 yard run, and the 45 yard high hurdles will complete the competition and the six men with the largest number of points will be presented with sizable trophies. The children of Coach Jack Magee. No prizes will be given to men who have not participated in four of the five events drawn at the beginning of competition.

**The Sun  
"Rises"**

THE three-college club concert and dance tomorrow evening may very well be the first step towards a new and valuable link among Maine colleges.

The time comes when Bates and Maine must join the other schools annually in such a program the result should be an increase in friendship and understanding which no other intercollegiate activity has yet succeeded in approaching.

The spirit of athletic competitions is not very far removed from better understanding surely. In fact it is much more apt to lead to antagonism such as developed temporarily at the time of the Bates game last fall.

The spirit of the other hand would furnish both the spirit and the means for developing friendly cooperation among the 4,000 or so undergraduates studying in Maine.

SPEAKING of music, the last Orient carried the interesting announcement that Prof. Tiltonson is considering the renewal of interclass singing contests next spring.

Practices and the contest itself would be held at the Colby Building after a cup had awarded in 1925 would be put back into circulation.

Outdoor singing by the seniors on spring evenings is one of the traditions most cherished at Princeton and there is no reason to think it it wouldn't be so here.

The outdoor singing done by the glee club last year was well received and there is much to indicate that enough student support could be raised for an interclass contest—for instance Memorial Hall with perhaps more packed than on the evening of March 12, 1936, when the first annual interfraternity singing contest was held.

INCIDENTALLY, before Memorial Hall is packed again more times something ought to be done about the ventilation there. The auditorium was hot enough and stuffy enough at the movies Saturday evening to drive part of the audience out, despite the fact that the heat had been off before the program began. Windows are the only means of ventilation now; inexpensive heater-circulator units could be installed without much trouble and would relieve the situation immensely.

RHODES scholars must really be a pretty special type of individual.

It is now seven years since a Bowdoin man received a Rhodes award, and in those seven years the college has not produced another scholar responsible for selection through outstanding men representing enough different fields of study and extra-curricular activity to staff an entire college and do it gloriously.

Granting that the competition is unique as is seen in this district as in any other in the country—or keener—still, it seems strange that among the hundreds of men graduated from one of the highest-ranking small colleges in the country over a period of seven years, not one should have been among the 22 American Rhodes scholars picked during that time.

Our solution might be to promote prominent candidates to apply from their home states for the Rhodes award. A severe New England competition, if it weren't for the fact that so many of them live in New England states.

Criticism of the system from other sources has become so strong and widespread nowadays that it's time the committees in charge reluctantly undertake some defense of its method of selecting scholars, and either redefine the basis of selection or conclusively answered the charges that it does not use that basis of selection.

**GWYNN GETS STATE SCHOLARSHIP HONOR**

Frederick L. Gwynn, '37, was nominated December 18th by the State Committee to Augustas as one of the two delegates to represent the state of Maine in the Bowdoin Scholarship competition which was held in Boston on December 21st. The Maine committee of judges, composed of President C. D. Gray of Bates, Prof. S. C. Nichols of Bowdoin, Prof. Webster of Colby, Robert Hale of Portland, an alumnus of Bowdoin, and Robert E. McGee, a former Rhodes scholar, revealed their choice after a day spent in interviewing and deliberating upon candidates.

Gwynn, a sophomore in the District competition, but the state of Maine will be represented by William D. Sutcliff of Bates.

Gwynn is an English major and last year won the Bertram Louis Smith Jr. Prize Scholarship for students in English, and also the Forbes Rickard Poetry Prize.

Qualities which the selection committee look for in a candidate were defined by Rhodes and are (1) literary and scholastic attainments, (2) fondness and success in outdoor sports, (3) qualities of manhood, truth, courage, and (4) moral force of character.

The Rhodes Scholarships were created by the will of Cecili Rhodes approximately 10 years ago, who had as his purpose the promotion of better understanding between England and the United States. The Adeydale plan of distribution, which was adopted in 1918, provides for the division of the forty-eight states into eight groups, each containing six states. From each District a District Committee selects four of the delegates nominated by the states as Rhodes Scholars, subject to the agents of the Rhodes trustees at London and Oxford.

3rd Film Program Contains Spectacular Griffith Cinematography

**NOTED STARS ARE IN IMMENSE CAST**

**Elaborate Sets Represent Scenes From Babylon, France, Calvary**

By Leonard J. Cohen  
*"Intolerance," one of the most elaborate and spectacular productions of the early American films and directed by D. W. Griffith, famous for his "Birth of a Nation," will be shown Saturday evening in Memorial Hall in the third program of the series entitled "A Survey of the Film in America," circulated by the Museum of Modern Art Film Library. Including impressive and thrilling scenes from Babylon, France, Calvary, the drama of today, and of Calvary itself, the picture is a violent attack against injustice and cruelty.*

Containing the first full-length picture thus far in the series, the production is an amalgamation of the work of Griffith who along with Thomas H. Ince and Mack Sennett, was one of the pioneers in developing the technical resources and the emotional content of the motion picture.

*Cast Has Famous Stars*  
Incomes taxes, sales taxes on luxuries, or a combination of both was strongly advocated for Maine by Pres. Kenneth C. M. Sills in his chapel address last Sunday. Review-

**White Key Will Extend Welcome To Westbrook**

Entertainment and refreshments for the 80 visitors from Westbrook Junior College, who will sing in the Glee Club Festival tomorrow night, will be the responsibility of the White Key, according to Normal E. Verdi, '26, chairman of that organization.

Beside this most recent of the White Key undertakings, the club also extended its welcome's hospitality to fifteen men from the Olneyville Boys' Club on last Saturday and to ten men from the Portland Boys' Club on the same day. Arrangements for meals and entertainment at the various events were made by the White Key which was reorganized last fall after several years of absence from campus activities.

**SILLS CONDEMS STATE TAX LAW**

**Demands Reform of Present System; Reviews Chief Events of 1936**

By Richard T. Everett  
The announcement of Wilder Dwight Bancroft as visiting Professor of Chemistry at Bowdoin for the Fall semester was made by President Kenneth C. M. Sills in chapel last Tuesday. Professor Bancroft has been a Professor of Physical Chemistry at Cornell University since 1908. Professor and Mrs. Bancroft will come to Brunswick late in January. While here he will give a course designated by the title "Chemical Topography" which will include a variety of subjects and will come at 1:30 on Mondays, Wednesdays, and Fridays. All students who have had chemistry 1-2 will be eligible for the course.

Professor Bancroft, besides his current collateral chemotherapy, will deliver a series of four lectures in the Moulton Union. These lectures will be open to the public. On February 17 the subject of Professor Bancroft's lecture will be "Blue Eyes and Pictures," on February 24, "Back to Aristote"; March 1, "The Meaning of Experiment"; and March 10, "Why Grass is Green."

A native of Middletown, R. I., Prof. Bancroft was born in 1888 and graduate studies there and abroad until 1893. He received his Ph.D. at Leipzig University. He has been a member of the Chemistry Department at Cornell since 1895. For the past 12 years he has been editor of the "Journal of Physical Chemistry," has been associate editor of the "Journal of Franklin Institute" since 1913, and has published two books and numerous scientific articles.

*He is a member of the Advisory Commission of the Chemical Welfare Service with which he started as Lieutenant-Colonel during the World War. He has been a member of the Board of Directors of the Bureau of Standards, and has served as Chairman of the Department of Chemistry of the National Research Council. He holds honorary degrees of Doctor of Science from Lafayette and Cambridge Universities and an honorary Doctorate of Laws from the University of Southern California.*

Doctor Bancroft will be the ninth man to serve as Tallman Professor at Bowdoin on the foundation established in 1929 by Dr. Frank T. Tiltonson, A.M. of Wilmington, Delaware. The former incumbents of the chair have been: Alben Gregory Widgery of the University of Cambridge; Charles Gaston Eugene Marie Bruneau of the University of Nancy; Doctor Antonio de la Universidad de Roma; Maurice Roy Ridley of Balliol College, Oxford; Donald Baxter MacLellan, Stanley Cusson of the University of Oxford; Herbert Von Beckerath of the University of Bonn; Arthur Haas of the University of Vienna.

**DRAMA CONTEST TO BE HELD MARCH 1ST**

The annual One-Act Play Contest, sponsored by the Masque and Gown, will be held on March first and entries for the contest must be in the hands of Stanley C. Moore, Jr., 37, secretary of the organization, by midnight, Thursday, January 21. Three or four of the plays, to be chosen by a committee of judges from the faculty, will be presented in the final competition.

Each entrant must submit four typed copies of such length that the play will run from 15 to 45 minutes. A single page, double-spaced, runs about one minute.

The authors of the selected plays will stage and direct their own productions, and properties, without any faculty help. The same faculty committee which judges the script of these plays will also judge the performances.

His interests are broad, including active work in foreign missions boards and the Association for the Advancement of Colored People, holds several degrees from Ohio Wesleyan University, a doctorate of philosophy from Boston University, of which he is a trustee. At Ohio Wesleyan Dr. Hartman was a member of Beta Theta Pi.

**Chase Criticizes Articles, Verse In Latest Issue Of Bowdoin Quill**

By Professor S. P. Chase  
In quality, the December Quill is a rather more than respectable issue; there is no single item which one would wish omitted, and the inclusion of a fine long poem by Robert P. Coffin and a vigorous essay by Frank T. Tiltonson add distinctiveness.

But the amount of undergraduate writing is patently small. Take out the two faculty contributions; there are left a play, an essay, a sketch, and three poems. Of these, the two poems mentioned in the competition of two years ago; the essay was a Commencement paper of last June; and one of the poems was the Ivy poem of last May. This leaves, as material submitted by undergraduates, two short sketches and two short poems. Truly, that renascence of creative spirit among Bowdoin undergraduates, lately the subject of Presidential comment, wherever else it may be, has not appeared in the undergraduates' own "Quill."

Lewis Tiltonson's "Article" Professor Tiltonson's "Music in the Liberal Arts College" is not a pleasant article to read. It is a defense of music as it has taken its place as a recognized first-ranking academic subject, discussion of the difficulties which the new situation presents, and a summary of the benefits which may be confidently expected

(Continued on page 2)

## HELL WEEK III

While the essential conclusions regarding general fraternity policy are not pre-initiation activities reached by the 1936 National Interfraternity Conference at its meeting in New York shortly after Thanksgiving were basically those evolved by last year's conference, and there may be some justification for *Time's* description of the result as "a slap on the wrist" of the institution of Hell Week, a very interesting booklet reporting Fraternity Attitudes and Regulations and Campus Policies and Practices regarding Hell Week was one tangible and important result of the conference.

This booklet brought out statements concerning this matter not only from the authorities of all the fraternities belonging to the N.I.C., but also from the deans of many colleges and universities. In many instances it gave full reports of regulations and systems on trial at such institutions. Those applicable to Bowdoin fraternities, to the college, and to colleges of its type, follow. One need only consider the Hell Week activities of certain Bowdoin societies, which, while they are not of the severe type causing trouble at some colleges, definitely seem to exceed the limits laid down by fraternity heads, to realize that no comment is necessary. The discrepancy stands out.

The following are among the Laws, Regulations, and Attitudes of National Fraternities:

**Alpha Tau Omega** Legislation. Section 197. That no chapter shall permit any form of hazing, ritual, ceremony, rough play or initiation other than that which is a part of the initiation until it shall have been submitted to and approved by the Province Chief. Any chapter violating this law shall be fined twenty-five dollars.

Section 207. That no requirements for initiation may take the candidate outside the chapter house or grounds or in any way attract public attention. The period of probation or of informal initiation shall not exceed twenty-four hours. Violation of either provision or of any intervening danger to initiates is forbidden. Stewart D. Daniels, Executive Secretary.

**Beta Theta Pi**. We have been waging an aggressive war this year and are having some excellent results. In Beta Theta Pi we are resolved to stamp out the practices or eliminate the chapters which refuse to comply. You may be interested to know that on the local campus the disciplinary committee of the University placed a chapter on probation for taking initiation practices out of the chapter house and for interfering with the normal sleep of the pledge.

Section 98—Initiation ceremonies into the Fraternity shall be limited by the respective chapters (1) to reasonable probationary measures not materially interfering with a candidate's study or class hours and not in excess of one week's duration; (2) to the traditional Wooglin ceremony; (3) to the Fraternity. None of the above shall be given outside of the chapter house or hall. All probationary measures except as above mentioned, and all horseplay, including (but without being limited to) physical punishment of any sort, efforts to inspire fear and distasteful practices generally, are hereby forbidden. It is further hereto declared that any prevailing initiation practices conflicting with the express provisions hereof may be condemned with the consent of the Board of Trustees. The power to implement this law is hereby vested in the Board of Trustees during the interim of the General Conventions of the Fraternity—G. Herbert Smith, General Secretary.

**Chi Psi**. For a long period of years the Fraternity has been definitely against such and has stood through the usual educational process to bring the undergraduates to the point where they can see the wrongs of the practices are of no use and in fact detrimental to the best interest of the Fraternity.

Specific legislation on this point was enacted at our 93rd Convention in 1934 where the following was adopted: In view of the sentiment and resolutions adopted in previous conventions, the Committee recommends that the 93rd Convention of Chi Psi adopt here and now a definite regulation to abolish all activities in connection with the initiation that may jeopardize the health of students, future students of the chapter to be Chi Psi. It is believed, abolish all activities in initiation, generally referred to as rough-house or hazing, which seem in no way to lend to the significance of Chi Psi training.

Further action was taken at the next convention in 1935 when the following was adopted: In view of the fact that there is a continual sentiment against hazing in the universities, the committee suggests that all alphas refrain from any hazing whatsoever. The committee feels that the initiation ceremony carries more significance now, than when bodily punishment was inflicted—H. Seeger Slifer, Secretary-Treasurer.

**Delta Kappa Epsilon**. The Council of Delta Kappa Epsilon has recently expressed its disapproval of any informal initiation, which by reason of its length, tends to interfere with the scholarly work of the candidates or is contrary to the regulation or interest of the college. The Council has also on numerous occasions sent out warnings that candidates should not be subjected to physical maltreatment or humiliation. Each chapter has a book of instructions in which these directions are set forth—W. W. Elder, Field and Alumni Secretary.

**Delta Upsilon**. Delta Upsilon has no regulations on the subject. All chapters are advised to prohibit any rough treatment of initiates. The results have been gratifying in the extreme. It would be unwise to declare that this Fraternity has rid itself for all time of folly, because sporadic outbreaks are to be expected for some time yet, yet it can be said that Delta Upsilon has turned from the abuse referred to—John D. Scott, Vice-President.

**Kappa Sigma**. In our Code, which states the general law of the Fraternity, there is a provision requiring each chapter to have a by-law forbidding "all forms of hazing or horseplay in direct or indirect connection with the initiation of members into the Fraternity or in connection with any other Fraternity occasion, and we further direct that such rules or By-Laws be rigidly enforced by each and every Chapter of Kappa Sigma."

Kappa Sigma, for many years, has been opposed to anything in connection with the initiation of members into the Fraternity, however, in time it might be from the actual initiation, or the doing of anything other than the performance of the ritual. We appreciate, of course, that in many chapters the local feeling is such that the chapters believe they must do something to their candidates other than to conduct them through the initiation ceremony. We have consistently stressed with such chapters the idea that a pledge or a candidate is at all times to be treated as a gentleman, if for no other reason than the fact that will thereby be a better member.

Wesley W. Kargan, Worthy Grand Scribe.

**Sigma Nu**. The following is copy of extract from the Laws of Sigma Nu Fraternity, Constitution Article 6, Section 6, Paragraph one: Powers and duties of collegiate chapters. The sole right to initiate members into the Fraternity, but only according to the prescribed ritual, anything except that which is prescribed being deemed hazing of initiates or rough or ungentle treatment being or in connection with any ceremony of initiation is positively forbidden. No rough treatment or extremes should be conducted at any time, whether before or after initiation.

The policy of Sigma Nu conforms to the above quotation of regulations in reference to Hell Weeks and rough hazing at any time—Malcolm C. Sewell, Grand Secretary.

**Tau Beta Chi**. The pre-initiation includes no paddling or practices resulting in physical pain, unusual discomfort or any mental state which might detract from the proper reception of the initiation service of our Fraternity; it shall last no longer than two days, must be reasonable and entirely within the Charge House except in so far as generally recognized college customs were followed—Norman Hackett, Graduate Secretary.

## SILLS URGES MAINE TAX LAW REFORMS

(Continued from page 1)  
definite move made to tax wealthy citizens there is an outcry "from Kittery to Fort Kent" which blocks needed tax reforms.

These moves against higher taxes on wealth are prompted by the wealthier classes who have been multiplying their wealth at the expense of the less fortunate. These moves will appeal to a fair portion of taxation which would benefit education and other state necessities according to Sills. He particularly praised the new law of the Governor of New Hampshire, which would allow the state legislature to determine that their question should be how much they should conscientiously spend rather than how little they can spend. The matter of raising money, said President Sills, should be left to the economists. "Economy! Economy! Economy!" What sins are committed in your name?" he exclaimed.

In reviewing the past year President Sills spoke highly of the Pan-American conference. It has done much to advance neighborly relations between the Americas and should serve as a helpful example to European countries. He lamented the "sin" that mankind should have to argue for peace when its benefits are self-evident as they are.

## Urge Self-reliance

Quoting Grover Cleveland, President Sills said that the test of a good citizen is that he be content with what he has and not covet what he does not have. In his government he is to get all he can from it. However, he went on, wealthy citizens whose desire is to avoid all unnecessary contributions to government support are not to be blamed. Those people who lazily stay on relief and burden their fellows rather than work on their own. The same, he said, is true of the college. To gain the most, one should go to the Bath Iron Works, trimmings, and is stepping right up there around the top.

Even though the naive overconfidence of Theda Bara's "A Fool There Was" last Saturday probably spoiled it for you, you must admit that no movie star is as popular as Art Deco. If you're sick of certain kinds of modern pottery whose Paganus is a nightmare, collect a little poetic gem called "A Trophy of Arms," by one Ruth Pitt, whom James Stephen, author of "The Indians," says both are worth the very price of admission.

With all the current discussion of Surrealism around fraternally houses and college cities, it's surprising how many incisive comments have been made by some who otherwise would not have much to say on art. . . . Tobacco Road has been running four years. Gus Aronoff's "Redhead" is stepping right up there around the top.

A place where students have a better perspective of local, national, and

international affairs.

**Zeta Psi**. Our convention passed a resolution adopting a report made by a special committee which recommended abolition of any practices which they listed as unfavorable and the adoption of procedure which they also recommended. All this information will go forward to our individual chapters in the fall so that they will have a record of our procedure at the convention. Briefly the report suggests adoption of a specific educational program for pledges and elimination of any physical handling or outside activity of the customary Hell Week nature—E. C. Happgood, Jr., General Secretary.

Alpha Delta Phi and Psi Upsilon were not included in the report.

Perhaps if this list were to be printed each fall before Bowdoin's fraternities hold their Hell Weeks, both the freshmen concerned, and outside observers, could watch out with a critical and corrective eye, for ceremonies which exceed the policies stated above.

## Bowdoin Drops Early Lead Losing To Colby Icemen 2-1

By Jim Tracy

Greatly handicapped through lack of practice, Bowdoin's varsity hockey team opened its 1937 season last Monday afternoon, dropping a hard-fought 2-1 decision to the strong Colby sextet at Waterville. Starting with four sophomores, three whom were playing their first game in varsity competition, the Polar Bears fought a determined battle in holding the highly touted Colby State Champions to such a score.

## Walker Breaks Tie

The Brunswick puckmen opened the scoring in the first period when Buck, on a long shot from his wing boards fired a terrific blast which threaded the Colby defense to see in time. Clinging tenaciously to their 1-0 lead, Bowdoin repeatedly foiled the withering four-man attacks which the Mules sent down the ice in an effort to tie up the score.

Finally late in the second period Colby brought the count to 1-1. Morris Walker maneuvered to a free position in front of the White goal and sunk the rubber from in close past Corey, Colby caged the deciding marker in the third period when Walker collected the rubber in front of the surprised Corey and dashed it in, this time for a goal.

## Corey and Hanley Star

For Bowdoin, Nels Corey, substitute sophomore goalie, played his first game in varsity competition performed in outstanding fashion with his hair-raising stops. The two shots which did get by him were attributed to the failure of the White defense to cover Dan Hanley, another sophomore making his first start also turned in a remarkable game while Capt. Jack Lawrence played with his usual fine performance at defense.

The one failing weakness was the inability of the wings to properly cover their opponents when the puck was in scoring position. The team meets Springfield here Saturday.

## The line-up:

Bowdoin	Colby
Cover, g.....	R. Thompson
Hanley, w.....	M. Walker
Lawrence, d.....	W. Gaudet
Mills, c.....	C. Lemieux
Harkins, w.....	R. Hannigan
Bowdoin alternate forward line: Buck, w;	
Arnold, c; Melindy, w.	

CAPTAIN JACK LAWRENCE  
Veteran defenceman who leads the  
1937 Polar Bear hockey team.

### HOOPSTERS LOSE TO FAST PORTLAND UNIT

Although outscoring the Portland Junior basketball team by more than two to one in the last half of the game in Portland Saturday, the Polar Bear Independents could not overcome the lone lead lost in the first two periods and were defeated 37-33. Percy Blaine, Jr., scored three points in the last minute of play after the White squad had kept the opponents down to a two point gain in the last quarter but the quintet still lacked the top by a four point margin. Anderson was the leading scorer with nine points. Members of the squad were Cartland, If; Dale, If; Doyle, If; Frasier, rr; Kibbe, c; Fischer, c; Ashkenazy, ig; Johnson, ig, and Black, rg.

## Have New Coach

The Independents began practicing last week under a new coach, George Crimmins, a popular Brunswick High instructor who offered his services to the unit. Mr. Crimmins is a graduate of the University of Maine and is developing a new offense system modeled after that of the University of Michigan.

A game is pending with the Maine Varsity for near the end of the season.

### Jayvee Swimmers Lose To Portland Boys Club

In their first meet of the season, the Jayvee swimmers lost to the Portland Boys' Club 61-24 last Saturday afternoon. The Bowdoin natators starred in the 50-yard medley relay which included MacRae, Blaine, and Lampesis, and finished the race in 1:35.1. The only other event the squad won was the 50-yard freestyle, Goodspeed placing first.

The closest race was the 100-yard breaststroke in which MacRae of Bowdoin was awarded the decision over Gaudet, both reaching the finish wall at almost the same instant for second place. Caulfield lost first place by only a few yards in the 100-yard backstroke.

### Betas Edge T.D.'s 27-26 In Interfraternity League

On the first night of play, Jan. 8, in the Bowdoin Interfraternity Basketball meet, the Kappa Sigma quintet dealt a convincing defeat to the A.T.O. five, winning 63-17. In the "B" division the Dekes defeated the A.D. courtney by a 36-22 count. Charlie Brand '40, Kappa Sigma, in all up 35 of 63 points was outstanding for the winners of the first game.

Last Monday evening the Zeta Psi team romped over Sigma Nu's squad 48-24 while the Chi Psi's offensive attack led by "Pop" Clark netted a victory over the Non Fraternity players 33-28.

Beta Theta Pi edged a 27-26 victory from the T.D.'s last night. Johnny Cartland, Beta, totaled 14 points.

## Mermen Enter Three Varsity Meets On Trip

S - 8

8

Although it's still early to make definite predictions, according to present indications the freshman cinder squad is stronger than usual. If they don't manage to down the sophomores this year never will. Right now there's hardly an event in which the yearlings can't boast at least one topnotcher and the hurdles and dashes have more than their share with Allen and Rowe sharing honors in both. Somehow, though, the sophomores always bring out a lot of place winners that everyone's forgotten about or failed to notice during the season. Remember the freshmen were expected to win last year too.

Incidentally the relay team should be rounding into shape soon although active competition for it has hardly begun. The seniors are the ones who are the best and there are plenty of aspirants for the other two positions. Briley Gray had been running with the team so long that it won't seem natural to be looking for someone to take his place. However, Burn Hall and Johnny Hobbs have been showing a lot of speed lately and Dave Bond, Art Fischer, Nat Lord, and Bob Hambleton are other possibilities.

The swimming pool should be a bright spot this winter in spite of rain and bad ice . . . Bob Miller has an endless array of meets for his proteges and a good percentage of them should result in victories judging from the short time he's been against Ossipee last week end. Olneyville ranks among the country's best. If Bill White continues his present rate of improvement, he should be winning national laurels soon. Swimming should soon come into its own as a major sport.

S - 8

However said there was nothing to do these long winter evenings doesn't care for athletic sports because last week we've certainly had a load of exciting games in other different sports. Both of those swim meets Saturday were full of thrills and the freshman track meet wasn't too bad either. The rifle team, youngest of Bowdoin's minor sports, was in action also, and the gym floor was kept busy day and night. The Freshmen, after being eliminated by the college athletics authorities, but the fact doesn't hamper the playing of the White Independent quintet. Basketball's a good game to watch and you don't freeze your feet in the process. Incidentally there were a couple of better than usual fraternity games over the week end, too.

Leaving this afternoon, the Bowdoin varsity swimming team is off for its winter trip south to meet Wednesday, Boston University, and the Portland Boys Club. This is the first trip ever to include three meets away from home in as many days.

Throughout the meets Bud White will be attempting to set the record of 24 seconds he set here last Saturday night in the 50-yard freestyle. At the first meet tomorrow, Bud will come up against Davis of Wesleyan, who swam the same leg in the Freshman Relay last year at the Intercollegiate at Williams. The Wesleyan squad had lost its "big three" and the quality of the team is deteriorating more and more upon the strength of the team as a whole. Bowdoin University will present a well-balanced squad on Friday evening to meet the White.

On Saturday evening the team will attend the Freshman Night dinner at the Boys Club in Portland, and will meet the club in competition at eight. There the Bowdoin natators will meet a fairly strong squad some of whom swim against the freshman team here Saturday.

### J. V. HOCKEY SQUAD DOWNS DIXFIELD 3-1

Bowdoin's J.V. hockey outfit overcame a fast sextet from Dixfield last night in a 3-1 victory. The local club, which Blaine put up an early lead for the Dixies, Doughty, a freshman, soon matched it on a rebound and led the J.V. scoring when again the last period he sank one on an assist from Dane.

Nate Dunn on passes from Doughty and later contributed the Polar Bear's second tally at the start of the second period. Nearly three full squads saw action for the J.V.'s.

Midway of the game a blown fuse caused a half hour of darkness. The White unit won its first game of the season 6-0 last night, Jan. 7, on a soft and rough rink. Allen, Tucker, and Currier did the scoring with Stevens contributing five saves.

## FROSH OVERWHELM PORTLAND TRACKSTERS WITH TEN FIRSTS

### White Joins New England Collegiate Hockey League

By Milt Seiner

One record was broken and two others tied as the Bowdoin Freshman tracksters, with a well-balanced team, ran away with its first meet of the 1937 indoor season last Saturday afternoon in Portland, defeating Portland High School 72½-22½. The Magemen look all first places except in the 40-yard dash and even then forced the Portland star to equal the meet record to win.

Charlie MacKenzie, freshman cross-country captain, won the 1,000-yard run in 2:25.3 breaking the meet record by one second. MacKenzie showed his superiority after the first two laps and none of the other track stars were able to challenge him. Lin Rowe, in winner of the Christmas Gambols, was the high point man of the meet winning both hurdle events, the broad jump, and running anchor in the relay to total fifteen firsts. The freshman star, with New Hampshire, who had five events, equalled the meet record in the low hurdles and had to make but one leap in the broad jump to win that event.

### Riflers Suffer Defeat From Crack N. H. Five

In losing to the University of New Hampshire rifle team last Saturday afternoon, the Polar Bear marksmen fell before the best team that has ever competed on the Bowdoin range. The visitors are the same team that defeated West Point last year.

The Bowdoin riflers, however, showed a large improvement over their recent performance against Auburn. Captain Frank D. Lord again led the scoring for the local club while Lampesis was the top man for the visitors.

New Hampshire's first record was broken by Lampesis, who won the Polar Bear's second tally at the start of the second period. Nearly three full squads saw action for the J.V.'s.

Midway of the game a blown fuse caused a half hour of darkness. The White unit won its first game of the season 6-0 last night, Jan. 7, on a soft and rough rink. Allen, Tucker, and Currier did the scoring with Stevens contributing five saves.

# THE BOWDORIN ORIENT

VOL. LXVI (66th Year)

BRUNSWICK, MAINE, WEDNESDAY JANUARY 20, 1937

NO. 18

## The Sun "Rises"

By William Frost

PRESIDENT Hyde, great educator and brilliant thinker in educational fields, once divided the courses of study in a college into three broad groupings: language, including all literary, critical, and historical literature from the classics to the twentieth century; sciences, including mathematics; and the social studies, including, I think, history and psychology. There was and is, however, one subject which falls to fit neatly into his system, or into any rigid division of inquiry, for that matter: philosophy, the all-embracing department of human thought.

For this reason, we who are now undergraduate students are especially fortunate in being at Bowdoin in a year when the current institute of distinguished speakers will bring to the college such men as Meiklejohn, Angell, and Tugwell—to mention only three—under the general heading of an institute of philosophy.

IT IS possible that the reaction of many students to the word philosophy is nothing more than a vague recollection of musty, tame, and the names Aristotle and Kant. Any such impression of the subject is entirely mistaken; for my significant field of study is also concerned with philosophy. The widely read works of such a famous scientist as Eddington are full of philosophy and even metaphysical thought; while in the field of letters one of the most brilliant of modern philosophers has only just begun writing.

The selection of Rexford Guy Tugwell as speaker in a philosophy institute will come as a surprise only to those who have not yet realized the deep connection between philosophy and modern political theory. One of the commanding parts of two years ago, it will be remembered, compared the ideas on which Hitler bases his state with those of the philosopher Hegel, who wrote about a hundred years ago.

SOCIALISM, communism, totalitarianism, all are fundamentally philosophical systems of government, and even capitalism has been discovered by writers like Lenin to have its own implied order of social thinking.

In the current Quill Professor Tillotson quotes a statement of Dean Gilkeson of Barnard that the more ardent spirit of the youth of today comes from a new creed, world-widening for. In the last analysis it is philosophy, through the medium of social science or present-day religion, that is trying to satisfy such cravings.

Changes and reforms in modern education that we hear so much about are ultimately attributable to philosophers like John Dewey of Columbia. Even such a branch of philosophy as logic—once thought rather dry and formalized—is being exercised now with taste in an inspiring fashion by Russell, Whitehead, Carnap, and others.

In short, no institute should be of greater interest to intelligent undergraduates than one in philosophy.

There is no reason for expecting dry or technical speeches, for this subject of all others is vitally concerned with every problem of modern life and thought.

\* \* \*

A NYONE with literary interests

should not forget that the deadline for the one-act play contest is tomorrow. The competition seems to be that competition in this year's contest will be strong. Although rules and literary standards remain the same, a different and somewhat younger faculty committee is judging the entries this year. Perhaps an interesting experience for the committee to try would be to have a vote of the audience taken, not to be necessarily decisive, but simply to see how the impression of the spectators would compare with the opinion of the judges.

\* \* \*

THE week-end commencement

would seem to be already becoming a firmly established feature of the Bowdoin calendar, as the results of the alumni poll are published. The arguments for it, which have been pointed out in the Orient before, are still valid, and the question is, son why it would not continue to aid in breaking attendance records at the ceremonies. To the undergraduates and the graduating class it does not seem like a matter of great importance, perhaps, but nevertheless, one of the main tests of commencement is to bring "old grads" back to the campus and renew their memories of their youth at Bowdoin, anything which will make this return more convenient for them is a definite advantage.

PHI BETES SET DATE

OF INITIATION DINNER

The annual mid-winter initiation and dinner of the Bowdoin Chapter of Phi Beta Kappa will be held on the evening of Monday, February 13. The speaker is to be Professor Albert Abrahamson, Bowdoin '26, who has chosen for his speech the topic "Professors in Public Life."

Professor Abrahamson is Works

Progress Administrator for the

State of Maine, having been on leave

of absence since June 1934, from his

position as Associate Professor of

Economics at Bowdoin. He is a

member of the American Economic

Association, the American Statistical

Association, and of Phi Beta Kappa

and Zeta Psi fraternities.

## PROFESSOR FAIRCHILD COMING TO COLLEGE FOR LECTURE FEB. 12

NYU Sociology Dept. Head Obtained By Faculty As Cole Speaker

NOTED AUTHORITY HERE IN 1909-1910

Chooses For Subject "When The World Gets Full"; Analyses Growth

By Wellington Yaphé

Dr. Henry Pratt Fairchild, Professor of Sociology at New York University, and president during 1936-37 of the American Society of Sociology, will give the first Cole lecture of the year Friday, February 12. His subject will be, "When the World Gets Full," an analysis of the trends of population growth and their economic and social consequences. In this field he has recognized authority, having been for some years president of the Population Association of America.

The college will welcome Dr. Fairchild with special interest because of his work in economics and sociology at Bowdoin in 1909-10, leaving to return to Yale, where he had done his graduate study. Following two years of work, he went to New York University in 1918 as professor of sociology, and remained until 1922 as professor of the Bureau of Community Service and Research. Since 1924, he has been head of the department of sociology in the graduate school of that institution.

Known As Author

In addition to many articles in scientific periodicals, Dr. Fairchild is the author of "General Sociology," "Immigration," "Profits or Prosperity," and other books. Among the many influential positions he has held, he has been head of the American Eugenics Society, the Eastern Sociological Conference, the People's League for Economic Security, the New Commonwealth Federation, and the New York City Board of Education.

DU's Hear Coffin Read Group Of Maine Poems

As part of a series of informal Sunday evening smokers and lectures by faculty members which was inaugurated last week in the Delta Upsilon Room, Prof. Robert P. Coffin, Bowdoin's Pulitzer Prize winner, addressed a gathering of members of guests last Sunday. He read many of his latest poems using them as illustrations of his purpose in writing.

Mr. Coffin's talk was an attempt to introduce into the world of literature the vast field of local Maine idioms and figures of speech, and by doing so to reproduce the free, impersonal style of the ancient ballads.

He stated that he discovered the common idea that one must go abroad in order to find picturesqueness, and pointed out that the material for most of his poems was gathered in Brunswick and Lincoln.

He stated that in modern times, he tried to infuse something that the ancients never had, humor.

He believes that humor is one of the greatest additions that moderns have made to literature.

Reads Prine Wines

Among the poems he read were "How Nobody Pray" by Nobel Cain, "The Yellow Chair" then sang two "Sea Chants" by "Toothaker's Desert," "Jethro's Pet," "There I Took Hold of Life" in which the incident which he considers the high point of his life is told; "Broadway," "How You Know," "The Birth of Flame" in which he describes the phenomenon phosphorescent rock weed of the Maine coast; "Barn Swallows," "Strange Holiness" which won for him the Pulitzer Prize; "Crystal Moon," "How I Learned at the Fair," "Pain," "Sing Hallelujah" from "Hit the Deck" by Yamane-Thomas.

The three clubs then united to sing: "Ca the Yowes," a Scottish folk song arranged by Vaughan Williams and closed with a group of four love songs by Brahmns.

The Colby section of the program was opened by the College Choir singing "Widmung" by Franz "Day of Judgment" by Archangelo and "Cantus" by H. N. Nobell Cain. Then sang two "Sea Chants" by Bartholomew and the choir concluded the group with two songs, "A Dream Within a Dream" by Cross and "Sing Hallelujah" from "Hit the Deck" by Yamane-Thomas.

The three clubs then united to sing: "Ca the Yowes," a Scottish folk song arranged by Vaughan Williams and closed with a group of four love songs by Brahmns.

Twenty Added To Teaching Staff Since 1926 Faculty Needs Report

By L. Damon Scales, Jr.

All but a few of the changes recommended in 1926 by the Faculty Report on the Needs of the College have been effected according to a report of the department heads and several new courses have been added to the curriculum. The construction of the Moulton Union and the Swimming Pool, the donation of a new athletic field and tennis courts, and the installation of a new chapel organ have all followed partly as a result of this report.

Asak Faculty Increases

The departments of History and Government have been strengthened by the addition of two new men: Assistant Professor of German, Dr. Max Reich. The English department has been augmented by the choice of Professor Coffin, Associate Professor Hartman, and Assistant Professor Quinby, while Professor Smith has been retained.

Dr. Miller has come to the Psychology department and Professor Bartlett has been added to the department of Physics. Assistant Professor Kolin came to the German department recently to fulfill a committee recommendation for a native teacher. Messrs. White and Pettigrove have also been added in response to the need for new instructors.

Courses in French composition,

## BROWN REVIEWS LIFE OF POET TUESDAY NIGHT

Noted Author And Lecturer Lauds E. A. Robinson As Human Being

TELLS OF GROWING INTEREST IN POET

Brown, Robinson In Famous MacDowell Colony At Peterboro, N. H.

By Milton F. Somer

Expressing his deep personal feeling for Edward Arlington Robinson as a man as well as a poet, Bobo Walker, well-known author and lecturer, reviewed his years with the famous Maine poet in his lecture held in the Moulton Union last night. Mr. Brown was introduced by Professor Stanley B. Chase who also commented to the audience the poet's connection with the college, particularly as regards his receiving the honorary degree of Doctor of Letters.

By relating numerous anecdotes the lecturer revealed the more intimate aspects of the poet. He reported that a little known fact about the life of the poet was that he asserted there is a growing interest in his life. Mr. Brown first knew Robinson in 1922 when he met the latter during his stay at the MacDowell colony in Peterboro, N. H., which had harbored many artists and poets, renowned. Physician "E.A." as he was fondly known, was shy of most people, and "didn't make many friends," but still one in a while.

Mr. Brown, who is probably one of the few men who became intimately acquainted with the poet, described him as emerging in the late 12 years of his life as a remarkable figure.

Breakfast at the colony never really started until "E.A." put in his appearance and the evening was never complete until he had played a little pool. He concentrated very slowly and steadily, and was good at it, though he was not a good player himself.

He was a man of few words, and when marshalling his forces, he said, "Today,

(Continued on page 8)

## Student Council Plans Series Of Five Dances

BEGINNING FEBRUARY 12, THE STUDENT COUNCIL WILL HOLD ITS ANNUAL SERIES OF SATURDAY NIGHT WINTER DANCES IN THE LOUNGE OF THE MOULTON UNION. THESE FIVE DANCES THIS YEAR ARE WITH MUSIC BY THE POLAR BEARS AS USUAL. ON FEBRUARY 6 AND 13 THE MUSIC WILL START DIRECTLY AFTER THE SHOWING OF THE FOURTH AND FIFTH OF THE SERIES OF FILMS TO BE HELD IN MEMORIAL HALL. THE DATES OF THE DANCES ARE AS FOLLOWS:

Saturday, February 12.

Saturday, February 13.

Saturday, March 6.

Saturday, March 12.

Saturday, March 20.

Directs Institute

D.W. Griffith's "Intolerance" Features Third Of Movie Programs

By E. F. Andrews, Jr.

Another capacity audience saw the third of the historical films concerning the development of moving pictures in America last Saturday in Memorial Hall with the presentation of D.W. Griffith's "Intolerance."

To the usual crowd of Professor Wilder, Mr. Geoffrey Stanwood, '38, and Dave Fitts, '38, as ticket takers and program distributors, "Ditto" Bond as peanut man, was added Dick Steer who helped distribute the four programs.

A touch of comedy not planned was added when Fred Newman and Bob Craven led a group to salvage the peanuts that were thrown onto the stage. Ernest Stanwood, of Brunswick, a man with a thatch of grey hair, and small ears of which the lecturer took particular notice. He had a quiet, pleasant, but somewhat weary way of speaking, but was shy of most people, and "didn't make many friends," but still one in a while.

Mr. Brown, who is probably one of the few men who became intimately acquainted with the poet, described him as emerging in the late 12 years of his life as a remarkable figure.

Hartman Speaks At Sunday Chapel

By E. F. Andrews, Jr.

Taking as his text the famous Gospel words, "The Glory of God is in the face of Jesus," Dr. Lewis Oliver Hartman, an eminent Methodist leader and editor of the "Zion Herald," urged the students of Bowdoin to avoid being "stuffed shirts" and to give all care and attention to the development of their individual talents and abilities.

The speaker maintained that a decided over-emphasis is given to facial and physical appearances by the people of today and pointed out that beauty parlors for the soul" are what is needed.

The actors in this picture who in many cases are only extras here and who afterwards achieved fame are Monte Blue, Eugene Pallette, Constance Talmadge, Mae Marsh, and Dennis Morgan. How Hilda did brook the Fairbanks. Actors who later became directors are Erich von Stroheim, Elmer Clifton, James Henner, and W. S. Van Dyke.

Moving to the main theme of his address, Dr. Hartman asserted that the face of a noble person may well be considered a symbol of his soul's beauty. He related that he had brought to the face of the great man he had never seen, until the great man smiled. "Then," continued Dr. Hartman, "I suddenly thought his face to be truly beautiful and eloquent and expressive of his thoughts of his mind and soul."

The speaker cited several examples of his point. He stated that the face and bearing of the noted theologian Horace Bushnell were of great beauty and grace. In the later declining years, an observer had described his countenance as the "glow of sunlight through a cathedral window." Dr. Hartman pointed out that the statue in Boston of Wendell Phillips, a strict abolitionist, was of great beauty and nobility, and its portrait, the manly and noble portraiture of the great abolitionist.

Discussing the features and coun-

## Meiklejohn, Tugwell, And Angell Are Among Eight Lecturers For Institute

Philosophers Are To Speak Here During Ten Days After Vacation

GROUP REPRESENTS VARIETY OF SUBJECTS

Society Of Bowdoin Women Sponsors Mrs. Susanne Knauth Langer

By E. Hobart Jr.

Professor M. Phillips Mason, chairman of the committee in charge of the Institute of Philosophy, has recently announced a list of eight lecturers for the Institute, which will be held between February 6 and 16. In selecting the speakers the committee has made a particular effort to get lecturers in as many of the "borderline subjects" of philosophy as possible; hence, to make the interest of the audience as broad as possible. There is still the possibility of one or two more men being added to the present list.

As it now stands, the group contains the names of eight leaders in various fields of philosophy. It is interesting to notice that all but one teacher among the group represents people of several professions.

Alexander Meiklejohn, former president of Amherst and now the University of Wisconsin, will represent the field of education.

Edmund Peppell Montague, Professor of Philosophy at Barnard College, represents the field of aesthetics. The philosophy will be presented by Professor Edward H. Vermilyea. Hartman, Professor of Mathematics at Harvard University, represents the field of mathematics.

To the usual group of Professor Wilder, Mr. Geoffrey Stanwood, '38, and Dave Fitts, '38, as ticket takers and program distributors, "Ditto" Bond as peanut man, was added Dick Steer who helped distribute the four programs.

A touch of comedy not planned was added when Fred Newman and Bob Craven led a group to salvage the peanuts that were thrown onto the stage. Ernest Stanwood, of Brunswick, a man with a thatch of grey hair, and small ears of which the lecturer took particular notice. He had a quiet, pleasant, but somewhat weary way of speaking, but was shy of most people, and "didn't make many friends," but still one in a while.

Mr. Brown, who is probably one of the few men who became intimately acquainted with the poet, described him as emerging in the late 12 years of his life as a remarkable figure.

(Continued on page 8)

EXHIBIT TO BORROW HOMER MASTERPIECE

Winton Homer's great painting, "End of the Hunt," one of the finest possessions of the Walker Art Building, will be borrowed by the Department of Fine Arts of the Carnegie Institute in Pittsburgh for its Winton Homer Exhibition. The Carnegie Institute, held in commemoration of the famous artist's birth, is probably the greatest of all similar exhibitions of the works of Homer held during the past year by other institutions and hence it is considered a rare tribute to the artist.

This picture, owned by the Walker Art Building, has already been exhibited in many places. In 1923, it was displayed in Paris, in 1930 by the Museum of Modern Arts in New York City, and last summer it was shown at Smith College in Northampton, Massachusetts.

Painted in 1882

The painting itself is signed and dated, "Homer, 1882." It first publicly appeared in that year at the Daily and Richardson galleries in New York City in an Artists' Exhibition styled "In the Adirondacks." In 1892, "End of the Hunt" was purchased by Miss Harriet Sarah Walker of Waltham, Massachusetts, who presented it to Bowdoin College.

The prestige of the artist who painted this picture is yearly increasing. Americans now submit him to Copeland, Stuart, White, and Garrison as deserving of international and timeless fame. But whereas the others were portrait painters who shared their talents with both sides of the Atlantic, Homer is the most indigenous American artist. Admittedly in this country he found the greater part of his life at Prout's Neck, Maine. To the end, he painted subjects peculiarly and artistically American, but this fact has in no way detracted from universal recognition of his mastery as an artist.

THE Social Security law in force here in Maine is a good one and will materially benefit the workers.

Mr. Jabor impressed the group with his knowledge of the Union's attitude of fairness and impartiality in all dealings. There is no incitement of the workers to violence; in fact, the Union usually attempts to prevent strikes and arbitration is the method of settling disputes.

Vol. LXVI Wednesday, January 20, 1937 No. 18

HELL WEEK IV

With this issue the ORIENT continues its observations about Hell Week at Bowdoin and other colleges, and presents further material culled from the Report on Fraternity Attitudes and Regulations and Campus Policies and Practices regarding Hell Week prepared by the Committee on Cooperation with Colleges of the National Interfraternity Conference, 1936. This action is in opposition to the suggestions of several undergraduates, some of whom remarked that the campaign might better be carried on in shorter, less frequent editorials. However, the ORIENT feels that in offering the first extensive treatment of the question in some years it is well to present the material in a body with continuity.

In regard to the numerous criticisms that "it doesn't do any good" and that "it doesn't represent the attitude of the student body and fraternities" we can only say that if the editorial columns of an undergraduate paper merely reflected and catered to the coherent mass opinion (if such exists!) of the students, it would not be fulfilling the higher purpose of a newspaper. While the power of the press to influence opinion was seen to be less than formerly supposed in the result of the national election last fall, this is no sign that sentiments contrary to general opinion need be stilled. Furthermore the very existence of this criticism is a source of wonder to your editors, for it implies that a few, at least, read these columns.

The following items represent the analyses of various deans and other college authorities, perhaps slightly and understandably prejudiced and rose-tinted about the matter, but they were writing for publication at a conference which has violently condemned most Hell Week practices. An attempt was made to choose statements from those colleges with which Bowdoin likes to compare itself, showing the relationship of its attitudes and progress with theirs in eliminating an outmoded, undesirable and unnecessary practice.

**Bowdoin College.** Several of the fraternities at Bowdoin have of their own accord eliminated Hell Week. . . . It is very possible that without any particular pressure on the part of the college, certain of our seven other fraternities will follow suit next year. . . . In all of them Hell Week has been much modified in recent years. Of course the college would be glad to see it abandoned—Paul Nixon, Dean.

**Amherst College.** We have been urging the fraternities in Amherst to eliminate pre-initiation hazing but have thought it better to educate the fraternities to this point of view instead of attempting to abolish it by executive decree. There has been a decided change for the better in the situation at Amherst during the last few years.—C. Scott Porter, Dean.

**Colby College.** Only within the past two or three years has Hell Week been reduced to a minimum from the days of the 1920's and as it has become a serious problem in only three of our fraternities. The element of physical violence has been reduced in most houses. . . . Because I believe there has been a tendency for Hell Week to creep upon us gradually at Colby and increase its objectionable features, I am very glad to have the cooperation of the Interfraternity Conference in helping us stamp out this objectionable practice upon the Colby campus.—E. C. Marriner, Dean.

**Dartmouth College.** Dartmouth has never taken disciplinary action in protest against objectionable practices, but the influence of the Administration has continually been used to eliminate them. . . . In general I feel that there is less paddling at Dartmouth than at other colleges. . . . I am pleased to state that except in a few instances the formal initiation ceremonies and the banquets which follow them have been sober and dignified, and in keeping with the serious nature of fraternity affiliations.—L. R. Neidlinger, Dean.

**Hamilton College.** At Hamilton the unwelcome activities of Hell Week appear to be passing without formal action on the part of the Faculty. The better established fraternities long ago gave up these practices, and a word of admonition dropped here and there is often sufficient to shame the laggard ones into following suit. To be regarded as ridiculous because of silly antics brings its own corrective. At any rate, the initiation period this year passed without producing any extreme situations without attracting too much attention. The fraternities in faculty can help a lot.—Frank H. Ristine, Dean.

**Lafayette College.** Hell Week, as an institution before the formal initiation of fraternities, is slowly but surely passing off the Lafayette Campus. As Lafayette we do not feel that legislation can overcome this situation. We do feel definitely that an enlightened student opinion will overcome it and we are working toward that end. Each year we have some fraternities who give up the practice.

I feel personally that there is a subservient need for Hell Week. Most of the formal initiation ceremonies of the fraternities are fine and can be conducted in a manner which would bring credit to the fraternities. Any semblance of Hell Week in my estimation, merely detracts from these fine parts of the fraternity ritual.—Theodore A. Distler, Dean.

(Note: Since this letter was written Lafayette has abolished Hell Week.)

**Lehigh University.** Hell Week practices have at last been definitely eliminated by abatement at Lehigh University.—C. M. McConahey, Dean.

**Maine, University of.** We have refrained from issuing any regulations governing fraternity initiations but have made considerable progress by requesting the cooperation of the different organizations.

The fraternities have agreed almost one hundred per cent that they should not disturb the general public in any way.

I am very much pleased at the cooperation we have received from our fraternities in curbing the so-called Hell Week activities. We are making more progress each year and I believe in time this will no longer be a problem. This has all come about through the active cooperation of the local Interfraternity Council.—L. C. Corbin, Dean of Men.

**Tufts College.** I write to say that the fraternities here have no practices which could be classified under the heading of Hell Week. Some of the chapters have abandoned altogether the informal initiation while others still have a day for stunts which at the worst can only be characterized as silly, without damage to life or limb! This sort of thing is out at Swarthmore by a sort of mutual agreement—Harold E. Speight, Dean of Men.

**Tufts College.** I can only say that here at Tufts it has not been the policy of the different fraternities to have a Hell Week. There has been in the past few years a very mild form of hazing, but it has never gone to such extremes that it could be termed a Hell Week experience.

This practice of abstaining from any such a week has been in effect for a great many years and has now become a well-understood policy that is accepted by the student body as more or less of a tradition of the college.—Daniel S. Healey, Jr., President of Tufts Interfraternity Council.

**Union College.** Union College from the beginning has interfered very little with the initiation of its members. The fraternities have had a week end in February when all initiations must be held and have from time to time talked with the heads of the fraternities regarding initiations.

## Variety

By Frederick Guyan

The latest and best of the Goodmans' entertainments is "Love, Death, Devils at the Trianon" in Cleveland these days. The trumpet is the only good solo man, but what ensembles! . . . Chandler's should be restrained for selling a play book about a good man . . . Clifton Fadiman, the literary Argus of the "New Yorker," seems to be missing from this week's issue. What's the story, Cholly? . . . Last week's "Good Times" was it not? This week doesn't even begin to compare . . .

They say that Ellen Chandler is a prettier bit of slate-grace than the super Songy Henley . . . The famous John Gielgud "Hamlet," one of the better actors of the modern times, comes to Boston for the week of February 8. Better ozone down in Jones, who broke up with a bang, is back in the circles at New York's Hotel Lincoln Blue Room, and he still couples the fulness of organization with the grace of a girl you want one of the best programs of diversified reading, take advantage of the little booklets at 10¢ which Mr. Boyer is selling in his library. They cost 10¢ list price, so we're getting a break. Some especially, who will soon have to depend on themselves for cultural programs, will find these pamphlets valuable . . . Pardon us for not naming the "Curious South Sea Pipe" . . .

What's the "Most Moving Love Story of the Ages"? Spread yourself around F. L. Lucas' "Decline and Fall of the Romantic Ideal," if you want stimulating and human criticism . . . Note to Frances Farmer: You will be May 19, 20, and 21 this year. Who collects? Don't miss Igor Stravinsky conducting his own "Firebird" and "Sacre du Printemps" next Sunday with the N. Y. Philharmonic. It costs one buck to skate on the swell Rockefeller Rink, and they have a new rink and other ice and fire trial and tribulation this spring. The Iceberg Patrol hasn't had any work this winter because of the non-thawing up, so prepare for the Deluge . . . I say Toni and Nicki, have you bought your Dooskin slacks in pastel shades which Eldridge of N. Y. is getting a

## DEAN'S CHAPEL TALK ON BUSINESS NEEDS

Up all students who are going into business and industry to determine the precise part of it into which they believe they will best fit, Dean Paul Nixon, in his Chapel address Saturday, pointed out the value of a businesslike interest in some one area of business.

Taking as his subject, "One Employer's Expectations," he told of a very large and growing business concern which had a definite conception of the sort of man it desired in one of its departments. This department, requiring some 400 men, recruits 90 per cent of its personnel from the colleges and has only a slight number of men interviewed. "I know of no other business department of the same size," said the Dean, "that selects with such care the men it thinks it wants."

### Mus. Enjoys Work

He then went on to detail some of the particular qualities which the concern demands, remarking that "the department acts on the theory that the man who is of such a type and temperament as not to be happy in the work of the department is not likely to do good work." According to a letter from the manager of this department, the company is not interested in the average good man; it wants only men who are definitely above average in character, ability, background, personality and education.

The Dean admitted that meeting the expectations of that employer sounds like a difficult order. "Yet," he said, "the number of young Bowdoin graduates in that department seem to be meeting them."

### Advice Specialization

Reminding his student listeners that "different businesses and their different requirements" call for different specifications for the men they engage, Dean Nixon asserted, "There is no reason to be discouraged because you do not resemble in all respects the picture presented in that letter I have just read." But there is reason for all of you who are going into business and industry to determine at the earliest possible moment the precise part of it into which you believe you will best fit."

Those that do not believe they have "everything" can readily be placed, the Dean said. "Yet a senior who has less than 'everything' can almost as easily be placed, if he has a consuming interest in some one area of business, and either chooses courses, or uses some of his spare time here at college, to base that interest on information."

As an illustration of this last point, the Dean mentioned a member of the physics class, a class having decided long ago that he wanted to move into statistical work, "took a large number of courses in Mathematics and Economics, did excellently in them, could highly recommend to an insurance company for actuarial work, and was forced the first man in his class to get his job."

Duquesne conqueror of Pittsburg, Duquesne, conqueror of Pittsburg, have had four different coaches in four years, and each year the assistant coach has moved up to the head coach position.

## Mid-Year Exam Schedule.

1937 — 1938

This little reminder of when and where you are to suffer is offered by the ORIENT as a service to its readers. Of course if you already know your exam program you can skip this schedule out and use it to keep her stats off your desk; at any rate, don't come around and tell us that we just put it in to fill up space.

Unless otherwise indicated, examinations will be held in the gymnasium. Examinations in course, not listed below, will be scheduled by the several instructors.

## ALUMNI VOTE FOR WEEK-END DATE

Replies in response to a questionnaire recently sent out show Alumni approval of a week-end commencement at ten to one. Already cards have been received from more than one thousand Alumni most of which favor the *one-day-plan*. Philip G. Wilder, Alumni Secretary, states that there is every indication that this result is substantially representative of Alumni opinion.

Last spring in response to suggestions made by the Alumni body the editor inaugurated the policy of holding Commencement on Saturday instead of during the middle of the week as in previous years. The purpose of this action was to enable alumni to attend the graduation exercises to do so because of the demands of business during the week. The results of the poll taken by the Alumni Office show that the plan has proved successful and will no doubt be continued as a permanent policy.

## Walsh To Give New Football Training Class

A course in football, designed especially for students who desire to coach or assist in coaching a sport in conjunction with teaching positions, will be offered next semester according to a recent announcement by Coach Adam Walsh.

Several students who contemplate starting a teaching career have requested a course, and as much as the course would not be of much value unless at least twenty hours were given to the subject, Coach Walsh plans to hold a class two hours a week for the first ten weeks of the semester in order not to conflict with review periods and major exams. Under this arrangement the course would start the week of February 8th and end during the week of April 19th.

### Welcome Any Students

Although the primary purpose of the course is to give aid to those wishing to teach, it can also students desiring to take the course merely to gain a greater knowledge of the game will be equally welcome.

During the course Coach Walsh intends to cover the following points particularly:

1. Equipment
2. Medical supervision and training
3. How to select boys for various positions
4. Blocking and tackling
5. Blocking—catching kicks
6. Passing—catching passes
7. The play of the end, tackle, guard, and center
8. Backfield play
9. Offensive formations and signals
10. Defensive play and formations
11. Mental aspects of labor
12. The season's campaign
13. The coach's job — on and off the field

Quizzes will be given on the various topics discussed.

All those interested are requested to see Adam Walsh in his office in the gymnasium on any morning up to and including January 25th so that suitable hours may be arranged.

## SPORT SIDELIGHTS

By Bill Hawkins

Early hockey expectations have been somewhat brightened by the spirited showing against Colby a week ago and by the sensational comeback against a fast clicking Northeastern outfit which has had an all season advantage of Greater Boston's indoor rinks. In spite of bad ice, Lime Wells seems to be keeping one of his best teams of recent years. Four sophomores—Ames, Melendy, Hanley, and Conroy—have shown outstanding performance this early in the season. It would seem that a covered rink is the only solution for Bowdoin's hockey situation with three out of five games already postponed because of insufficient ice.

S — S

With three victories to date and one-half of the varsity swimmers scholarship money projects are quite promising for the Polar Bear nation. Last week's wins over both Boston University and Wesleyan were the more gratifying in view of the fact that Bowdoin lost to these teams last year. Moreover two years ago Bowdoin was defeated by the Portland Boys' Club. On a basis of current performances Bowdoin is in a position to beat the seventh-place standing in the coming New England.

S — S

While Bowdoin menmen were setting three new records on last week's trip, Brown University and Amherst, competitors-to-be in the New England, eclipsed even these three marks. Bowdoin's new record of 3.19 1-5 in the 300-yard medley relay was beaten by Brown's 3.17 1-5 and Amherst's 3.13 1-5. May's record of 2.41 4-5 in the 200-yard breaststroke and the new White time in the 400-yard relay were both shaded by Brown, 1936 New England champions, when it took four firsts from Yale. Not to belittle Bowdoin's fine showings, these would indicate the certainty of severe competition in March and the probability of a few new Curtis Pool records. At least from present indications Bud White rates among New England's best in the 50 and 100-yard dashes.

S — S

In December Bates College came forward with the announcement that its freshman track team would have dual meets with the frosh of Colby and the University of Maine this winter. Would not the Polar Bear frosh track meets prove to be more competitive and exciting if Bowdoin should adopt such schedule. The result of four of last year's high school meets were won by over fifty-point margins. While there is a certain advantage in meeting nearby high schools, it would seem a forward step to compete also against other college freshman teams.

### Three Fraternities Are Tied In Court Tourney

### HEBON OVERWHELMED JAYVIE ICEMEN 11-1

As a result of the two games played Monday night Beta Theta Pi now leads League A in the interfraternity basketball competition and Delta Upsilon is tied with Zeta Psi for supremacy in League B. Monday the Polar Bears downed the Kappa Sig 41-22 and the D. U.'s conquered the Dekes 23-13.

League standings are as follows:

League A	W	L
Beta Theta Pi .....	0	0
Chi Psi .....	1	0
Kappa Sigma .....	1	1
Non-fraternity .....	1	1
Theta Delta Chi .....	0	1
Alpha Tau Omega .....	0	2

League B	W	L
Hebron (11)	1	0
Melone, rw .....	1	0
Priestly, lw .....	1	0
Chaisson, c .....	1	0
Mee, rd .....	1	0
Campbell, id .....	1	0
Page, g .....	1	0
Referee, French. 3 '20's.	2	0

Hebron Academy's icemen overwhelmed the Bowdoin Jayvees 11-1 in a one-sided battle on the Academy rink Monday evening. The only Polar Bear score was made late in the second period by Nate Dane after the Hebron squad had already built up an eight-point lead. Hanley's aggregation of All-academic stars outplayed the Jayvees in every department of the game in spite of soft ice and poor playing conditions.

The game with Cony High which was to have been played last Saturday has been postponed until February 5th.

The summary:

Hebron (11) (1) Jayvees  
Melone, rw ..... 1w. Doughty  
Priestly, lw ..... 1w. Dane  
Chaisson, c ..... 1c. Tucker  
Mee, rd ..... 1d. Jealous  
Campbell, id ..... 1d. Bass  
Page, g ..... 1g. Benedict  
Referee, French. 3 '20's.

### Magee Sends Team To Millrose Games Feb. 6

Try-outs are already being held for the Varsity relay team which will compete in the Annual Millrose Games at Madison Square Garden in New York on February 6th although Coach Magee will not definitely decide which of his runners will compose the team until shortly before the event.

During time trials which were held last Saturday the squad was tentatively divided into three and two relay teams. Leading candidates for the one-mile squad at present include Bob Hamblen, Jeff Stanwood, Dave Deane, Buzz Hall, Johnny Hooke, Bill Owen, and Howard Smith. For the two-mile team are Matt Lord, Bob Porter, Ditta Bond, Charlie Young, Bob Hyde, and several other aspirants. Only the one-mile team, however, is likely to enter the competition in New York.

Before the relay teams Coach Magee is printing Bob Smith and Dave Soule for the short dashes. After the Millrose Games the team will compete in the B. A. A. Games which will be held in Boston on February 13th.

### White Puckmen Lose To Huskies

Bowdoin varsity puckmen dropped a hard-fought game to a fast Northeastern University side by a score of 7-4 here last Wednesday evening in spite of a third period rally which netted three goals for the white.

The visitors led by a score of 5-0 until late in the second period when Melendy slipped a fast shot past the North Eastern goalie. The Polar Bears responded Pete Mills started the Polar Bear rally by sinking a penalty shot. Mills and Melendy each accounted for another Bowdoin score before the game ended.

On the defense Hanley and Lawrence were outstanding and Corey, Bowdoin goalie, made a total of 23 saves during the first period alone while the visitors consistently led the visitors.

Both the visitors and the Polar Bears had exceptional strength as a unit although it had played several more games than the Polar Bear outfit, most of them on artificial ice.

The game which was to have been played with Colby Monday was postponed for lack of ice until February 6th, and the Springfield and New Hampshire games have been canceled entirely.

## Swimmers Conquer Wesleyan, Boston University, and P.B.C.

### POINT WINNERS IN SATURDAY'S MEET

Courtesy of Portland Sunday Telegram.  
Left to right are Bowdoin's Dick May and Bud White with Roger Lunbar of the Portland Boys' Club. May and Lunbar won the breaststroke and backstroke events respectively Saturday night while White swam butterfly in the medley relay and the first leg of the 400-yard relay for Bowdoin.

### WHITE EQUALS N. E. 50 MARK

Relay Team Twice Lowers College Record; May, Hutchinson Star

Climaxing a three-day tour, the Bowdoin swimming team defeated the Portland Boys' Club 51-24 last Saturday night, and closed with a string of three victories in as many meets. The winning streak started Thursday night when the White came from behind to win the 400-yard relay and edge Boston University 38-37, and was repeated the following afternoon at Wesleyan with a 47-30 victory.

Bud White's performances were the feature of the trip; the sophomore star turned in a time of 24 seconds in the 50-yard freestyle at Wesleyan to tie the New England record and won the 100 as well in the same meet. The day before in Boston he easily won both the 50 and 100 yard events.

Take Eighteen Firsts  
Captain Dick May succeeded in winning the 50-yard breaststroke in all three meets and broke own record at Boston University with a time of two minutes, 41.4-seconds which was also three seconds under the record.

The situation was reversed Saturday when intermission found the Portland five holding the whip hand with a 15-4 score. At the half, however, Ashkenazy, fresh from a hectic evening in Providence, arrived on the scene and things up. A shooting spurt by Frazier tied the score in the last period and baskets by Kibbe and Dale decided the contest. Percy Black and Hanley Dale also performed magnificently in the White's first victory.

Under Coach George Crimmins the Indians are gradually improving and the players by no means consider the season lost. They meet Bridgton Academy tonight and will play at Bowdoin and the White's next meet.

The squad also has a number of engagements scheduled after mid-years when they hope to balance their budget with a few wins. Negotiations are being made for a game with the University of Maine. Kibbe and Dale took 1-5 seconds from the record two days before.

In three meets the team garnered in all eighteen first places in 27 events. In the Boston University meet the team took five firsts with six at Wesleyan and seven at Portland.

Mr. Hutchinson was another three-ways winner in the 400-free style in every meet. Len Pierce made an improved showing Saturday night and placed second to D'Ascanio in the diving. All three of the 400-yard relay events during the trip went to Bowdoin and the White's lost the medley relay to Boston University.

At the Boys' Club meet the team of White, May, and Ware lowered the 300-yard medley relay mark to three minutes, 19.1-seconds, a new Bowdoin and Portland Boys' Club record.

# THE BOWDOIN ORIENT

VOL. LXVI

(68th Year)

BRUNSWICK, MAINE, WEDNESDAY FEBRUARY 17, 1937

## The Sun "Rises"

By Jim Bishop  
THE Forum of Modern Religious Thought being sponsored this week by the Religious Christian Association provides one of the most cultural influences to which the undergraduate is exposed during his college life. It serves a two-fold purpose. On the one hand, it gives the student an opportunity to learn about religious problems with men trained in those fields; and on the other, it helps these same men, through the interchange of ideas in conferences with undergraduates, to keep informed on the changing religious sentiments of the rising generation.

Many students, forced to define themselves during a discussion, find that they are expressing a philosophy more positive than they ever imagined themselves to have had. An atmosphere which provokes the organization of scattered concepts into a rule for living, no matter how immature, is sure to add purpose to the life of the person concerned and give him a stand toward the solution of his problem.

The subjects and general tone of the discussions show the influence of present-day attitudes and demands. There is an apparent tendency to shy away from the emotional controversies which featured the religious discussions of other days and to substitute simple and uninvolving treatment of the practical application of religion to life. Youth looks to the end rather than the means. Although they had no definite concept of infinity, the early schools were able to incorporate the idea in their system of mathematics and make use of it in solving practical problems. In the same spirit the new generation is demanding and formulating a system of ends and means to fit the life which confronts it regardless of the fact that not even the theologians can agree on a single conception of God or a definition of Christianity.

**THE** rather scattered attendances at the Saturday night Student Council dance made it evident that these events are to be continued, steps must be taken to make them more attractive to the student body. In spite of the fact that many more who were lured to Boston and elsewhere by favorable social conditions would ordinarily have attended, it seems that a reduction in the price of the dance will be necessary to make them generally popular.

On the other hand, admission for stages remain at fifty cents and that no extra charge be made for women. This would ease the burden of entertaining a guest and do much to encourage the practice. Another proposal deserves to be considered: the elimination of "cutting" or its strict limitation. This would do away with one reason often advanced for not taking a partner to college dances.

**DUE** to the unfeeling efforts of Coach Bob Miller, Bowdoin's swimming team is enjoying its most successful season in several years. The victories won during the recent trip and last Saturday's thrash-packed defeat of Williams are ample proof that at least the college has a team that rates with the best of its class in New England.

In spite of having one of the best small-college pools in the country, Bowdoin had to depend upon now-up-to-expert performance from outside the college to furnish high-class entertainment to its swimming public. At present, we can boast of some stars in our own right, and it is quite possible that the current season may set some important records established in the Bowdoin pool by Bowdoin swimmers.

## Professor Fairchild Talks On Population

Speaking on "Women in the World Is Full," Professor Harry Pratt Fairchild, of New York University, a former Bowdoin faculty member, gave the first Annie Talbot Cole Memorial lecture in Memorial Hall last Thursday evening.

Professor Fairchild's lecture consisted of an analysis of the problems of over-population and the remedies and consequences. He cited the fact that at the present rate of birth and death, by the end of the present century, the world would be equal to China in population.

He emphasized, further, that overpopulation is one of the basic causes of wars. As examples he cited the cases of Germany and Italy, saying that the people of both countries in life is standing room and food.

Climaxing his speech, he ended with the statement that "A century of stationary population the world over would do more for everlasting peace than all the treaties and agreements of the present day."

## COLLEGE GRANTS LEAVE TO THREE

At the opening of the second semester, three Bowdoin professors have been granted leaves of absence. They are Prof. Charles T. Burnett, Professor of Psychology; Prof. Noel C. Little, Professor of the Department of History; and Prof. Philip W. Marston, professor of Chemistry.

Professors Burnett and Little are on sabbatical leaves for further study. Both have already left for Europe with their families intent on remaining on the continent until September. Prof. Marston was granted leave of absence for the second semester because of ill health.

## FIVE SENIORS GET PHI BETA KAPPA BADGES

Burton, Buxton, Pettengill,  
Dane, Porter, Receive  
Keya Monday Night

## STRAIGHT A LIST IS LONGEST EVER

Sixty-six Are On Dean's  
List; Five Do Special  
Work In Major Fields

By J. E. Tracy, Jr.

Five Bowdoin seniors were elected to Phi Beta Kappa last week, a record-breaking list of 21 straight-A men and a Dean's List of 66 men were announced. And by faculty vote five seniors were excused from classes to do special work this semester in their major courses.

Names of new Phi Beta Kappa members include William S. Burton, Hiram C. Buxton, Jr., Nathan Dane, M. Daniel W. Pettengill, and Robert M. Porter.

Initiation for the five men was held Monday evening. It was followed by a dinner in their honor with Professor Albert Abramson '26 as speaker. The reading for the initiates was given by Charles F. Brewster, who, along with Edwin B. Benjamin, Dan E. Christie, Richard C. Clapp, and Benjamin W. Norton, was elected from the senior class members last June. Clement F. Robins '23, president of the chapter, presided at the dinner and the initiation ceremony.

### Five Get Classes Excused

Horace C. Buxton, Jr., William S. Burton, Charles F. Brewster, Dan E. Christie, and Paul Welsh all three have been excused from classes for the second semester to pursue special work. Buxton plans to do major work in American history, Burton and Brewster in English history, Christie in mathematics, and Welsh in philosophy.

Straight-A men for the past semester are the following: seniors, Edwin B. Benjamin, Donald R. Bryant, William C. Burton, George C. Buxton, M. Malcolm W. Cus, Dan E. Christie, Richard C. Clapp, Richard L. Williams, Hubert W. Coffin, Andrew H. Cox, William Frost, Louis J. Hudon, and Stanley L. Stewart; sophomores, George L. Hill; Freshmen, R. Bliss, Don-

(Continued on page 3)

## Ed. Little Wins Abrasax Award

With the highest scholastic rating in the history of the award, Edward Edward High School of Auburn won the Abrasax Cup this year. Richard T. Evelth, L. Damon Scales, and Milton P. Senter were the recipients.

The cup is offered by Bowdoin College to the preparatory school represented by at least three graduates in the freshman class who attain the highest average grade for the first semester. Perley S. Turner, Bowdoin '11, is principal of Edward Little High.

**Portland** is Second  
Portland High, winner of the cup in 1916, 1922, 1932, and 1933, was this year in second place, ahead of Deering High School, Portland, winner in 1927, 1928, 1929, and 1934. Newton, Mass., was in fourth place, while Cony High of Augusta tied for fifth with Winchester and Concord, Mass. High Schools.

Other schools in order were Phillips Academy, Andover; High, Miss. Brunswick High, Mount Hermon School, Hebrew Academy, and the Huntington School of Boston.

Edward Little was in eleventh place a year ago, when the cup was won by North Quincy, Mass., High School.

## MT. HOLYOKE DEBATE WILL BE TOMORROW

Bowdoin's Varsity Debating Team will oppose a team from Mt. Holyoke College in the first home debate of the season in the lounge of the Moulton Union tomorrow night.

The debate is the first held in the Union since two years and it is being done as an experiment.

The question will be: Resolved, that all electric utilities should be governmentally owned and operated.

The Bowdoin team, consisting of Donald Bryant '37 and Norman P. Seagrove '37 will debate the negative.

Judges will be Dr. Milton Deems of Norway, Maine, Prof. Norman Palmer of Colby, and Mr. Harold Pulsifer of Brunswick.

**Meiklejohn, Institute Speaker,  
Is Educational Experimenter**

**EDITOR'S NOTE:** The following article is the first in a series showing the results of the researches who agreed to speak at Bowdoin's Institute of Philosophy in April.

By William Frost  
An educational individualist, one of the most original and independent exponents of education in the college and university world, will visit Bowdoin on April 16 the concluding lecture of the coming Institute of Philosophy. Having been president of Amherst College, reader of an experimental college, Wisconsin, and head of the San Francisco Center for Social Studies, Dr. Alexander Meiklejohn has been for many years a leading pioneer and storm center in American education.

When Meiklejohn went to the University of Wisconsin in 1926, after having resigned from the presidency of Amherst in a furor of controversy three years before, President Glenn Frank remarked of him: "Dr. Meiklejohn is one of the great and gifted minds of our time." His educational geophysical studies have been enriched by fruitful contacts with activities outside the boundaries of his special subject.

At Wisconsin Dr. Meiklejohn soon got the university authorities interested in starting a new experimental college, which he headed. The plan (Continued on page 3)

## Seven Couples Attend First Of Union Dances

Moulton Union lounge last Saturday for the first of mid-winter informal dances that the Student Council is sponsoring. Music was by the Polar Bears, college jazz unit, featuring their new "jam" section.

The size of the crowd appeared to be the result of the tendency of students to make early use of the current semester's cuts and their new freedom from scholastic worries. Nearly all houses reported very small numbers of men remaining on campus for the week end. The dances are a part of the Student Council's program to make week ends more interesting at Bowdoin.

Though there will be none next Saturday, each of the four following week ends will feature a dance. On March 10 and 11 the dances will follow the fourth and fifth shows in the Survey of the Modern Film in America.

White, Ware Sprint In 400  
Yard Relay To Capture  
Deciding Event

## VARSITY NATATORS STILL UNDEFEATED

May, Relay Team Set New  
Marks In Breaststroke  
And 300 Medley

By Dick Fornald

With the outcome hinging on the final 400-yard relay, the Bowdoin varsity swimmers set a new record of 3 minutes, 48.3 seconds, and broke up another record to upset Williams 42-35 Saturday afternoon in the Curtis Pool. This was Williams' first defeat while Bowdoin still remains undefeated.

Next Saturday's extension to Polar Bear encounter the swim team

of Springfield in an effort to keep their record spotless.

The final event of the Williams meet was up-and-down to the very end, with the score 36-35 in favor of Williams. Jerry Carlson led off and held even at the end of 100 yards with his opponent, although Seth Larabee dropped about 10 feet to his man.

George Ware, on the third leg, swam 100 yards of the race in 58.1, 100 yards of the day when he made up the entire distance lost and ended even. Bud White, the anchor man, then came through with his usual spectacular ability and won the event and the meet. His leg was timed at 59.3 seconds.

May was timed at 59.3 seconds.

May Wins Breaststroke

Dick May produced the other exciting finish when he battled it out in the last lap to win the 300 medley.

As last year, Bowdoin's delegation is the only one to have won all the sprints.

The Cardinals will win the

swimsuit competition.

(Continued on page 4)

BUCKLEY OPEN

Bowdoin assigned the important task of organizing the United States will send a delegation of six students to the 11th annual assembly of the New England Model League of Nations, to be held at Harvard-Radcliffe Colleges Dec. 12-13.

As last year, Bowdoin's delegation is the only one to have won all the sprints.

The Cardinals will win the

swimsuit competition.

(Continued on page 4)

BUCKLEY OPEN

Selections for the cast of "The Emperor Jones" to be given by the faculty and the Masque and Gown on March 22 with two performances of the play to be held at the Curtis House. Each selection will be assigned to a sub-committee of the league and will develop its subjects with the particular interests of the United States in mind.

Each of the 10 more or less colleges will represent an even larger number of participants than last year's Model League meeting when 400 delegates met at 27 New England colleges met at Williams College.

Williams' delegation will be headed by Prof. Charles F. Brewster, president of the Model League's Executive Committee, Brewster feels.

The complete cast is as follows:

Brooks Jones

Richard Kenneth Barkdale, '37

Henry Smithers, cockney trader,

Stanley Perkins Chase, Henry

Leland Chapman professor of Eng-

lish Literature

Old Native woman,

John Ronald McIntire

Lem, native chief,

Matthew Washington Bullock, '40

Jeff, pullman porter,

Asstain Professor Philip Meade

Brown

Negro servants, slaves, and soldiers,

Assistant Professor Philip Sawyer

Wilden, Mr. Reinhard Lunde

Korgen, Mr. Eaton Leith, and

Mr. Gerhard Oskar Rehder

Negro Slaves,

Asstain Professor Newton Stoddale,

Stoddale, and Mr. Donovan

Dean Lancaster

Prison guard — Mr. Adam Walsh

Southern Planters and their ladies,

Associate Professor and Mrs. Mor-

gan Blackwell Cushing, Assistant

Professor Mrs. A. Bernice Daggett

Daggett, Mr. and Mrs. James

Fellows White

Auctioneer, Prof. Philip Conway Bean

African witch doctor,

Robert Peter Tristram Coffin,

Pierce Professor of English

Four two-man teams were selected

Monday for the debate for the Bradbury Debating Prize contest to be held February 26. The question debated is: "Resolved, that Congress should be empowered to fix minimum wages and maximum hours of labor in industry." Donald R. Bryant '37, Andrew H. Cox '38, Thomas F. Phelps, '38, and Ernest F. Andrews '40, will speak for the affirmative, while Donald D. Anderson '38, William C. Hart, '39, Norman C. Seagrove '37, George T. Little, '2nd, '40, will defend the negative.

There were no regular class meetings, no required attendance, no course of one or more units, no machinery of college administration. Examinations were given occasionally, and only to those students what progress they were making. Conference of the object of the school was to bring instructor and student into frequent conversation and argument about the books read so as to stimulate the minds of both parties.

Open Lecture System

One of Meiklejohn's most unorthodox opinions lies in his dislike of the lecture system. He keeps students in contact with third-rate minds, he says; a student could go to the greatest thinkers of all ages, but the professor is a barrier between him and the original sources.

Another of his beliefs is that division of studies into courses tends to give students only a partial and narrow view of civilization. Therefore at the expense of college, no such division into courses was made; for the first year students examined Athene-

Vol. LXVI • Wednesday, February 17, 1937 No. 19

## THE LIBERAL COLLEGE

One of the most significant trends in modern education has been the shift from a "liberal arts" training to one which is calculated to fit a man for one profession alone. During the past quarter-century, it has been seen that more and more men are enrolling in technical schools which give an education of this sort. The theory behind this move is that education must be a practical affair, measured in terms of dollars and cents and future jobs.

However, there are still some colleges, of which Bowdoin is one, which hold to the former ideal. They believe that a college graduate should not be an automaton, an expert in one field alone. It is still the aim of Bowdoin to send cultured men out into the world — men whose background and training has been broad and liberal. The college attempts to give the students training in the art of thinking, rather than a mass of specialized education which turns out experts in one field alone. This is Bowdoin's chief gift to its graduates.

In this connection, Bowdoin students have been very fortunate. The college has consciously attempted to bring the best authorities on many diverse subjects to the students. Not only is this done through the faculty and the class-room, but it also is accomplished through the means of lectures and institutes. Excellent examples of this are the recent lecture by Professor Fairchild and the coming Institute on Philosophy.

At the moment, the students are enjoying another phase of this work. The religious forum, which is held annually on campus, is a most important part of this broadening policy. The plan to bring students and ministers together in the discussion of modern ethical problems is almost unique. It is carried out on relatively few campuses in America. In spite of its novelty, its benefits are great. It affords a great opportunity for students to get a perspective on ethical and philosophic matters. For its work in this field, the Bowdoin Christian Association deserves much credit.

There will be some that ask whether the trade schools are not right after all, whether the college would not be a better institution if it paid more attention to training for specific professions. Such sentiments have recently been aired by several members of the graduating class. It is to these people that this editorial is directed, mainly. President Davis of Stevens Institute of Technology once said that no one has a right to expect cash benefits from a college education. If a graduate is enabled to lead a cultured life, he is amply repaid for his education. While this may be overstating the principle, it is a fundamentally sound idea. Bowdoin's greatest attribute is its policy to foster a liberal education, and it is to be hoped that this policy is maintained.

W. K. Jr.

## "SPAIN IN FLAMES"

One of the most interesting and timely motion pictures of the last few weeks, to judge from the Boston and New York newspapers, is a vivid pictorial presentation of the Spanish War from the government's point of view, called "Spain in Flames." Constructed from pictures taken by Spanish and Russian aviators, it would seem to be frankly partisan; but the shots are unusual enough, and the film is well enough constructed, to make it a rather important piece of cinematography.

It is regrettable such a distinctive foreign film will probably not be seen by most people at Bowdoin simply because foreign movies, as a general rule, are only shown in New York and Boston. After the success of the educational films being given this winter in Memorial Hall, it would be an excellent experiment for the college authorities to sponsor a regular series of the most interesting and artistic European motion pictures.

Although some first-class foreign films do come to Brunswick or Portland—"As You Like It," for example, is playing here tomorrow—many do not. Such a series put on by the college could be for minimum prices, would be a non-profit making venture, and could well include some of the classics of the past like "Man of Aran," "Under the Roofs of Paris," the French version of "Crime and Punishment," the German "Girls in Uniform," and the Russian "Ten Days that Shook the Earth." Films like these are entertainment and education in modern art at the same time. Their influence would be toward a more cosmopolitan spirit at Bowdoin, and they might well be expected to teach many students more about contemporary civilization than they would learn from textbooks and courses. And if we are ever to have a little theatre, why not use it for an experiment such as this?

W. F.

## SICKNESS DELAYS TWENTY MIDYEARS

About 20 mid-year examinations are to be made up within the next few weeks, by students who, due to sickness, were unable to take the examinations at the scheduled mid-year period.

A few undergraduates took their examinations while in the infirmary where the majority were recovering from cases of the grippe. Of the 64 cases attended to since Christmas at the infirmary, about nine-tenths have been of grippe and colds.

**NOTICE**  
Due to a bumptious in schedules, the lecture "Twenty Midyears" which was scheduled to be given by Hornell Hart on next Tuesday evening in the Mount Union lounge under the auspices of the B.C.A., has been indefinitely postponed.

Mitoga—tailored to fit Sanforized Shrunk

influenza and frequently more dangerous. It is always risky to delay studying until you can see the blug of the blue books. There is a tendency to read books through, to tear the heart out of his subject, to explore some of the less important fields of knowledge which may not be covered in courses, to include his hobbies, and to study and reflect. The stern test of this steadfastness of our purpose is the way in which we spend our time when the immediate pressure of examinations has been removed.

"A few days ago the faculty released a half dozen seniors from all course requirements for the second term."These promising students have shown that they need no artificial stimulus or incentive to drive them to their work in a very real sense we are all of our own. For the decision whether our work will be really thorough or merely a bare minimum rests squarely upon our own shoulders. The daily routine of college life is dramatic enough if we will only realize the opportunity. The college calendar is exciting as time itself—let us all resolve at the opening of this new semester to crowd the minutes with hard work."

# Freshman And Varsity Mile Relay Teams Win At Boston

By Milt Somer

Buzz Hall, Bob Hamblen, Bill Owen and Jeff Stanwood ran in that order to win the mile relay in the B.A.A. meet in the Boston Garden, last Saturday night, defeating Brown and Middlebury. The Freshman mile relay team, with runners who had competed at Andover in a Jayvee meet that same afternoon, led Bates, Brown, and M.I.T. to the tape in the evening as Charley Pope ran a brilliant anchor in defeating the Bater team.

A fast quarter mile by Bob Hamblen, who ran the second position in the mile relay, put the Magemen in the lead after Hall had run out to a third place, second place, Owen and Stanwood broke the tape four yards ahead of the Brown runner. The time was 3:29.3.

## Pope Takes Lead

Having competed at Andover in the afternoon, the Freshman relay team showed exceptional strength in taking first at Boston. Bill Mitchell ran the first quarter for the yearlings and gave the baton to MacKenzie in third position who finished his leg last and followed up by several stumbling runners.

Rowe, who had entered four events in the afternoon ended his quarter in second place and gave the stick to Charley Pope's four yards behind George Bates star. Pope passed him on the second lap and crossed the line a winner by eight yards. The time was 3:36.2.

## Two-Mile Team Loses

The two-mile relay team was completely outclassed by Fordham, Tufts and Harvard, who were all in front at the finish. The White in fourth outran Bates, however, as Bob Porter '37, running the anchor leg, made up a half-leg disadvantage to beat the Garnet runners. Matt Ladd, Bob Hamblen and Ditto Bond made up the rest of the team. The time was 7:59.2.

The other only competitor for the White were Dave Soule, who was eliminated in the second heat of the 50-yard dash, and Allen ran 40, which finished with the leaders in the second heat of the 45-yard high hurdles. Allen, who had competed in five events in the afternoon at Andover took third place behind John Donovan of Harvard, who later won the finals, and James Noone of Holy Cross.

## RIFLE SQUAD FIRES COLLEGIATE MATCHES

In its fourth meet with the American Legion riflemen from Portland, the Bowdoin squad lost by a margin of 20 points last Friday night. The team meets Harvard this week, each squad firing on its home range.

At present the team is based in the New England Intercollegiates—one match a week being fired. Since January 23 the team has fired matches with University of Vermont, U.S. Coast Guard Academy, M. I. T., and New Haven University.

Bradford had made the highest individual score, with a total of 734 points in the three contests reported. In the first match he succeeded in making the only perfect score from a prone position. The five highest marksmen in the club are Bradford, Lord, Burton, Cooper and Griffin.

## Freshmen Rout Thornton As Allen And Rowe Star

Sweeping four events and scoring two men in every other event, the Bowdoin freshman track team overwhelmed Thornton Academy by the score of 79 to 16 last Wednesday. Ned Hooke and Lin Rowe were high-point men for the freshmen, each winning two events and placing in three others.

Allen won both hurdles and also placed second in the 40-yard dash and high jump, and third in the broad jump. Rowe won the 40-yard dash and broad jump, placed second in both hurdles, and, with Allen ran or the winning relay team. Charlie Pope won both the 300 and 600-yard runs.

## TOOTELL SETS SHOT RECORD AT ANDOVER

Bill Tootell broke the cage record in the 35-pound weight at the Phillips Andover Academy cage, last Saturday as the Bowdoin Jayvee track team bowed to the prep school tracksters, 69-11-15 to 43-4-15. The record-breaking toss was 42 feet 2 inches.

Charlie Pope came home the winner in the 600 and MacKenzie won the 1000-yard run. The relay team made up of Hooke, Mitchell, Rowe, and Pope, took the only other win in the running events.

In the field events, besides Tootell's record-breaking performance, Dolan high-jumped six feet to outclass his opponents and Reardon won the shot put with a toss of 48 feet 3 1/2 inches.

The track and field numbers were constantly trailing the Andover stars Osborne and Huling who both tied cage records.

## MILE RELAY VICTORS AT B. A. A. MEET

Courtesy of Portland Sunday Telegram.

Bowdoin's varsity one-mile relay team which defeated Brown and Middlebury in the B.A.A. meet last Saturday. Left to right are Bob Hamblen '39; Buzz Hall '37; Jeff Stanwood '38; and Bill Owen '37.

## SPORT SIDELIGHTS

By Leighton Nash

Bowdoin relaymen had a taste of victory Saturday night when both the varsity and freshman mile relay teams defeated their remaining opponents. The freshman race was the big surprise of the evening. Every member of the team had run against Andover in the afternoon and one of them had actually competed in six events during the afternoon meet. That certainly shows plenty of spirit in the yearlings. The varsity relaymen used plenty of brainpower as well as speed to defeat their rivals. They ran the turns especially well and showed plenty of strength on the straightaways.

The Williams meet was just more evidence of the excellent work Bob Miller has done in recent years. Apparently the Polar Bear relay team just can't compete without breaking its previous records. The swimmers have lowered their own record somewhat at three of the five varsity meets—Christmas and that's going some. If Bad White continues to improve he may have a chance to compete with college stars from all over the country in Minneapolis next month.

With the sun getting higher and warmer every day, it's beginning to look like the end of hockey for another year. Only three of the eight inter-collegiate competitions had to be cancelled this year with a fourth still uncertain. Most of the outdoor sports are off but a long list of the scheduled games will have been played by the time winter's over. This is really a pretty good average for the delta rink exposed as it is to the sunshine and the summery breezes. It might help, though, if the squad was able to practice before the games that can be played.

5 — 5

## INDIES DEFEAT BATH AND PORTLAND TEAMS

Victories over the St. Mary's Church five of Bath and the fast Portland Junior College team at Portland last week extended the Independents' winning streak to five games. The first game of the Bath series, both squads held on, but with the opening of the third period the Independents, led by Cartland and Frazier, piled up a sizeable lead to win by 57-39.

At the Portland game the Independents established a commanding lead at the outset, 19-12 in the first quarter and 20-7 at the half. In the second half the Junior College outfit outscored the Independents but were unable to close up the wide margin and bowed 26-17. Ashkenazy's all-round work was outstanding while Frazier's sharp-shooting netted nine points.

Bowdoin meets the Bath Merchants five tonight and Friday takes on the Portland Boys' Club, leaders of the fast city league of Portland.

## Former Dartmouth Ski Coach To Give Lessons

Otto Schubert, famous skier and former Dartmouth ski coach, will give a series of lessons and an illustrated lecture on skiing Monday, Tuesday, and Wednesday, February 22-24, under Bowdoin Outing Club auspices. The charge will be \$1.00 a lesson to students on Monday, and \$1.25 to townpeople, a sizeable reduction from his usual charge.

Tuesday he will give a talk in Memorial Gymnasium with illustrations by moving pictures. There will be a 25-cent admission charge for townpeople. Wednesday, Schubert will give instructions to members of the college who are interested in learning under his tutelage.

## WHITE TAKES RELAY TO DEFEAT WILLIAMS

(Continued from page 11)

The team started the afternoon by breaking the college mark in the 300-yard medley relay. Norm Seagrove picked up a little over a yard on Williams in the backstroke leg, and Tom May in the breaststroke leg, and George Weller in the butterfly held the lead right to the finish.

In the 50-yard freestyle Bud White came through with 24 1/5 seconds only 1/5 second over the inter-collegiate record which he equaled in the Williams meet. He also easily won the 100-yard medley relay by at least four feet over Prouty of Williams. He established a good lead at the end of two laps and held it.

The summary follows:

50-yard medley relay, won by Bowdoin (Seagrove, May, Ware). Time, 3 min., 16 4/5 sec. (New Bowdoin record).

100-yard medley relay, won by Williams (Prouty, W., Neale, W., second; Roberts, W.; third; Hutchinson, B. Time, 1 min., 52 1/2 sec.)

200-yard medley relay, won by White, B.; second; Lorraine, B.; third; Stetson, W. Time, 56 1/4 sec.

100-yard freestyle, won by White, B.; second; Lorraine, B.; third; Stetson, W. Time, 24 1/5 sec.

200-yard freestyle, won by Neale, W.; second; Roberts, W.; third; Hutchinson, B. Time, 1 min., 52 1/2 sec.)

400-yard freestyle, won by Neale, W.; second; Roberts, W.; third; Hutchinson, B. Time, 1 min., 52 1/2 sec.)

100-yard backstroke, won by Seagrove, B.; second; Prouty, W.; third; Rice, W. Time, 1 min., 52 1/2 sec.)

100-yard breaststroke, won by May, B.; second; Lorraine, B.; third; Stetson, W. Time, 1 min., 52 1/2 sec.)

100-yard butterfly, won by White, B.; second; Lorraine, B.; third; Bridges, B. Time, 56 1/4 sec.

Diving, 30 ft., won by Aldridge, B.; second; Lorraine, B.; third; Pfeifer, B. Time, 3 min., 3 1/2 sec.)

400-yard relay, won by Bowdoin (Carlson, Lorraine, Ware, White). Time, 3 min., 48 3/5 sec.

## PUCKSTERS LOSE TWICE TO COLBY

Scoring three times in the first period, an strong Colby sextet smothered the Bowdoin varsity ice-men, 7-2, in the second game of their State Series struggle, Saturday afternoon, February 6, on the Delta rink. The scoring combination of the Colby Isles, led by Russ Lemieux, proved too much for the Polar Bears, seriously handicapped from lack of practice.

Both Bowdoin goals came in the third period from the sticks of "Inky" Arnold and "Oak" Melandy. Corey played gallantly turning in more than forty saves, many of which were sensational.

## Colby Sweeps Series

Two days later the clubs met on the same ice for the final game of the series which Colby took in a 4-2 battle on poor ice. The Polar Bears scored in the second period when Harkin sunk a long pass from Jack Lawrence. In the third period Lawrence scored the last White goal on a long shot which rolled over the stick of Thompson, the Colby goalie. Lemieux for Colby was again the hero.

Meets with New Hampshire and Springfield were both cancelled last week for lack of ice. The team plays its last scheduled game at North-eastern Friday.

## Chi Psi, D. U. And Betas Lead Fraternity Leagues

At the close of last week's Interfraternity basketball competition, three teams still remain undefeated with three victories each to their credit. In League A the Beta team downed the Non-Fraternity in a 38-7 game and the Betas hold a first place tie with the Chi Psi's who repulsed the A.T.O. quintet 19-13.

Delta Upsilon took the lead of the league in Edging the previously undefeated Zeta Psi five in a hard-fought 34-35 contest.

**1000 lb. cake**

Here's aroma for you

... a picture of Chesterfield tobacco just as it comes out of the 1000-pound wooden hogsheads after ageing for three years.

If you could be there when these hundreds of hogsheads are opened up... if you could see this mild ripe tobacco, prime and ready to be made into Chesterfield Cigarettes... see the golden color of the leaf... and get a whiff of that delightful aroma... you'd say...

"Delicious... makes me think of fruit cake."

Mild, ripe home-grown and aromatic Turkish tobaccos... aged three years... make Chesterfield an outstanding cigarette... give them a more pleasing taste and aroma.

# THE BOWDOIN ORIENT

VOL. LXVI

(66th Year)

BRUNSWICK, MAINE, WEDNESDAY

FEBRUARY 24, 1937

SEE PLAY CONTEST  
MON. NIGHT

NO. 20

## The Sun "Rises"

By William Frost

THE Henry Fellowship awarded last week to Dan Christie is not only a great honor to him but also to the college. When it is considered that among all the awardees there were only large, that only six other students in the United States were given Henry Fellowships, and that those men were all from Harvard, Yale, or Princeton, the honor seems even more impressive than that of a Rhodes Scholarship. Moreover, the bracing of Bowdoin with Harvard, Yale, and Princeton implies that this college is capable of turning out as high a grade of undergraduate scholarship as any institution in the United States. And if any senior at Bowdoin deserves such a reward of intelligent, thorough, responsible study, it is certainly Christie.

AS its latest entertainment in the middle of a full and varied dramatic season, the Masque and Gown will offer its annual one-act play contest next Monday evening. Four plays have been selected from at least twice as many which were submitted, and interest in the contest ought to be strong this year.

Another evening's entertainment will be afforded tonight at the Union by the second Bancroft lecture. Even for one who has no interest in chemistry, Professor Bancroft himself is entertaining enough as a public speaker to make the lecture well worth while. His discussion last week was anything but complicated and technical; and the opportunity to hear a distinguished scientist who is also an engaging lecturer should not be missed.

MANY and plausible are the arguments advanced in defense of compulsory chapel by those who feel that this time-honored Bowdoin institution is definitely worth while. It is pointed out that compulsory chapel brings the college together, forces students to look at each other, affords a regular period for rest and meditation, and gives the opportunity of hearing interesting talks or good music, gets students up in the morning, and acts more effectively in disseminating college news than Orient or bulletin board. What is most unusual, however, is to hear a spirited defense of chapel given on religious grounds—and chapel is, after all, formally a religious observance.

President Sills' address last Sunday was an example of such a defense, a description of the benefits of the standard responsive reading-arrangement lesson-hymn-prayer type of chapel.

THE President's speech was based on the idea of worship, and on the regular chapel service as constituting ideally, an act of worship. Such a service, of course, can only be called a service if it includes hymns, prayers, and readings from Bible and Psalter awake a genuine emotional response in those who attend. It makes no difference for how many ages men have been singing hymns and reading the Bible aloud, or for how long the hymns have been to be sung, or even how full of truth and human experience and wisdom the Gospels are, if the elements of the service do not elicit such a response.

There is danger today that for many undergraduates chapel does not mean worship at all. When such undergraduates are required to go more or less regularly, what religion is presented to them in the standard service comes to mean no more than repetition of a form devoid of emotional content.

ALL this is to disparage student interest in religion. The forum of last week, to mention only one B.C.A. project, shows how ready discussion of Christianity can be stimulated on the campus. But it is not "interest" in religion which constitutes worship; it is rather deeper interest of involvement in the presence, when such is felt, of a supernatural being. The President's sincere and thoughtful chapel talk made this principle clear.

The argument sometimes advanced that it is good for a student to attend chapel is that it may move him emotionally or not, at least to hear the name of God fairly often in a regular service is a rather dangerous defense of compulsory chapel. It might be much better to reserve those services which consist of the standard observances alone for students who are really interested in religion, and to require attendance at chapel for all only on days when a talk is to be given, or some special music to be played, or an important announcement to be read.

## Mitchell Names Prize Speakers

Charles F. Brewster, Ralph O. Gould, William A. O. Gross, Richard V. McCann, Norman P. Seagrave, and Paul Welsh of the senior class have been named by Professor Wilmet B. Mitchell as speakers in the annual class of "Men of the Year." The prize is \$45 and is given each year to the member of the senior class who writes and delivers the best oration. The subjects of the speeches and the date for the competition have not yet been announced.

## BOWDOIN TANK TEAM IN FIFTH STRAIGHT WIN

Bud White Sets Two New  
England Records In  
Springfield Meet

## WHITE SWIMMERS STAY UNDEFEATED

Relay Team Breaks Record;  
Hutchinson Is Double  
Winner In Rout

Maintaining its undefeated record Bowdoin's swimming team submerged the Springfield College natators last Saturday afternoon 53-25 at Spring-

Bud White continued his winning streak by setting two swimming records and helped to set three. Bud was the new record holder in the 50-yard freestyle. Jerry Carlson was very close behind to take second place. In the 100-yard freestyle, Bud came through again to break the record by 8-10 of a second, the new mark being 54 seconds.

In the 400-yard relay, the team of Jim Coughlin, George Ware, George Ware, and anchorman Bud White set the new intercollegiate mark of 3 minutes, 47.5-10 seconds. Mel Hutchinson took both the 22 and 440-yard free style events easily setting a new Bowdoin College record of 5 minutes, 20.5-10 seconds. Bruce Rundlett was second in the 440 and showed up well after having been out of competition for a month. He has already cut twenty seconds from his time since his return to the squad. Norm Seagrave took the backstroke, and Dick May the butterfly.

Although he is normally a freestyle swimmer Bill Fisher did the diving for Bowdoin in order to assure the Polar Bears of an extra point in this event. This is the first time the team has ever swum in a small pool, the Springfield tank being only twenty yards in length.

**Daggett Scores  
Love Of Activity**

America's "love of activity" is a vice which has invaded the college campuses and proves a serious hindrance to scholastic advancement. Prof. Athearn Park Daggett concluded in his morning chapel service

This vice has divided undergraduates into two distinct groups: one,

those who go to college for a place to stay between weekends and the other, those who dive into their courses in a frantic fashion. The saying might be, "It is hard to discern but is necessary for both harmony and success."

There is much said of the "typical Harvard man, the typical Wellesley girl," Prof. Daggett said, but "I would like to see the 'Although the breathless' evil of 'love of activity' is seen everywhere, the speaker found some virtue in the movement, for he said, it proves a means to accomplish a lot."

On the campus, the speaker observed, there is always found that "well-rounded" group who succeed in partaking in many extra-curricular activities while allowing their school work to suffer. The speaker found no time except in their interests in mathematics, the physics laboratory, or on the athletic field.

"Between the two there must be a compromise," the speaker said. Bowdoin, he pointed out, has a large number of extra-curricular activities in the form of dances, lectures, movies, plays, and debates.

Part of the offer of the college, Prof. Daggett said, is the "opportunity to choose" by the undergraduates who, it was pointed out, should "do a few things and do them well."

The Stage Manager is Mr. Charles Vyner Brooke.

**Masquers Pick Faculty  
Play Production Staff**

The production staff for "The Emperor Jones" which features a cast consisting of faculty members was announced by Dr. Donald Smith '38. Seagrave '38, who will be advised by Richard H. Woods '37. The general production will be in charge of Robert D. Morris '38. The production crew includes Francis R. Bliss '38, George E. Morris '38, and George T. Little '40.

Philip F. Chapman, Jr., '38 is the electrician, Matthew W. Bullock, '40, will handle the properties while the costumes will be arranged by Philip D. Landry '39, assisted by Mrs. Herbert R. Brown and Mrs. Samuel E. Kamerling. The masks are being made by Carl N. DeSuzi, Jr., '38 and are being painted by Mark E. Kelley, '38.

The Stage Manager is Mr. Charles Vyner Brooke.

**President James Angell Of Yale  
To Be First Institute Lecturer**

Editor's note—This is the second in a series of sketches describing the speakers selected for the Institute of Philosophy which will be held the week following the spring vacation.

By John H. Clark, Jr.

Dr. James Angell, president of Yale, who retired in June from his position as fourteenth president of Yale University, will open the Institute of Philosophy on April 6, speaking on the subject "Philosophy and the Layman." Angell, a Yale graduate who reached Yale from the Carnegie Corporation, was the first recent Yale president not an alumnus but (Time, Feb. 22, 1927) "Yalemen were unanimously ready to vote that no Yaleman could be more important factor to the spread of knowledge concerning psychology."

With Professor John Dewey, who was at Chicago at the same time, Pres. Angell was largely responsible for shifting the emphasis from the study of individual psychology to a study of mental life to the process of adaptation of the individual to the environment. Pres. Angell has also been long distinguished as a collaborator and as a lecturer in the field of psychology. He is a member of Phi Beta Kappa and Delta Kappa Epsilon fraternities.

But in addition to his great leader-

## Dorm Door Sees World From Top Of Flag Pole

Away winding his way from the dormitories to the football field on Friday morning might have seen two carpenters retrieving from the summit of the flag pole a door belonging to Matthew W. Bullock, Jr., the occupant of 13 Appleton Hall.

Mr. Littlefield, one of the carpenters, who had been working on "No. 15" to its former place, stated that the men in Appleton Hall were a bunch of "hell-raisers" and that this pranic, in particular, was ill-advised. He said that the carpenter behind the door had to tie up his rope by fastening one end of the rope to the knob of the door. The carpenter emphasized the fact that the knob on most of the dormitory doors have a great tendency to open. The Masque and Gown is awarding \$25 for the best production and \$15 for second among four plays which have been selected by the judges for production. The contestants are to be chosen by the college dramatic club to promote play-writing by undergraduates.

The student author-directors and their productions are as follows: "The Lance is Broken" by Frederick L. Gwynn '37; "Metil for a Prayer" by Carl DeSuzi '38; "God and the Ice" by Edward L. Ferguson '38; and "Never My God To Thee" by Stanley Williams, Jr., and William H. Brown, Jr. '39.

**JUDGES TO AWARD  
PRIZES IN EVENING**

"Nero, My God To Thee" Has Cast Of Twenty-five, Musical Numbers

Two performances of four one-act plays, both on the same day instead of at night, will be presented in the fifth annual one-act play contest next Monday at 4:00 and 8:00 p.m. The Masque and Gown is awarding \$25 for the best production and \$15 for second among four plays which have been selected by the judges for production. The contestants are to be chosen by the college dramatic club to promote play-writing by undergraduates.

The student author-directors and their productions are as follows: "The Lance is Broken" by Frederick L. Gwynn '37; "Metil for a Prayer" by Carl DeSuzi '38; "God and the Ice" by Edward L. Ferguson '38; and "Never My God To Thee" by Stanley Williams, Jr., and William H. Brown, Jr. '39.

## PLEA FOR STUDENT OPINION

Student opinion, as the editorial columns of this paper and particularly this editorialist have pointed out before, is as intangible and difficult to catch and interpret as public opinion. The ORIENT staff would have to spend all their time being "all ears and all eyes" in order to sense accurately campus sentiment on various matters. Even votes taken at meals or in fraternity meetings are often far from comprehensive or indicative of the true state of affairs.

Occasionally the lack of facilities for determining campus attitudes on various matters of immediate importance is made to stand out by the appearance of a situation which demands knowledge of student opinion. The Student Council, for instance, often comes across situations of this sort. At present there is the question of how students would support a dance involving either a medium-price orchestra, or possibly two Maine intercollegiate dance orchestras, to be held Saturday night, the 13th of March, following the afternoon finals of the New England Intercollegiate Swimming Meet in the Curtis Pool. Such a venture cannot be undertaken without a "guaranteed" of support of the dance through attendance of students.

Student Council Members will welcome any suggestions and expressions of opinion on this matter from all members of the student body, and these may be given preferably personally, or less feasibly through the mailbox column of the Orient. The poor media of ascertaining undergraduate reaction to such a proposal are the more glaring in an instance like this in which time is a vital factor, above all in securing an orchestra.

## THE NEEDS OF THE COLLEGE

Bowdoin men, either in college or out, have this year an excellent opportunity to render their Alma Mater a real service by contributing criticism and suggestion to any one of the three committees composed of selected alumni, faculty, and students, considering the things Bowdoin ought to do in the way of change and improvement before the celebration of her sesquicentennial in 1941. Chief responsibility for the report rests of course on the fourteen undergraduates chosen to draw up the recommendations, but there is plenty of chance for all students to help.

The Student Committed plans to hold several open meetings at which all undergraduates will be welcome for discussion of various topics, and may distribute a questionnaire to the entire student body. Here also is shown the need for concerted, expressive student opinion. Suggestions of any sort are welcome and may be made to the following, the members of the committee: Charles F. Brewster, William S. Burton, Dan E. Christie, Nathan Dane, 2nd, William A. O. Gross, Frederick L. Gwynn, William Klaber, Jr., Norman P. Seagrave, Paul Welch and Stanley Williams, Jr., of the senior class; and Harold D. Ashkenazy, David W. Fitts, William Frost, and William D. Hyde, of the junior class.

Undergraduates and alumni who may have special recommendations to make to the faculty or alumni committees should get in touch with them through their chairmen, Professor Robert P. T. Coffin, here at Bowdoin, and Professor William E. Lunt, of Haverford College, chairman of the alumni committee on the needs of the college for the next seven years.

## CLASS AND COUNCIL ELECTIONS

Two years ago a considerable discussion of the evils of fraternity combines in Bowdoin class elections took place in the columns of the ORIENT and reached two conclusions—that the present system of nominating candidates should be replaced by one in which the Student Council does the nominating, and that first the method of electing members to the Student Council itself should be revised.

Last year an aroused Student Council stepped into the first election, that of the freshman officers, recalled a ballot in which there had been combines, and took the right to vote in the second ballot away from the houses which had combined. The other three elections later were, on the whole, quite free from combines.

The 1937 elections are not far ahead and it will be well to reconsider new changes which could be made this year and which would permanently put an end to combines.

The nomination and election of class officers always has taken place at a general meeting of the class conducted by Student Council members. The change recommended two years ago was that the Council propose the name of a dozen or fifteen leaders in each class to be placed upon a printed ballot, with the three men in each class who received the most votes from their classmates becoming president, vice president, and secretary-treasurer respectively.

Obviously, it would not be impossible for fraternity groups to get together in electing certain men with such a system. But it would be harder to work out combines in advance, and the rules against them could be enforced at least as easily as now.

If control of the elections is to be handed over to the Student Council, however, the Student Council should be picked on a dif-

ferent basis than the one now in use, by which it, itself, nominates the group from which its successors are chosen.

A Student Council made up of variety team captains, the presidents of Debating Council and the Masque and Gown Society, the editors of the ORIENT, the Quill, and the Bugle, and four other men elected at large on the system by which all members are elected now would be a much more representative body than the council ever has been in recent years; and with such a council in office there could be no question that the nominations made for class officers would not be influenced by fraternity politics, a charge which might be leveled at a council picked on the present basis.

It is necessary and proper that any change in these matters should come from the Student Council itself. Nor will the solution employed last year, effective as it was, prove satisfactory over any period of time—it depends too much on whether or not the members of the council feel inclined to enforce rules which have always existed.

H. F.

## THE KID" WINS ART POPULARITY CONTEST

"The Kid," by Isabel Bishop won first place in student favor by the narrow margin of two votes over "The Virgin Church" by Emil Ganso in the popular group in Living American Art. As a result of this contest both pictures have been added to the student loan collection, and they are now framed and available to any student who desires them.

The third exhibition of Living American Art is now on display. Students are requested to vote for their favorite picture in this group so

that one may be selected for the student loan collection.

Plans have been announced for the organization of a sketch club. This new organization will hold its meetings in the Art Building where it will have access to the museum's rich collections and photographic material. The aim of the club is to provide an opportunity for sketching in various media and for mutual criticism and discussion among those who find pleasure in drawing. The choice of subjects and methods will be given full scope. It is hoped that the club can meet fortnightly on some week evening which will be convenient to most members. Neither exceptional ability, talent, nor previous training of any kind are necessary.

School of Dentistry  
The University of Buffalo

A four year curriculum completed in three calendar years, by means of the quarter plan. The dental and medical schools are closely affiliated. Dental students have two years of basic medical study under the direction and supervision of the medical faculty. Clinical practice of dentistry, in all its varied aspects, is supervised by the dental division and is connected with the clinics of several hospitals. One month of internship in a hospital of 1,200 beds, during the senior year, offering unusual experience in clinical observation, diagnosis and treatment of dental conditions. The next regular session will start the first week in July, 1937.

## BIG LEAGUERS AID BASEBALL SCHOOL HERE

The Second Annual Bowdoin Baseball School sponsored by Coach Linn Wells, and featuring Don Brennan, Cy Perkins, and Del Bissonette was held at the Moulton Union on Saturday. An all-day program of instruction, demonstration, discussion, and entertainment lasted from 10.00 a.m. to 4.45 p.m. Its main purpose was to promote baseball interest in the general public, and the learning program was a complete success both from the standpoint of attendance and from the expressed pleasure of the demonstrators themselves.

High school coaches and players, and other hopeful and Bowdoin students comprised the bulk of the audience of 200 or more, and all concerned benefited from the baseball knowledge that was passed around. Don Brennan, pitcher of the Cincinnati Reds, Del Bissonette, ex-Brooklyn first-baseman, and Cy Perkins, former Philadelphia Athletics catcher and present Detroit coach were especially well-qualified to cover fine points of the game. Pauline Bates and Bissonette each carried a bit of local color, the former being a native of Augusta, while the latter hails from Winthrop. Perkins is also a New Englander, bearing the title of "the Gloucester Fisherman."

### Brennan Opens School

At 10 a.m. in the Moulton Union Dr. Edward C. Perkins opened with a lecture and discussion on pitching. Don's principal advice was to develop control. The Cincinnati veteran maintained that control is a prime requisite and placed emphasis on the factor of speed as a change of pace. Brennan also emphasized the importance of a pitcher's legs, young or old, the condition of which often determines how long he can pitch effectively in a game.

Brennan reflected Brennan in the speakers' lineup, and infelting took the spotlight. Del pointed out that a smoothly-working infield was rarely caught out of position and that the slightest variation in position frequently means a difference between a hit and a putout. In fielding for the various batters the infielders should adjust their positions according to the respective strengths and weaknesses of the batsmen, at the same time considering the manner of the pitch.

As Cy Perkins did not arrive until afternoon, Linn Wells pinch hit for Connie Mack's former backstop, and the Bowdoin mentor outlined the catcher's duties. "The catcher is the field general or overseer of the ball team," said Wells. "His thinking apparatus must be of the highest

### AT WELLS' SCHOOL

### EIGHT BOWDOIN WEIGHT MEN COMPETE IN A. A. U. EVENTS

Eight Bowdoin weight men competed in the Maine A. A. U. championship events at Lewiston last Saturday afternoon. Two of the Polar Bear entrants gained places in the only two events held, the shot put and the 88-pound weight. Bert Faull took second place in the shot and Bill Tuotell placed third in the weight event.

Faull's throw of 44 feet 10 inches was the shot best, beaten by Tom Kishan of Bates who took first place in the event with a throw of 43 feet 7 1/2 inches. Dan Favour, formerly of the University of Maine, captured high honors in the weight with an unexpected defeating Kishan who had thrown the weight over 53 feet in the Colby-Bates competition earlier in the afternoon.

The A. A. U. competition was held in conjunction with the dual meet between Bates and Colby. Various other track and field events will be held throughout the year at the four Maine colleges under the auspices of the Maine A. A. U.

Courtesy of Portland Sunday Telegram.

### CY PERKINS

Detroit coach who added the catching department of Lin Wells' second annual Bowdoin Baseball School.

### CAGE SQUAD DOWNS P.B.C. HOOPMEN 43-33

An ever-improving Polar Bear quintet split even in a pair of home contests this past week, dropping a 42-39 game to the Portland Y. M. C. A. on Wednesday, and then coming back to outlast the Portland Boys Club, 43-33, Friday. Minus the services of their captain Ashkenazy, the Indians could not hold an early lead Wednesday night, and in "Y" rally, forced by Gandy and Johnson, put the Trimble five in front in the last quarter. Ed Fisher and Bunny Johnson played well for the Indians.

### GAIN EARLY LEAD

The Boys Club reportedly stronger than the "Y" fell victim to the Bears' speed and were constantly behind after the first few minutes.

Percy Black's all-round performance and Johnny Frazier's fast offensive play topped a generally fine team effort.

A game is scheduled for next Sunday with the Auburn Mavericks, which will complete the Independents' slate unless a contest is arranged with the Portland Mariners, the only team that the Polar Bears have not yet faced. The Indians divided four series, winning and losing games with St. Mary's of Bath, Portland Junior College, Portland Y. M. C. A., and the Boys' Club.

### BASEBALL FILMS SHOWN

The gathering adjourned to the dining room at 6 o'clock where dinner was followed by a "fanning-bee" in which doughty deeds of the diamond were retold by the major league representatives. Baseball's day was capped with the "Heads Up Baseket," a talking picture in Memorial Hall. The picture illustrated much that had been discussed during the day featuring the rise of Bob Feller, the Indians' phenominal development, and as fine an example of a success story as could have been shown to the assembled enthusiasts.

### SPORT SIDELIGHTS

By Bill Hawkins

Last week's baseball and ski schools further indicate the current trend to expand Bowdoin's athletic activities. Last Saturday Adam Walsh introduced Bowdoin's first football "clinic" with much success, and is now conducting a regular class for students. Lin Wells' second annual basketball school was on a much larger scale than a year ago and attracted many outside coaches and players. Jack Magee in another month brings numerous prep and high schools to the 25th Annual Interscholastics. And through Bob Miller's efforts the New England Intercollegiate Swimming Meet takes place in Curtis Pool for the first time, March 12 and 13. The Bowdoin coaching staff is to be commended.

\* \* \*

Bowdoin's eleven fraternities should heartily welcome the new regulations concerning their part in the entertainment of track teams in the coming Interscholastics which have been drawn up by the Athletic Department in cooperation with the Student Council and the various houses. A much more definite distribution has been decided upon by which each house draws a number and then in order makes its choice of school. The old method of assigning teams according to the track rating of the individual fraternities is thus eliminated.

\* \* \*

Saturday night's lodging is no longer included while provision for Friday night and that of the meet is to be made by the housemen at 100 dollars per person. Teams within that distance receive only the Saturday noon meal. Also no more than ten men are to be assigned to any one house. It is further expected that an arrangement will be made whereby some financial reimbursement can be given to the fraternities. Such a solution as is being evolved certainly eases the fraternity burden and should make the annual interscholastics a more welcome enterprise.

With the extension of the new interfraternity eligibility rules to include the basketball league, a marked increase of interest in this sport has been noted as well as much closer and more exciting games than in the past. Thus far this year only four games have been forfeited, three of these having been played but with one or two ineligible men, who were last called up to this time there had been nine forfeits with a total of ten for the season. Such improvements indicate the advisability of continuing the new plan.

### WHITE YEARLINGS OUTRUN DEERING

### HUSKIES STOP POLAR BEAR PUCKMEN 11-3

Snatching first places in all but two meets the Bowdoin freshman track squad easily defeated the squad of Deering High School in a dual meet in the Bowdoin cage last week by a score of 69 1/2 to 29 1/2. Met records in the 300 and 600-yard events were shattered by freshman runners and the old record of 6 seconds in the high hurdles was equalled by both Allen and Rose.

Lin Rowe was high point winner for the yearlings with a total of 24 points to his credit while Charlie Pope and Neal Allen also accumulated considerable totals. In the 600 Charlie Pope set a new record of 1:17 bettering the old record by more than two seconds and Rowe managed to do the 300 yards in 33.2.

Deering's first places came in the mile, which Sherwood won easily in 4:51 and in the high jump. Squeak MacKenzie, ace freshman distance runner was unable to compete on account of illness.

The Polar Bear six lost decisively

to the Northeastern University Huskies by a score of 11-3 to the Boston Arena link last Friday night.

Buddy Arnold and Mel Melendy

scored the first goal for the Polar Bear six last

after the opening of the second period.

It was not until seven minutes after the opening of the third period, however, that the Polar Bear tallied another point when Melendy scored on an unassisted shot. In the last minute of play Arnold scored the final point for the White. The third period was closely fought and frequent penalties were called. Leon Buck was forced out of the game due to an injury.

### POLAR BEAR ICEMEN DOWN M.I.T. 1-0 IN LEAGUE TILT

#### STARS AT M.I.T.

A hard-checking Polar Bear squad easily defeated the M.I.T. sextet in Boston last Saturday night, February 20, to win by a score of 1-0. The game, the last contest of the season for the Bowdoin squad, drew the Tech outfit in last place and lifted the White packmen out of the cellar position in the New England Intercollegiate Hockey standings.

Several changes were made in the Bowdoin lineup because of the injury of Leon Buck. Ned Dane replaced Buck in the forward line and Charlie Harkins replaced Pete Smith on defense when Smith was shifted to a wing position. Smith, playing in the second line, scored the lone point assisted early in the second period. Jack Lawrence and Pete Mills led the offensive attack with Dan Hanley and Neil Corey were outstanding on defense. In spite of the low score the Bowdoin squad far outclassed their opponents, pressing the Tech net consistently throughout the three periods. The M.I.T. sextet was able to successfully threaten the White lead only twice, both times with two Bowdoin men were off the ice on penalties. The Polar Bear scoring attack was stopped almost entirely by the spectacular saves of the Tech goalies.

Lawrence, Mills, and Dane made up the first line for Bowdoin; while Smith, Arnold, and Melendy composed the second line. Bass, Harkins, and Hanley alternated in the defense positions with Corey at goalie. With the exception of Corey an entire senior team played the closing three minutes for the Polar Bear sextet.

SPEAK TONIGHT

## The Sun "Rises"

By William Kieber, Jr.  
THE presentation of the original one-act plays by the Masque and Gown last Monday, marked a new high in this annual competition. In the past, this column has praised this contest as one of the most constructive activities at Bowdoin. There is certainly no reason to alter this opinion now. The plays this year were uniformly better than their predecessors, showing greater originality in theme and action.

We feel that little can be said to alter the general view already made in previous years. The fact that the plays have been conceived, written, acted, and directed by the students speaks for itself. The training that it provides in actual composition is invaluable. The liberal college aims at such things as education to bring out the initiative of the students, and make them think and act for themselves. This column feels that the one-act play contest comes closer to fulfilling this ideal than any other in college. It is to be hoped that it will continue to flourish in the future.

WITH the college concentrating on a plan for necessary improvements during the next seven years, this column would like to suggest one physical change that is not often emphasized. For many years the students have voted in favor of "Lakelet Bowdoin" during the spring thaws. The depression in the quadrangle between the Art Building and the Chapel periodically fills with water until a pool of sizable proportions is formed. Now is this an inconvenience, or also to be considered? Then, there is a drainage system in the section, but it is wholly incapable of handling the large amount of water that accumulates. As one of the physical features of the seven-year plan we would like to see an adequate drainage system installed so that the students can walk dry-shod from one part of the campus to another.

A RECENT experience at one of our neighbor colleges should stand as a warning to Bowdoin undergraduates. As in the past, some pledges are being exacted by "magazine agents," offering wonderful bargains in magazine subscriptions. Either as combination offers or as cut-rate prices on a single magazine, magazine-point plans are made available to students, involving a commission saving from the usual cost. In most cases, such agents are fakes. Either there is no real saving from the usual cost, the goods are not what they are represented to be, or the agent is pocketing the entire amount and taking it in hand as a subscription to any magazine. However false these agents may be, they reap in a rich harvest.

The college has given what protection it can in this respect. There is a prohibition against salesmen operating on the campus. Enforcement of this regulation lies with the students themselves. When such a salesman comes around, he should be notified that he must get official permission from some competent college authority before he can begin his operations. Most reputable agents do this anyway. However, as a protection against fakes, this rule should be enforced. It would mean that the students would save themselves and their colleagues many dollars.

THE various members of the student committee on the needs of the college have reported that there is still a dearth of expressed student opinion on many subjects. This committee can, and will, if necessary, formulate its own list of necessary changes. However, it is anxious to obtain as good a representation as possible of student opinion as a whole. The more viewpoints that are expressed, the greater chance is there to have a representative report on the student feeling in general. The committee urges that all men with any ideas should communicate them to some member of the committee.

## TELEGRAM HONORS POET LONGFELLOW

In connection with the world wide celebration of the 100th birthday of Longfellow, a telegram reproduced a copy of this famous poet by George P. A. Healy which now hangs in the Boyd Gallery of the Bowdoin Art Building. As this was Longfellow's favorite portrait it is an appropriate memorial to him and a reminder from which he obtained his first degree.

"Few poets have inspired more composers to set their words to music," says Prof. Tillotson in the Telegram. Over eighty songs by Longfellow have been composed by various composers in over 280 settings. These settings range from solo to sextets and choruses. A few of the more famous composers who have inspired him in Longfellow's poems and set them to music are Coleridge, Taylor, Gounod, and Chadwick.

**NOTICE**  
The Polar Bears will play for a dance in the Memorial Union on Saturday evening, March 26.

## J. V. SETS TWO TANK RECORDS; TECH SWAMPED

Varsity Swimmers Finish  
Undefeated Season By  
Taking M.L.T. 63-14

MARBLE, MEDLEY  
TEAM SET MARKS

White Tankmen Take Eight  
Of Nine Events; Tech  
Wins Only Diving

By Richard C. Farnell  
Setting two new Bowdoin College records, the J.V. swimming team defeated Huntington School of Boston last Saturday night 37-28, while the varsity squad ran up its highest score of the season as they won from M.I.T. 33-14, finishing the season undefeated.

Johnny Marble easily won the 100-yard breaststroke in the J.V. meet setting a new college mark of 1 minute, 11 2/5 seconds. He started off fast and at the fifth minute a quarter-pool length in the lead, winning all the way to the finish.

The second record of the evening was set in the 150-yard medley relay, the team of Robert Fennell, John Marble, and Kenny Welch ranking a new record of 1 minute, 28 2/5 seconds, 3 1/2 seconds faster than the record.

Fennell was a little behind the Huntington man in the backstroke, but Marble picked up a lead of six yards in the breaststroke, and Welch, in the freestyle, gave the team its victory by almost ten yards.

In the varsity meet Bowdoin took all but one first and one second. Tech having to depend upon thirds to garnish its points. Bud White came through and won both the 100 and 50-yard freestyle, coming within a hair of his record in each race.

John Marble easily won the 100-yard backstroke, but Marble picked up a lead of six yards in the breaststroke, and Welch, in the freestyle, gave the team its victory by almost ten yards.

## CAMPUS RENASCENCE

This issue of the ORIENT might almost be termed a "musical issue," what with its reporting of the first Glee Club tour in several years, and a highly successful one at that; and of the intimate choral society concert presented last night in the Moulton Union by a group of Portland singers under the direction of Mr. Alfred Brinkier. In addition there is an editorial by an assistant editor on the prospects of a full-fledged musical production for next year, following an "infant attempt" at a Bowdoin musical comedy presented on the Memorial Hall stage last Monday.

So vigorous has been the growth on campus of student participation, support, and interest in this aspect of the liberal arts, that the college year 1936-37 might almost be termed a musical year, as far as Bowdoin is concerned. Yet marching hand in hand with this rebirth of music, under the enthusiastic leadership of Professor Tillotson, has come a quickening of life in the Walkley Art Building with its new Curator, Mr. Beam, of which the formation of a Sketch Club is but the latest sign. A series of interesting exhibits of modern American art, the completion and showing of the President's Portrait, and renovations within the Art Building itself have aroused student interest to a height unparalleled in recent years.

Gone are the days when the ORIENT must needs protest an undergraduate attitude similar to the "Harvard indifference" which received so much attention. New activities like the Camera Club have sprung up on campus. Student turn-outs at recent events ranging from swimming meets to debates have attested to an increasing desire on the part of the average undergraduate to realize his opportunities for a liberal education to the full. These opportunities come almost too thick and fast! The ORIENT's prophecy made in its first issue, predicting that this year boded well, to be one of the best the college has known, is well near absolute realization.

## ROWDOIN MUSICALS?

The favor with which the musical burlesque "Nero, My God to Thee" was received Monday night together with the success of the recent Glee Club tour indicate the possibility of developing a field of activity heretofore neglected at Bowdoin. A musical production drawing talent from both Glee Club and Masque and Gown would add novelty to the programs of both organizations and give a wider range of experience to those interested in either music or drama.

At the present rate of improvement, under the intensive program instituted this year by Professor Tillotson, both the interests of the student body and the calibre of the available talent should be capable of supporting and producing such entertainment by another season. If successful, performances could be booked for alumni groups, schools and colleges, or other organizations, with the resulting beneficial publicity for the college.

One of the many well-known operettas by Victor Herbert, Gilbert and Sullivan, and others might be used, or better still, provided the undergraduate ranks could muster enough wit and creative ability, the heads of the musical and dramatic organizations might collaborate with a selected group of budding lyricists and composers to produce something of more pertinent interest to the student body. In the future, compositions could be secured through an annual competition for a suitable prize. J. B.

## J. P. Petegrove Comments On Bancroft's "Aristotle" Lecture

By J. P. Petegrove

In his second public lecture Prof. Bancroft treated the problem on which science and philosophy join hands. Scientists have lent peculiar force and dignity to the scientific method, and have made some remarkable contributions of their own and in repeatable experiments. It was therefore an occasion as rare as it was enjoyable to hear expressed those ideas of method which have sprung from the wealth of Prof. Bancroft's long personal experience in the scientific world.

First of all the lecturer divided scientists into "guessers" and "accumulators." The "guessers" included such names as Galileo, Newton, and Einstein with Aristotle as their patron. The "accumulators" were represented by names such as Mr. Curtis, the physical chemist Richards, and the biologist Wallace, with Bacon as their patron. Prof. Bancroft then proceeded to show the superiority of the merits of the "guessers" over those of the "accumulators."

Ancient Praised Aristotle

In 1855 an inscription was turned up which tells of the death of Aristotle. He had a golden and jeweled crown. Aristotle and his nephew Callisthenes for having established a complete list of the winners at the Pythian games. It was Aristotle again who engineered that tremendous compilation of 158 constitutions of cities.

Of Aristotle's works on biology the "Historia animalium" lists more than 300 species, surpassing all previous recordings. Of the other works on animals W. D. Ross says that they "aim at eliciting theory from the recorded facts." If I understood Prof. Bancroft correctly he said that the "guessers" emphasized the working-hypothesis. It is he who evolves theories to be verified by experiment. Einstein's discovery of the four-dimensionality of space illustrates this type of method. An intensely interesting note was struck when Aristotle's account of the "recorded facts" was contrasted with the personal experiences of the age-old quartet of science versus dogmatism.

The "accumulator" is pre-eminent by the collector and classifier of facts. He is well represented by a man like Richards whose exact measurements help to implement discoveries. The "guessers" emphasize the working-hypothesis. It is he who evolves theories to be verified by experiment. Einstein's discovery of the four-dimensionality of space illustrates this type of method. An intensely interesting note was struck when Aristotle's account of the "recorded facts" was contrasted with the personal experiences of the age-old quartet of science versus dogmatism.

## Institute Of Philosophy Lectures

The following is the program of Institute Lectures with their dates, as released by Professor Mann, chairman of the committee on the Institute:

- April 6 JAMES ROWLAND ANGEL  
President of Yale University  
"Philosophy of the Layman"
- April 7 ROBERT M. CHISHOLM  
Professor of the School of Philosophy, Cornell University  
"Idealism and the Segment of Rationality"
- April 8 MRS. SUSANNE KNAUTH LANGER  
Tutor in Philosophy at Radcliffe College  
"Freedom of Mind"
- April 9 WILLIAM PEPPERELL MONTAGUE  
Professor of Psychology at Barnard College, Columbia University  
"Zero's Puzzles and their Implications for Philosophy"
- April 12 REINHOLD NIEBUHR  
Professor of Applied Christianity at the Union Theological Seminary  
"Christianity and its Relation to the Philosophies of History"
- April 13 EDWARD VERNON HUNTINGTON  
Professor in the Department of Mathematics, Harvard University  
"The Method of Postulation"
- April 14 REXFORD GUY TUGWELL  
Former Professor of Economics at Columbia University and former Under-Secretary of Agriculture  
"The Economic Consequences of Creation"
- April 15 CURT JOHN DUCASSE  
Professor of Philosophy at Brown University  
"Art & Logic"
- April 16 ALEXANDER MEIKLEJOHN  
Professor of Philosophy at the University of Wisconsin and former President of Amherst College  
"Classical Theory of Education and the Pragmatic Revolt against H."

## Mustard and Cress

## Bancroft To Speak On Misleading Experiment

## WAYS AND MEANS

The last haven of refuge of erring students seems to be Greek 12, much that distinguishes the classical Department. Something like forty men flock into this class as it opened for the second semester, ready to take a course which required reading of the ancient tongue only in translation and which has generally been considered a "pipe" by the elite few. Prof. Thomas Meek, the general manager of ultra-direct discourse, was worried. He noticed two freshmen even in the class of unprecedented proportions, and a number of upperclassmen who have been in and out of Bowdoin successively semester by semester. "Next year" quoth Tommy acidly, "I hope this course will be stiffened and not be a freshman-funkeen pool."

—e

## SPECULATION

Date Carnegie in his popular book "How to Win Friends and Influence People" (one of those books!) advises one to talk to the other fellow about himself, and not about one's self. Phil Meek, however, has a very unusually curious mind developed willingly by a sojourn in the halls of Bowdoin when he wondered the other day how two people who had read the book and were putting it into practice would get along when they met!

## MEANS WELL AGAIN

Tommy Meek was sauntering out of the C.P.S. dining room on the other side of the hall when he saw a student of his (probably in that eerie Greek 12 course) coming down the hall. "Ah," said the prof, "we meet on less hostile ground."

In an informal lecture at the D.U. house last Sunday evening, Professor Bancroft spoke of a new method of curing colds, asthma and chronic ailments. His lecture, which was very warmly received, was a lively open forum discussion.

## PRINCIPLES OF SCIENCE

Continuing his discussion of the relation between fact and theory, in the Tallman series, Professor Bancroft will lecture this evening on "The Misleading Experiment." Bancroft maintains that one should never trust in an experiment until it has been proved by a theory.

"Nature will tell you a direct lie if it can," says Dewitt. Professor Bancroft points out here that the natural facts or elements are often misleading until proved. "The Baconian policy of obtaining facts first is not always successful," says Bancroft, "for the facts themselves are sometimes wrong and they lead to some times getting up the wrong tree." Professor Bancroft disagrees with many of his colleagues when he places theory before facts.

In an informal lecture at the D.U. house last Sunday evening, Professor Bancroft spoke of a new method of curing colds, asthma and chronic ailments.

**U. S. Senator Reynolds**  
says: "Luckies are considerate  
of my throat"

"Two Southern traditions are oratory—and good tobacco. Lucky Strike shows me how to indulge in both. For this light smoke not only pleases my taste but leaves my throat in condition. Last fall in North Carolina—when I made over 100 speeches—I visited the Lucky Strike factory. I believe I discovered, in the Lucky Strike 'Toasting' process, the secret of what makes this cigarette so considerate of my throat. I have been more than ever an advocate of a light smoke since seeing the extra care and expense devoted to making Luckies easy on the throat."

Robt. R. Reynolds

HON. ROBT. R. REYNOLDS

U. S. SENATOR FROM NORTH CAROLINA

THE FINEST TOBACCO—  
"THE CREAM OF THE CROP"

In a recent independent survey, an overwhelming majority of lawyers, doctors, lecturers, scientists, etc., who said they smoked cigarettes, expressed their personal preference for a light smoke.

Senator Reynolds' statement verifies the wisdom of this preference and so do leading artists of radio, stage, screen and opera, whose voices are their fortunes, and who choose Luckies, a light smoke. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on your throat.

### NOTICE

Tryouts for "Hamlet" will be held in the Masque and Grotto room of the Men's Union on the afternoon of March 6, from 1:30 till 6:00, for any part except the title role. "Hamlet" must be cast completely before the opening of "Yellowjack," which will take place on March 16. Rehearsals for "Hamlet" will not start until May 1.

### Bookplates Recall Old Memories Of Bowdoin

(Continued from page 1)  
Sciences. The picture of a boat on the plate is significant since Professor Emery died at sea. The plate of the class of 1880 has a picture of the ship "Columbia" since one of its members scaled the tower and hung the class flag there.

Another interesting plate is the Board bookplate, set up by the Reverend Elias Bond, class of 1837, primarily for religious books. The Rev. Mr. Bond was a native of New Haven and with the money for the bookplate he sent a letter stating that he had been working in the Vineyard of the Lord and the Lord had prospered him and he was sending some of the surplus to establish a book fund at his college.

The most recent plate is that of the class of 1906, which last June at its thirtieth reunion gave the library \$500 to be spent immediately for books.

### BREWSTER ATTENDS N. E. PEACE COUNCIL

Charles F. Brewster '17 representing the Bowdoin Political Forum was elected treasurer of the New England Student Peace Council at its first meeting in Boston last weekend with delegates from 12 colleges participating.

The Council is a coordinating body for the Bowdoin Student Union, International Relations Clubs, and independent peace groups in New England colleges and in its bi-monthly meetings of campus leaders hopes to revolutionize peace action in New England.

Temporary plans for the coordination of peace work in the four Maine colleges as worked out by Brewster, the only Maine delegate at the Boston meeting, include a preliminary discussion of campus peace leaders at Bates on March 14th and a larger regional conference on April 1st. Whence vital peace questions will be discussed by a prominent speaker and technique at the Maine colleges for the nation-wide April 22nd peace strike can be decided upon.

### SILLS SPEAKS FOR EDUCATIONAL BILL IN RADIO ADDRESS

Declaring that the public school system throughout the state of Maine is somewhat neglected, President Sills spoke in favor of the Educational Bill in radio address on the program of Maine Schools Saturday evening at the WCSH studio in Portland.

The main theme of his address was that the only way to improve the schools is to "better the teaching force." He said that "the teacher's insight, imagination, and ability were all fundamental requisites of a school teacher. He praised the co-operation of the teachers of Maine through the depression years and pointed out that "the teachers during the past few years have carried on nobly under bad handicaps."

President Sills declared the wages of the Maine public school teachers were pitifully small and asserted that the teachers deserved far better treatment at the hands of the state than they were receiving. In view of this fact, he urged wholehearted support of the Educational Bill now before the Legislature.

In conclusion President Sills said: "If there is to be any progress in the public school system through taxation, there must be a willingness, give and take, and a real desire on the part of all the citizens of Maine to assume the responsibilities and even the burdens that are necessarily placed on a modern state by changed social conditions. Many of us feel that the time has come at least there must be both an income tax at a low rate and some kind of a sales tax at a low rate."

Sills' address was preceded by a group of Alumni singing "Rise Sons of Bowdoin," and was followed by a song by Richard V. McCann '37.

McCann was accompanied on the piano by Malcolm Cass '37, while Thomas Bradford '37, George Davidson '38, and David Fitz '38 joined in the singing.

### Union Tournaments Will Commence On March 18

Entries for the fourth annual Men's Union Tournaments in ping pong, pool, and billiards must be in by March 18. It was announced yesterday. The tournaments will be held in the Union on April 22. Cups will be awarded as usual, and the entry fee, covering all three tournaments will be 25 cents. Undergraduates should enter the tournaments at once so that the preliminary matches may be well under way before Easter vacation. Interfraternity duplicate contract bridge (for which there is no entry fee) will be played, two men from a house, after the finals in the pool, billiards, and ping pong tournaments.

### PETEGROVE WRITES ON BANCROFT TALK

(Continued from page 2)  
the "a priori" scientific method implied in writing Galileo and Kepler, a "guesser," like Plato's Academy, must know his mathematics, on which basis he can proceed to create facts by experiment. Leverrier did this when he guessed the position of theoretical calculations, the existence and position of the planet Neptune.

The "accumulator," like Aristotle, accepts his facts ready-made, proceeds to classify and analyze them.

The "guesser," like the entrant to Plato's Academy, must know his mathematics, on which basis he can proceed to create facts by experiment. Leverrier did this when he guessed the position of theoretical calculations, the existence and position of the planet Neptune.

Can one man be both "guesser" and "accumulator"? As Prof. Bancroft said, in practice he can. But theoretically he cannot, for the two methods imply vastly divergent philosophies. According to both Aristotle and Plato the number of facts is limited; and it is the business of science to find them all out and so establish the "regnum hominis" on earth. But Plato, Galileo, Einstein, and A.N. Whitehead see in facts merely mental constructs. For them our ideas make our facts and knowledge is unlimited and inexhaustible.

**Dr. Cunningham  
To Speak Here**

(Continued from page 1)  
Cunningham is not sure of this and holds back from making a statement to this effect.

Associate Professor Stallknecht of the Philosophy department pointed out last week that from the inscription over the door of the Science building, "The Laws of Nature are the Thoughts of God," the scientists here at Bowdoin can be called idealists.

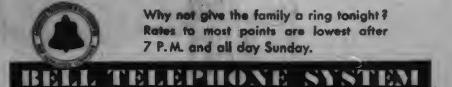

IT looks harmless, but this fungus destroys poles.

So telephone research men wage war on it.

In the Bell Telephone Laboratories, they study many woods, concoct many preservatives. In Mississippi, Colorado and New Jersey—where conditions vary widely—they've set out whole armies of treated test poles. Their continuous experiments yield many a weird but valuable fact about destructive fungi and insects.

Since the Bell System each year uses over 500,000 poles for replacements and new lines, lengthening pole life is most important. It's one more way to make telephone service still more dependable.

Why not give the family a ring tonight?  
Rates to most points are lowest after  
7 P.M. and all day Sunday.

## Trackmen Face Favored B. C. Team Here Saturday

By Dick Deylie

In its first and only dual competition of the indoor season, Bowdoin's varsity track team engages Jack Ryder's strong Boston College squad here Saturday. B.C.'s strength is packed in the running events and the shot put, leaving the field events as unknown quantities, while the Polar Bears lack any concentration of power. The meet, bringing together two veteran coaches in Ryder and Bowdoin's Jack Magee, promises to be a battle of wits as well as of legs.

"Bowdoin has never lost a dual meet to Boston College, but this year like B.C.'s year to win," says Coach Magee. "The graduate, Dick Gill, points to his middle distance runner, Dimi Zaitz, as the shot-putter, Gill has run an indoor quarter-mile in less than 49 seconds, and he will be heavily favored to win his specialty. The Red-head might also double up in competition, the B.C. team's Boston is well supported by its seniors. Zaitz will have the shot put all his own way, and the genial Russian should better Howie Niblock's mark.

Bowdoin cannot match this brilliant pair, but the White has some outstanding performers in its own right. Experienced runners such as Bob Deane, Bill Owen in the dash and hurdles, and Jeff Stanwood in the quarter can be counted upon for points, while Dave Rideout seems good for at least a second place in the pole vault.

## Reserves Strengthen B.C.

Augmenting Gil and Zaitz are potential point winners for the Massachusett's McFadden and the Niblock, hurdlers; Kelley, Cady and Allen, dashmen; the two-mile relay team of Hines, McKee, Cronin and Cox, who will take care of the distance runs; and Dominick who is second to Zaitz in the weights. The last named, Andy Domnick, is a remarkable athlete who works as an artist-potter. He possesses as a football player or a strong man.

The Polar Bear entry list is as follows:

40-yard dash, Smith, Soule, Owen; 440-yard dash, Stanwood, Hall, Hamblen; 880 and mile, Porter, bond, Lord; two miles, Porter, Hyde, Hight, Young; high jump, Dolan, Pitts, Stanwood; broad jump, Soule, Stanwood; discus, Deane, Stern, Rideout, Diller, Owen; hurdles, Stanwood, Deane, Owen; shot put, O'Donnell, Paul, Reardon, Healey; discus, Healey; hammer, Tootell.

## POINTING FOR B. C.

## SPORT SIDELIGHTS

By Leighton Nash

Boston College is rumored to be bringing one of the strongest squads in its history to Brunswick next Saturday and boasts such national stars as Denny Zaitz and Dick Gill. Jack Magee's Polar Bears will pin their hopes principally on Captain Bob Porter in the half and the mile, Dave Rideout in the pole vault, Dave Soule in the dash and broad jump, Bill Owen in the weight. The visitors have a definite edge on paper but the Magee men boast a fair degree of balance and should make a meet worth watching.

The intervarsity meet last Monday brought out a lot of possible point winners for the Interfraternity meet when it put the freshmen into direct competition with varsity runners and weight men. At the first time, although the absence of Bill Owen and Squash Macdonald might throw off calculations somewhat, at any rate the competition showed that there will be more than the usual number of houses boasting strong teams this year due to the fact that the likely point-winners are pretty evenly divided among quite a number of houses. The usual struggle between two or three houses who boast ninety per cent of the track members seems to be a thing of the past and this fact should lead to a great deal more interest in the meet among the student body.

The Bowdoin swimming team finished its schedule of dual meets undefeated and apparently boasts by far the strongest squad in its history. However, the meet was not tested in the New England Intercollegiate competition last week when it came up against such strong teams as Brown and Amherst who are also unbeaten in New England. Amherst swimmers did about the same sort of job on Wesleyan that Miller's tars did on Tech, and the Brown team has turned in some remarkable times.

A glance at the 1937 winter sports schedule reveals to what extent the Polar Bears have built up rifle team competition in the three years that it has been a recognized sport here. A total of twenty-three varsity teams are listed during the winter months and several other meets have been arranged since the schedule was printed—to say nothing of the freshman meets with various prep and high schools. Perhaps all this competition accounts for the fact that the squad has been able to outmatch the Harvard team in shoulder-to-shoulder matches for two out of three.

D. U.'S MEET BETAS  
IN IVES COMPETITIONFrosh Tracksters Take  
Bridgton In Easy Victory

Beta Theta Pi in League A and Delta Upsilon in League B came through the 1937 interfraternity basketball season undefeated and will now compete for the championship title. The Beta's domineered Chi Psi's hoopers 46-21 Friday to hand them their only defeat. The D.U.'s and Zetas have dominated League B from the start with the Zetas suffering only one loss.

Another of this year's closest meets took place Monday when the Dukens, training by one point at Dekens, won the 1937 basketball title. The most successful schedules in recent years have been completed with four games being forfeited.

League A W L League B W L  
Betas ..... 6 0 D.U.'s ..... 6 0

A.T.O. ..... 0 6 Sigma Nu ..... 1 4

Bowdoin's freshman track team romped off with its fourth victory Wednesday, by scoring a 73-32 win over the Bridgton Academy cluster. West Allard, Bob Rowe and Carlisle Pease piled up more than twice the sum of the yearlings' points, while Bridgton's Bob Dixon garnered one of his team's two first places by winning a flat 600.

Allard edged Rowe in both hurdle events, with Rowe running the tables in the 40-yard dash. Allard also tied for first in the high jump and second in the broad jump, while Rowe added the 300 to his victories strikingly.

Rowe ran carefully to win the 1,000, and then came back to push Dixon in the last lap of the 600, finishing but five yards behind the colored boy. Dixon, who is regarded as one of the premier prep school runners in the East, led all the way in the feature event of the afternoon, and turned in a 1:16.2 clocking.

1937 Runners  
Win In Inter-  
class Rivalry

By Mitt Sennar

Led by Bob Porter, who was high point man of the meet with 15 points, the class of 1937, with a total of 50 points won the annual inter-class track competition in the cage, Monday and Tuesday. The seniors were next, and included thirteen after Porter had hung up his spikes with but the juniors with 29½ points just barely beat out the freshmen who garnered a total of 38½ points. The sophomores were left far back in the running with 14 points.

Bob Porter, Dave Rideout with a fine in the pole vault, Dan Heaton with a first and two seconds in the weight events, Ditto Bond with a third in the mile and a second in the two-mile, and Dave Deane with thirds in the hurdles, were the outstanding performers for the seniors.

West Allard, Tom Coffin, and

Dave Soule and Jeff Stanwood led the junior forces with two wins apiece. The junior was the only other first place winner for '38.

The freshmen showed strength in the hurdles and in the weight events with almost passing the junior line at the last of each of the meet's three days. Tootell '38 nosed out Pratt '40 for the very important point. Rowe and Allen led the yearlings with wins in the hurdles, the 40-yard dash, and broad jump. Pease trailed Porter to the finish line in the 880 to gain a second place. The yearlings' weight helped to boost the team's score. Schwab, a transfer student, won the discus throw to give the frosh another first.

## Summary

40-yard dash—won by Soule '38; second, Rowe '40; third, Hall by Soule '38; fourth, Gibbs '39; fifth, Pease '38.

440-yard dash—won by N. Allen '40; second, Pease '38; third, Gibbs '39; fourth, Hall by Soule '38; fifth, Pease '38; sixth, Tootell '38.

880 yards—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Hall by Soule '38; sixth, Tootell '38.

1,000 yards—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Hall by Soule '38; sixth, Tootell '38.

High jump—won by Rowe '40; second, Pease '38; third, Tootell '38; fourth, Gibbs '39; fifth, Pease '38; sixth, Tootell '38.

Broad jump—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

Discus—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

Hammer—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

Shot put—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

400-yard relay—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

440-yard relay—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

1,500 relay—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

400-yard freestyle—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

1,500-yard freestyle—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

200-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

400-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard freestyle—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard backstroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard breaststroke—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

100-yard butterfly—won by Pease '38; second, Tootell '38; third, Gibbs '39; fourth, Pease '38; fifth, Gibbs '39; sixth, Tootell '38.

## FAREWELL' PROVINCIALISM

In welcoming ten crack swimming teams from all over the East, for the New England Trials and Finals to be held in Brunswick Friday and Saturday, Bowdoin is realizing the first definite benefits from its efforts of the last few years to develop athletic competition out of the state. Bowdoin has all too few athletic relations with colleges of its own class outside Maine and such events as this week's meet are definitely steps in advance toward ending any and all intimations of athletic provincialism at Bowdoin.

World's records have been broken when outstanding swimmers from various parts of the country have performed in Bowdoin's Curtis Pool, but never before has such a talented and varied group assembled at Bowdoin—in fact in Maine—for actual inter-collegiate competition. It is indeed fortunate that Bowdoin's first year as host to the other New England teams should coincide with the White's first chance to make a definite bid for top honors.

W. S. B.

## A SINGING COLLEGE

It is indeed to be regretted that the number of fraternities scheduled to sing in the second Annual Interfraternity Singing Contest, to be held next Monday night, does not measure up to the excellent turn-out last year. The occasion of the first contest, held in competition for the Wass Cup, was one of such spirit and enthusiasm that it was as fine a tribute as could be paid to the deceased Professor of Music, so well known and liked by Bowdoin undergraduates.

This year the bases of judgment of the efforts of the various fraternities are on the same basis. A great degree of technique in glee club effects is not necessary. Student enthusiasm as evidenced in delivery and attendance is more important, especially when the contest is considered as part of the plan to make Bowdoin a singing college like Williams.

The crowded program of events this month, coupled with the Glee Club trip, have perhaps brought this contest too close upon other activities to give it a fair chance. It is to be hoped that this year's innovation, the plan of holding an inter-class sing on campus some evening in the spring, will find a place in the schedule of events which will ensure a good attendance.

## Medical Awards Go To 35 Grads

## MacMILLAN TRACES ARCTIC EXPLORATION

(Continued from page 1)

Thirty-five Bowdoin graduates have been awarded a total of \$7,000 in medical scholarships from the Garfield and Merritt Fund this year. It has been announced by Professor Manton Copeland, chairman of the committee on Bowdoin medical scholarships. The total is somewhat larger than in 1936. All the scholarships this year have been given to graduates or former students of Bowdoin.

The list of men receiving awards together with the medical schools at which they are studying is as follows:

Milton H. Appling '36, McGill; Charles M. Bassett '35, Harvard; George W. Bassett '35, Harvard; Chester W. Brown '35, Rochester; Eugene E. Brown '34, Tufts; Mason D. Brown '35, Harvard; John C. Brown '35, University; George E. Desjardins '34, Hahnemann; University; Leon A. Dickson '35, Howard; John F. Drury '35, Boston University; Gillian C. Ellis '35, Boston University; Jacob S. Fine '32, Yale; Paul F. Floyd '32, Harvard; George H. H. Freeman '35, Harvard; A. Jones '34, Boston University; H. Bleated Lang '34, Harvard; Rodney C. Larson '35, Harvard; John L. Lester '35, George Washington University; Eliza E. Long '35, University of Chicago; and Lawrence G. M. Lovell '35, Harvard.

Edward A. McFarland '36, George Washington University; Michael G. McHargue '35, Harvard; Walter H. Mantle '35, Columbia; Howard H. Miller '35, Harvard; John R. Read '34; Harvard; Maurice Rose '36, Yale; John H. Ross '35, John Hopkins; Harold L. Seigal '34, Jefferson; University; Edwin A. Smith, Jr., '35, Tufts; Frederick J. Sturtevant '35, Harvard; and George E. Tamm '34, Tufts; Frederick W. Thayer '35, University of Pennsylvania; Frederick W. Thyng '35, Harvard; and Edward P. Webb '35, Edward P. Webb '35, Boston University.

## Seagrave, Little, Bryant, Cox Enter Debate Finals

Because of the recent illness of one of the finalists, Norman P. Seagrave '37, the finale of the Bradbury debate, which had been postponed, will be held within a week or two, according to Prof. Athen P. Daggett, coach of debating who is in charge of the competition.

The teams which will compete in the finals are Athen H. Cox '38 and Donald C. Bryant '37; and Harold D. Ashkenazy '38 and William C. Hart '39; and Seagrave and George T. Little, 2nd, '40, who beat Thomas P. Phelps '38 and Ernest Andrews '40.

The subject of debate is "Resolved: That Congress should be empowered to fix maximum hours and minimum wage for industry." Both of the finalist teams uphold the affirmative side in the trials.

## OUTING CLUBS TO MEET IN VERMONT

The Bowdoin Outing Club has been invited to attend the I.O.C.A. week meeting in Vermont. The University is to be held March 19-21 at Stowe, Vermont. Other colleges that will send representatives will be Vassar, Wellesley, Smith, Williams, Dartmouth and Yale.

The main feature of the week end will be skiing on Mount Mansfield. Those desiring to attend should see Charles White at their earliest opportunity.

## THE BOWDOIN ORIENT

## New Meadows Inn Is Destroyed By Flames

Alumni returning in June will be disappointed to find only ashes remaining of the old and famous New Meadows Inn, landmark of the Brunswick shore and scene of many undergraduate and alumni festivals, since it was built in 1889, including one at which Kenneth C. H. Sills '01 set a record eating lobster steaks. The inn burned last Friday noon.

Charles H. Cahill, of Bath, owner of the inn, estimates the loss at \$20,000. He is reported as uncertain whether or not to rebuild.

## PROFESSOR BANCROFT GIVES FINAL LECTURE

Prof. Wilder D. Bancroft, visiting professor from Cornell University, gave an account of the chemistry of leaves in the last of the Tallman public lecture series in the Moulton Union Wednesday evening.

Leaves turn yellow or red, Prof. Bancroft explained, for the protection and encouragement of certain elements called drastanes or enzymes. Drastanes perform their function much more rapidly in red or yellow light, so the plant provides light for itself in those colors by colloidal de-pigments which change the color of the leaf itself.

Furthermore, Prof. Bancroft said, the drastanes must be protected from ultra-violet rays or they will be destroyed. This function also is performed by the red and yellow colorants. Prof. Bancroft has given three previous public lectures this semester.

## PORTLAND PASTOR TO SPEAK SUNDAY

The Rev. Ernest Webster Robinson, pastor of the Clark Memorial Methodist Episcopal Church of Portland, has been invited as the speaker at Chapel next Sunday. His topic will be "A Guide for Life."

Rev. Robinson was graduated from Bates College in 1923 and from Boston University with the degree of Doctor of Divinity in 1926. He is a member of Phi Beta Kappa. Following a year of teaching at the Bangor Theological Seminary in 1928, he was pastor at Kittery and then at Bangor before being appointed to the Clark Memorial Church in 1929.

He is a graduate of Amherst College and has studied at the Episcopal Seminary in Cambridge, Mass., and at Magdalene College, Cambridge University, England.

## SKETCH CLUB HOLDS ITS FIRST MEETING

Twenty-five men turned up Thursday evening of last week for the first meeting of Bowdoin's newly organized sketch club, the Walker Club. Kenneth C. H. Sills '01, manager of the art collections, who is in charge of the club, allowed the members to wander about the galleries at the first meeting to select any special studies they might wish to make.

He believes that the first evening's work makes prospects appear promising. An exhibition of the best student sketches at commencement is his intention.

In his first talk on the various techniques of drawing with pen, pencil and brush, Mr. Bean will discuss the history of drawing and what is meant by quality in it Tuesday at 7:30.

## FROSH DEBATERS MEET BIDDEFORD

The Bowdoin freshman debating team will meet the team of Biddeford High School today in a decision debate on the electric utility question, and on Monday will debate the same question against Deering High School. The team recently debated Cony and Biddeford High Schools in no-decision contests.

Members of the team are George Little, Arthur Wang, Edward Palmer, and Damon Scales.

## FACULTY TO BE IN UNION TOURNEY

The faculty team will play special matches with the semi-finalists in the various divisions of the tourney.

Twenty-five men turned up Thursday evening of last week for the first meeting of Bowdoin's newly organized sketch club, the Walker Club. Kenneth C. H. Sills '01, manager of the art collections, who is in charge of the club, allowed the members to wander about the galleries at the first meeting to select any special studies they might wish to make.

He believes that the first evening's work makes prospects appear promising. An exhibition of the best student sketches at commencement is his intention.

In his first talk on the various techniques of drawing with pen, pencil and brush, Mr. Bean will discuss the history of drawing and what is meant by quality in it Tuesday at 7:30.

## REV. G. L. CADIGAN WILL PREACH HERE

Rev. George L. Cadigan, keynote speaker at this year's Bowdoin religious forum and assistant director of religious activity at Amherst College, has accepted the rectorship of St. Paul's Episcopal Church in Brunswick and will take over the position in June.

He is a graduate of Amherst College and has studied at the Episcopal Seminary in Cambridge, Mass., and Magdalene College, Cambridge University, England.

**OUR OFFER**

PRINCE ALBERT MONEY-BACK GUARANTEE

Smoke 20 fragrant pipefuls of Prince Albert. If you don't find it the mellowest, tastiest pipe tobacco you ever smoked, return the packet tin with the rest of the tobacco in it to us in time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

**PRINCE ALBERT** THE NATIONAL JOY SMOKE

50 pipefuls of fragrant tobacco in every 2-oz. tin of Prince Albert.

**SIG BUCHMAYER**, internationally famous ski expert, says: "I smoke Camels with my meals and afterwards, for digestion's sake!" Camels speed up the flow of digestive fluids—when the digestive fluids are slow, they never tire my taste."

**EVERY TUESDAY NIGHT!**

**Jack Oakie's College**

Irrepressible Jack Oakie leads you through a full-hour's gala entertainment. Imagine Jack Oakie running a college! Don't miss him or his supporting cast! Benny Goodman's "Swing" Band! Hollywood comedians and singing stars! Special college amateur talent every week! Tuesdays—9:30 pm E.S.T., 8:30 pm C.S.T., 7:30 pm M.S.T., 6:30 pm P.S.T., WABC-CBS.

**Model League Opens  
Annual Meeting Today**

Bowdoin's seven delegates to the New England Model League of Nations at Radcliffe and Harvard colleges this week will attend the opening meeting this morning and will spend this afternoon in special committee meetings, working out resolutions which will be submitted to the general league meeting tomorrow.

The Bowdoin delegates are Charles F. Brewster '37, Donald R. Brown '37, William S. Burton '37, Harold D. Ashkenazy '38, William C. Hart '39, George T. Little '40, and James W. Blunt '40.

Of 22 delegates who will have part in tomorrow's model session of the International Law Conference, the largest delegation will be from Bowdoin, which is representing the United States this year. A Bowdoin man will be in each of the groups in discussion. Brewster is representing the government. Blunt, the employers, Ashkenazy the workers, and Bryant the workers' advisors.

Amherst College is representing Great Britain at the session; Wellesley represents France, Mount Holyoke represents Italy, Harvard represents Poland, and Smith represents India. Several other colleges are also taking part.

**LAST MOVIES TO BE  
TOMORROW EVENING**

The final program of the series depicting the rise of the American film will be shown tomorrow night at Memorial Hall. This sixth program is entitled "The Evolution of the Motion Picture." Mickey Mouse will be seen in his screen debut, "Plane Crazy," and Paramount's "The Last Command," directed by Josef von Sternberg, will be shown. This picture was one of the earliest to give its audience a behind-the-scenes picture of Hollywood. The

Lead player is Emil Jannings, at the time fresh from European fame. Evelyn Brent and William Powell are among the other players. Both pictures were produced in 1928.

**Last Show Successful**

"Screen Pictures," shown in Memorial Hall Saturday, proved one of the most popular shows thus far. The program included the May Irwin-John C. Rice Kiss, a fifty-foot excerpt made in 1898, daring for its age, but a distinct laugh at present. "Enoch Arden" with Lilian Gish was shown in part.

Mickey Mouse will be seen in his screen debut, "Plane Crazy," and Paramount's "The Last Command," directed by Josef von Sternberg, will be shown. This picture was one of the earliest to give its audience a behind-the-scenes picture of Hollywood. The

**"Chinese Vases" Wins  
Prize In '68 Speaking**

(Continued from page 1)

Maine people seem to be a gregarious tourist, and asserted that the state's present should mean more to its members than its past. The Yankee, still different from his countrymen, has progressed much beyond his ancestors in the past few years.

Norman P. Seavey spoke on "Alfred the anarchist," discussing the life of a far-thinking man, hated in his own day. Charles F. Brewster, John C. Rice Kiss, a fifty-foot excerpt made in 1898, daring for its age, but a distinct laugh at present. "Enoch Arden" with Lilian Gish was shown in part.

The last picture was "Monsieur Beaucaire," 1924, with Rudolph Valentino, Bebe Daniels, Lois Wilson, and Lowell Sherman appear in roles carefully subordinated to Valentino's. The predominant feature of the film was the portrayal of the famous Valentine as a screen actor.

President Sills acted as chairman and judges for the contest were Professor George E. Hill '24, Mr. Brewster, Rev. John F. Stearns '19, Mr. Stetson, Prof. Donald W. Webber '19. Music was provided by Paul Ivory '37, cello, with Malcolm Carr '37, at the piano.

Pres. Sills' remarks were as follows:

"The Class of 1968 Prize Speaking contest is one of the most interesting and distinguished exhibitions held by the college. The prize was established by the members of the Class of 1968.

S.

"Last year, as many will remember, the prize was won by Lawrence S.

Hall."

When they were seniors, contestants were held regularly from 1969 until 1970, then from 1971 until the present day. The prize is given for the best oration written and delivered by members of the senior class. There have been 63 winners. The first prize was awarded to Charles A. Stevens of the Class of 1968, the well-known writer of stories for girls.

"On the list of subsequent awards we find the name of Edward Page Mitchell '71, a great editor of the New York Sun; Samuel V. Cole '74, President of Wheaton College; Dudley A. Sargent '71, author of "Geography in Higher Education," and recommended required courses in geography because of their cultural value. Paul H. Jones '76, of the Supreme Court of Maine; Charles H. Cutler '81, a distinguished clergymen and long a member of the Board of Directors of the Thomas Merton Society; Robert Hale '10, formerly Speaker of the Maine House of Representatives; George E. Hill '24, the present Speaker of the same House; Edward F. Stearns '19, formerly on our Faculty, now Commissioner of Correction of New York; Charles Wilbert Snow '07, a poet, and Professor of English at Wesleyan University; Kenneth A. Thompson '14, writer and Professor of English at Dartmouth, and the following members of our Faculty: Professor Chase, Assistant Professor Daggett and Quinby.

"Last year, as many will remember, the prize was won by Lawrence S.

Hall."

President Sills' remarks were as follows:

## Porter, Soule, Healy Star In Win Over Eagle Trackmen

(Continued from page 1)  
jump, were the only Bowdoin winners in the early stages of the meet.

An unexpected win by Soule in the 40-yard dash and a clean sweep of the 35-pound weight, in which Tootell starred, also changed the whole course of the meet and put the Polar Bears in the lead for the first time in the meet, 32-18.

Boston College soon gained the lead when Gill and Allen led Jeff Stanwood to the tape in the 440. Then with the visitors leading 34-20, Soule and Gibbs won first and third respectively in the broad jump and Porter and Hamblen did likewise in the most thrilling race of the day, the 880. Three laps before the finish, Porter passed McKee and Hamblen and fought off a driving finish by the Eagle runner to win in the fast time of 2:01.1-8. That event tied the score at 45-45.

Rough, the Boston College two-miler, had his own way in that race with Charlie Young and George Hill of Bowdoin second and third and the Eagles third and fourth went into the lead by one point, 50-49.

### Bowdoin Sweeps Pole Vault

With only the pole vault and the discus left, spectators were on the edge of their seats. The pole vault was settled first; Bowdoin made sure of all points possible when Rideout, Diller, and Will Allen tied at 10 feet. 11 inches. After a hard pull, breaking the bar on his last chance, Bowdoin then needed only a third in the final event to win by one point. The best Boston College could do was a second in the discus, and Bowdoin won the meet by a much larger margin than expected.

### The Summary:

45-yard high hurdles—Won by McFarland, Boston College; second, Deane, Bowdoin; third, McNally, Boston College. Times: 6 seconds.  
45-yard low hurdles—Won by McFarland, Boston College; second, Healy, Bowdoin; third, Deane, Bowdoin. Times: 2-1 seconds.  
45-yard dash—Won by Soule, Bowdoin; second, Johnson, Boston College; third, Lloyd, Bowdoin. Times: 4-4 seconds. (New cage record.)  
400-yard run—Won by Gill, Boston College; second, Allen, Boston College; third, Stannard, Bowdoin. Times: 51 seconds. (New cage record.)  
880-yard run—Won by Porter, Bowdoin; second, McKee, Boston College; third, Hamblen, Bowdoin. Times: 2:01.1-8.  
One-mile run—Won by Porter, Bowdoin; second, Deane, Bowdoin; third, Crotin, Boston College. Times: 4:34.5-3.  
Two-mile run—Won by Beach, Boston College; second, Young, Bowdoin; third, Hill.

## SPORT SIDELIGHTS

By BILL Hawkins

With all forecasts pointing to an extremely close battle from the Boston College tracksters Saturday Bowdoin's hopes remained more too high when Bill Owen's injury discounted the White's chances by an all-important two hurdle firsts at the meet's very start. For the final triumph Jack Magee and a fighting Polar Bear squad deserve much credit. Repeatedly Bowdoin men came through for unexpected places in the running events where B.C.'s strength lay, as well as showing surprising superiority in the field events. Cope's first in the dash, Hood's and Deane's places in the hurdles, Hamblen's third in the 880, and Hill's third in the two-mile all bettered previous expectations.

Allen in the pole vault and Soule and Gibbs in the broad-jump each added enough extra inches in their last attempts to force ahead of B.C. Dave Soule running for the sky in his last jump picked up another foot, however, clean sweeps in the pole vault and 35-pound weight, and victory in the discus can hardly be expected to be repeated in the Polar Bear's return meet in May when B.C.'s latent field strength has had the advantage of outdoor training. Nevertheless, Bowdoin still has a clean slate over the Eagles, having won its only previous dual meet in 1934 by a somewhat wider margin.

Bowdoin's varsity 400-yard mermen relayers, three of them sophomores, have consistently clipped seconds from their own record-breaking marks all through the season until now they enter the New Englanders favored to win. Starting with 3:54-2 at the B.U. meet they have finally shaved it to 3:47-2, that of the Springfield, which is one-half a second below the Curves' Pool record. However, Amherst now presents a dangerous threat in a team which beat Williams last Saturday in 3:46.

## 46 MEN REPORT FOR BASEBALL PRACTICE

With a turnout of 46 men, Coach Linn Wells greeted one of the largest crowds ever to assemble for baseball practice in the cage last week in preparation for the 1937 season. The biggest part of the squad is made up of Freshmen some of whom, although ineligible for thearsity team this year, have shown up very well as possible J.V. men and as potential strength for varsity teams of the future.

The rifle meet with the University of Maine, March 18, will be postponed until after the season closes for the Bowdoin Rifle Team. The Freshman team is shooting a postal match with New York University next week in the prone position only.

Bowdoin, Time, 10.24 2-5.  
High hurdles—Won by Stanwood, Bowdoin, second, Cope, Bowdoin; Boston College, third, Helton, 5 feet, 10 inches.

Broad jumps—Won by Soule, Bowdoin, 21 feet, 6 inches; second, Gibbs, Bowdoin; third, Deane, Bowdoin. Times: 2-1 seconds.

45-yard dash—Won by Soule, Bowdoin; second, Johnson, Boston College; third, Lloyd, Bowdoin. Times: 4-4 seconds. (New cage record.)

400-yard run—Won by Gill, Boston College; second, Allen, Boston College; third, Stannard, Bowdoin. Times: 51 seconds. (New cage record.)

880-yard run—Won by Porter, Bowdoin; second, McKee, Boston College; third, Hamblen, Bowdoin. Times: 2:01.1-8.

One-mile run—Won by Porter, Bowdoin; second, Deane, Bowdoin; third, Crotin, Boston College. Times: 4:34.5-3.

Two-mile run—Won by Beach, Boston College; second, Young, Bowdoin; third, Hill.

## ELEVEN TANK TEAMS WILL COMPETE HERE

(Continued from page 11)  
Dodge, of the Polar Bear, is set for a good position in the individual medley event because of his versatility. Worcester Polytechnic Institute has Evans who is an outstanding competitor in the breaststroke. Springfield will lay most of its hopes upon Noonan, its diver.

Whoever is following will be the officials for the meet:

Referee, M. J. Kennedy; Amherst; announcer, Linn "Wells"; Bowdoin; chief clerk, Denholm Smith; Bowdoin; head judge, Hugh McCurdy; Wesleyan; judges, Grant, Wallace, McCurdy, McLean, Jones, Jarosh, Rogers; diving judges, McCurdy, Wallace, Rogers, Grant, Jarosh; inspectors, Walsh, Shulman, Spinney, White, Paulson; timers, Leo Barry, J. J. Magee, Dr. Henry Johnson, M. E. Morrell; timers for trials, Friday, Lane 1, Harry Moore, Mike McLean; Saturday, Lane 2, Jack Trout, Dick Gould, Hoyt Mahn; Lane 3, Harold White, Walter Spahlholz, William Gehrie; Lane 4, Henry Franklin, D. D. Lancaster, Pat French; Lane 5, John Boyd, Herbert Hartman, Charles Sadler; alternates, Harry Hall, Don.

### DICK MAY

Captain of the Bowdoin mermen who will be the White's principal competitor in the 200-yard breaststroke when eleven New England Colleges vie for aquatic honors here tomorrow.

## Two Bowdoin Trackmen To Compete In IC4A Meet

Jeff Stanwood '38 and Bob Hamblen '39, star runners on the Polar Bear track team, will accompany Coach Magee to the annual IC4A games which take place in Madison Square Garden, New York, on April 11.

The Polar Bear team is considered one of the best professional teams in the country, having lost only four of forty-five games with basketball teams from all over the United States. The Polar Bear team, however, turned in one of the most admirable performances of this year and at no time was either team more than six points ahead of the other.

Cartland and Frazier were outstanding in their play while one of the school's tall athletes combined with fancy tricks with a basketball. At the half the score was 26 to 23 against the Polar Bear team but before the end they had gained back all but one point.

The game was played for charity and the crowd of 250 was

ever seen.

# THE BOWDOIN ORIENT

VOL. LXVI

(86th Year)

BRUNSWICK, MAINE, WEDNESDAY MARCH 17, 1937

SEE 'EMPEROR JONES'  
MONDAY

NO. 23

## The Sun "Rises"

By William Frost  
DON'T miss "The Emperor Jones," to be put on twice next Monday evening. Dick's acting talents, and everyone who, in his wildest dreams, has ever imagined Professor Chas. C. Conant dressing up as such Cockney or visualize Professor Herbert Ross Brown as a Pullman Car porter, will find his dreams coming true when he sees "The Emperor Jones."

An English, education, mathematics, French, history, art, economics, German, and philosophy majors will have to go to "The Emperor Jones," as a glance at the cast shows, if they want to see how their department stands up behind the foot-lights. Still all men who have ever worked in the theater, from stagehands to ball team; for the Messers. Walsh and Lancaster have the parts of a prison guard and a negro slave respectively.

As for "The Emperor Jones" itself, it has not only been widely read and successfully produced in New York, but it has been made into a movie and an opera so great in popularity. Eugene O'Neill was last year's Nobel Prize winner in literature and is considered by many to be America's leading modern playwright. Of all his plays, "The Emperor Jones" is perhaps the best known and the most unusual.

A few remarked the other day, this has been one of the fullest Marches in recent years—play contest, New England meet, speeches by Thornton Wilder, contests, gym dance, Mem. Hall movies. Tallman lectures, Portland Polyphonic and Curtis String Quartet concerto's, all are good, legitimate column-fodder for the Rising Sun.

In the college, certainly the high light of the month came last week end with gym dance and New England. While it is not the purpose of the Sun Rises to give voice to carpings and criticism, Bowdoin's creditable showing in the spectacular meet may give occasion for pointing out here one of the present needs of the College.

In a time of general athletic successes for Bowdoin, when college sports is running high, the college spirit is running high. All inter-collegiate meets held over are apt to forget the emphasis on sports apart from inter-college competition is perhaps smaller at Bowdoin than the best interests of the entire college might warrant.

Theoretically the purpose of college sports should be the health and the health amusement of all the students; but in the severer climate of inter-collegiate competition this purpose is too often apt to with and not survive.

OUR age and country are notorious for the passive attitude of the average man towards his recreations. Therefore the general public, in college or out, is not given to indignant protest against a system of athletics in which the normal, necessary function of the coach is to give him pep-its and not to contribute to the development of potential variety material.

It is quite true that a large part of the undergraduate body at Bowdoin is represented on varsity and junior varsity teams. But this is exactly the part of the college that is best able to get along best, athletically speaking, without the instruction and encouragement of a coaching staff at all. Where the need is greatest, such instruction and encouragement is too often least apparent.

Solutions to the difficulty does not seem to lie in inter-college sports nor in stiffer blanket athletic requirements. It may perhaps be found in special, additional coaches to deal thoroughly with sports like "dub" tennis playing or Class C swimming on a strictly non-intercollegiate basis.

## Curtis String Quartet To Play Next Tuesday

The Curtis String Quartet of Philadelphia will present a program of music for string instruments in Memorial Hall next Tuesday evening. Included in this program will be a quartet by Beethoven, a serenade by Wolf, and the Cesar Franck quintet for piano and strings. Frederick Tilotson, head of the music department, will play the piano part in this last selection.

This quartet consists of Jascha Brodsky, violin; Charles Jaffe, viola; Max Aronoff, viola, and Orlando Cole, cello. It is the official quartet of the Curtis Institute of Music of Philadelphia.

The program will open with the famous Quartet in F Minor by Ludwig Von Beethoven. A selection on violin and cello.

Completing the evening's performance the Quartet, assisted by Professor Tilotson, will play the Cesar Franck Quintet for piano and strings. In connection with this number classes in Music 1-2 and 3-4 will write two papers, the first a complete analysis of the score, the second, a record of personal reactions to the performance that evening.

The Curtis String Quartet completed a successful tour of the United States and Europe. Its appearance next Tuesday evening will mark its third concert at Bowdoin. The event is being sponsored by the music department.

## MAGEE PROPHESIES THREE-WAY BATTLE IN NINETEENTH ANNUAL INTERFRATERNITY TRACK EVENT

### Zetes, Psi U.'s, A. D.'s Favored COMPETITION KEEN

Porter, Stanwood And Soule Expected To Triumph; Freshmen Strong

By Richard Dayo

A three-way battle for first place is predicted in Bowdoin's 19th annual Interfraternity Track Meet, which will take place at the Hyde Cage, Friday, March 19. The track meet is in this of the past three years there will be no high totals in this, the outstanding event of the interfraternity athletic season.

"Quality, not quantity, is the by-word of this year's meet," says Coach Magee. "We have the fine line of history that I have passed down the entries until only honest, earnest trackmen are left to compete. The half-and-half runners, out for a good time and attendance, have been dropped from track, leaving a fine line for next year." It is a toss-up among the Zetes, A.D.'s, and Psi U.'s.

No one fraternity can boast of any powerful array such as the Zetes had last year, but each of the half-dozen remaining houses has strong interest. Zeta Psi has had Dick Hyde, Dan Healy, Bob Hamlin, Win Allen, and Bob Hyde as probable point-winners, though the loss of "Squeak" MacKenzie weakens the Zetes considerably.

A.D.'s Favored

Looming up in the Zetes' path toward the repetition of last year's conquest are the A.D.'s. The addition of Freshman Neil Allen boosts the A.D. stock, and his hurdling ability should augment the performances of Jeff Stanwood, Buzz Hall, Bert Pauli, Fred Fitts, Neal Howard, and Jay Pratt.

A third strong group that must be figured in the running is Psi Upsilon. Lin Rowe, freshman, and Allen's equal in the hurdles, runs a fine race over the long jumps as well. Steve Rowe, over the middle distance, Johnny Hooke, Harry Hood, and Bob Swab, a four-man team which might well carry top honors.

(Continued on page 4)

## Sawyer Is Again President Of '37

For the third consecutive time Wendell C. Sawyer was chosen as president of the class of 1937 at the annual meeting in Memorial Hall yesterday evening. At the same time Daniel W. Healy, Jr., was elected vice-president and William S. Burton permanent secretary.

Nathan Davis, 2nd, and Frederick L. Gwynne are editor and class manager, respectively, and Jonathan W. French, Jr., and William R. Owen were elected to class orator and marshal. Edwin Benjamin will write the history of the class of 1937 to be read at Commencement.

The following committees were chosen:

The Commencement Committee: Ledgard M. Hall, chairman; Richard T. May, Neale E. Howard, David B. Rideout and Richard H. Beck. The Cam Committee consists of: Richard M. Steer, chairman; Crowell C. Hall, and John D. Lawrence.

## Montague, Huntington Represent Varied Fields Of Modern Thought

By Richard Everett  
President K. C. M. Sill presided at the debate and the judges were H. Browne, Mr. Fulmer, well known English author; Milton Ellis, professor of English at the University of Maine, and Herbert M. Geener, Jr., of the Unitarian Church at Augusta. Mr. Fulmer took the place of Mr. Daniel P. Crowley, recorder of the Biddeford Municipal Court, who was unable to be present.

Huntington, professor of mechanics in Harvard University, was born in 1874. He received his A.B. (1895) and A.M. (1896) from Harvard.

Montague is the exponent of the neo-realistic school of philosophy which was started some thirty years ago as a revolt against the idealistic school. (This idealistic school is represented at the Institute by Professor C. Watts C. Huntington of Cornell.) Montague's book, "The Ways of Knowing," outlines his main views of philosophy.

His views as set forth in this book differ from those of many philosophers in that he believes that there is more than one method by which thinkers can learn about the universe. His theory does not limit itself to one approach as does that of the idealists.

Montague has been called one of the few living men who has a definite philosophical imagination. He is very good in his ability to express abstract ideas. This ability to clarify his statements with examples makes him an unforgettable speaker.

Montague was born in 1873. He received his A.B. degree in 1895, his A.M. in 1896, and his Ph.D. in 1897, all from Harvard. He was instructor in philosophy at various colleges and

## Past Winners

Following are the winners of the Interfraternity meet for each year since Coach Jack Magee introduced the event in 1919:

1919	Delta Kappa Epsilon
1920	Kappa Sigma
1921	Kappa Sigma
1922	Zeta Psi
1923	Sigma Nu
1924	Beta Theta Pi
1925	Zeta Psi
1926	Sigma Nu
1927	Zeta Psi
1928	Zeta Psi
1929	Delta Kappa Epillon
1930	Delta Kappa Epillon
1931	Delta Kappa Epillon
1932	Zeta Psi
1933	Zeta Psi
1934	Delta Kappa Epillon
1935	Zeta Psi
1936	Zeta Psi

Friday night marks the nineteenth consecutive competition for this coveted title.

## GLEE CLUB TO SING AT COLBY

Tillotson Will Play Group Of Selections At Concert Tomorrow Night

By Richard Moran

On Thursday, March 18, the Glee Club will go to Waterville for a joint concert with the Colby College Glee Club. This concert is a return courtly for the joint musical program of Colby, Waterville, and Bowdoin. Bowdoin held her January 14. The glee clubs of both colleges will be entertained at a banquet before the concert and at a dance following. Several faculty members also plan to make the trip with the Glee Club.

The program will consist of male voices, mostly the Glee Club of both colleges.

Following Tillotson will sing a group of piano solos after which the Bowdoin Glee Club will sing a group of songs including the difficult "David Jazz." Next the two clubs under the baton of Mr. Thomas of the Colby Musical Department will render "Adoration," "Ye Is Palatine," "Brothers Sing On" by Grieg. Then the Colby group will sing a group of selections and the program will be closed with each glee club rendering two of its college songs. Bowdoin will sing "Bowdoin Brats" and "Glasses Clicking High" while Colby will conclude with "Hail Colby" and "Alma Mater."

A. D. Debaters In WIN OVER BATES

By Richard Everett

As part of a program to improve the appearance of the campus, a group of the college students have been selected to conduct a study of the trees on the college property during the spring vacation. This work will be under the guidance of Professor Goodspeed, and will include not only the trees on the campus proper, but also those around Whittier and Pickard fields.

The following committees were also chosen:

The Commencement Committee: Ledgard M. Hall, chairman; Richard T. May, Neale E. Howard, David B. Rideout and Richard H. Beck. The Cam Committee consists of: Richard M. Steer, chairman; Crowell C. Hall, and John D. Lawrence.

## GROUP TO CONDUCT TREE SURVEY HERE

By Richard Everett  
President K. C. M. Sill presided at the debate and the judges were H. Browne, Mr. Fulmer, well known English author; Milton Ellis, professor of English at the University of Maine, and Herbert M. Geener, Jr., of the Unitarian Church at Augusta. Mr. Fulmer took the place of Mr. Daniel P. Crowley, recorder of the Biddeford Municipal Court, who was unable to be present.

Huntington, professor of mechanics in Harvard University, was born in 1874. He received his A.B. (1895) and A.M. (1896) from Harvard.

## A. D.'S WIN IN SECOND ANNUAL SONG CONTEST

### Gain Temporary Possession Of Wass Memorial Cup Held By Zeta Psi

### ZETES AND BETAS RECEIVE MENTION

### Glee Club Sings Four Songs After Contest; Sills Lauds Entrants

Singing fraternal songs, negro spirituals, and comic scores, a western band, and marching songs, six fraternities competed in the second Interfraternity Singing Contest held in Memorial Hall Monday evening. Alpha Delta Phi fraternity by its rendition of "We Come with a Shout and a Song," and "Schneider's Band" a novelty march, sang songs, gained temporary possession of the Wass Memorial Cup for group singing. Honorable mention was given to Zeta Psi, winner of last year's contest, and Beta Theta Pi.

The performance of the A.D.'s under the leadership of Professors M. Philipps Mason and Ellbridge Sibley of the Bowdoin faculty and Mr. Alfred Brinkley of Portland were arriving at a decision, the college Glee Club gave a group of four selections:

"Brothers Sing On" by Grieg, "I Got Shoes" a negro spiritual by Bartholomew Johnson, "Morning" by Dudley Buck, and "Improvement Noted."

After a brief address by Mr. Brinkley, donor of the cup, who remarked on the improvement in singing over the year, President Sills presented the trophy to the A.D.'s. The president "pointed with pride" to the six houses that competed and "viewed with alarm" those which did not. Following are the songs presented by the competing houses:

The Delta Upsilon Chapter, "The Wild and Woolly West"; Zeta Psi, "Wimpy Song"; Sigma Nu, "Sweet Charlie"; Delta Kappa Epillon, "Phi Marching Song"; and "Brother, There's a Stout-hearted Man"; "New Moon"; "Loving Cup," a fraternity song; "Alpha Delta Phi—Marching Song" and "Schneider's Band."

Delta Upsilon—A medley based on "Easter Parade" and "Come Brothers, All Your Glasses Fill," sung to the tune of "Down Among the Dead Men."

## BOWDOIN DEBATERS IN WIN OVER BATES

By Richard Everett

By a close decision, the Bowdoin debating team defeated the Bates team in an Eastern Intercollegiate Debate, at the Union last Friday. The debate was won 2-1 in favor of Norman P. Seagrave and Harold D. Ashkenazy '38, who upheld the negative side of the question.

"Resolved, That Congress should be empowered to fix minimum wages in certain hours of industry." Bates was represented by William Metz and Donald Welch.

The visitors based their case on the deplorable wage conditions as they now exist in industry and advocated that Congress be empowered to remedy these conditions. The negative, on the other hand, felt that conditions could be taken care of by organized labor and state control.

President K. C. M. Sill presided at the debate and the judges were H. Browne, Mr. Fulmer, well known English author; Milton Ellis, professor of English at the University of Maine, and Herbert M. Geener, Jr., of the Unitarian Church at Augusta. Mr. Fulmer took the place of Mr. Daniel P. Crowley, recorder of the Biddeford Municipal Court, who was unable to be present.

Huntington, professor of mechanics in Harvard University, was born in 1874. He received his A.B. (1895) and A.M. (1896) from Harvard.

## BROWN WINS FIFTH CONSECUTIVE NEW ENGLAND SWIMMING TITLE; WHITE STARS FOR POLAR BEARS

### Double Winner

### Bud White

Bowdoin freestyle, who won the 50-yard sprint and tied for first in the 100.

**BROWNS WIN FIFTH CONSECUTIVE NEW ENGLAND SWIMMING TITLE; WHITE STARS FOR POLAR BEARS**

**Browns** Hodder And Cutter Each Take Two Firsts; Latter Voted Outstanding Swimmer Of Year; Amherst Gets 1938 Meet

By Richard C. Fornari

Running true to form, Brown University of Providence won its fifth consecutive New England Swimming Association championship here last Saturday afternoon in the Curtis Pool, with a total of 33 points. Amherst was second with 26 points, and Massachusetts third, being only one point behind Amherst. Bowdoin took fourth place with a total of 15 points.

Bowdoin's Bud White won the 50-yard freestyle, defeating Lovre, of Brown, who had set a new individual relay record of 23 seconds in the trials on Friday afternoon. White and Hodder also placed in the 100-yard freestyle event in one of the most exciting races of the meet, and gave White the distinction of collecting nine points for Bowdoin in two events.

When the final 400-yard freestyle relay came up the last race on the program, Brown and Massachusetts State were tied at 25 points each, and Amherst had 21. This left the outcome up to the winner of the event, and Brown came through, winning by about two yards. Brown took pleasure in every event except the individual relays. Stalwart State had two outstanding men in Cutler and Hodder. Cutler won both the 220 and 440-yard freestyle. Hodder also was a winner in the 220-yard breaststroke, and the individual medley, considered the most difficult of all swimming events.

A new record was established in the 300-yard medley relay by Amherst who was clocked at 3 minutes, 10.5 seconds. Williams Freshmen also broke the freshman 400-yard relay record, held by Bowdoin for the past year, and set a mark of 3 minutes, 53.2 seconds.

When the final 400-yard freestyle was run the last race on the program, Brown and Massachusetts State were tied at 25 points each, and Amherst had 21. This left the outcome up to the winner of the event, and Brown came through, winning by about two yards. Brown took pleasure in every event except the individual relays. Stalwart State had two outstanding men in Cutler and Hodder. Cutler won both the 220 and 440-yard freestyle. Hodder also was a winner in the 220-yard breaststroke, and the individual medley, considered the most difficult of all swimming events.

## "OUR ATHLETIC MORONS"

Dean Nixon's statistics in his fine talk in Saturday chapel, "Our Athletic Morons," were interesting, unusual, and indicative of a very healthy situation. They were perhaps a little misleading in certain respects. For example, the lettermen might not have had a better average in scholarship than the college as a whole if there were not any eligibility rules, because men who are prevented from earning letters by deficiency in scholarship still count in the all-college average. Also, very few freshmen earn letters—none, starting this year—whereas a large proportion of the lowest grades are in the freshman class. (There wasn't even a sophomore in that famed starting line in the Colby game—four seniors and three juniors). It probably would be more accurate to compare the athletes in each class with the class as a whole. However, this is not to detract from the accuracy of the dean's general theme. It is as true as it is surprising that the college did find athletes to represent it in intercollegiate competition who were also above-average scholars. There could be no better proof that the college has not lowered its scholastic standards for the sake of giving its athletic teams a name. Nor could there be any better proof that this policy has been right than that its teams have won a name anyway.

H. F.

## POLL AGAIN

Prompted by the suggestion of President Sills, and realizing its own lack of forethought and initiative, the ORIENT is this week running a poll of both undergraduate and faculty groups, similar to last fall's presidential election straw vote, on the Supreme Court changes which have been proposed by President Roosevelt.

Again the ORIENT must ask that students and professors sign their ballots to prevent any stuffing of the ballot. Obviously this practice is not to be feared on the part of the faculty, but their names are requested so that comparative percentages may be worked out. A ballot as printed on this page at the top of the next column may be used, or a self-made one may be inserted in the ballot-box to be found in the Moulton Union. The balloting will close at midnight, Sunday, March 21st.

In speculating on the results of the poll, one reason which delayed ORIENT action in the matter was the perfectly reasonable assumption, based upon the 3-1 Republican vote last fall, that the college will be overwhelmingly against "packing" the highest judiciary body in the land. The margin will doubtless, in this small thoroughly New England college, be even greater this time. However, it will be interesting to see, by means of extra information desired on the poll, how many Democrats have balked on this issue, or whether any staunch Republicans have been liberalized by the stunning results of the fall election.

## NIXON PRAISES MARKS OF BOWDOIN ATHLETES

Entries Due March 18

In Union Tournaments

Declaring that the ranks of Bowdoin athletes were fully as high as any other group in college, Dean Nixon in Saturday chapel exploded the myth of the scholastic deficiency of the "Athletic Morons" and pointed out that physical and mental superiority usually go together.

Dean Nixon disclosed the starting line-up of the football team against Colby by referring to the study of scholastic averages made by Professor Boyce W. Barker. He said that there were fourteen "A's" and fifteen "B's" of those eleven men and that the center and two guards alone received all "A's" barring one "B." The speaker also declared that "although a magna cum laude is not uncommon, the team's scholastic average is higher than that of the college."

With quotations again from statistics, Dean Nixon pointed out that the rank averages of the football, track, tennis and golf groups were each higher than that of the college as a whole. He stated also that five seniors in the athletic group last year graduated cum laude and two were awarded Phi Beta Kappa keys. From the corresponding group this year, the speaker said that five men received Phi Beta Kappa appointments and that probably seven more will graduate with high honors in June. In conclusion, the Dean declared "college is wide open for 'athletic morons' of this type."

## COMMUNICATION

To the Editor of the Orient:  
In your February 24th issue one of our members suggested that a change in the method of election of Student Council members was desirable, and recommended that the Council be an automatic body composed of the heads of the various extra-curricular activities. To make the student government more representative, he said, the student membership on this council would be divided much as it is now, but with a saving elasticity when such was necessary.

2. Fraternities would be represented by a chance to select their own nominees and have them elected if they were worthy of election.

3. The student body would be divided into four groups, the senior membership on this council would be

divided much as it is now, but with a saving elasticity when such was necessary.

4. The council would be lifted from the thought, troubling though slight, that it is a body perpetuated by that of the senior members.

## Variety

By F. J. Gwyne, Jr.

Congratulations to Bob Miller, the Student Council, and others for a swell week end. The dance was one of the best. The newly-published letter from Fanny Garrison, who has been truly in love with John Keats, and not merely the foolish coquette that she has been considered.

Duke Ellington and a fine new show went into the Cotton Club Monday. James Hilton's latest quiet detective story is "We Are Not Alone". George Lyman Kittridge, who speaks here tomorrow night, is the subject of more anecdote probably than any other college professor. Irving Mills, the old promoter, has formed the Master Record Company, which has already sold out discs by Ellington, Calloway, Caspar Reardon, etc.

A fascinating book on "The English Athletes" is now out.

Hunt, the sweet-voiced one, with Goodman was offered a two-year contract; she refused, however, because she plans to marry a rivial stick-waver soon.

They're putting on T. S. Eliot's "Murder in the Cathedral" at the Bowdoin this weekend.

And speaking of Eliot, have you seen his introduction to Djuna Barnes' "Nightwood"? Or, for that matter, have you seen "Nightwood"? It is a strange, powerful thing.

George Hall and Dolly are wowing us with these boys with their stylized voices.

You've heard, doubtless,

of George Jean Nathan's concoction, "The Avon Flows". It's a combination of "Romeo and Juliet," "Othello," and "Taming of the Shrew".

Casa Loma really comes back in the record "I've Got My Love to Keep Me Warm" and "You're Laughing at Me," with two excellent vocals by old Kenny Sargent.

Mr. Coffin's "Saltwater Farm" is as good as anything he has brought out.

In the general opinion, the wordnotes by Lankester are perfect.

Ah, Ah-Nemandie.

"In a way, it's easier to keep in condition as a dancer than as a singer. Exercise can keep the muscles in shape, but there are a lot of things that can go wrong with the voice and throat. It stands to reason, then, that any actress wants a cigarette that is gentle and strikes the right note with her throat. I started smoking Luckies 4 years ago. They're a light smoke that treat a tender throat right."

Ruby Keeler

LOVELY WARNER BROS. STAR  
NOW APPEARING IN  
"READY, WILLING AND ABLE"

THE FINEST TOBACCOES—  
"THE CREAM OF THE CROP"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Keeler verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

## WILDER TO ATTEND EDUCATION PARLEY

Assistant Professor Philip S. Wilder will leave Brunswick today to attend a conference with Delegates from the Model League in New England to be held in Cambridge under the auspices of the Harvard Graduate School of Education. The general theme of the conference will be "The Relation Between Undergraduate and Graduate Work in Education" and under this heading many present day educational problems will be discussed.

## NOTICE

## LEAGUE BROADCASTS ON WORLD HOOK-UP

(Continued from page 1)  
observer in one committee meeting. At the individual committee meetings Bowdoin represented the United States with the following men: Charles Brewster, Donald Bryant, William Burton, William Hart, James Blunt, and George Little.

At the banquet on Tuesday evening President Payson of Harvard in an address suggested that the strong powers of the world give concessions of territory to Germany and Italy to satisfy their desires and so remove some threat of war in the world. In many of the informal discussions the practical failure of the League of Nations a policy bordering on a return to power politics was suggested. Jeffrey Campbell, from the United Peace Committee, in presenting the critique of this Model League, however, said that our members have made great advances in the field of science, communication, and industry, but it remains for the present generations to achieve harmony in international relations. The Model League worked earnestly towards this end and at the close of the meeting Saturday evening after much debate and committee discussion, four resolutions and two recommendations were accepted by the assembly.

**Peace Strike Not Sponsored**  
The suggestion at the Saturday luncheon that the Model League sponsor the annual Student Peace Strike to be held this year on April 22nd occasioned much heated argument. By a slight majority, however, the motion was carried "unanimously to adopt the suggestion but admitted that the colleges should decide as at an executive committee meeting at the conclusion of the League the president, Tucker Dean of Harvard, retired and Anton Singen of Brown and Ben Haller of Amherst were nominated for president. The meeting formally ended with a tea-dance at Agassiz House at Radcliffe College.

## GLEE CLUB MAKES THREE RECORDINGS

During the recent trip of the Glee Club, the Kaspar-Gordon Recording Studios of Boston were engaged to make recordings of the WEEBLES, a Boston recording station. "Bowdoin Beasts," "Boris Godounov," and "David Jazz" were thus obtained. These records may be secured through Professor Frederic Tillotson at a nominal price. Canvassings for the sale of these records are being made and each fraternity is urged to purchase at least one of these recordings.

## Zetes, A.D.'s And Psi U.'s Seek Track Championship

Expect Psi U.'s And A.D.'s To Battle For Top Honors In Relay

(Continued from page 11)  
Soule, Rowe, Cooke, Smith, Hall, Neal, Allen, Owen, and Gibbs are potential place-winners in the 40-yard dash. Soule is the edge over the field, while Cooke is the fastest horse. Entered in both hurdle fields is a strong contingent, drawn from various and freshman ranks. Owen, Neal, Allen, Rowe, Deane, Stanwood, Hood, and Hamblen are experienced stick-skimmers, and the winners will be difficult to pick.

### Frisco Players In 440

Bowdoin's relay team will battle among themselves for the quarter-mile. The quartet of Hall, Hamblen, Owen, and Stanwood will have to step to keep ahead of Cooke and Pope. Comparative times mean little in this star-studded 440, and experience should pay extra dividends.

Of chief interest in the distance runs will be Bob Porter's distance runs and Bob Porter's distance efforts. The plucky Porter can win the 880, mile, and two-mile, but it is doubtful if he could put these three victories together in one meet. Captain Bob will probably concentrate on two of these events and he is planned to cover whatever race he wants. Dr. to Bowdoin Chi Psi, Mac Lord, Kappa Sigma, Pope, Young, and Hyde should place in the half-mile, mile, or two-mile, whichever they choose to run.

### Dokes Rule Pole Vault

D.K.E. will rule supreme in the vault with its Rideout, Diller, Denham, and Akeley. Win Allen, however, should break-in as a point or two for the Zeta Psi. With Frank Denham on the shelf because of injuries, Stanwood is favored to top the high jumpers. The other A.D. points will depend on how Flits fares against Deane, Gregory, and Reardon. Soule is the class of the broad jumpers, with Owen, Rowe, Hall, and Gibbs jumping for the other points.

There has been no outstanding weight man since Bowdoin has graduated but a well-matched group of shot-putters includes Healy O'Donnell, Paul, Reardon, and Pratt. Healy should win. Bill Tootell, Sigma Nu, is the premier 35-lb weight thrower, and he is followed by Healy, Win Allen, Soule, Bouter, Swab, Healy, and Boulter will fight it out in the discus throw, while Howard and Pratt will get the remaining places.

### RIFLERS GO TO YALE; ELECT LORD CAPTAIN

Frank Lord was elected president of the Bowdoin Rifle Club in its meeting on March 14. The following officers were also chosen: Eastham Guild, Jr., vice president; Hubert Coffey, secretary; Peter Stengel, treasurer; and David Brown, executive manager.

A squad made up of Lord, Bradford, Wyer, Burton, Stengel, and Guild along with Coach Ralph Wagg will leave Bowdoin Friday morning for the Interscholastic Rifle Finals at Yale on Saturday. Approximately sixteen teams mostly from New England will shoot in the matches. This will be Bowdoin's final meet of the season.

Friday night the freshman team from Cony High of Augusta at the Adams Hall stage for a two-position match—prone and standing. Cony has defeated the yearlings by a small margin in an earlier meet.

### Frosh Tracksters Take Triangular Meet 71-15-9

Sweeping every first place but one and scoring often in the second and third spots, Bowdoin's undefeated freshman track team routed South Portland and Brunswick High Schools in a triangular meet here last Friday afternoon. Bowdoin piled up 71 points to South Portland's 15, with Brunswick Cony's 15.

High point scorers for the frosh were Neal Allen and Lin Rowe who topped both hurdles for first and second, tied for first in the 40-yard dash, with Rowe winning the 300-yard dash and broad jump later in the afternoon.

**Moses Takes Mile**

Moses of South Portland prevented the Frosh from making a clean sweep of the first places by coming home first in the mile run, followed by Sanborn of Bowdoin and Best of South Portland in 4:50-3:5.

"Charlie" Pope, who usually runs the 600, led his teammate, Bills, across the line in the 1000, while Hartman and Best took the first and second points in front of two South Portlanders in 1:20-4:5. Pratt and Boulter placed first and third respectively in the twelve pound shot.

### SPORT SIDELIGHTS

By Leighton Nash

Although the Zetes have a slight edge in the doping of Friday's meet a few breaks for either the A.D.'s or the Psi U.'s should be enough to change the color of things. At any rate, it promises to be the closest interscholastic meet ever seen. The question is whether the winter title will be decided until the finals of the relay which come during the interscholastic Saturday afternoon. As for individual high point winners Porter, Rowe, Healy, and Neal Allen are all possibilities.

\* \* \*

Another thing about the meet—Jack has pared the squad down so that almost everyone entered will go into his event as a potential point-winner. That means that the meet will be faster and better since we won't be tortured with the spectacle of some half-baked miller attempting to better twenty feet in the shot put or of half a dozen men being lapped in the 880. Trials yesterday and today will have eliminated all but the cream of the broad-jumpers, high-jumpers, and quarter-mile men.

\* \* \*

A new cage record came into existence Monday when Bob Porter, paced by Charlie Pope for half a mile, ran the thousand in two minutes, 17.45 seconds. This chopped nearly four seconds from the old record of two minutes, 21.25 seconds set by Ulacke in 1932. That's the second record that's fallen this winter. The previous record was set in the Boston College meet two weeks ago—and it puts Porter in possession of three present cage records in the mile, the two mile, and the thousand.

**Over 200 Trackmen Enter 25th Annual Interscholastics Saturday**

By Mitt Semer

Two hundred and forty-three trackmen, coaches, and managers representing 28 high and prep schools from 10 different states are scheduled to arrive on campus Friday and Saturday to participate in Bowdoin's twenty-fifth annual Interscholastic Track Meet which takes place in the cage next Saturday afternoon. The number of entries has increased down the year to one entrant in each event except the 40-yard dash, where two may be entered, and the relay.

The visiting schoolboys invade the Hyde Cage again after a lapse of one year. Last year the meet had to be cancelled on account of the flood.

### New Teams Enter

Among the visiting schools are several new ones: Terence High School of Schenectady, New York, one of the new teams to enter the Interscholastics and also situated the farthest distance away, was the winner of the recent Dartmouth Track Carnival.

Carrington High School, Mass., a winner in the past of this annual classic has already won the Andover Interscholastic Meet.

**Coach Bob Miller**

Coach Bob Miller had a pretty high score in picking winners of Saturday's swim meet. He called them all correctly with the exception of the Love-White tie in the 100 and the results of the 300-yard individual medley relay. Hackett Bridge M.L.T. to win, but the best hit favorite could do was third as Hodder of Mass. State, picked by Bob for fourth, crossed the line a winner.

On account of the difficulty in providing lodgings and meals for the trackmen, the new rules call for

schools within a distance of 100 miles to arrive Saturday instead of Friday as in the past. Schools coming more than 100 miles will be guests of the college both Friday and Saturday.

Prep schools arriving Friday are: New Hampton, N. H.; Tilton Academy, Tilton, N. H.; Worcester Academy, Worcester, Mass. Those arriving Saturday are: Cobbs Cliffs, LaSalle Academy, Providence, R. I.; Bridgton Academy,

### High School Entrants

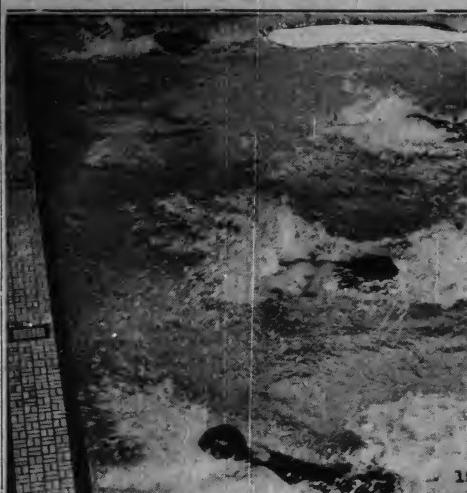

High Schools arriving Friday are: Robert E. Fitch, Groton, Conn.; Freedoms Academy, Freedom, Me.; Lowell, Mass.; Medford, Mass.; Newton, Mass.; Nott Terrace, Schenectady, N.Y.; Lynn Classical, Mass.; Brookline, Mass.; Lawrence, Mass.

High schools arriving Saturday are: Brunswick, Cony of Augusta, Deerfield, Lincoln Academy, Newcastle, Middleboro, Mass.; Portland, Skowhegan, South Portland, Stephens of Rumford, Thornton Academy of Saco, Lewiston.

Theta Delta Chi's bowling trio, composed of Ben Haggard, Don Cole, and Paul Wilson, took the possession of the Interfraternity Bowling League during the past week. Haggard leads all individual scoring with a score of 110 for a single string and a 313 for three strings. His average is 96.1, while Wilson and Chase have an average of 89.3 for third place.

## Brown Captures Tank Title; Polar Bears Finish Fourth

White, May, Hutchinson And Freestyle Relaymen Score For Bowdoin

(Continued from page 11)  
the leaders on the backstroke and breaststroke legs, but found the going pretty hard in the freestyle.

### Amherst Wins Backstroke

The 150-yard backstroke was a very close battle between Green of Amherst, and Williams and Walker of Brown. Green came from behind to take the event. Brown's win may be attributed to their divers, who took both first and second places. Brown was also helped by the fact that Noonan of Springfield was third, the only event in which Springfield was able to score, and Coffin of Williams was fourth, another team that was only able to pick up seven points in the meet.

During the meet, Captain Frank Cutler was presented with a cup as the outstanding swimmer of the New England Association. On the committee that made the award were Leo Curtis of Brown, chairman, Hugh McCarty of Wesleyan, and Robert B. Miller of Bowdoin. The swimming Association's meeting was announced that the meet will be held at Amherst next year. Also eight new records made in dual meets were accepted. Among them were three set by Bud White. A summary of the meet follows:

### Summary

200-Yard Medley Relay—Won by Amherst (Wright, Kohle, Jones); 3rd, Mass. State; 5th, Brown; 6th, Boston University. Time: 5:11.6.

220-Yard Freestyle—Won by Cutler, Mass.; 2nd, Davis, Wesleyan; 3rd, Robert B. Williams; 4th, Brown; 5th, Warner, Amherst; 6th, Coffin, Williams.

56-Yard Freestyle—Won by White, Bowdoin; 2nd, Love, Brown; 3rd, Warner, Amherst; 4th, Coffin, Williams.

100-Yard Sprint—Tied for first in the 100-yard sprint. Third in the 50-yard event was Warner of Amherst while White's team mate trailed for fourth.

(Courtesy of Portland Sunday Telegram)

Bud White, Bowdoin star (upper left) in the 50-yard freestyle—clocked at 24 seconds. White and Love later tied for first in the 100-yard sprint. Third in the 50-yard event was Warner of Amherst while White's right while Hartman his team mate trailed for fourth.

No. 24

## VOLUME SIXTY-SIX, NUMBER TWENTY-FOUR

With this issue, Volume LXVI of the ORIENT takes its final bow. As it looks back in appraisal upon its own editorial policy, it realizes how far short it has fallen of the plans and prospects it expressed in its opening manifesto.

For one thing, it has not endeavored to fathom undergraduate opinion as efficiently as it might have. Two polls have been held: one, the presidential straw vote, received wholehearted support; the other, this last week's vote on the proposed Supreme Court Change, was not so well presented or supported. The ORIENT can not hope to mirror student opinion except by such media, and when these are criticized or accepted as boring, there is little the newspaper can do but encourage individual contributions in its correspondental columns. This was done at the beginning of the year, in reference to Pro and Con.

This volume of the ORIENT wishes to apologize for not having published errata as it announced it would. This has been through neglect rather than in an attempt to maintain its "face." For those errors of nomenclature and fact which may have caused any trouble whatsoever, it presents a regretful plea for the pardon which should be shown an amateur newspaper.

An issue after issue rolled off the press, it was realized more and more by the editorial board that, as was stated in the "Season Opener," subjects for collegiate newspaper editorials vary only slightly from year to year. Perhaps the ORIENT should have been radical or even stimulating. Perhaps it should have tread upon some toes, instead of mouthing platitudes. With few exceptions its editorials did not stir up even the adverse criticism which the paper said it preferred to none at all. This was not because of faculty censorship in any form whatsoever; the ORIENT has had no struggle for "freedom of the press" upon its hands like those waged by several of its collegiate contemporaries in this country. In fact, the faculty doubtless comprise a very large proportion of the editorial column's limited reading public, but the paper is subject to no control from the administration.

Volume LXVI attempted to present, at one time or other, some of the views of all those who comprised its editorial board, but it asks its readers to remember that from the very beginning it pointed out that its policy was essentially that of its editor-in-chief, since he had the power to revise and change the work of the writers (although he rarely did), and that its editorials were by no means "true barometers of nebulous undergraduate feeling."

The new board, and the new editor in charge will take over the reins at a time when it is more a privilege than ever to be a college editor. As pointed out by the retiring head of the Williams Record: "Abroad the situation is astonishingly and terrifying complex. The sweeping flame of nationalism sheds a grotesque light on basic economic needs. Three antagonistic forms of government with their respective political philosophies are to be seen in action. A revolution in Spain has turned into a microcosm of world conflict. The war scare has become chronic. Billions are being spent on armament by nations that have barely commenced to recover from economic prostration."

"At home, no account of tampering has brought efficiency and justice out of economic chaos. The old habits of government are being challenged. Labor is dramatically becoming conscious of its own power. A society with a singularly ephemeral standard of values, in practice if not in theory, is in such turmoil that the purest of cultural pleasure and the loftiest forms of personal conduct can only serve as an escape."

At Bowdoin, to get back to local territory and at the risk of emulating the famous "for God, for country, and for Yale" anti-climactical effect, it is also a time of change. It may be asked if it is enough one of challenge. Recovery may bring material changes in the college; certainly character traits bred by the depression have brought a more serious undergraduate to the college, and increased the wealth of its spiritual and cultural values. True, there is much still to be desired, (the average college man still reads the daily funny (?) papers,) but changes for the better have taken place, are taking place, and will continue to take place. Volume LXVII and its head enter the scene at an interesting point, and to them the retiring board says: "Ave et vale!"

m - e

If you want some amusement, be sure to read the Record's humorous column "Glimmings in the Wake" by John. His full name is John Thomas Gould, and he helped found Mustard and Cress, which alone entitles him to a place in the Hall of Fame! This week's version contains reminiscences of last year's field of about this time. There is a copy in the magazine room in the library.

m - e

**WALT WINCHELL, PLEASE COPY!**  
Here's an excerpt from one of last year's "Glimmings" to whet your appetite:

Oh, yes, about that Poet's Corner. Some time ago the Bowdoin Orient told about the visiting lady who was walking her prize cat on Bowdoin Campus. To the cat's chagrin, and the lady's surprise, the cat had killed someone seen in the Throop Oak, making the accouchement a mere incident of the airing. There

## Mustard and Cress

SO LONG

It has been such a time since this column last graced this page that we have decided to let it go. The dates which are somewhat dated, but more the less (I think) good. Pleasing to our ears, we may add, were the subdued grumblings which greeted each week the absence of our verbal mewverings.

m - e

One of our faithful "carrs," who reports regularly to this column, even dropped in the gym during the last Mid-year examinations to garner this bit of professorate. Those concerned were Mrs. Burnett and Bartlett, and the time was 11:30 one morning.

Bartlett: Have any of your men left?

Burnett: No, have any of yours?

Bartlett: No, I wonder what the

## F. L. GWYNN LAUDS COFFIN'S NEW BOOK

(Continued from Page 1)  
izes much of his work. A poem, to be completely successful, must not tell all, and Mr. Coffin is sometimes guilty of over-simplification. This is not to condemn it utterly; we have all known poems which have been absolutely the key-note and obscure in-memo the procedure. But it is to hint that Coffin could make his good poems better by suggesting some things instead of saying them aloud, even though exquisite phrasing would bring out the meaning.

Today only Robert Frost surpasses Robert Coffin in meeting the eye of New England to words and phrases.

Anyone who has lived through haydays will recognize the particular and beautiful finish which Mr. Coffin has caught in these lines, which are some

## NECROMANCY

Brains triumphed over brawn, mathematical calculations over devilry, or something or other over something, or other recently in this latest tid-bit which has come to our everlasting ear. Seems that the Theta Delta Chi, last of the houses on campus to initiate, finally ushered one of their frosh to a measure in certain areas in the graveyard near Whittier Field. This lad left the house promptly and scurried out to the tombstones, where he patiently paced his distances.

Meanwhile Sophomores Philip Lambie and David "Cuke" Macomber had a similar experience last year when Lambie, hunting some spates, other during Probation Week by the aid of upperclassmen was "scrivener to a figure skirting the edge of the cemetery. Frozen with horror, as was the other by the sight of a figure in the dark, Lambie, who had been shamed out upon discovering that midnight marauder was Macomber, who had been detailed to count the pickets in the old Whittier Field fence.

Knowing the peculiar, unscientific apprehensions which assailed even the staunchest of us in a graveyard at night, Lambie and Macomber hid themselves the other night in question to a vault in the cemetery awaiting the neophyte whom they intended to scare. One hour passed . . . two. Returning disgusted to the ends they peeked in the window of the papa's room. He must have been a faithful disciple of Holmes, Holmes, Jeppesen, Korgen and Co. for this lad, one Richard Abbott, logarithm book in hand, was patiently trying to figure out his area by arithmetic and had not spent more than ten minutes on the actual survey!

## POETIC JUSTICE?

Bill Hart, the earnest BC-Alder; was walking across a wet and icy campus with this same Dr. Thomas one day. Noticing the minister was wearing only street shoes, he told him that he ought to wear his overshoes to keep from catching cold.

"Yes," observed Thomas, musingly. "If I disobey the laws of health I'll be damned . . . gosh, that's quite a phrase . . . I'll be damned! . . . rarely get a chance to say it . . . I'll be damned . . . I'll be damned!" And at this precise point both his feet slipped out from under him on the ice and he went flat on his back.

## Island Report Is Made Public

(Continued from Page 1)

would cost 200 dollars. "It should always be in mind," Green writes, "that no cost should be spared to render our equipment absolutely seaworthy. The Bay of Fundy because of its dense fogs, tidal currents, and magnetic disturbances is one of the most hazardous bodies of water in the world, and we are in the worst part of it." Another suggestion the report makes is that a regular chief be secured for future seasons.

A total of 56 companies are listed in the report as donors of food and supplies for the expedition. Most of them have promised to repeat their donations in 1937. Among the donations is the gift by its makers of the Ford Station Wagon which has been used upon the campus this year.

### Fish Map of Region

One page of the report is devoted to the triangulation at Kent's Island which was prepared last summer by the Lewis M. T. of the Institute of Geographical Exploration. This data will be used in conjunction with aerial photographs to map the region. One of the most valuable parts of the report is a list of plants found growing on Kent's Island in 1935-1936 prepared by David P. Hyde, Cornell University. Nearly 200 plants are in the list. In addition to this there is a botanical report on the island by H. A. Gleason of Cornell University.

Lutimer B. Hyde '38 has contributed an article containing the results of his investigations of the Black Guillemot. Ninety-two birds were observed in two summers. The measurements of various birds were recorded starting at their birth and by means of close observation Hyde has presented the complete "Life Cycle of the Black Guillemot," that bears the title of his article.

## Helmreich Gives Chapel Talk on 'Pontius Pilate'

"Let us not assume an indifferent neutrality in the cause of broad-mindedness, but let us take responsibilities with the courage of our convictions" was the theme of Professor Helmreich's Monday Chapel talk. His talk, entitled "The Judgment-Pontius Pilate," was the first of the Hill Week series.

Taking as his text, Chapter 27 of the Book of Matthew, Professor Helmreich related how Jesus was seized through the treachery of Judas, and how although false witnesses could not agree on their testimony, not convicted of the charge of blasphemy, was finally held against him. He was crucified.

Let us not be blown hither and thither in this way," Helmreich concluded. Think the situation out, and then take the responsibility with the courage of our convictions. Let us not assume an indifferent neutrality, for it was Christ Himself who said, "He who is not with Me is against Me."

College Has Been Branded. The college has often been called "communistic" and "socialistic." Pres. Sills went on to say, but we pay no attention to such names, for the only useful criticism is that which is based on reason and thought. It is the task of the college to contribute, to incite, this tolerance, reason, and truth into its undergraduates, and a college man should be the last one to use personalities and names instead of reason.

Think back to the mole who cried "Oho! Here comes the President!" concluded, and you may see the fancy of much contemporary criticism which is voiced in spite of the fact that truth and light may be before the eyes of the critic. That is the reason why we derive from the Passion of Christ, that we make certain least we do not see and do not try to do the good before us, giving way to our prejudices and passions.

A meteorological report for 1936 gives information that well describes the weather at Kent's Island. The mean temperature for August was 54.7 degrees Fahrenheit. Highest temperature of the month was 86.8

## President Sills Talks In Chapel

(Continued from page 1)

We Americans tend toward that kind of thoughtless criticism, continued Mr. Sills. Take the way the word "communist" is "battered about." In political circles today, he said, the idea of circles today, he called "communistic" instead of being analyzed and taken for what they are worth. Liberal men, instead of calling themselves "fascists" or "reactionaries."

The habit of "calling names" is all too common and people easily "fall for it," because labels "save the trouble of thought." The word "dictator" continued Pres. Sills is used without reason in America as a kind of "name-calling" without the risk of concealing emotion by calling names without appealing to reason is only a small step from the sort of mob spirit that condemned Christ.

College Has Been Branded. The college has often been called "communistic" and "socialistic." Pres. Sills went on to say, but we pay no attention to such names, for the only useful criticism is that which is based on reason and thought. It is the task of the college to contribute, to incite, this tolerance, reason, and truth into its undergraduates, and a college man should be the last one to use personalities and names instead of reason.

Think back to the mole who cried "Oho! Here comes the President!" concluded, and you may see the fancy of much contemporary criticism which is voiced in spite of the fact that truth and light may be before the eyes of the critic. That is the reason why we derive from the Passion of Christ, that we make certain least we do not see and do not try to do the good before us, giving way to our prejudices and passions.

In conclusion Gross writes, "The Kent's Island Station should have a very bright future. It is fast becoming one of the best-known institutions of its kind. Our work is done in many fields of scientific research. To assure the perpetuation of this work would mean a small endowment to cover the minimum annual expense of the station. I sincerely believe that funds for Kent's Island would produce more results in the way of scientific undergraduate education and character building than any other investment."

## Powder Flash Causes Unought For Results

Latest news of Bowdoin's photographic circles concerns the mishap of Hovey Burgess '38 last Monday night. Burgess was busy with some photography work in the May Series Schoolhouse Build at that time and had manufactured his own flashlight powder from magnesium and potassium chlorate.

After his work was finished he decided to test some of his powder in one big flash. Out of respect for the Series building this experiment was conducted on the steps of the chemistry laboratory. Attended by three other scientists, he set off the flash. "The results," to quote Burgess' press agent, "were more than gratifying." At present Burgess is in the Dudley Coe Infirmary recovering from several (not serious) burns, the exact cause of which has not yet turned out to be a bomb in the pan. The only other victim was Robert Gove '38, whose coat was heavily burned.

They know that nations always fall and rise

By things as the crusts of apple-pies

This comes from the last poem in the book, "Tiphophore Foreside," a piece thirteen pages long which states Mr. Coffin's credo and manifesto—an affirmation of faith. This is what he believes in, and it is what he has a consummate faith in something, besides having a gift of poetic expression. And like Vergil singing "Rura cano" when the "rura" was disappearing, Coffin mourns the disappearing Maine and thunders at the Farmers who built their fortunes on condemned

the beaches off, and bask in buttered ease; since 1933.

The native left are often trees.

A past naturally writes well about high school geniuses go right without the help of the teacher. The word "lie" the major success and minor failure of this book. Thus it is that a certain prodigality, and mere repetition of words often dulls the otherwise stunning effect of the poetry. The need of love was also brought out by the speaker when he explained the marital bond between Lady Macbeth and her husband. The love was a perfect union of the masculine and feminine sexes into a harmonious whole.

Of all of Shakespeare's characters, Professor Kittridge said that the Claudius, King of Denmark in "Hamlet," has suffered most by actors and

## PSI UPSILON TAKES HOUSE TRACK MEET

(Continued from page 1)  
track captain in the high hurdles while the latter came back to tie the lead.

Bob Morris tapped the field in both the Mile and Two-Mile runs to win easily and, together with Charlie Pogo and Carl Boulter, boosted Theta Delta Chi score to 27 1-2 points and a fourth in the meet. Charles Young, Delta Tau Delta, trailed Morris in both distance events for two second places, but had to fight to keep his second in the latter when Hill Alpha, Tufts Omega, challenged him with a great burst of speed and made the finish seem more like the finish of the 440.

Other outstanding performers were Bob Hamblen, who led Jeff Stanwood to the tape in the 440 by a small margin.

(Continued on page 4)

Donald R. Bryant '37 and Andrew Cox '38 will be on the affirmative side of the question "Resolved: Congress should be empowered to fix minimum wages and maximum hours for industry." Edmund P. Seagrave '37 with George T. Little '40 will uphold the negative in the finals of the Bradbury Prize Debates which will probably be held in Hubbard Hall tomorrow afternoon. The debate will be in the Oregon style.

The Bradbury debating team won a two to one decision over Tufts on Thursday evening, March 18. Milton McGehee '38, Ernest F. Andrew Jr. '40, traveled to Boston for the debate which was on the topic.

Resolved: All electric utilities should be governmentally owned and operated.

On Friday afternoon, William C. Hart '39 and George T. Little '40 went to Boston to debate with Boston University on the resolution to empower Congress to pass minimum wages and maximum hour laws for industry. Both sides upheld the negative. Bradbury and the debate was to a non-decision although several students from B. U. were present as an audience.

Smart Small '39 and Donald Bryant '38 went to Massachusetts Institute of Technology on Tuesday as part of Bowdoin's activity in the Intercollegiate Debating League. The debate was held in the Oregon style on the question of minimum wages and maximum hours.

## COMMUNICATION

Bowdoin Orient, Brunswick College, Brunswick, Maine. Gentlemen:

Will you be good enough to let me use a little space in your paper to express the appreciation of the New England Intercollegiate Swimming Association for the kindness and courtesy extended by the members of the Bowdoin physical education department to the visiting colleges during the championship meet held in your pool last week. We appreciate all that was done for our comfort during the meet, as well as the expert conduct of the meet.

Sincerely yours,  
H. G. McCURDY,  
Secretary, N.E.I.S.A.

The leader of the annual Religious Forum at Smith College was Dr. Horace N. Hart of the Hartford Theological Seminary. He has been previously scheduled to speak here at Bowdoin, but the talk has been indefinitely postponed.

# Psi U. Upsets Zeta Psi And A. D. To Win Interfraternity Track Meet

## Decision Of Coaches Makes Swimming A Major Sport

Jerre Carlson To Captain '38  
Mermen; May Enters  
National Meet

By a 3-2 vote of the Bowdoin coaching staff at a special meeting held Monday afternoon, swimming became officially a varsity sport and seven men were awarded varsity letters for their participation during the past season. The team elected Jerre Carlson '38 captain for next year, and Bob Fielchner '39 will manage the squad.

Rules were drawn up at the same time governing the awarding of letters, with the full team scoring a total of 15 points or more in three designated dual meets during the season or placing in a New England Intercollegiate Meet will be eligible for swimming letters. Members of a relay team racing in the meet will in a New England Meet will also receive letters. The three designated meets this year were the Wesleyan, Williams, and Springfield meets.

**May Enters National**

Captain Dick May will be Bowdoin's lone representative at the fourteenth annual national intercollegiate swimming championships which will be held this Friday and Saturday at the University of Minnesota pool in Minneapolis. Captain May, a two-year 100-yard backstroke, Coach Bob Miller will accompany him and will attend the meeting of the rules committee of which he is a member. He will present the diving scoreboard that was used in the recent New England meet.

Curry Pool will try to invoke the use of this new type of scoreboard that keeps a running score of all the divers and makes it possible for the spectators to tell at all times the standing of the divers. Bob White, Bowdoin's 50 and 100-yard free-style man will not make the trip due to his participation in baseball practice.

Bowdoin will have no entries in the N.A.A.U. swimming championships to be held at New Haven during April 8, 9, and 10, but will be represented by coach Bob Miller who is on the rules committee.

A detailed program for the Annual Olympic Swim Carnival to be held on April 19 in Curtis Pool, has been drafted and arranged. Seven star performers have already been lined up. Among these are Alice Bridges of the Posse School, Kendall Green, Mass., and Doris Brennan of the Oineyville B. C. There will be a

**JERRE CARLSON**

(Courtesy of Portland Press Herald)  
... who will captain the varsity swimming squad next winter in its first season as a major sport.

## NOTT TERRACE WINS INTERSCHOLASTICS

(Continued from page 1)  
excellently defeated Stamps of Nott Terrace in a thrilling final lap in the 45-yard medley relay. The Nott Terrace team, considered as Olympic material last year, fully lived up to expectations by leading the speedy Wallace of Worcester Academy to the tape in a fast and exciting 300.

The Portland Evening Express trophy for the fastest time received by a Maine High School in the relays went to Portland High School, clocked in 2 minutes, 14 2/5 seconds. Dugger, husky colored star of Medford, Mass., won the trophy for the 100-yard dash, scoring a 12.14-second win over the prep school division with a total of 12 1/4 points. Hunter of Worcester Academy, with 12 points, won individual honors in the prep school division.

During the afternoon, the final relay of the Inter-Fraternity track meet was held with the Psi Upsilon team winning the race and capturing the trophy for the third consecutive year. The Psi U. relay team was too much for the Alpha Delta Phi opponents, and fleet-footed Lin Rowe, Psi U. anchor man, led Buzz Hall of the A. D.'s to the tape to bring the winning house its first Bowdoin Inter-Fraternity championship after 19 years of competition.

The interscholastic meet summary:

### High School Division

45-yard dash—Won by McGlone, Portland.

600-yard run—Won by Rowe, Nott Terrace, fourth.

600-yard run—Nott Terrace, third tie between Wallingford, South Portland, and Stanton.

1000-yard run—Won by Dugger, Medford.

1000-yard run—Won by McGuire, Shoreham. Time, 11 feet, 3 inches.

600-yard run—Won by L'Esperance, Worcester, North; fourth.

600-yard run—Won by McGuire, Shoreham. Time, 11 feet, 3 inches.

600-yard run—Won by Dugger, Medford.

600-yard run—Won by L'Esperance, Worcester, North; fourth.
